Effective
January 16, 2006

What's New?

Spec news is available on in2.steelcase.com.
Go to *Specification Guides*, then *Current Release Spec News*.

Availability

Electronic price list updated with release 162.B (U.S.) and 137.B (Canada), dated March 20, 2006.

► For a list of all trade-marks, refer to the last page of this specification guide.

For Canadian Pricing

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by 1.25.
- Round each to the nearest dollar.
- Add base and options for total list price.

Terms and Conditions

Terms

Payment terms for Turnstone are the same as current Steelcase terms, *providing you the opportunity for additional cash discounts for prompt payments.*

Payment for Turnstone brand products can be remitted with payments for Steelcase brand products you can even use the same check!

Past due amounts are subject to 1.5% service charge per month on the unpaid balance.

Returns

Call 1.800.TURNSTONE

Returned merchandise will not be accepted unless authorized by your sales service representative prior to return. Non-standard products or materials are not returnable.

Claims

For freight claim information, go to www.in2.steelcase.com, then Order Management, then Service and Warranty, then Freight Claims.

Order Changes

All orders delivered within standard lead times are considered final and cannot be changed.

Any charges for changes or cancellations are the responsibility of the dealer.

Special order products cannot be changed or canceled.

Freight Costs

All shipments to points in the 48 contiguous states will be shipped factory freight prepaid (FOB).

All shipments outside the 48 contiguous states will be shipped FOB and allowed to point of embarkation. All charges beyond the point of embarkation are collect.

Call 1.800.TURNSTONE, option #2 for quotes on Expedited shipments, UPS delivery, or deliveries outside the continental U.S.

Turnstone reserves the right to select the most appropriate mode of shipment from the manufacturing point and point of embarkation.

Special shipping methods, handling, or setup will be subject to an additional charge.

Delivery/Lead Times

Select product is available to ship within 3 days. Consult your Quick Delivery Handbook S3408.

Lead times are subject to available capacity.

Most products have a standard lead time of 15 days or less delivered. However, larger orders or orders shipping to remote areas within the U.S. or Canada may be subject to additional lead times.

Please call 1.800.TURNSTONE for orders in excess of 50 units.

For up-to-date lead times, consult the scheduling/delivery schedules bulletin board on www.in2.steelcase.com, then Order Management.

Assembly

Due to construction, design of the product, or delivery conditions, it is necessary to ship most Turnstone products cartoned. Turnstone products that are shipped unassembled are shipped RTA (ready to assemble) and are easy to assemble.

Turnstone products are supported with an array of informational materials, tools, and software to help you plan and install efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office, by calling 1.800.784.0358, or through the Steelcase Marketing Communications Web site at www.in2.steelcase.com.

Surface Materials

Turnstone Surface Materials Swatches
Individual 3" x 3" swatches, larger memo samples, and family group swatch cards are available by contacting Ad Stock at 1.800.784.0358 or by ordering electronically at www.in2steelcase.com.

Printed Materials

Surface Materials Reference Manual
This publication provides:

- An explanation of the surface materials program
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Computer Tools

On the Web
www.turnstonefurniture.com
Visit Turnstone's Web site for a complete product listing, photos, case studies, where to find a Turnstone dealer, and much more.

OneStop
Turnstone's dealer Web site includes pricing and terms, user guides, case studies, spec guides, lead times, printable brochures, photos, and more. Dealers access Onestop through www.turnstonefurniture.com, using their in2.steelcase password.

Furniture symbol graphic data are available for download on www.steelcase.com.

Electronic Catalog

Accurate sales quotations and purchase orders for Turnstone products are created with specification software that uses Turnstone Electronic Catalog data. Use the data to specify and price style numbers and options for every Turnstone product. The data is updated bimonthly by Steelcase and provided to software programs like the Hedberg Business System, 20-20 CAP Studio, and 20-20 Office Sales.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

For more information about these and other software tools to help you plan effective work environments, please email fsl@steelcase.com

Product Info

Electronic versions of this and many other specification guides in Acrobat PDF (Portable Document Format) allow you to scan, search, and print any page on virtually any computer. You can access these files at the Steelcase.com Web site or My Sales Online at www.in2.Steelcase.com.

Kick Product Training

Basic training for the Turnstone Kick systems products is available as part of the Building Product Muscle (BPM) curriculum on the Steelcase University Web site at www.in2.steelcase.com.

The Kick BPM is an interactive, web-based course, filled with photos, detailed positioning, statement of line, features/advantage, application, and specification information, as well as practice exercises designed to build salespeople's knowledge of the Kick system. The course also contains printable job aids to provide ongoing performance support. The Kick BPM is course SAL188.

Support

Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.800.TURNSTONE (1.800.887.6786).

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality or warranty concerns or service parts questions.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

Panel Facts

Panels are constructed with a rigid, tubular steel frame and are shipped fully assembled. Choices include **tackable acoustical**—skin on each side, covered with vertical surface fabric; **segmented**—tackable skins on one or both sides, covered with vertical surface fabric; **glass**—single pane of clear, tempered safety glass on panel centerline, surrounded by painted border; and **perforated steel**—single pane of painted, perforated steel on panel centerline, surrounded by painted border. Perforated pattern matches “large” perforated pattern on Turnstone storage.

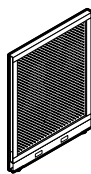

Tackable Acoustical

Segmented Panel

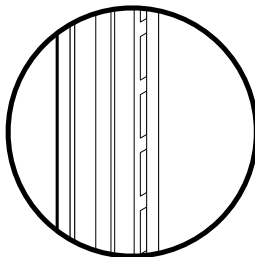

Glass

Perforated Steel

Panels are available in four heights (42"H, 48"H, 54"H, and 66"H) and five widths (24"W, 30"W, 36"W, 42"W, and 48"W). Tackable acoustical panels and segmented panels are also available 60"W. Panels are 2" thick.

Vertical slots in panel accommodate hang-on components, overhead storage bins, shelves, worksurface supports, and connector brackets. Components can be mounted at 1" increments.

Base cavity accepts a factory- or field-installed powerway. Cable routing is also possible.

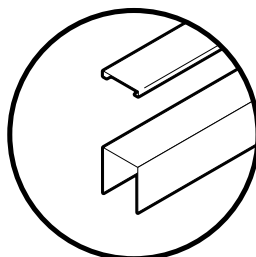

► See *Powerway Facts*, page 18.

Wire separator for the panel base can be ordered through Kick Service Parts to provide a separate, isolated space for routing data and telecommunication cables. It also serves as a second metallic barrier between low-voltage communication wires and 120-volt electricity.

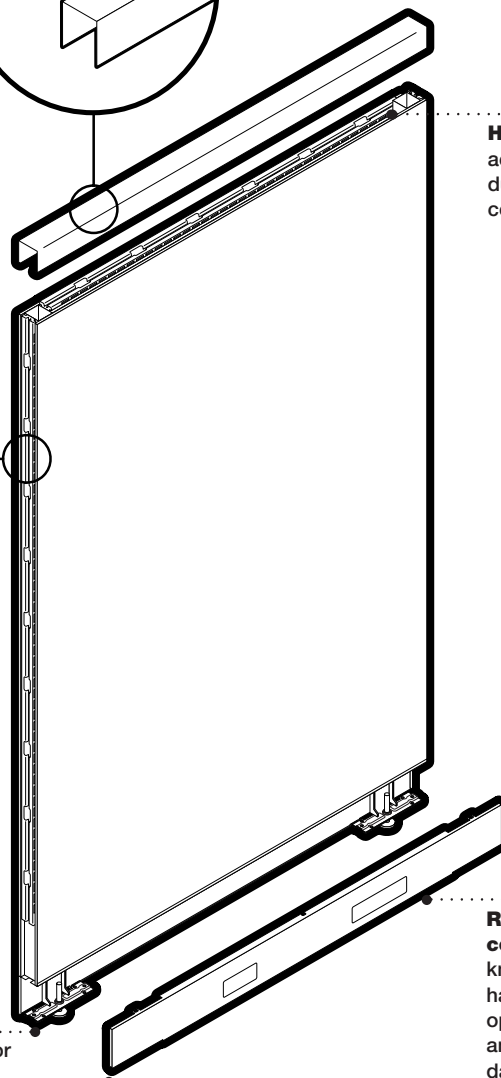

Specifying, pages 44–51

Steel top caps are available in two heights—standard low and optional high. High top cap will accommodate cable routing at the top of the panel.

Horizontal slots accommodate data duct and off-module connections.

Removable base cover has receptacle knockouts. Base covers have one standard-size opening on the left and an opening for a standard- or larger-size receptacle opening on the right.

Exception: 24"W and 30"W base covers have a standard-size opening on one side of the panel opening and a larger size on the reverse side.

Leveling glides adjust 1½" to install panels on uneven floors.

Stacker Facts

Stackers are constructed with a rigid, tubular steel frame. Choices include **tackable acoustical**—skin on each side, covered with vertical surface fabric; **glass**—single pane of clear, tempered safety glass on panel centerline, surrounded by painted border; and **perforated steel**—single pane of painted, perforated steel on panel centerline, surrounded by painted border.

