

SpaceArm is a flat panel monitor arm designed to integrate aesthetically and functionally into any furniture system or application.

Features

- Thermo-fused polyester finish available in gloss Platinum, White, Champagne, and Black
- Patented "Hub & Spoke" system permits easy field change from single to multiple screen applications, one to eight monitors on a single column.
- Single motion 5 axis position adjustment
- Can be mounted to virtually any horizontal or vertical surface, including most office furniture panel systems.
- High pressure die-cast aluminum construction
- Conforms to VESA 75mm. and 100mm. mounting patterns

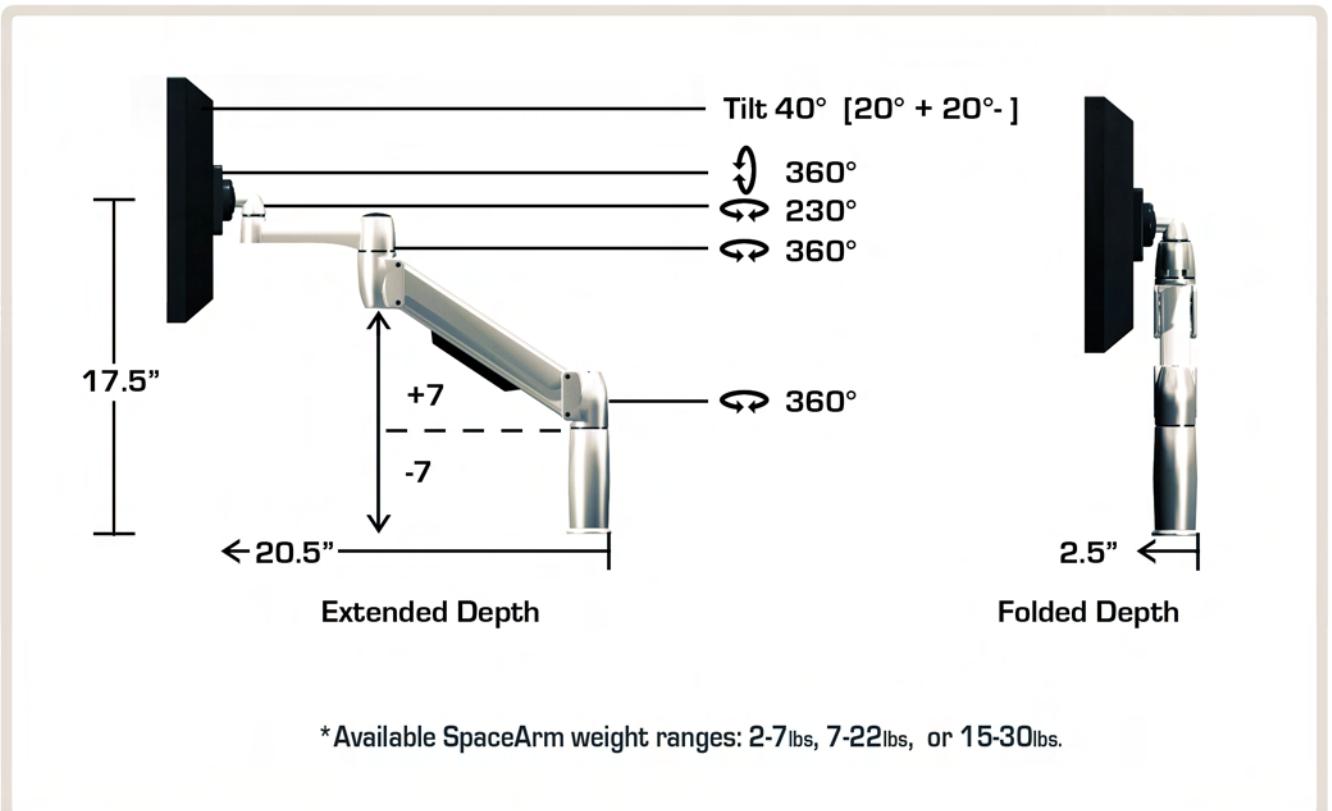

• 360 degree monitor rotation

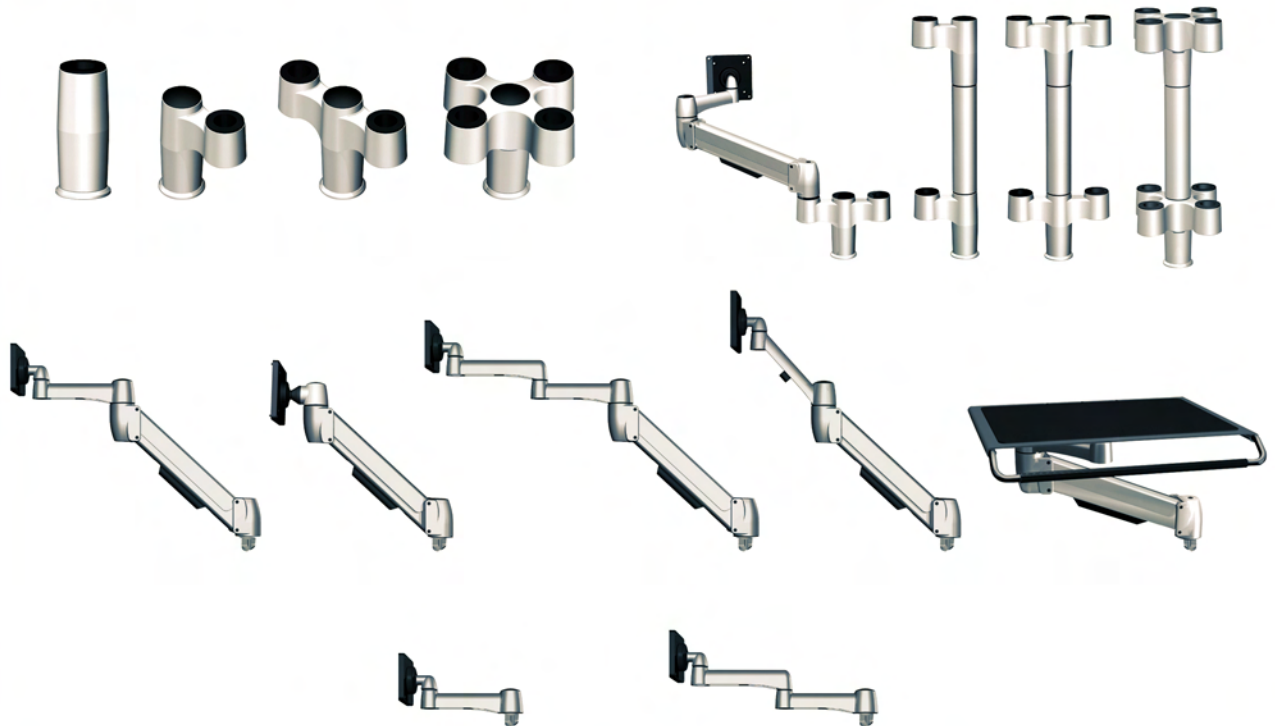

• Available in Direct Mount or Quick Release Mount

