

Senzafine wardrobes system

Senzafine is a wardrobes and walk-in closet system with a modern modularity, adaptable to any space. The walk-in closet is characterized by vertical panels of mm 35 - 1 1/2" which underline the solidity of shapes and the geometry. From the more simple and minimal doors to the one characterised by a more particular aesthetic, with edges or frames. Four openings: leaf, folding, sliding door and coplanar and a complete inside equipment have been designed to realize a more and more individual space organization. The structure and the equipment of senzafine system are available in melamine, can be easily cleaned and are resistant to scratches.

The structure of each senzafine wardrobe is conceived to grant solidity and reliability for long time.

One

Design Carlo Colombo, 2004

I like a wardrobe that is reliable. One, designed da Carlo Colombo, is a wardrobe that exploits the qualities of the aluminium and light. The silent doors are built to slide effortlessly, however long you use them. Because for Poliform every innovation comes from functionality

Equipments

The modular structure of the inside equipment of the senzafine system is based on the study of actual cases of use.

In fact the possibilities of subdivision of the internal spaces take into account the encumbrances of the various cloths. The wide range of modular possibilities allow to integrate the accessories with respect to the space necessary to the different typologies of cloths.

In the picture: Wood drawers in two different heights and trays for shirts / Pull-out tray for trousers or skirts / Pull-out tray with bag in hide / Structure and equipment matching different finishes / Tray for shirts can be equipped with drawers in fabric / Hanging chest of drawer/ led Lighting.