Specifying, page 52

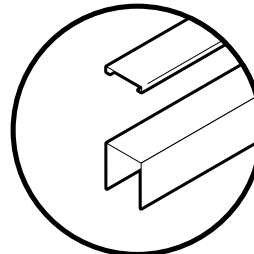

Tackable Acoustical

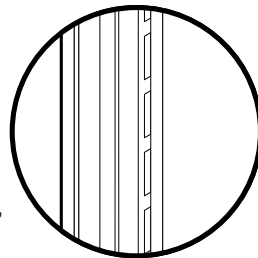

Glass

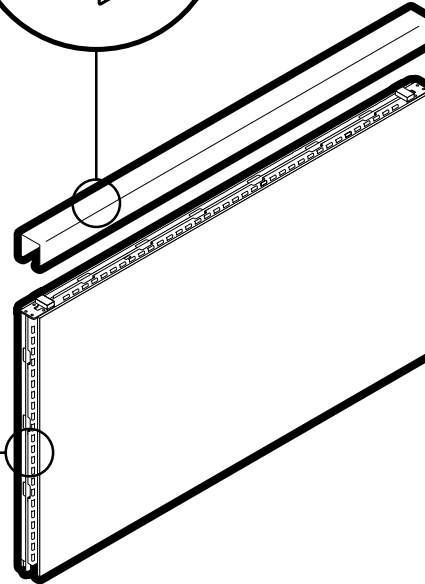

Perforated Steel

Top cap and top cap aligner from base panel are used to trim the top of stacker.

Vertical slots in stackers, identical to slots in base panel, accommodate overhead storage and hang-on components, and connector brackets. Components can be mounted at 1" increments.

Horizontal slots in stackers, identical to slots in base panels accommodate data duct and off-module panel connections.

Vertical trims for stackers must be ordered separately.

► Page 15

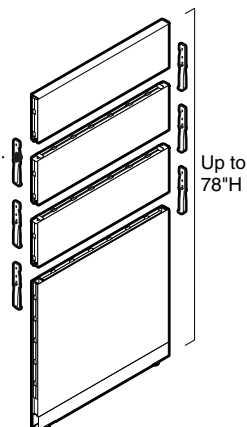

Base panels can accept one, two, or three stackers, up to a total height of 78". All stackers are load bearing, but load cannot be mounted above 66" height.

► See *Stability Rules*, page 34.

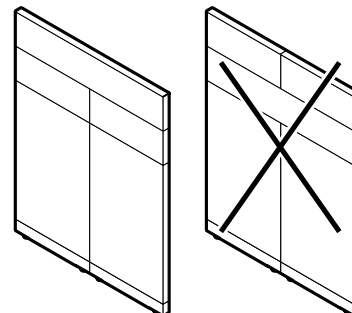

Two fork connectors are included with every stacker.

Attaching stackers to panels will not cause disruption to existing panel connections.

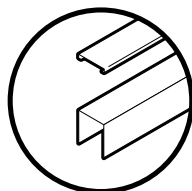

Stacker can span over an in-line connection between two base panels or two stackers. Width of stacker must equal total width of two base panels.

Two smaller stackers cannot be attached to the top of a larger stacker or panel.

Panel Frame and Insert Facts

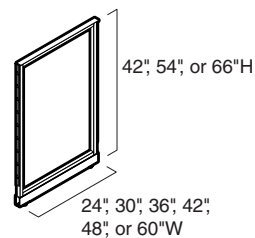

Panel frames and inserts, specified separately, are used together to divide space while achieving a more open and customized environment. Frame is identical to the frame used for tackable acoustical, segmented, glass, and perforated steel panels.

Steel top caps are available in two heights—standard low and optional high. High top cap will accommodate cable routing at the top of the panel.

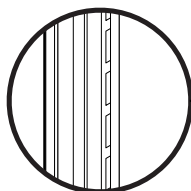

Specifying, pages 54–56

Panel frames are available in three heights and six widths. Frames are 2"D (thickness).

Horizontal slots accommodate data duct and off-module panel connections.

Vertical slots in panel frame accommodate hang-on components, overhead storage bins, shelves, worksurface supports, and connector brackets. Components can be mounted at 1" increments.

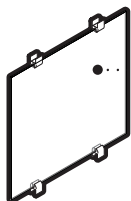

Removable base cover has receptacle knockouts. Base covers have one standard-size opening on the left and an opening for a standard- or larger-size receptacle opening on the right.

Exception: 24"W and 30"W base covers have a standard-size opening on one side of the panel opening and a larger size on the reverse side.

Base cavity accepts a factory or field installed powerway. Cable routing is also possible.

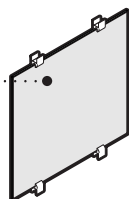

Four jamb blocks, standard with each insert, are used to attach insert to panel frame.

Inserts are available in two choices—translucent and laminate—to accommodate user needs.

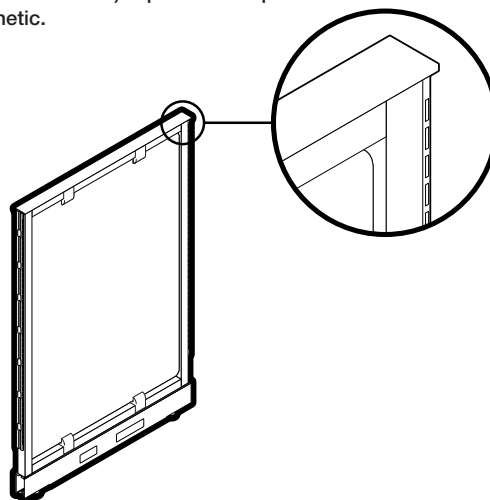

Translucent insert, frosted acrylic, is 1/4"-thick. **It is not available for order in Canada.**

Laminate insert is 1/4"-thick. It is manufactured using a low-pressure laminate process and has a decorative finish on both sides with a color-matched edge.

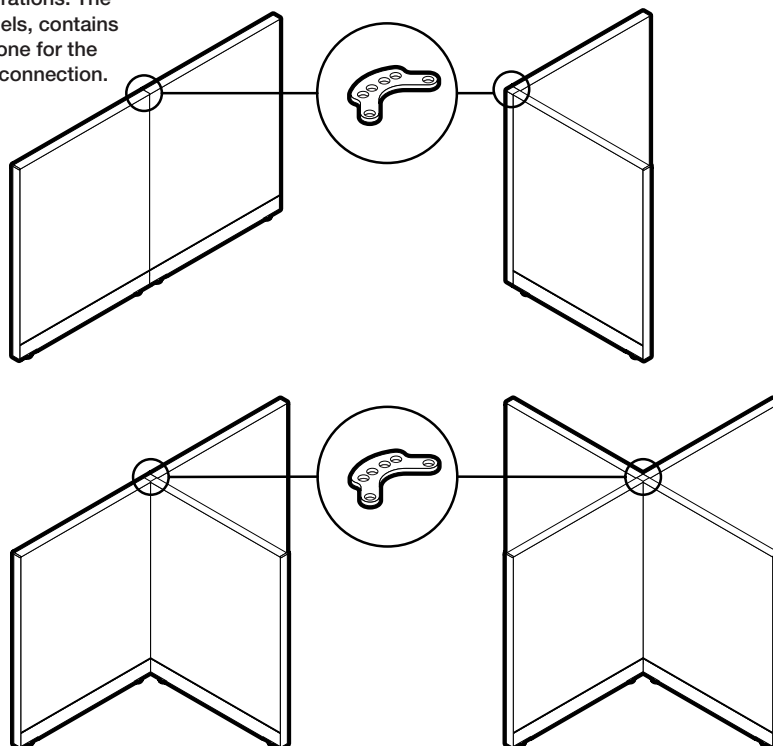

Space between insert and frame (1/2" on each side) is part of the open aesthetic.

Connector Facts

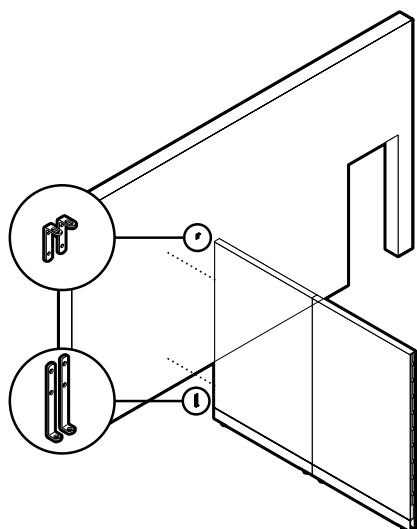

Universal connector package joins panels of the same height in a straight line or in L-, T-, or X-configurations. The package, standard with panels, contains two universal connectors—one for the top and one for the bottom connection.

 Specifying, page 62

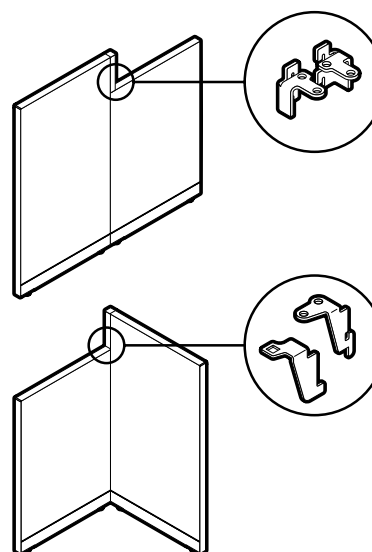

Wall start connector package is used to anchor a panel run to a perpendicular wall. Mounting screws that connect the brackets to the panel are included in each package.

