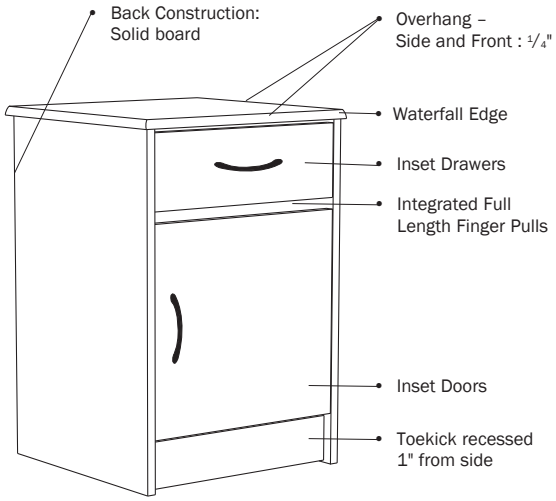
ATLANTA COLLECTION

• Shown here with premium hardware

The transitional Atlanta collection features elegant designs to accentuate the quiet simplicity of your facility. Softly rounded edges on all corners, waterfall detailing on all tops, and full-length recessed finger-pulls make these products ideal for healthcare. The high-impact resistant polymer finish ensures that Atlanta casegoods are hard-wearing, with a scuff-resistant surface that can be repaired within seconds – no messy sanding and refinishing is required. The Atlanta collection is fire-retardant, as we share your concerns with residents' safety. These products require no maintenance that uses any type of varnish or cleaners that release VOC's, so they help preserve the internal air quality of your facility. These low-maintenance products carry a 10-year warranty on construction and finish, guaranteeing that their refined elegance will be appreciated day in, day out. Made to order, all designs can be fully customized to suit your individual needs.



Available Options (See pp. 262–264)
