

Tree Bark

The dramatic beauty of Tree Bark embodies the authentic textures, tones and nuances exclusive to natural materials. Tree Bark can be used for wall coverings, ceiling coverings, furniture surfaces, lampshades as well as a variety of other applications. Homes, offices, retail and hospitality environments are all enhanced by its unique character.

Tree Bark can be easily manipulated, applied and sealed for protection, all with environmentally friendly techniques. Decorative treatments employing Tree Bark have been used in numerous private homes and nationally in commercial spaces like Saks Fifth Avenue Stores, Sotheby's, Hyatt Hotels and the 70 Park Avenue Hotel in NYC.

Tree Bark is a natural, hand made wood material that is acid free and created with an environmentally sustainable process that dates from Pre-Columbian times. The bark is processed with cold and then boiling water, hand pounded and sun dried. The resulting Tree Bark is a masterpiece of beautiful tones and textures in 14 natural & hybrid colors, bringing a sense of stone, parchment or leather to a variety of applications.

Available sizes are 47" x 95" nominal (Sun dried 48 x 96) Stocked in the 14 colors shown on our website. This material can be rolled and shipped via UPS within 1 day of receipt of payment.