Tip: Vertical-end-of-run trim is not required at the end of panel that is attached to the wall.

Change-of-height in-line and corner panel connector package is used to join panels at varying heights in a straight line or at 90° angles. Package contains left and right connectors for both in-line and corner configurations.

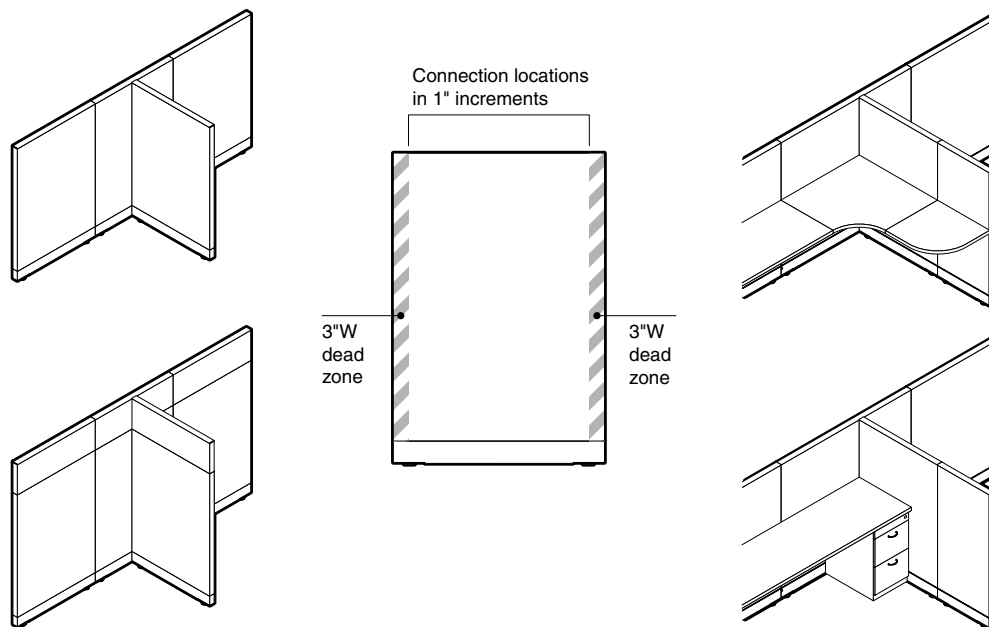

Left and right in-line connectors are required to connect panels in a straight line.

One-handed corner connector is required for connecting panels at 90°.

Off-module connectors connect all types of Kick panels of the same height. Connection locations are at 1" increments and allow the use of standard-size worksurfaces for workstation planning. Stackers can be mounted on either or both of the panels.

 Specifying, page 63

There is a "dead zone" at the last 3" of each end of the panel where an off-module connection cannot be made due to lack of horizontal mounting slots.

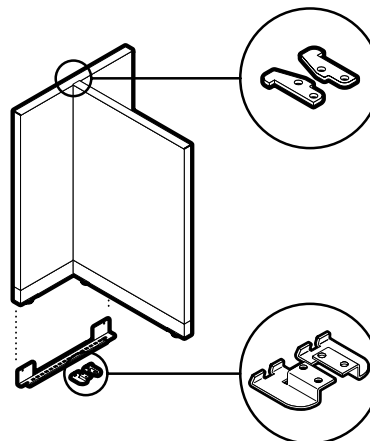

Off-Module Connector—Universal

Tip: Bottom connection requires the use of two self-drilling screws (included) through the skin of the "host" panel approximately 1/2" above the base cover.

Off-Module Connector—Panel-Width Specific

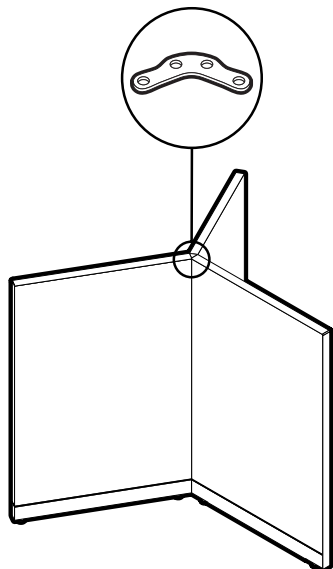

The panel width-specific off-module connector incorporates a horizontal element that connects to the base feet of the "host" panel. There is no defacing of either panel.

120° Connection Facts

To connect panels in a 120° application, a 120° panel connector is required. A two-panel connection requires one 120° connector package. A three-panel connection requires three 120° connector packages.

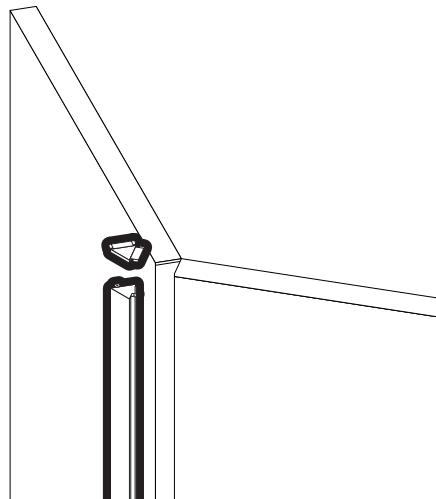

► Page 62

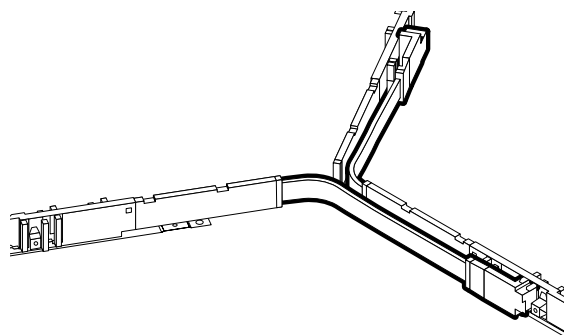

120° connectors are for the same height panels only.

120° vertical corner trim is required for all 120° connections. The same 120° vertical corner trim is used for two- and three-way connections and is available with a low end cap only. Both two- and three-way end caps are included with each 120° vertical corner trim package.

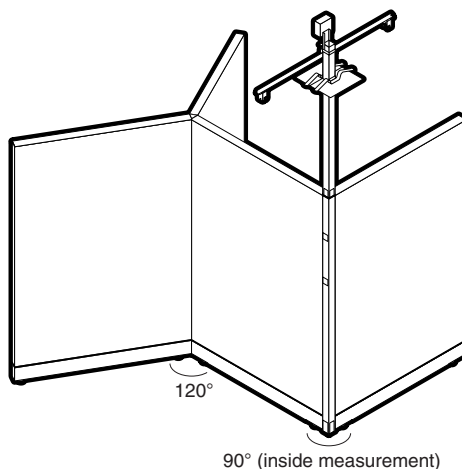

► Page 60

Power can be routed through the base of panels in a two- and three-panel, 120° connection.

2" x 2" power and cable poles can bring building power and data from the ceiling to a 120° panel application at the end of a run or 90° connection only.

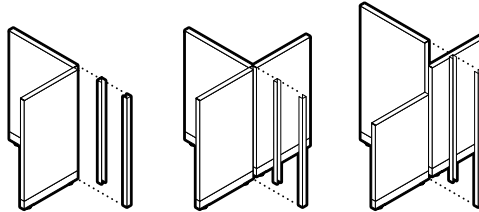

120° and 90° connections can occur within the same workstation.

Trim Facts

 Specifying, page 57

Vertical Corner Trim for Use with Base Panels (no stackers)

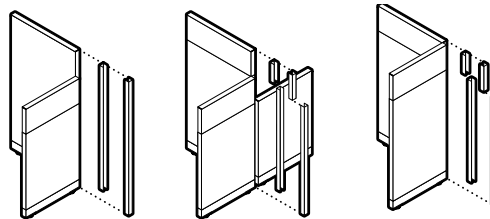

Vertical corner trim allows cables to be laid in before the cover is snapped into place and can be removed for cable access. Corner trim is required for L-, T-, and X-configurations and includes a low trim end cap. High trim end caps, available as an option, are application specific.

Always specify vertical corner trim the same height as the tallest panel.

Vertical Corner Trim for Use with Base Panels and Stackers

Vertical corner trim and corner change-of-height trim are required in combination for L-, T-, and X-configurations when stackers are used. All corner trims include a low trim end cap. High trim end caps, available as an option, are application specific.

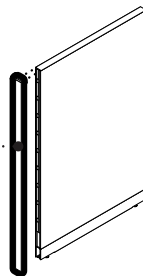

Always specify vertical corner trim the same height as the tallest panel. Specify vertical corner change-of-height trim to cover the ends of stackers.

