HAVEN | PATIENT SEATING

Find solace in Haven, a comprehensive offering of guest, tandem and ancillary seating products that combine classic style with noteworthy substance. With replaceable upholstery capabilities and clean-out functionality, Haven is ideal for healthcare applications. Yet, it also features a passive flex back for exceptional comfort and replaceable arm caps for lasting beauty, making it equally appealing for corporate, hospitality, higher education environments and more. Flexible, stylish and definitively durable, Haven is the quintessential place to relax while waiting.

PRODUCT SPECIFICATIONS

Beech hardwood frame with radiused edges. Open arm, panel arm and armless guest chair models. Bariatric settee available in two sizes for stand-alone seating requirements or tandem applications. Arm caps feature finger-grip design for stability and are generously proportioned to offer greater support. Beech wood or black urethane arm cap options available.

Tandem seating offered in two and three-seat pre-configured combinations or as reconfigurable modular units. Available with or without center arms as well as with or without center legs. Additional components include two sizes of in-line benches and six connecting table options. Connecting tables are Beech veneer with Beech wood edge. All standard and custom wood finishes available in addition to laminate selections.

Optional foot rest may be placed underneath seat of all patient and guest chairs. Hip chair features 24½" seat height and a non-skid foot step. All models feature wall-saver leg design as well as Microban® antimicrobial wood finish. Accompanying lounge and bench seating as well as occasional tables offered.
