Signal Fixtures

ThyssenKrupp Elevator
Americas Business Unit

ThyssenKrupp

Brilliant. Modern. Practical.

Signa4™ is our newest line of signal fixtures, featuring a sleek, sophisticated appearance that fits with today's high-tech lifestyle.

An elegant blend of taste and functionality, **Signa4** is an excellent choice for your new installations.

Signa4's Superior Benefits:

- Unique design available only from ThyssenKrupp Elevator
- Illumination by LED's for energy efficiency and an extended life span
- Allows for renovation of architectural metal finish without requiring removal of box or frame
- Meets all U.S. National Fire Codes, including California

Keep your Elevator Buttons Cleaner with Microban® Protection.

ThyssenKrupp Elevator and Microban, the foremost leader in microbial deterrent products, have entered into a mutually exclusive agreement to provide elevator signal fixtures manufactured with Microban protection. Microban protection resists the growth of odor and stain causing bacteria.

Consult your local sales representative to inquire about equipping your new or existing elevator with signal fixtures manufactured with Microban protection.

Signa4
Signal Fixtures

Standard Signa4 Car Fixture Features:

- Satin stainless steel finish swing return
- Injection-molded band at top of car station which includes ThyssenKrupp Elevator logo, capacity and elevator number
- Discrete or electronic dot matrix position indicator with blue LED illumination, displaying the car's position within the hoistway
- Standard key switches, including 2-speed Fan/Light, Independent Service, Run/Stop and Hoistway Enable
- Buttons with black targets, halos with brilliant blue LED illumination and charcoal bezels
- Black "fishtail" style Braille with white characters and black background, mounted on a charcoal bezel
- Phase 2 Fire Service signage, key switch and Fire Hat; available in 2000 or 2004 U.S. National Fire Codes as required by your project location
- Rath Microtech® ADA Handsfree Telephone
- Emergency light with super bright LED's that exceed National Elevator Safety Code requirements
