LARGE AREA ROOF DRAINS: with Stainless Steel Ballast Guard

Proliner® Drain System
The Choice of Professionals for Re-Roofing Projects

Developed to eliminate damaging water back-up into roof decks. The Proliner offers an effective alternative to expensive parts-matching or drain removal. No plumber required; drain installs from roof-top without disturbing existing roof assembly or interior finish; lowers repair and labor costs on renovation projects. Adaptable to all membrane systems.

Standard Features:

- Mechanically seals against water back-up problems
- Multiple seals for long life reliability
- Expandable drain outlet to form watertight seal
- Standard 10" poly dome or optional cast aluminum dome
- Maximizes capacity of insert drain

DRAIN ACCESSORIES

CLAMP POSTS:

ADJUSTABLE DRAIN GUARDS: Sized to fit all drain openings

RETROFIT RING & DOME: Replaces broken rings & domes

PLASTIC & WIRE STRAINERS: Economical - fit many applications

PREVENTION for the "PROS"

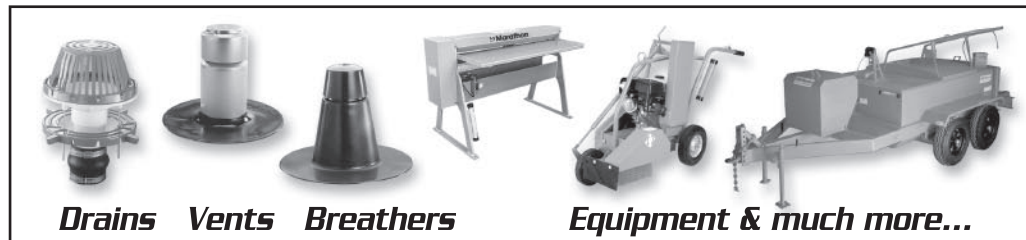

Proliner Retrofit Roof Drains

Prevents leaks from water
back-up by creating multiple
mechanical seals between the
Proliner Drain & the old drain pipe.