• SpaceArm conforms to VESA 75mm & 100mm mounting patterns

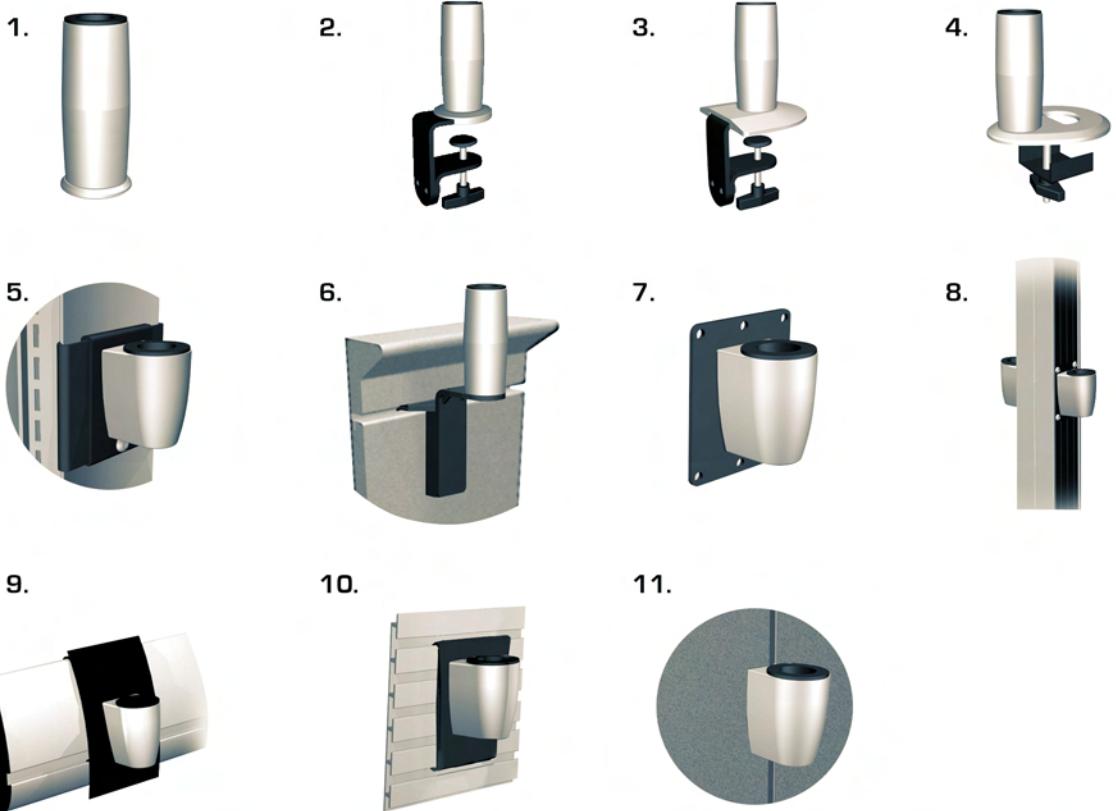

SpaceArm is engineered with flexibility in mind. An array of conversions allows users to evolve as the workplace changes due to new technology, the demand for multiple monitors, incorporating a laptop, and Sit-Stand applications.

SpaceArm can be incorporated functionally, into any furniture system or application. SpaceCo has made mounting limitations a concern of the past. Now grommets are not only for cable routing but a new option for monitor placement and a shrinkable footprint. As you look at space, we see opportunity.

1. Bolt through
2. C-Clamp
3. Large C-Clamp
4. Grommet
5. Resolve
6. Race

with security set screw

Set screw or pin engages
plastic retention washer
screwed to the bottom
of the Link Bracket to
prevent pullout

