

S4

FORm_office™
Open Plan Benching System

INNOVANT

FORm_office S4

Award-winning design

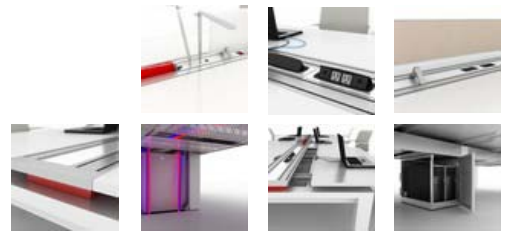

From collaborative table to permanent address work station, FORm_office S4 provides the greatest level of scalability in the FORm_office range. Contemporary design paired with advanced technology and cable management won FORm_office S4 the IIDEX Neocon Silver medal award for Innovation in 2010.

S4 Features and Design Details

Sophisticated performance and technology management

FORm_office S4 offers a wide array of features to maximize scalability, incorporate personalization, and simplify technology management.

S4 Configurations

Endless possibilities

FORm_office S4 is a singular platform that addresses all levels of the organization. Perfect for collaborative or 'touchdown' spaces, S4 is easily outfitted with storage and privacy panels to create individual or 'permanent address' workstations. S4 can even be scaled up to full workstation environments with the addition of full wrap-around return-height storage elements.
