

Sintesi system

Sintesi, a modular system for the living area based on the unlimited combination of a wide range of elements: horizontal planes, wall mounted and freestanding cabinets, wall units, space dividers, accessories for integrating plasma screens to which the sketch bookcase can be added. A concept of the contemporary home considered as a space that can serve needs that are extremely diversified.

design Carlo Colombo, 1998

Sintesi system, design by Carlo Colombo, allows for complete freedom of design composition. The emphasis is on horizontal linearity through the use of benches, shelves, chests of drawers and cabinets each one with its own specific use.

Finishings:

The range of finishing includes three woods walnut c., wengè and spessart oak, 28 colours for matt and glossy lacquered, 9 colours for glossy glass, 9 colours for frosted glass and blue reflecting glass.
