Notes
- All installations must be done in accordance with local codes - Additional 50mm in height may be attained by ordering Miele UBS-1 extension feet

Front Panel Information

G4500SCi Integrated Slimline Series

Custom Panel Installations

Some Miele dishwashers do not come equipped with a front panel. These dishwashers are designed to accept a custom door panel supplied by the cabinet maker. Miele has a unique panel integration system which allows the dishwasher to align with the surrounding cabinets.

Panel size is determined in the following manner:

Width: 17 1/2" (444.5 mm) in all cases

Thickness: 3/4" (19 mm) in all cases

Height: Determined using the following calculation:

$$\text{Panel Height} = \text{HTC} - \text{CPH} - \text{TKH}$$

HTC = Height to the underside of countertop

CPH = Control panel height (Note 1)

TKH = Toe-kick height

Note 1: Control Panel Height is determined by the height of the drawers in the cabinets. This height is adjustable between 4 5/8" and 5 7/8" with spacer strips provided.

Maximum panel height: 27 1/4" (692 mm)

Minimum panel height: 21 1/4" (540 mm)

Maximum panel weight:

White / Black 23 Pounds (10.4 kg)

Stainless Steel 19 Pounds (8.6 kg)

GDU Kit Installations

In lieu of a custom front, Miele offers a decorative panel system called a GDU kit. GDU kits vary depending upon the model chosen. Each GDU kit contains a front panel and a toe-kick cover.
