HMDE48C Porcelain Dry Erase/ Porcelain Dry Erase Mobile Board / 48" w x 73/4" h (121 x 187cm) / Aluminum Base.

HERE™ MOBILE BOARD

KEY FEATURES

Mobile Boards come equipped with 2 Geres - a unique ganging device that easily connects boards with one hand for quick reconfiguration.

Mobile Boards can be linked to tables to divide space and create privacy.

All Mobile Boards come with four twin-wheel locking casters for easy movement.

Upright poles provide an easy grip for transportation. Inset legs reduce the width of the board and allow boards to be ganged, nested, and positioned in a variety of ways.

Mobile Boards are double sided and can be specified with porcelain dry erase or fabric tackboard (one side is always porcelain dry erase).

Optional marker trays keep writing materials close at hand.

Optional cord channel provides continuous cord management so power can be routed from wall or floor to a table up to 20 feet away.

Optional magnetic flip chart holder attaches easily to any Mobile Board's dry erase surface for optimum flexibility.

DIMENSIONS

PORCELAIN DRY ERASE / PORCELAIN DRY ERASE
WIDTH

48", 60", 72" (121, 152, 183cm)

HEIGHT

73¹/₄" (187cm)

FABRIC TACKBOARD / PORCELAIN DRY ERASE
WIDTH

48", 60", 72" (121, 152, 183cm)

HEIGHT

73¹/₄" (187cm)

CONSTRUCTION

BOARD

Available with a porcelain erasable white surface on one side and either another porcelain surface or a fabric covered pin board on the other side. Boards have a Micore® center with a protective aluminum barrier to prevent moisture from warping the board.

LEGS

The leg assemblies are welded steel construction with a bar mounted between the legs for stability.

PENCIL TRAY

Pencil Tray is an aluminum extrusion.

Inset legs "nest" to save space and give you more configuration flexibility.

Exclusive patented ganging Gere links boards together to secure room configurations or to transport several boards together.

Mobile Boards can be ganged with tables to spontaneously create group environments or private work spaces.
