TOD Training On Demand
TOD
 Training On Demand
 TOD™ IS TRAINING ON DEMAND®.

TOD tables from *Versteel*® are designed for today's working environments. Integrated wire management, perforated modesty, easy tilt-nest mechanism and locking casters are all standard features of this multi-task training table. The arced legs and metal modesty reflect design elements found on SIMON® seating for a complementary match in any space. Bring TODs together for training, then nest them for storage.

By Lucci Orlandini Design, exclusively for Versteel.

SIMON'S BEST FRIEND.

AVAILABILITY Y2

WITH RECTANGULAR TOPS OFFERED IN A VARIETY OF SIZES, TOD TABLES ARE DESIGNED FOR TRAINING AND A SNAP TO SPECIFY. REFER TO THE VERSTEEL PRICE LIST FOR COMPLETE SPECIFICATIONS AND AVAILABILITY, BUT BE SURE TO CHECK WWW.VERSTEEL.COM BECAUSE WE'RE ADDING NEW FEATURES ALL THE TIME.

TILT-NEST Storing has never been easier. The top is released from its locked position with a simple pull of the ergonomically-designed tilt release handle. Nesting TODs when not in use helps keep environments open for other uses. **MOBILITY** Rolling is easier than lifting. Dual wheel locking casters are standard on all TOD tables. Convenience, versatility and reconfigurability are a few of the benefits of a table with casters. **LINKING** Keeping tables together. Use table link to connect rows of tables for training and to prevent sequenced power from becoming disconnected. **POWER & DATA** Accommodating the future. Proprietary power & data can be specified for individual or linked tables with an option for every type of application. Wire management is integrated into the leg to get power neatly to the table top. **FINISHES & MATERIALS** Specifying the table you need. An unsurpassed standards program and available custom finishes combine to give you the look you desire.

Training On Demand.

Designed by Lucci Orlandini Design

Commissioned by VERSTEEL to design the TOD table for the conference and training markets, Roberto Lucci and Paolo Orlandini have an extensive design background. Based in Italy, their design partnership started in 1968. Since then the two have designed over 250 products which have been or are now being regularly manufactured and sold in large quantities throughout the United States and Europe. Among the design team's projects are office chairs and sofas for manufacturers such as Versteel, Thonet and Knoll, office furniture for Mascagni, Ora-Vinco and Knoll, as well as kitchen units, household appliances, lamps, television sets, boats, and children's products. With their designs in the collections of the **Museum of Modern Art, New York**, the **Centre National D' Art Contemporain of the Louvre in Paris**, the **Museum of Contemporary Art in Chicago**, having exhibited at the **Museum of Art and Industry in Hamburg**; and the **Chicago Athenaeum** among others, the design team is much respected throughout the design world.

TOD. Just bring them together and start training. Contact your VERSTEEL Representative to discuss which TOD table is destined for your space.
