La zona notte interpretata da un'eccezionale varietà di soluzioni, alla ricerca di una nuova dimensione di naturalezza. Paolo Piva definisce il letto tessile contemporaneo: un vero e proprio sistema composto da sei testate diverse, in libero abbinamento con basi imbottite, sommier e turchie in legno. Un'estetica che si declina nella massima essenzialità, fra forme semplici e sottili richiami di memoria, per valorizzare al massimo le suggestioni dei rivestimenti, dai tessuti alla pelle.

An extraordinary variety of solutions for the Poliform's night collection. Paolo Piva defines the contemporary textile bed: a real system composed of six different headboards matchable with upholstered bases, bed bases and wooden bed frames. An aesthetic of seamless appearance characterized by utmost essentiality and subtle memories to give worth to the elegance of the finishings: from fabrics to leather.

La varietà estetica. Una visione d'insieme delle sei testate che definiscono il sistema Arca. In alto a sinistra: le due altezze disponibili per la testata imbottita trapuntata. Sopra: la testata imbottita e la testata imbottita stondata trapuntata. A sinistra: la testata reclinabile imbottita, dotata di movimento indipendente, e la testata in legno. A destra: la base imbottita e la turca in legno sono disponibili in versione contenitore, con rete ribaltabile.

The aesthetic variety. A global presentation of the six headboards of Arca system. Above on the left: the two different highs available for the upholstered and quilted headboard. Above: the upholstered headboard and the roundish upholstered and quilted headboard. Left: upholstered reclining headboard with independent movement and headboard in wood. Right: the upholstered base and the wooden bed frame are available with container and tip-up bedstead.
