

Assembly Instructions

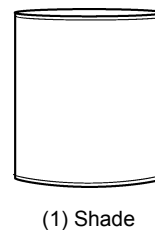

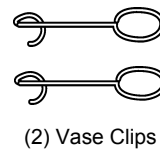

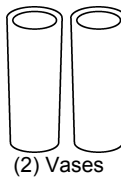

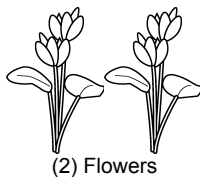

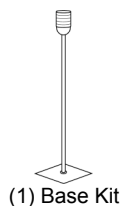

TAO TALL TABLE LAMP

Item 9E-TT

Designed by Boris Jeanrenaud

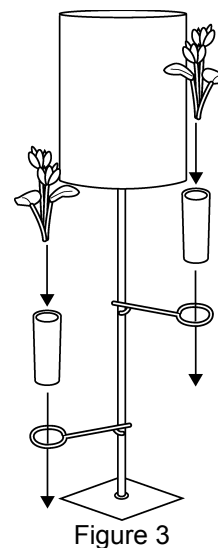

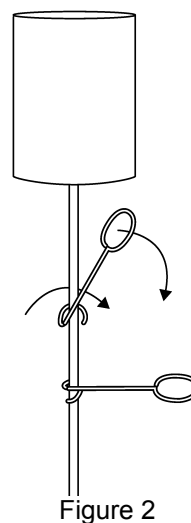

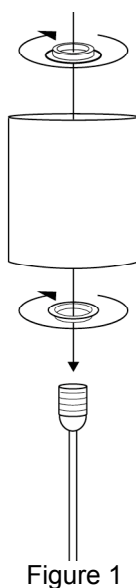

Parts Included: (pictures not to scale)

Assembly:

1. UNPLUG LAMP.
2. **(figure 1)** Screw a pheno ring onto the socket. Place the center of the shade on the socket so it rests on the ring. Secure the shade with the second pheno ring.
3. **(figure 2)** Hold a shade clip sideways (loop vertical) with the coil portion behind the pole of the base. Pull the clip forward until the back of the coil touches the pole, then turn the clip until the loop of the shade clip rests level (loop horizontal).
4. **(figure 3)** Place a vase into each vase clip. Place flowers or other items into the vases.
5. Install Bulb, turn on, and enjoy!

You may use a maximum 100-watt bulb.

SAFETY INFORMATION

SAFETY

We have designed your lamp to meet the highest **UL** and **CUL** safety standards.

This portable lamp has a polarized plug (one blade is wider than the other) as a feature to reduce electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.