The Sit-Stand Solution

• 4" & 6" column extensions available if additional height is desired

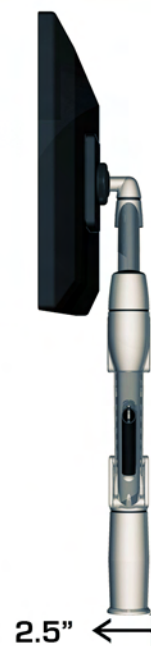

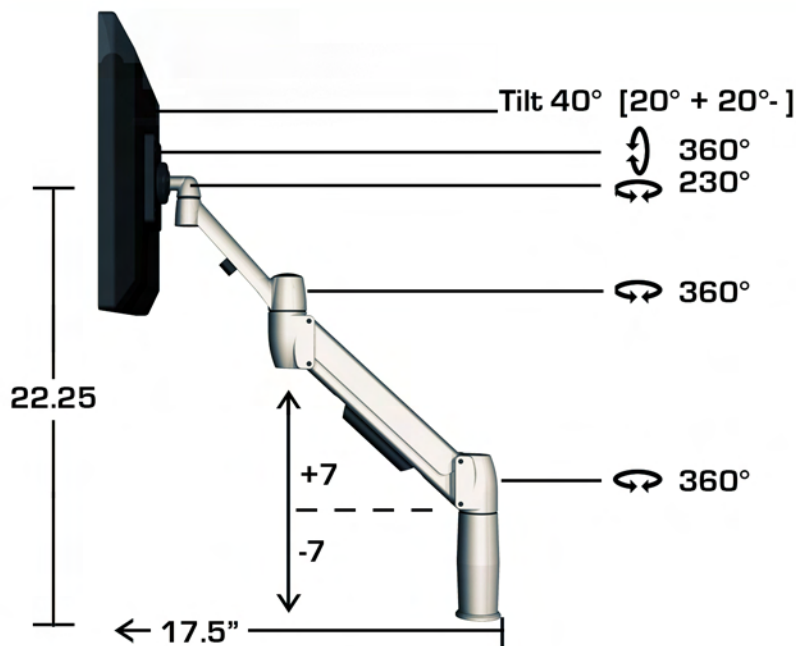

• Optima Keyboard Tray

• Optima Keyboard Mechanism

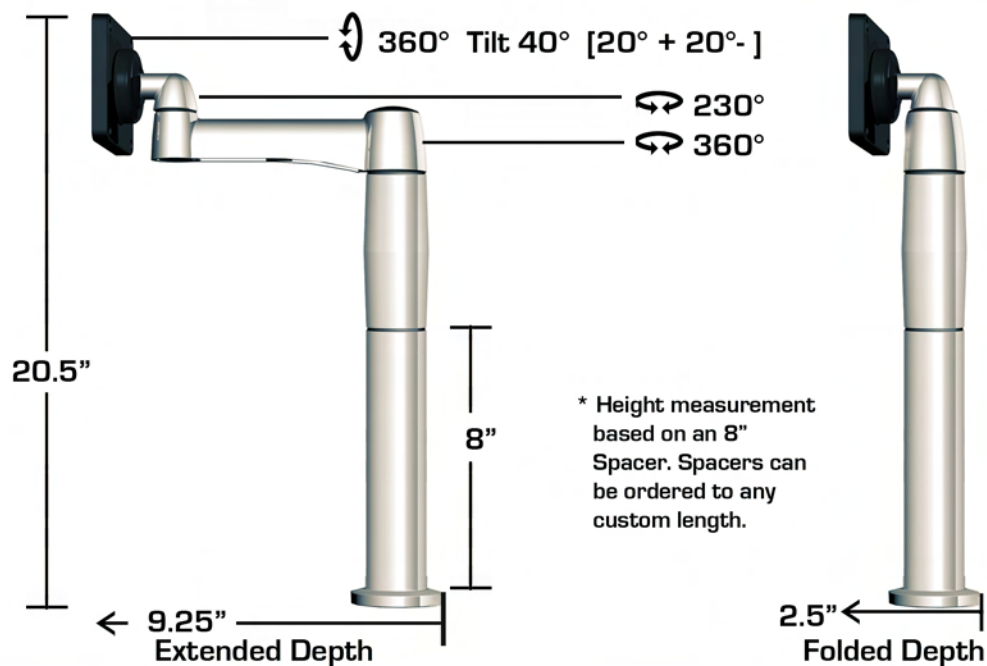

• 45 degree SpaceArm • Optima 5000 Keyboard Mechanism • Optima Radius Keyboard Tray