Vertical End-of-Run Trim

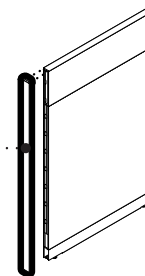

Vertical end-of-run trim covers the exposed end of panels and includes a low trim end cap. High trim end caps, available as an option, are application specific.

Base Panel only

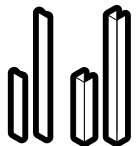

Vertical end-of-run trim must match height of base panel.

Base Panel with Stacker

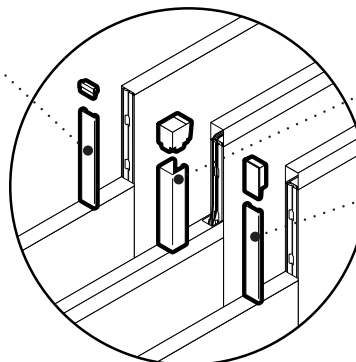

Vertical end-of-run trim must match combined height of base panel and stacker.

Vertical Change-of-Height Trim

Vertical in-line change-of-height trim is available 12"H, 18"H, 24"H, and 36"H in slim profile (standard with a low trim end cap) or with cable-routing capacity (standard with a high trim end cap). Trim covers the exposed section of the taller panel when panels of different heights are joined.

Slim profile with low end cap.

Cable routing capacity with high end cap.

Slim profile with optional high end cap.

 Low end cap

 High end caps

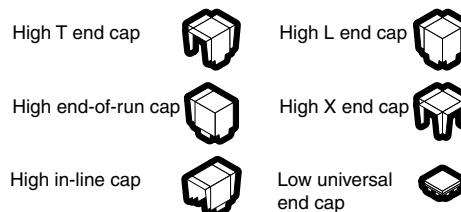

End Cap for Use with Vertical Corner Trim

 Specifying, page 59

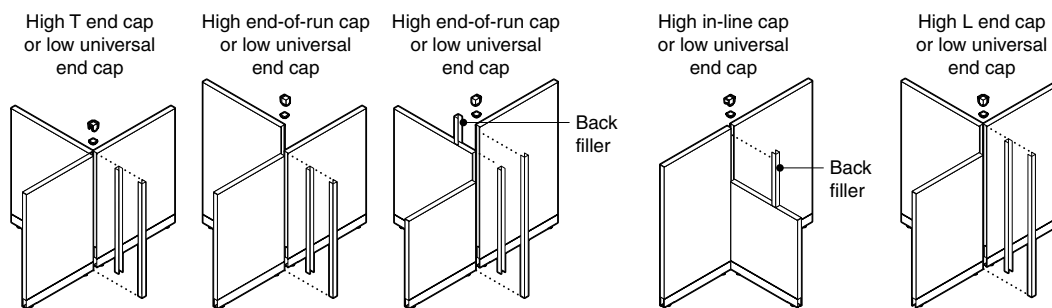

L-Configuration

End Caps

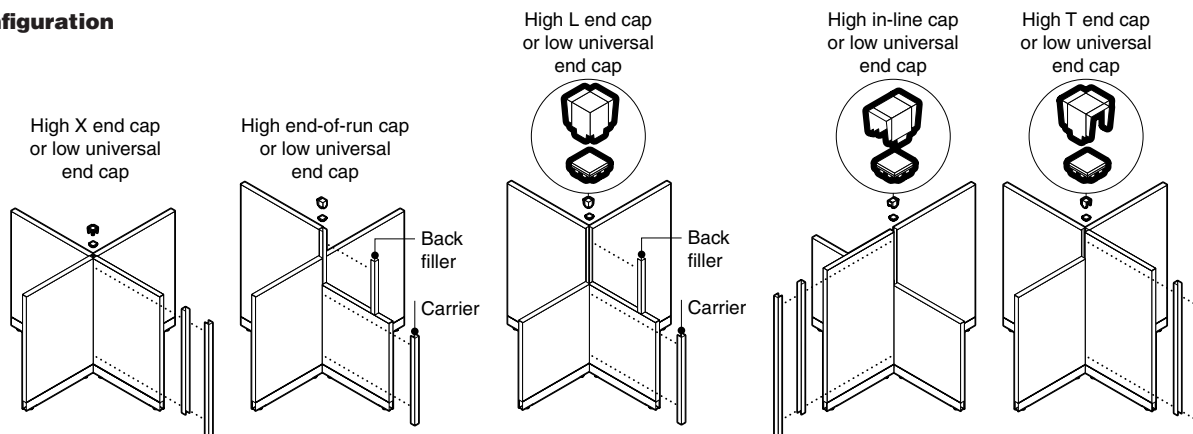

T-Configuration

Back filler required for cable routing capability and non-sequential assembly only.

Back filler required for non-sequential assembly only.

X-Configuration

In an X-configuration, carrier and vertical corner trim must be attached to one panel prior to installation of last panel.

Back filler required for cable routing capability only.

Back filler required for cable routing capability only.

Sliding Door Facts

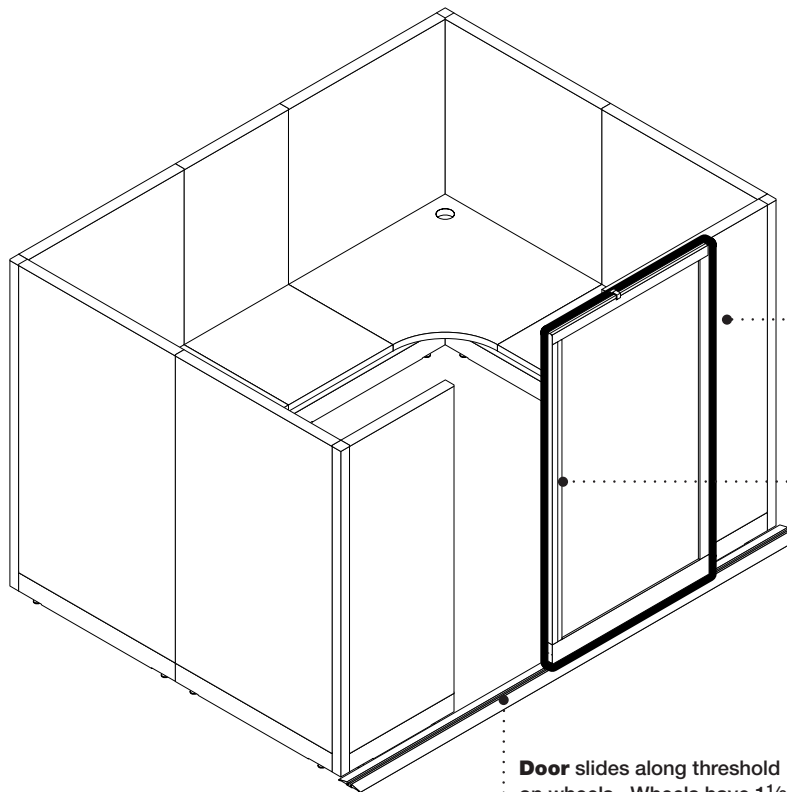

Specifying, pages 64–65

Sliding door is non-handed and can be added to workstations for additional privacy. Sliding doors are 1" thick, available 36"W and 42"W and are 66"H and 78"H.

Sliding door is not free-standing; it must mount to panels.

For Kick and Pathways Technology Wall, host panel must be same height as door. For Answer, host panel can be same height or taller than door height.

Sliding door frame and threshold are constructed from extruded aluminum and painted.

Door handle is integral and is ADA compliant.

Door slides along threshold on wheels. Wheels have 1½" adjustment for installation on uneven floors. Threshold is ADA compliant.

Sliding door can be specified with lock option. Specify lock cylinder and key separately.

