Custom Capabilities Built to Your Specifications

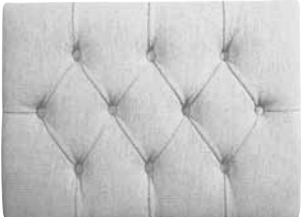

WHAT ARE THE MOST POPULAR OPTIONS?

- **Wipe out channels** are often added so that crumbs do not fall behind the seat pad.
- **Fabric treatments**, such as vertical channels and headrolls, allow booths to mix fabrics, creating unique textures and contrasts.

Deep Bun Tufts

Deep Diamond Tufting

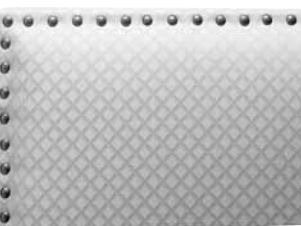

Horizontal Channel Tufts

WHO CAN HELP WITH FIELD DIMENSIONS AND INSTALLATIONS?

- **We can!** We can measure a project for you. If it has curved walls or unusual corners just call us and we can add this service to our quotation. In addition, each member of our sales team is trained to guide you through this process.
- **Installation is easy.** We carton each booth so that it arrives at the job site in good condition. Once on sight, most people just place them in the room. You can attach to the floor and we have instructions for this process. However that is generally not required.

Typical Floor Plan (floor plan is required)

OPTIONS

Custom Orders

Standard booths can be made to special sizes, angles, trim, seats, special sewing, etc.; we welcome your special requests.

Templates are required when special booths are ordered or when booths have to fit in or around certain architectural structures. Always send plan with "written-in" dimensions.

Field Dimensions - Critical measurement must be taken in cases where a wallbench or booth must fit between existing walls. As a rule wallbenches are manufactured one inch less in order to be installed between walls.
