

Jofco | Solara Tables

CSD Studio

j

Clean lines and pure forms, in a contemporary mix of materials, create an elegant design statement.

Wood trim frames with glass tops add interest to the gathering area.

Multiple sizes and heights allow for adaptation to large or small settings.

Nesting tables of three heights marry functionality and aesthetics.

Ottomans allow for extra seating and include removable serving trays for additional surface area.

Part of a beautifully adaptable collection, Solara occasional tables coordinate with guest, lounge, and bench seating for a variety of arrangement options.