Kick Sliding Door

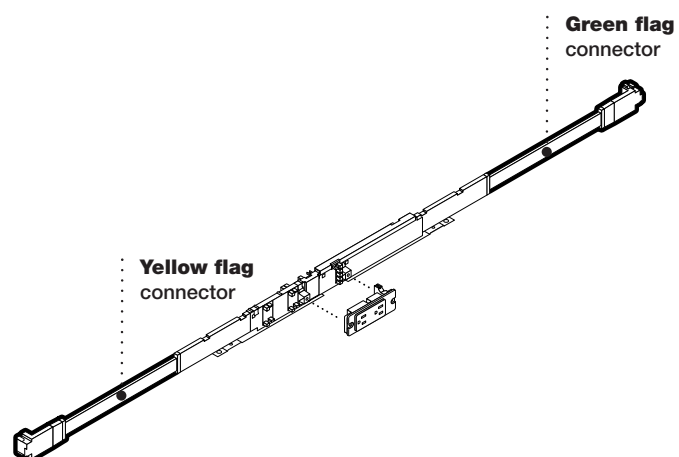

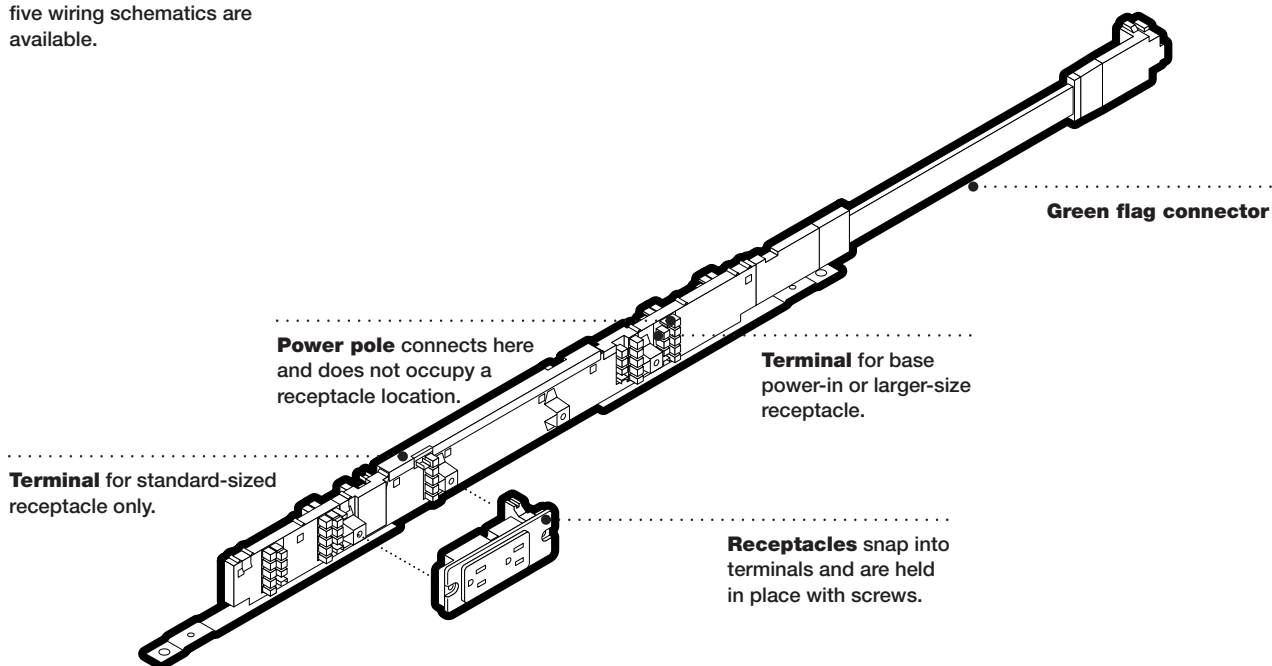

Frame is painted in 4798 Sterling. Door panel is made of ribbed, translucent plastic. Attachment hardware ships standard and attaches to Kick panel.

Universal Sliding Door

Frame is available in a variety of colors. The door panel is standard in ribbed, translucent plastic. Clear tempered glass and white laminated glass are available as options. Attachment hardware ships standard and attaches door to Kick, Answer, or Pathways Technology Wall.

Powerway Facts

Powerways that are installed in the panel base cavity allow power to be distributed wherever panels go. They are concealed when properly installed. All five wiring schematics are available.

Kick panels that are 24"W use a double whip powerway with one green end and one yellow end connector.

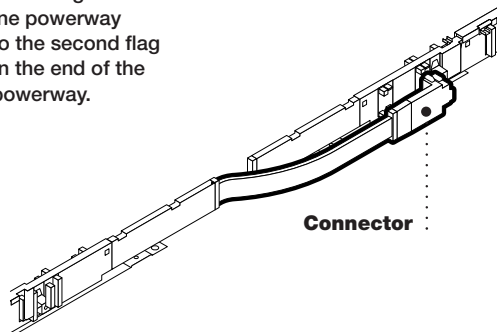

All the components in an electrical distribution network must use the same wiring schematic. Components are color coded and keyed to make it impossible to connect mismatched parts.

All Steelcase electrical systems are designed in compliance with the National Electrical Code (NEC) and Canadian Electrical Code (CEC) to function as a multi-wire branch circuit. Installations should be made in accordance with the NEC or CEC provisions for multi-wire branch circuits.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper installation of electrical equipment. Chicago, New York City, and Los Angeles have special requirements.

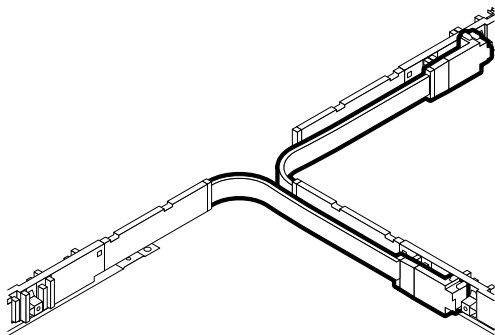

Straight connection is formed when a flag connector from one powerway attaches to the second flag terminal on the end of the adjacent powerway.

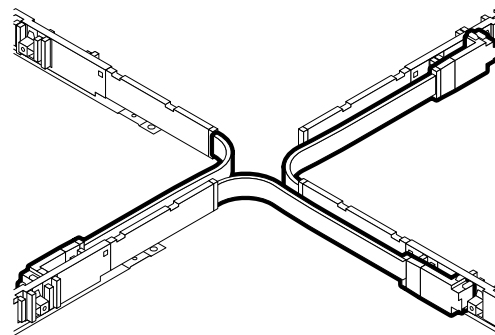

L-connection is formed when flag connector turns to left or right.

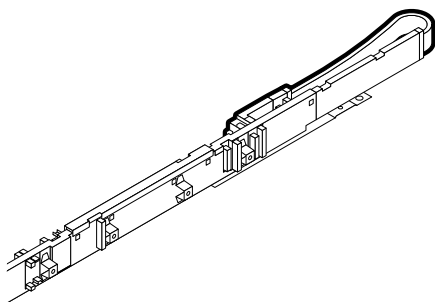

T-connection is formed by two flags that make right turns.

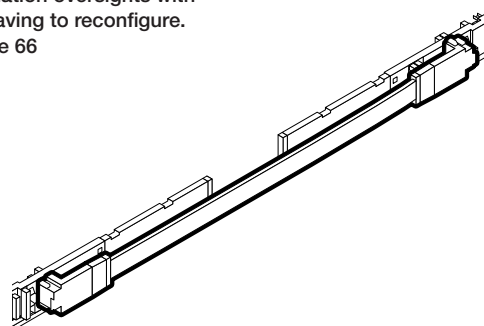

X-connection is formed by three flags that make right turns.

End-of-run is terminated by folding the last flag back and connecting it to its own power block flag terminal.

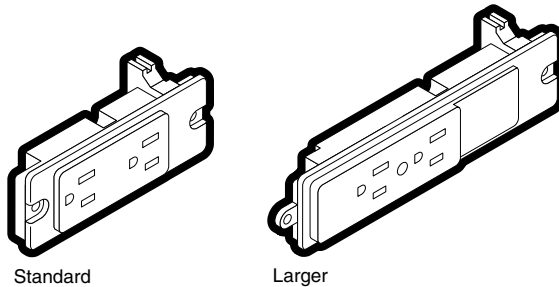

Panel-to-panel powerway connector can be used with powerways that are 30"W and wider to create a power link where no flag is available. It also can be used to correct planning and installation oversights without having to reconfigure.
▶ Page 66

Receptacle Facts

Receptacles are ordered separately and installed in the field in knockout opening. They plug into terminals on a powerway and are secured with screws. Receptacles are designed to link to a specific circuit.

 Specifying, page 67

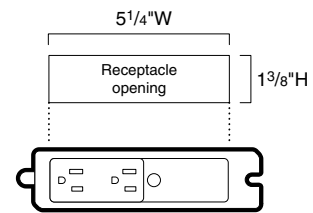

Standard

Larger

All receptacles are duplex (two outlets) and are available in two sizes—standard and larger—and two versions—15-amp and 20-amp. Specific lines may be limited to and fit only in specific receptacle locations in the base.

Smaller-size openings of the base cover house only standard-size receptacle.

Larger-size opening in the base cover in 36"W through 60"W panels house larger-size duplex receptacle with two outlets. The larger opening is always in the right-hand position.

Numbers printed on the receptacles indicate the line number. Label on receptacle indicates which circuit the receptacle connects to, so the user can control which devices are on specific circuits.

With the 3-circuit separate neutral system, these designations are with letters A, B, or C as compared to 1, 2, 3, or 4 in the other systems.

Specific circuits are accessed through the powerway by installing the appropriate receptacle in the receptacle location. All five wiring schematics are available.

Standard

3-Circuit, Shared

3-Circuit, Separate Neutrals

3+D

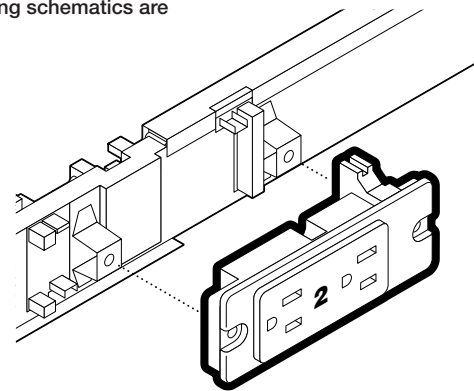

3I+1

2+2

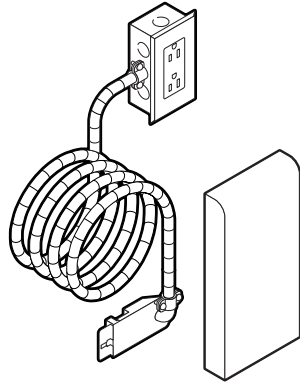

Larger

All the components in an electrical distribution network must use the same wiring schematic. Components are color coded and keyed to make it impossible to connect mismatched parts.

