

Nest

design Stefano Gallizioli

Un divano in versione angolare, che diventa rifugio accogliente come un nido, dove potersi sdraiare. É arricchito da morbidi cuscini per un maggiore comfort. L'elemento caratterizzante è lo schienale in tubolare, la struttura è in acciaio inox satinato, rivestito in pvc rinforzato nylon. Può essere completato da un pouf quadrato, creando un angolo chaise longue o dall'accostamento di due sedute, per una scenografia elegante. Possono essere interpretati in versione monocoloro o con abbinamenti in contrasto, attraverso la gamma di tessuti per esterno che li rivestono.

A corner sofa, that looks like a welcoming nest where to lie down in, with some loose cushions placed on to make it even more comfortable. Satin stainless steel frame, covered by reinforced pvc nylon cord on the backrest. The sofa can be combined with a square ottoman to create a chaise longue or two seats, for creating an elegant sitting. Covers and cushions are available in a single colour or in different colours with a special dedicated fabric for outdoor use.
