Construction Features	<p>Top and Base Construction</p> <p>Varia casegoods tops and bases are constructed of a 2"(51mm)-thick particle board with 3/4"(19mm) x 2"(51mm) solid Alder banding. Varia tops and bases are available with the following edge-detail options: Classic, Modern, and Traditional.</p> <p>Reveals</p> <p>Horizontal 7/16"(11mm) reveals separate the top from the pedestal or end-panel, and the plinth base from the pedestal. Reveals may be specified in black or brass.</p> <p>Pedestals</p> <p>All pedestal corners and edges are banded with solid Alder.</p> <p>Desk pedestals are 15 3/4"(400mm) wide and 30"(762mm) deep. Credenza and return pedestals are available in one width, 15 3/4"(400mm). Lateral files are available in two widths, 30"(762mm) and 36"(914mm), and two depths, 20"(508mm) and 24"(610mm).</p> <p>A 20"(508mm)-deep mobile pedestal is available for use under 30 1/8"(765mm)-high worksurfaces.</p> <p>Pedestal orientation determined at time of order.</p> <p>Drawers</p> <p>The front, back, and sides of the drawer boxes are constructed of maple veneer with Russian birch core. Drawer corners are dowelled and glued for superior strength.</p> <p>One pencil tray constructed of solid maple is provided with pedestals containing box drawers (only one pencil tray is provided per pedestal).</p>																										
Lock Program	<p>Desks, returns and credenzas with pedestals, wardrobe/storage cabinets, and lateral files each feature one or more locks. Vertical storage units are available with or without locks.</p> <p>Tagged offices will be keyed alike.</p> <p>All locks will have a black finish regardless of veneer type or wood finish color.</p> <p>Refer to the current Lock Programs Specification Guidelines Price List for master keying.</p>																										
Wood/Finish Features	<p>All Varia casegoods are constructed using quarter-cut Anegre veneers and Alder solids.</p> <p>Because of the natural properties of wood, variations of grain pattern and finish color can be expected. Materials used in the manufacturing of products are carefully selected to promote consistent and acceptable color. Wood is susceptible to color change from long-term exposure to sunlight.</p> <p>To keep your wood writing surfaces beautiful for the life of the product, it is highly recommended that a blotter pad, glass or plexiglass be used under writing instruments.</p> <p>Varia casegoods feature open pore Anegre veneers. Finishes are sprayed with two layers of conversion varnish. Writing surfaces are finished with a high sheen for a rich, durable, high-gloss look.</p>

32 3/4"(834mm)

Varia

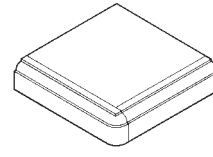

Edge Details

1 - Classic

2 - Modern

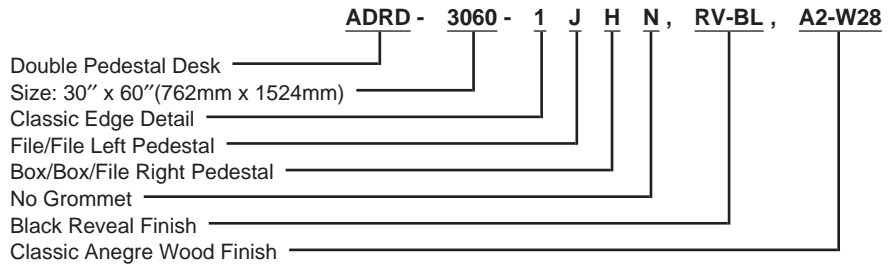

4 - Traditional

General Specifications

Varia product specification numbers are based on an alpha-numeric logic that identifies a product by product line, size, and certain characteristics.

For example, a product number that reads **ADRD-3060-1JHN** identifies the product as a double pedestal desk, 30"(762mm) deep and 60"(1524mm) wide with Classic edge-detail, a file/file left pedestal, a box/box/file right pedestal, and no grommet.

The alpha-numeric logic for a Varia double-pedestal desk with finish codes is shown below:

Tag by Office

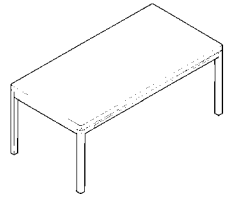

Haworth requires that all items in the order be tagged with an individual office location. Items will be manufactured, labeled, and shipped so that installers can easily identify items by office. Tagged offices will be keyed-alike.

Finishes and Fabrics

A complete listing of finishes and fabrics for Varia casegoods can be found on pages 339-343.
