DOMAINE | MULTI-FACETED CONFERENCE ROOM

Combining design continuity with maximum versatility, Domaine invites you into the world of work. Wire management base designs, through-the-surface technology channels and flip door aesthetics in aluminum and wood demonstrate its functional sensibility while consistent styling, breadth of products and diversity in details allow for seamless integration from room to room. Domaine. The freedom to design environments of choice for the ever-changing workplace.

PRODUCT SPECIFICATIONS

Conference Tables:

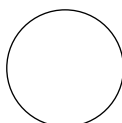

Conference tables manufactured in Maple. All standard and custom veneer finishes available as well as laminate options. Seven standard top shape selections, three edge details and four base styles available.

Conference Bases/Technology:

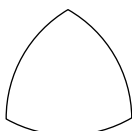

Open pedestal, wood paneled pedestal and inset wood paneled pedestal bases feature convex triangle base plate to conceal electrical floor monuments while facilitating vertical cord management. Eleven standard UL listed power/data units available. Access doors for through-the-surface technology options offered in various finishes.

Conference Accessories:

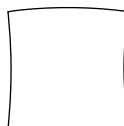

Conference accessories include media cabinet, credenza, buffet credenza, media board and mobile media/server. Available with wood or glass doors and Metallic Silver or Satin Black pulls, each is available in several sizes with distinct features and options. Mobile easel completes the collection.