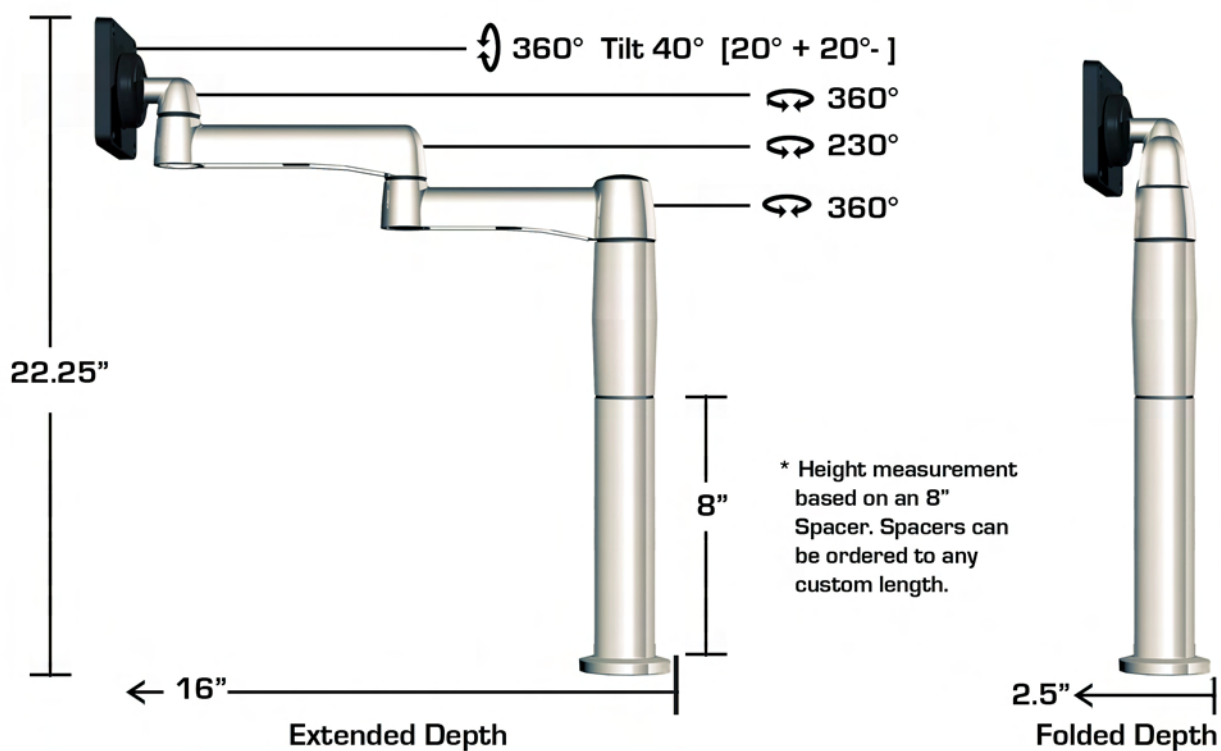

* Available weight ranges: 2-7lbs, 7-22lbs, or 15-30lbs.

