

tao media console

ebonized walnut, tempered glass

Negative space and clean lines create tranquility in Hellman-Chang's modern interpretation of basic Asian design. The Tao Media Console sits wide and low to compliment today's home entertainment living. Floating within an outer frame, the media cabinet contains six drawers and compartments for storing DVD's and media equipment. A tempered glass top rests in the frame to display your favorite home accents, and elegantly styled pulls support the upper lids.

20"H | 73"W | 20"D
