

Jofco | Frezza Forma & Forma Kristall
Perin & Topan

Forma and Forma Kristall offer a unique composition of forms and materials to add distinction to the executive office.

Impressive compositions are created when unique glass desktops, gentle curved shapes, and a touch of wood and aluminum combine.

Functional elements such as the leg's integrated wire chase are incorporated throughout the line.

Forma offers a variety of wood finishes. Its glass counter part, Forma Kristall, adds to the series etched or black painted glass tops.

New to both Forma and Forma Kristall is an extensive selection of leather options for tops, legs, modesty panel, or a combination of the three.
