# AT5SET

°AT5SET

AT5SET is designed for use as a lightweight ceiling connector, to be used with the included Toggler™ brand anchor. After the AT5SET is installed, simply poke in the cable, and an attached sign is hung. Hollow structure allows excess cable to be inserted through part and into ceiling cavity (depending on structure).

cable size 3/64" 1.2 mm	
maximum weight 3/64": 40 lbs. 18 kg	①
function ceiling	
installation instructions Drill 1/2" hole in sheetrock. Insert metal portion of anchor in the hole. Pull anchor by plastic strap tight against sheetrock. Slide plastic cap down the straps until flush with sheetrock. Snap the plastic straps off flush with ceiling. Put AT5 stem through washer, then screw AT5 into anchor. Insert cable into gripper. Excess cable will pass through AT5 and hide above ceiling.