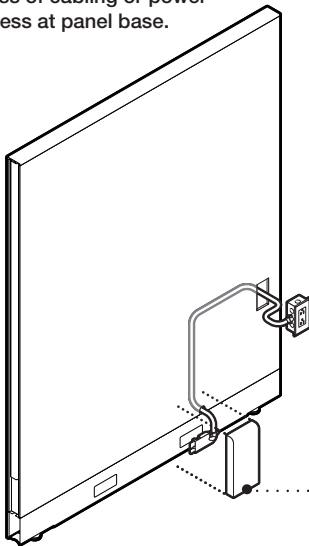

Integrated Power and Communication Facts

Power and communication components can be installed in holes cut onsite in any Kick tackable acoustical panel. Each component can be accessed from one side of the panel only.

Power receptacle connects to panel powerway at any powerway receptacle access location and accesses line 1 only. Power receptacle can be specified to function with any of the five Kick powerway wiring schematics. Component complies with New York City requirements for a field-installed power unit.

Two holes must be cut into the panel surface—one for the component and one for the egress of cabling or power harness at panel base.

Shroud, included with power receptacle and communication module, conceals the egress of communication cables or power harness that exits from the bottom of the panel skin.

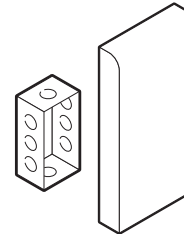

Power harness connects to panel powerway at receptacle location in base cover.

Communication cables enter base cavity underneath base trim.

Integrated Power and Communication Facts

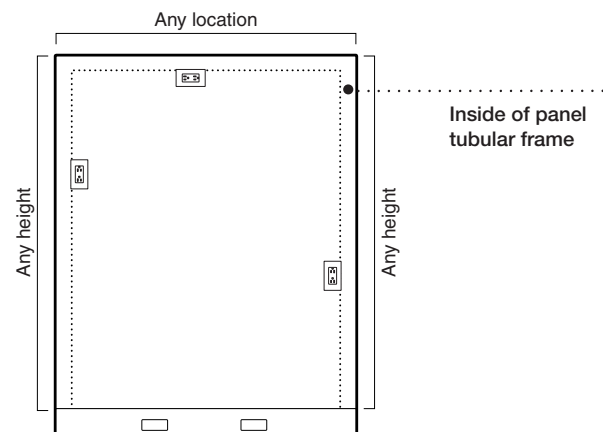

Specifying, page 68

Junction box accommodates customer-supplied voice/data jacks and trim plate. Communication module can be used for power in Chicago, where local electrical code requires that power in the panel base and the harness bringing power to worksurface height must be hardwired in the field.

Power and communication components are field-installed to the inside of the panel tubular frame at any user-specified location.

Power receptacle includes three receptacles, each with trim plate. Communication module includes communication housing. Customer must supply trim plate and voice/data jacks for communication module.

Power and Cable Pole Facts

 Specifying, pages 69–70

Junction box, at the top of the power pole, encloses the hardwire connection to the building's electrical service.

Power poles bring building power from the ceiling to the powerways in the base cavity of panels. They can also be used to run cables into the top cap or into the panel base cavity. All five wiring schematics are available.

Trim conceals power harness and cables routed to the base of the panel.

Knockout

Flag connector attaches to either end of the powerway on 30"W to 60"W panels. Flag connector attaches to green end of the powerway on 24"W panels.

Hanger bar secures the top of the pole to the ceiling grid.

Ceiling trim plate

Cable poles provide a space to route cables from the ceiling to the high top cap or base cavity of a panel.

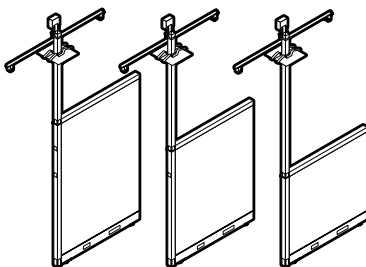

Knockouts allow data distribution in change-of-height conditions.

Retainer attaches to the end of a panel with screws that attach below the top cap. Panel remains undamaged so power and cable pole can be removed and relocated later.

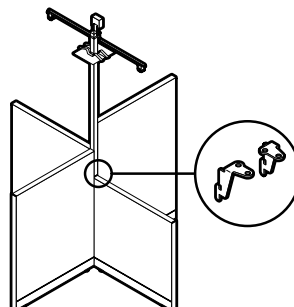

All the components in an electrical distribution network must use the same wiring schematics. Components are color coded and keyed to make it impossible to connect mismatched parts.

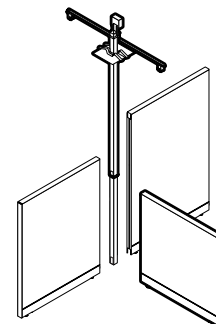

Height of the pole must correspond with the height of the panel it is attached to so that the pole will connect under the top cap. Adjacent panels can be lower. Ceiling heights up to 10'4" can be accommodated.

Power and cable pole packages ship with one left-hand and one right-hand corner change-of-height connector. A separate COH package may be required in certain X configurations. See assembly direction 93-9504745 for more information.

In T configurations, height of power and cable pole must correspond to the height of the center panel.

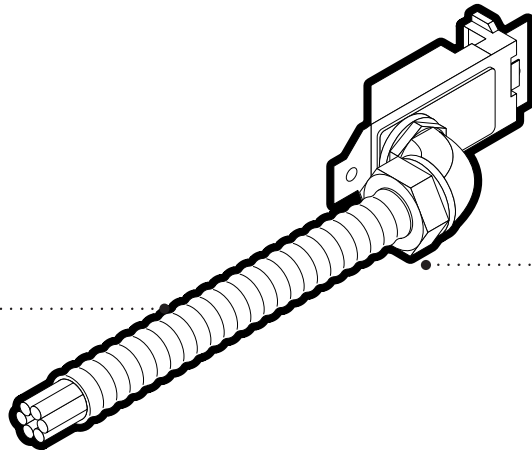

Base Power-In Facts

Base power-ins are field installed and connect the panel electrical system to the building power source. All five wiring schematics are available.

 Specifying, page 71

Conduit is flexible and houses wires for 3 or 4 circuits. Conduit connects power-in to building's power source. Conduit leads must be hardwired to the building wiring by a qualified electrician or engineer.

Connector plugs into the appropriate powerway terminal.

Right-angle elbow helps position the conduit close to the panel.

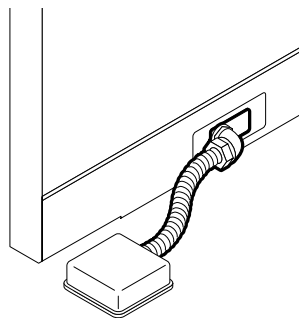

Power-ins are UL listed and CSA certified. Local electrical codes vary. Consult a qualified electrical contractor or engineer for proper installation of electrical equipment.

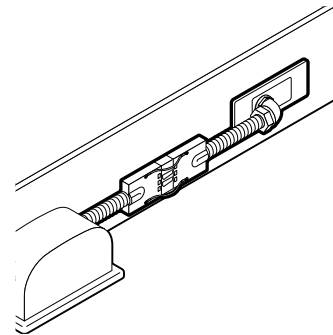

All the components in an electrical distribution network must use the same wiring schematic. Components are color coded and keyed to make it impossible to connect mismatched parts. Building power source can come from the floor, wall, or column.

Power-in brings power to panel run by connecting to a designated receptacle location on either end of the powerway. Power-ins fit standard-size receptacle openings if the green end of the powerway is located behind the receptacle opening.

Breakaway base power-in is mandated for use in health care occupancies in the State of California by the Office of Statewide Health Planning and Development Organization (OSHDP).

With 50 pounds of pressure, the connection will come apart to separate live electrical current in the event of panel movement. Breakaway power-ins fit duplex-or triplex-size receptacle openings.

