

DEBRIS SERIES RECYCLED TILE

CONTAINS OVER 60% RECYCLED MATERIALS

The Debris Series features over 112 glaze colors and contains over 60% recycled materials, creating one of the most beautiful, sustainable ceramic products on the market. Its clay body contains more post-consumer waste than any other tile on the market in the form of curbside waste glass, and we also incorporate local Bay Area waste granite dust and used sandblasting abrasives. The result is a terra cotta colored stone body with a warm red-brown hue that is truly beautiful, unique and sustainable.

- Highly diverse line offering hundreds of sizes, shapes and glaze finishes
- Huge selection of unique matching decorative tiles and trims
- Recommended for all residential and light commercial applications
- Qualifies for LEED credits for environmentally friendly construction
