

3form[®] [wovin][®]

3form® [wovin®] Versatile. Striking. Beautiful.

3form® introduces Wovin Wall®, a contemporary design solution for interior walls and ceilings. This elegant and lightweight 3-dimensional interior feature system is easy to install and can be fixed to almost any wall or ceiling.

Wovin Wall is a modular system which can be extended in any direction to suit most spaces. For interiors which change frequently (such as exhibition and retail spaces), the modular nature of the Wovin Wall product is the perfect medium to reflect new color schemes, product launches or seasonal changes.

Available Materials

Wovin Wall is available in a variety of materials from 3form Pure Color and Varia™ 1/16" gauge, to a curated collection of real wood laminates, Polyresin, anodized aluminum, laminate and custom high resolution imagery.

3FORM VARIA MATERIALS:

Pure Color, Mari Sealess, Tanaka, Courier, Linea, Spider, Ion, Atmosphere and Script

VARIA FINISHES:

Patent, Patina, Sandstone

OTHER MATERIALS:

Wood Veneer - 11 real wood veneer laminates

Aluminum - satin brushed anodized aluminum in 5 colors

Polyresin - available in 4 colors

White Laminate - a high-gloss designer white plastic laminate

Transwhite Resin - high resolution custom imagery

*Please see your 3form Wovin sales representative for finish compatibility with Varia materials.

Quick and Easy Installation

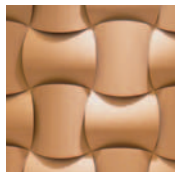

The Wovin Wall System consists of a lightweight mounting grid, which can be fixed to almost any wall or ceiling surface. The Wovin Wall tiles are clipped into this grid in alternating directions to create the distinctive woven pattern. Wovin Wall can be installed without a surrounding frame, however there are two options available to finish the edges of the wall. Both frame styles come in clear anodized aluminum.