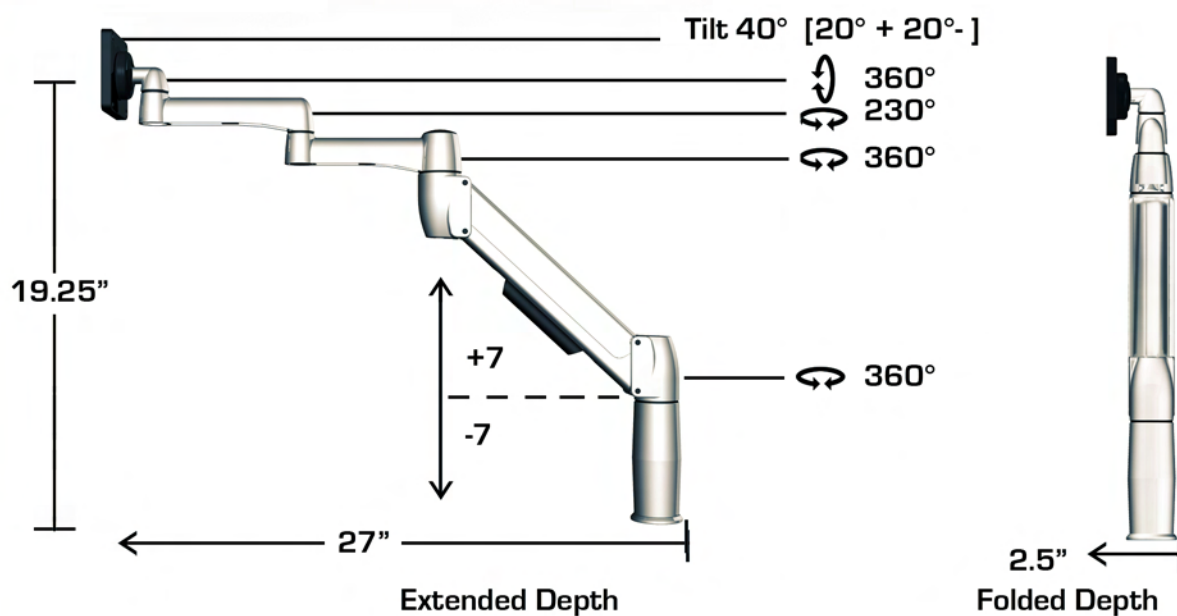

Stubby

Stubby +

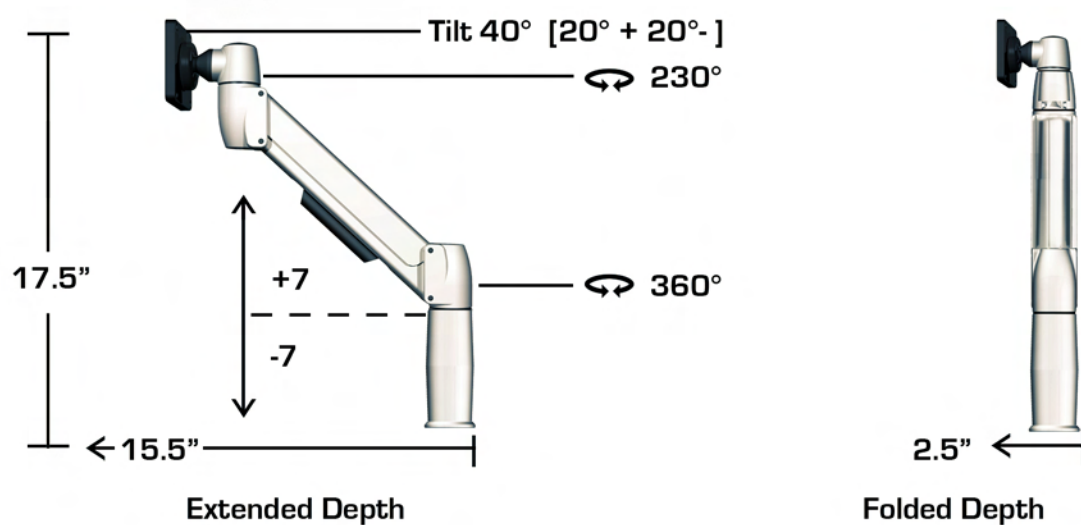

XP Arm

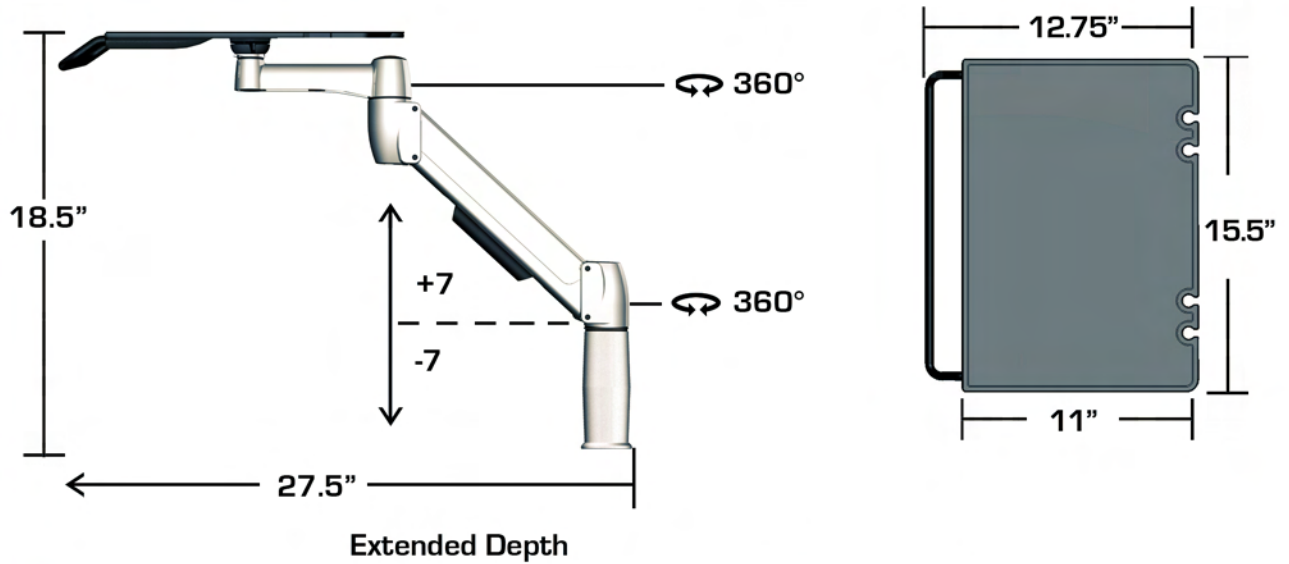

* Available weight ranges: 2-7lbs, 7-22lbs, or 15-30lbs.

Direct Mount

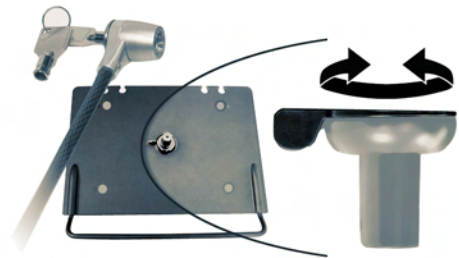

* Available weight ranges: 2-7lbs, 7-22lbs, or 15-30lbs.

Laptop Platform

* Available weight ranges: 2-7 lbs, 7-22 lbs, or 15-30 lbs.

Laptop Lock and Counter Balance Tilt Adjustment

The underside of the Laptop platform features four points to attach the laptop lock. The laptop platform also features a tilt adjustment (Patent Pending) that acts as a lever to counter the offset weight of the laptop to make the surface level. Just rotate the lever in either direction to level the platform.
