Handcrafted Fireplace Systems

The Gallatin

Direct Vent Gas Fireplace

Mediterranean Style
Distressed Black Copper

The Gallatin direct vent gas fireplace is a refreshing and innovative gas fireplace that boasts a tall and clean viewing face. You can see everything you want to see in a fireplace and nothing you don't! Louverless and inspiring, the two-tone brick liner is hand detailed to provide a true masonry look.

With an electronic ignition you save money by reducing your fuel consumption. But don't worry, the battery back up allows you to heat your home in a power outage. Sit back and relax because the Gallatin shows off a realistic fire you can enjoy... without the mess, maintenance and air quality concerns of a wood burning fireplace. At Ironhaus we understand in burning clean, efficient and healthy.

- ◆ 36" and 42" Clean Face; Louverless
- ◆ Available in Natural Gas or Propane.
- ◆ Concealed Electronic Ignition & Control System.
