

**Haworth prices in this book will increase on August 30, 2008 by 4%**

**Orlando**

**Product Offering**

The Orlando casegoods and tables product offering consists of the following:

Bookcases	Double Pedestal Desks	Single Pedestal Desks
Bridges	Lateral File	Tables
Corner Unit	Mobile Computer Table	Vertical Storage Units
Credenzas	Mobile Pedestal	Wardrobe/Storage Cabinets
D-Top Desk	Returns	

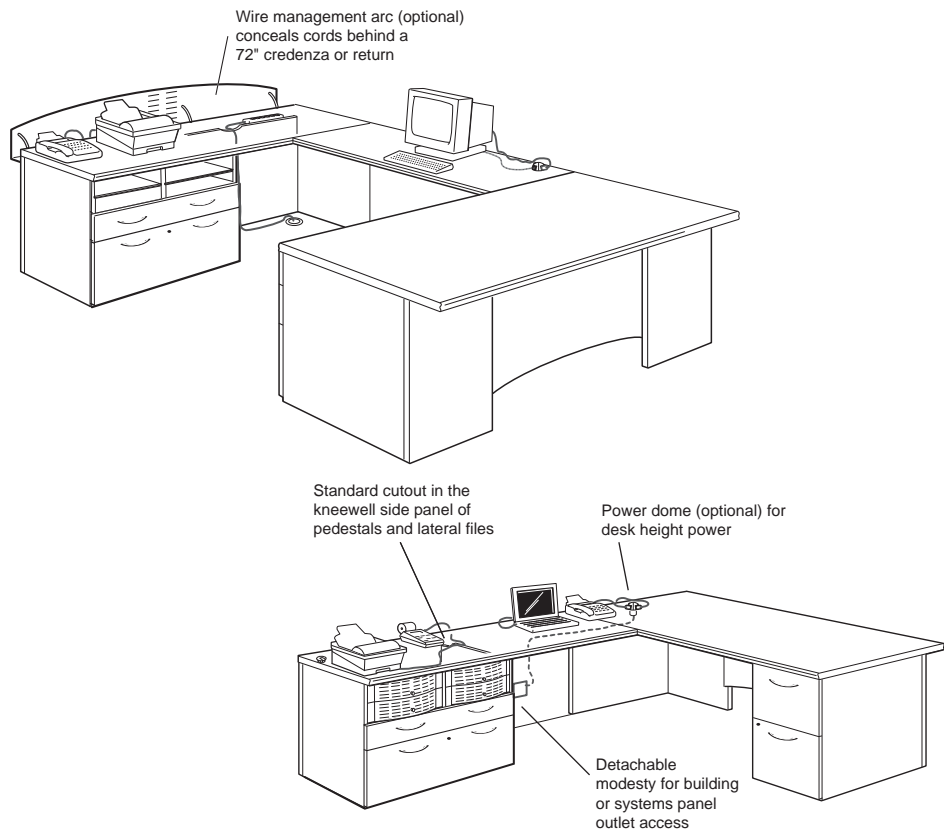

**Cable Management**

To help you route power cords and communication cables around and through Orlando casegoods, we have designed several features into the products. We also offer several accessory products to bring electrical power and data to the desk height and route cords and cables down and around the product.

Desks, returns, bridges and credenzas feature a continuous 1"(25mm) space between the modesty panel and the desk top to allow routing of cords and cables.

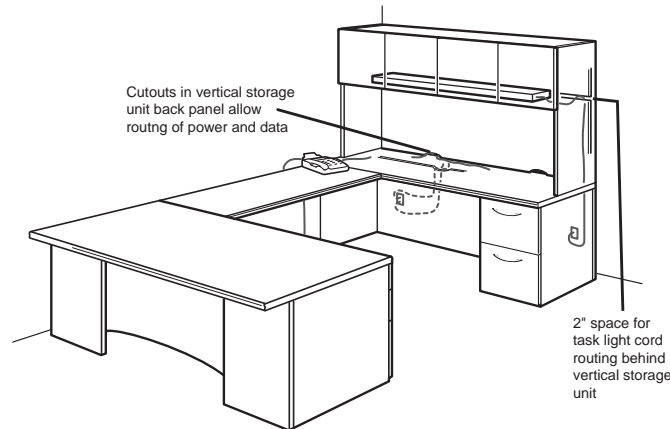

Vertical storage units feature a continuous 2"(51mm) space between the top of the back panel and the bottom of the cabinet. This allows for routing of the task light power cord behind the back panel, and it also functions as the attachment location for a tackboard or grid. Additional power cords and communications cables can be routed through two crescent-shaped cutouts in the bottom edge of the back panel on the Vertical Storage Unit. Returns, bridges, and kneespace credenzas feature modesties that are easily detached for power.

Another built-in cable routing feature is a cutout in the top corner of the pedestal and lateral file side panel within the kneewell. Used in conjunction with a field-installed grommet to route cords and cables from the desk top to the kneewell space of the casegood. For the convenience of desk-height power, a power and data dome (refer to Accessories pages) can be field installed into a 3" opening in any casegoods top. The black half-sphere provides four receptacle sites or two data and two power sites. The power dome's 15-amp plugs can be connected to a building electrical outlet or Haworth systems panel receptacle.

