

MF25TB

°MF25TB

The MF-Type TB Gripper is a very versatile tensioner. Simply twist the body of the TB series, and it draws in the cable. Specific to MF195TB and MF215TB is a teflon washer to prevent cable twisting, both have the the "S" (safety) cap as well (which hinders un-wanted adjustment by manually locking the mechanism) and includes a set screw for additional security.

° Product Information

cable size

1/8" 3.0 mm

maximum weight

220 lbs. 100 kg

function

midway tensioner

MF255TB: joint
