

Jofco | Collective®Space
Chesser Schacht Design

j

Classic appeal with a contemporary edge. Collective®Space is an open plan caseworks system as inviting as the corner office for professionals in groups, teams, and open environments.

Seated-height privacy walls and standing-height performance walls support both focused work and collaboration.

Sophisticated accent lamps and flexible, off-modular work tools accentuate the form and enhance function.

Work tools migrate along the spine wall, enabling users to easily reconfigure and personalize their space.

Options abound in the paint, glass, veneer and textile finish combinations.
