Senzafine

Senzafine wardrobes system

Senzafine is a wardrobe and walk-in closet system with an evolved modularity, adaptable to any space. The walk-in closet is characterized by vertical panels of mm 35 - 1 1/2" which underline the formal solidity and the geometric rigor.

From the more simple and minimal doors to the one characterised by a more particular aesthetic, with edges or frames. Three openings: leaf, folding and sliding door. The complete inside equipment has been designed to allow a more individual storage organization.

Senzafine Walk-in closet, design CR&S Poliform, 1997

An innovative walk-in closet for your storage organization. A new way to discover the exceptional variety of looks and functions that the greatest storage system of your house can offer you.

Finishes

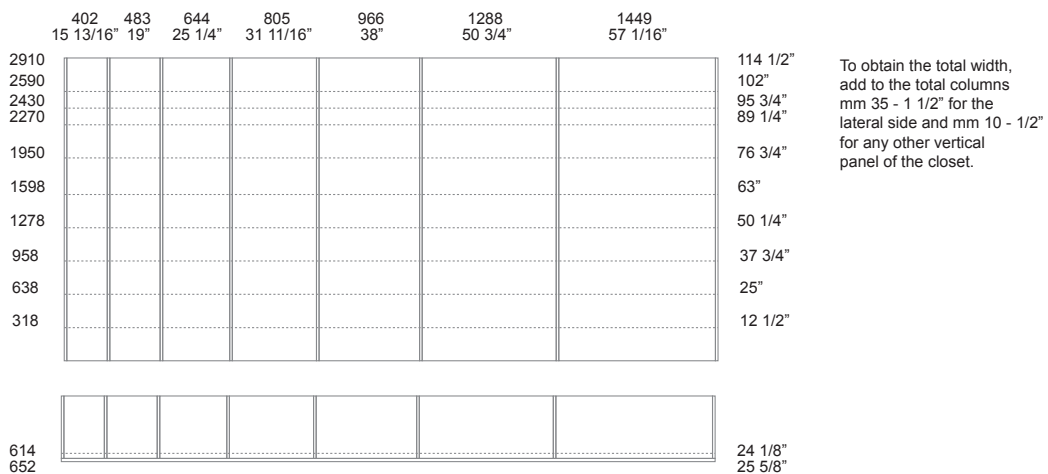

The structure and the equipment of the Senzafine system are available in melamine in the colours: white txt, white pine, white larch, oak and walnut c. Washable, easy to maintain, resistant to moisture and scratches: a finish thought to grant solidity and complete reliability over time.

Equipments

The modular structure of the inside equipment of the Senzafine system is based on the study of actual cases of use.

In fact the possibilities of subdivision of the internal spaces take into account the encumbrances of the various cloths.

The wide range of modular possibilities allow to integrate the accessories with respect to the space necessary to the different typologies of cloths.