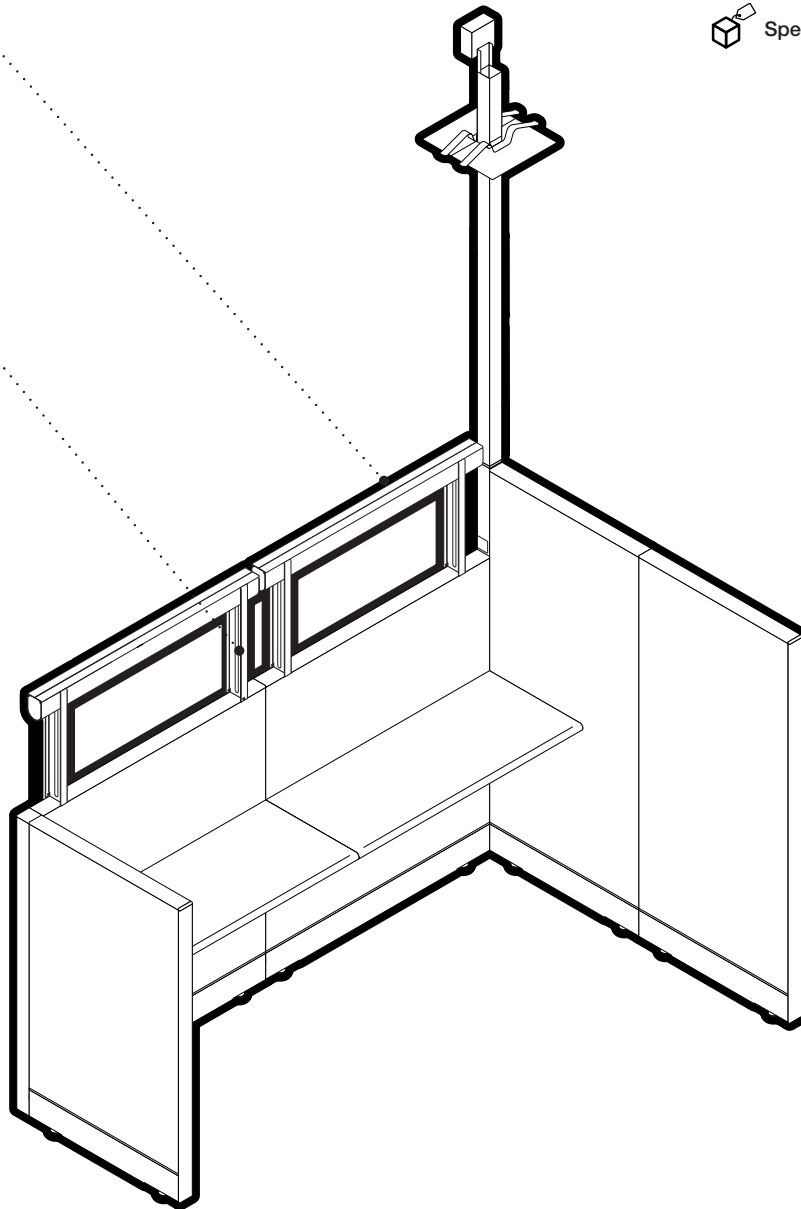

Tip: This product is not available in Canada.

Data Duct Facts

Data duct has capacity to hold 60 CAT 5 cables. Data duct manages data and communication cables only.

 Specifying, page 72

Trestle attaches to horizontal slots under top cap. Only low top caps can be used with trestle.

Data duct with trestle can be applied only as follows:

Panel Height	Data Duct Height (above panel)
42"	0" 12"
54"	0" 12"
66"	0"

Data duct width should correspond to panel width.

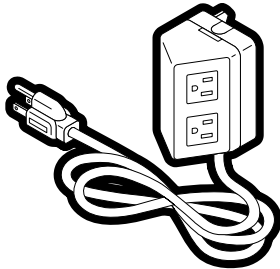

Worksurface-Height Power and Communication Facts

Worksurface-Height
Power and Communication
Facts

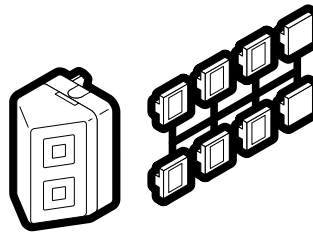

Specifying, page 73

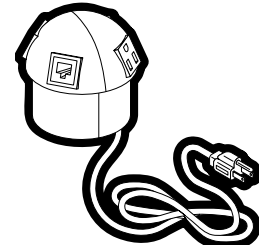

Power and communication can be accessed at or near worksurface height by using panel- or worksurface-mounted receptacles, panel- or worksurface-mounted communication modules, or work-surface-mounted power and communication sphere.

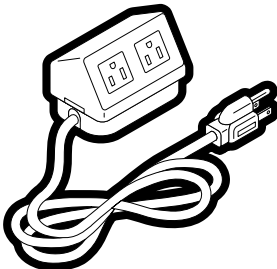

Panel-mounted receptacle

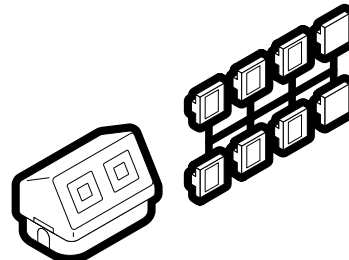

Panel-mounted communication module

Worksurface-mounted power and communication sphere

Worksurface-mounted receptacle

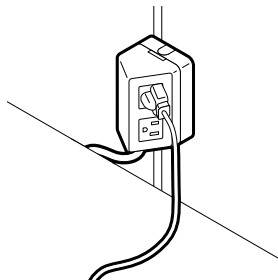

Worksurface-mounted communication module

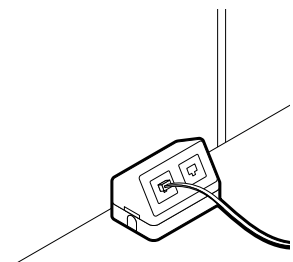

Grommet

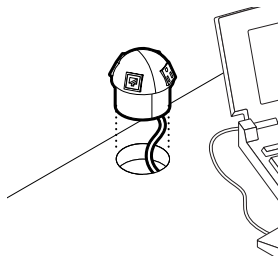

Panel- and worksurface-mounted receptacles come in packages of three. Each has a duplex receptacle, a nine-foot cord, and a three-prong plug.

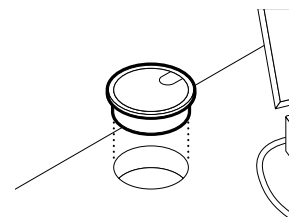

Panel- and worksurface-mounted communication modules come in packages of three. Each contains face plates to accommodate customer-supplied voice/data jacks.

Worksurface-mounted power and communication sphere contains two simplex electrical outlets, face plates to accommodate customer-supplied data jacks, a six-foot cord, and a three-prong plug.

Grommets are available in packages of 10 to finish exposed edges of field-installed openings in the worksurface for vertical cable routing. Grommets are black plastic.

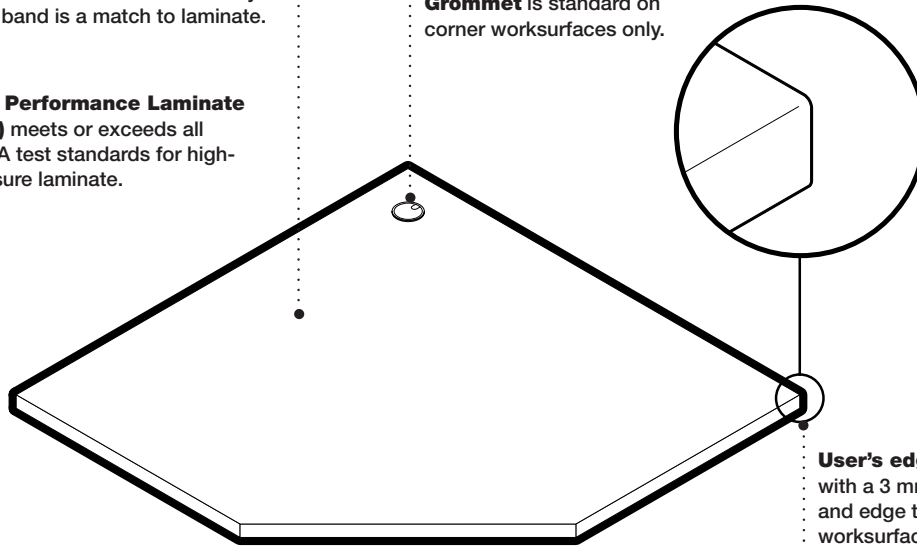

Worksurface Facts

Worksurface has a wood core with True Performance Laminate. Vinyl edge band is a match to laminate.

True Performance Laminate (TPL) meets or exceeds all NEMA test standards for high-pressure laminate.

Grommet is standard on corner worksurfaces only.

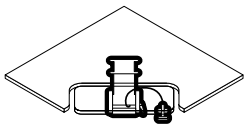

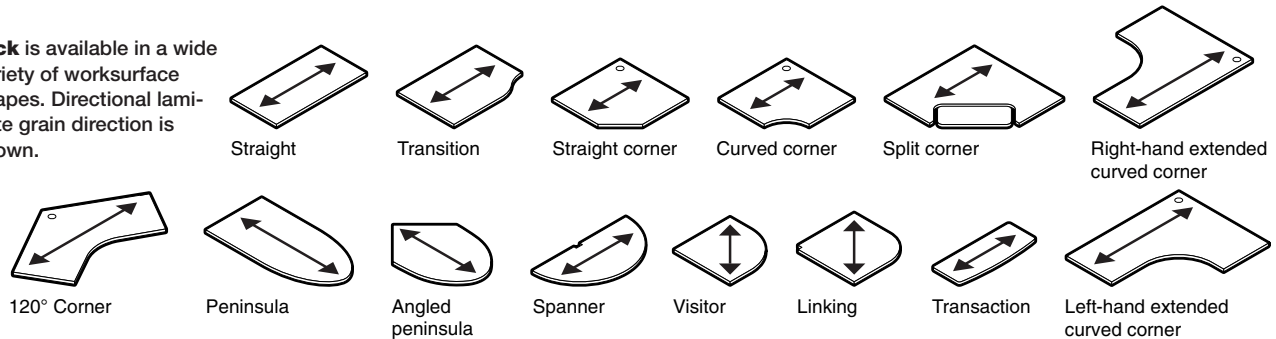

Specifying, pages 75–88

Shipping

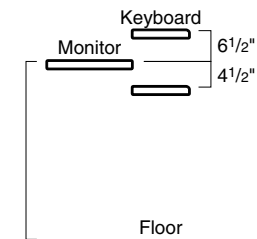

Palletizing streamlines unloading and staging of worksurfaces. Identical worksurfaces ordered on the same line item are packed on pallets containing 10–20 worksurfaces. Remaining worksurfaces are packed individually in cartons. If palletizing is not desired, order in quantities of nine or less per line item. For maximum unload efficiency, utilize pallet handling equipment at job site whenever possible.