## Storage Capacities

Orlando offers several standard storage features as well as some unique storage options. All desk, return and credenza pedestal file (12") drawers offer full-extension interior drawer access to front-to-back letter filing or side-to-side legal filing. Box drawers (6") offer 3/4-extension interior drawer access.

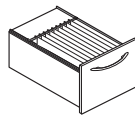

Standard pedestal accessories include one pencil tray per pedestal in top 6" drawer, and one divider for every 6" box drawer.

Lateral file drawers are available in two heights, 6" and 12". Twelve inch drawers will accommodate front-to-back letter or legal filing or side-to-side legal filing. Each 12" lateral file drawer is provided with two front-to-back filing bars.

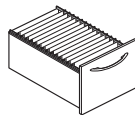

In addition to offering standard pedestals and two-drawer lateral files, a unique combination of open shelves and project drawers are available with the standard 6" high and 12" high file drawers. Desks offer the open storage shelf above a box/file pedestal option. Returns and credenzas offer two options; side-by-side open storage shelves with dividers above a 6"-high and 12"-high lateral file combination, and side-by-side double project drawers above a 6"-high and 12"-high lateral file combination.

### Pedestal Files — 15 7/8" (404mm) Width

#### SHALLOW DEPTH DRAWERS

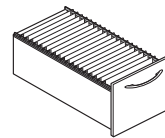

Letter / Legal - Side-to-Side

Technical Specifications		
Top Construction		1 1/4"(31mm) thick medium-density particle board core, wood veneer or laminate work surface and backer sheet, solid wood edges
Modesty panel		3/4"(19mm) medium-density particle board core with wood veneer surfaces
End Panel Construction		1 1/4"(31mm) thick medium-density particle board core with wood veneer surface
Drawer Front Construction		Pedestal box and file drawers: medium-density particle board core with wood veneer surface Lateral file drawers: particle board core with wood veneer surface Project drawers: Steel with powder coat finish
Drawer Box Construction		Modular/Steel: 3" project drawers are steel. 6"(152mm) letter box drawers are steel with spacers for dividers. 12"(305mm) drawers are steel.
Drawer/Door Pulls		Zinc die cast, black finish
Veneer		All exposed veneers are plain-sliced and book-matched; drawer fronts, per pedestal, are matched in sets for consistent grain and color. Beech is rift-cut. Anegre is quarter cut.
Finishing		The EcoShield™ finish uses water based stains and water based UV cured urethane top coat to provide a consistent, hard and durable surface. Wood pores are open to reflect the nature of each particular species. EcoShield is a low VOC, low formaldehyde emitting finish.

Because of the natural properties of wood, variations of grain pattern and finish color can be expected. Materials used in the manufacturing of products are carefully selected to promote consistent and acceptable color. Wood is susceptible to color change from long-term exposure to sunlight.

To keep your wood writing surfaces looking beautiful for the life of the product it is highly recommended that a blotter pad, glass or plexiglass surface be used under writing instruments.

Also, Orlando wood casegoods are available with select laminates for use on tops and writing surfaces.

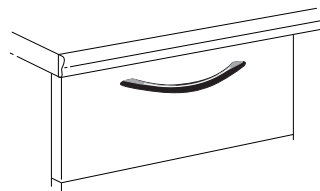

## Edge/Drawer/Pull/Leg Detail

All Orlando worksurfaces feature a radiused solid wood edge on the user's and visitor's side of the top. The other two sides feature a square wood edge banding. Bumper and round tables feature the radiused edge except on the straight edge of the table which features the square wood edge banding.

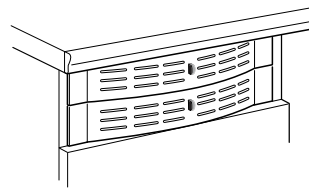

Pedestal drawers, lateral file drawers and wardrobe/storage doors feature an easy-to-grab handle which meets ADA guidelines.

# Orlando

**General Specifications**

Orlando product specification numbers are based on an alpha-numeric logic that identifies a product by product line, size and certain characteristics.

For instance, a product number that reads **OCXL-2272-LR** identifies the product as an Orlando credenza with lateral storage, 22"(559mm) deep and 72"(1829mm) wide.

The alpha-numeric logic for this product complete with finish color code is shown below:

**Tag by Office**

Haworth requires that all items in the order be tagged with an individual office location. Items will be manufactured, labeled and shipped so that installers can easily identify items by office. Tagged offices will be keyed alike.

**Finishes**

A complete listing of finishes and fabrics for Orlando casegoods can be found on pages 339-343.

**Lock Programs**

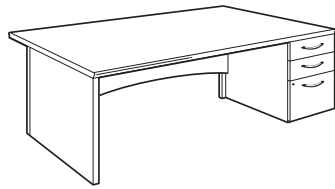

Desks, returns and credenzas with pedestals, wardrobe/storage cabinets, and lateral files each feature one or more locks. Vertical storage units are available with or without locks.

All locks will have a black finish regardless of veneer type or wood finish color.

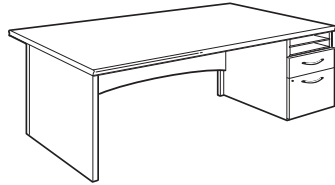

Refer to the current Lock Programs Specification Guidelines Price List for master keying and prices (not part of this pricebook).
