

Volley™

choice

The vast depth and breadth of the SitOnIt Seating Volley Series ranges from medium density wire rod stackers to multipurpose mobile guest chairs to practical + functional task chairs. These vast options enable you to specify an entire facility, regardless of task, function or aesthetic requirements, all within the same series.

customization

Specify one of 15 custom designed plastic colors or add an upholstered seat or upholstered seat-and-back combination for added long-term comfort. An extensive carded program gives unlimited ways to enhance any décor.

ergonomics

The flexing point of the SitOnIt Seating Volley Series is incorporated into the ergonomic design, combining unsurpassed comfort and striking aesthetics. The back incorporates holes, which allow air to pass through, prevent heat build-up and create a sleek design feature.

comfort / ergonomics

The SitOnIt Seating Volley Series chair seat and back are designed for comfort, whether you're sitting for minutes or hours. The convex curve of the back is positioned to provide healthy support + stability, while the flexing mechanism generates motion with 14 degrees of flex allowing the user to position the back angle for enhanced comfort and long term sitting.

versatility

Whatever the space, whatever the function, whatever the task—the SitOnIt Seating Volley Series is the smart choice. From meeting, training and conference rooms, to break, dorm and class rooms, not to mention labs, reception halls and waiting rooms, the SitOnIt Seating Volley Series has a wide variety of models—and a wider variety of options—to specify any space.

durability

The flexing mechanism is made of a dependable heavy-duty rubber composite that holds its tension and doesn't wear out over time. Both our wire rod and tubular frame meet and exceed ANSI-BIFMA standards designed for strength and long-term durability. The wire rod consists of ½ inch diameter steel and our tube frame utilizes 12 gauge steel with a diameter of 1½ inch. Our concealed dual stretcher bar construction eliminates the need for a front support bar allowing more leg room. The SitOnIt Seating Volley Series has a lifetime warranty.

sustainability

As with every SitOnIt Seating product, the SitOnIt Seating Volley Series is GREENGUARD + GREENGUARD Children & Schools certified, providing dependability and responsibility to our Earth.
