QUALITY. STYLE. VALUE.

When you choose the WeatherStorm Series from Crossville, you get all these advantages:

- Simulates the beauty of natural slate
- Available in five colors, seven sizes and two finishes:
 - UPS - interior surface finish
 - XT - exterior surface finish
- No visible difference between XT and UPS finishes allows smooth transition from inside to outside with one product
- Extremely durable, suitable for both residential and commercial use

UPS (Wet & Dry)	>0.6	ASTM C1028-89
XT (Wet & Dry)	>0.8	ASTM C1028-89
Water Absorption	<0.10%	ASTM C373
Facial Dimensions Range	0.30% Max.	ASTM C499
Frost Resistance	Resistant	ASTM C1026
Chemical Resistance	Unaffected	ASTM C650

Recommended Usage

The WeatherStone Series-UPS surface finish is recommended for interior walls, floors and exterior walls. The WeatherStone Series-XT surface finish is suitable for exterior floors and walls only. Crossville Porcelain Stone does not recommend the use of the WeatherStone Series-XT surface finish for interiors. Both WeatherStone Series surface finishes are suitable for both residential and commercial applications.

Care & Maintenance

Regular cleaning is the best way to keep your WeatherStone tile looking new for years to come. Use clean, hot water for general cleaning and combine with a household cleaner for more aggressive cleaning. Rinse thoroughly and dry with a soft cloth to prevent water spots. No waxes or sealers are needed. More information regarding the care and maintenance of Crossville Porcelain Stone products is available at www.crossville-ceramics.com.

Shade & Texture Index

WeatherStone has a shade variation of V4.

V4 = Substantial Variation:
 Random color differences from tile to tile, so that one tile may have totally different colors from that on other tiles. Thus, the final installation will be unique.

V4

Trim (available in all colors and UPS surface only)
