Notes

Center unit over cooking surface

Distance "S" is determined by the cooking surface

(see hood instructions below for details)

Area behind mounting plates MUST be reinforced using a minimum of ½" plywood. Reinforcing material should be affixed to structural wall members

Provided a larger distance is not given by the manufacturer of the cooktop, follow the minimum safety distances between a cooktop and the bottom of the hood:		
	Miele Cooktops	Non-Miele Cooktops
Electric Cooktops	24" (610 mm)	
Electric Barbeques and Fryers	26" (660 mm)	
Multiburners Gas cooktops ≤43,00 BTU (12.6 KW) And no burner > 15,000 BTU (6KW)	26" (660 mm)	30" (760 mm)
Single burner (Wok) ≤ 20,500 BTU (6 KW)	26" (660 mm)	30" (760 mm)
All other gas cooktops	30" (760 mm)