User's edge profile is PVC with a 3 mm radius. Back edge and edge that joins to adjacent worksurface is 1 mm.

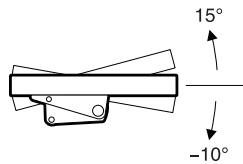

Kick is available in a wide variety of worksurface shapes. Directional laminate grain direction is shown.

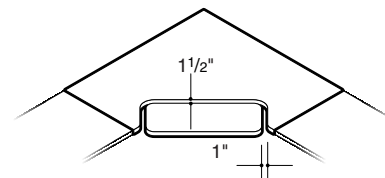

Release lever activates continuous adjustment of keyboard surface.

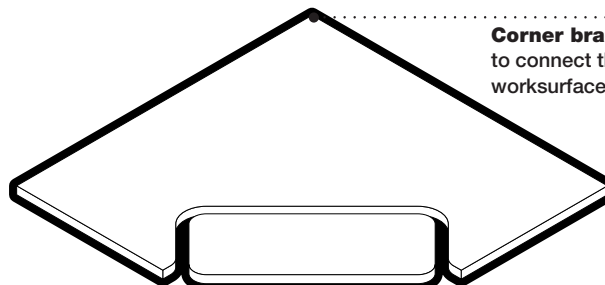

Keyboard shelf is supported by a single arm spring mechanism that allows it to adjust to positions up to 6 1/2" higher or 4 1/2" lower than the monitor worksurface.

Keyboard surface tilts with a range of 25°. Negative tilt is reduced at lower keyboard shelf heights.

One-inch space separates sides of the keyboard and monitor surfaces to prevent pinching. One and one half inch separates the back.

Corner bracket is included to connect the back corner of worksurface to panels.

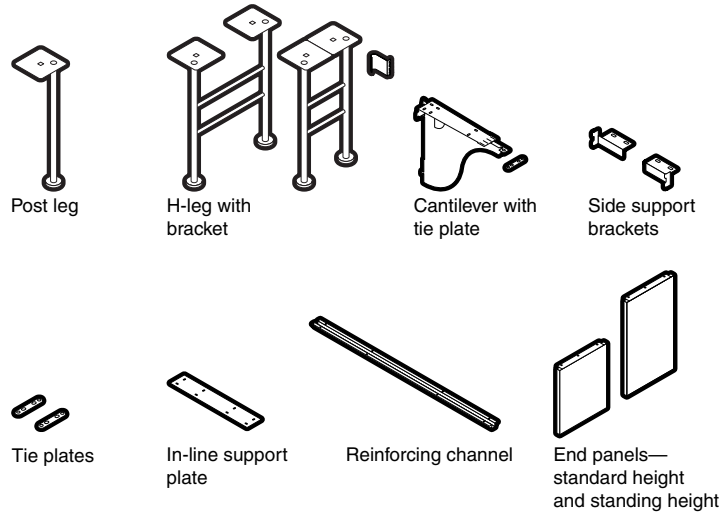

Worksurface Supports Facts

Worksurface Supports Facts

 Specifying, page 90

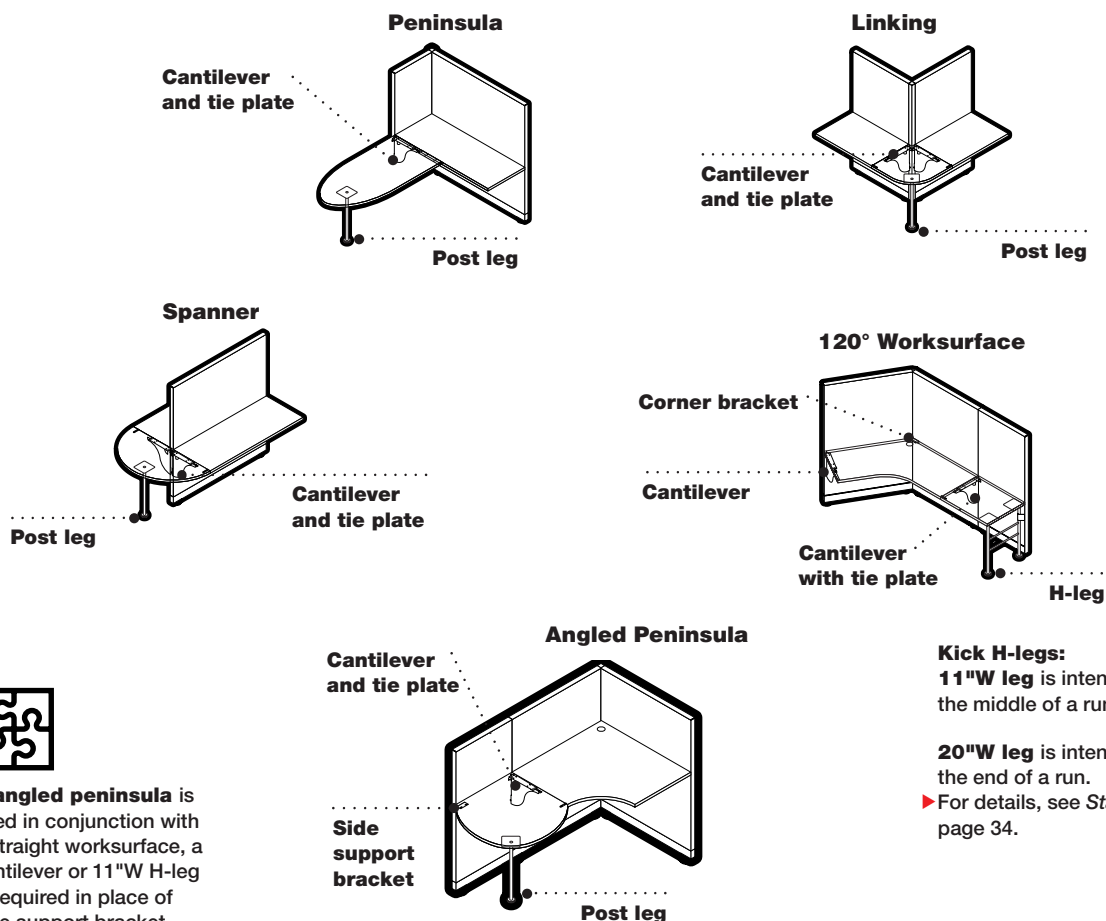

Supports are ordered separately and installed in the field. The following supports are available for use with Kick work-surfaces:

- Post leg
- H-leg
- Cantilever with tie plate
- Side support brackets
- Tie plates
- In-line support plate
- Reinforcing channel
- On-module end panel

Cantilever with tie plate works in left-hand, right-hand, or shared applications.

Recommended worksurface supports for some specific applications are shown below.

 Specifying, pages 75–88

If **angled peninsula** is used in conjunction with a straight worksurface, a cantilever or 11"W H-leg is required in place of side support bracket.

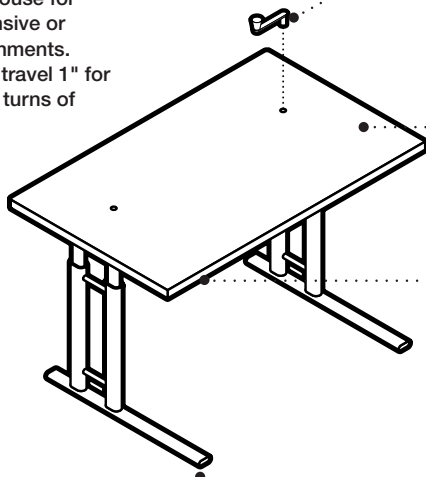

Kick H-legs:
11"W leg is intended to support the middle of a run.

20"W leg is intended to support the end of a run.

► For details, see *Stability Rules*, page 34.

Adjustable-Height Worksurface Facts

Crank-adjustable, adjustable-height work-surfaces support computers, keyboards, and mouse for users in task-intensive or high-churn environments. Worksurfaces will travel 1" for approximately 6.5 turns of crank handle.

Hand crank allows seated left- or right-handed users to raise or lower the monitor worksurface. Crank can be stored away when not in use.

Worksurfaces have a wood core with a True Performance Laminate surface.

User's edge profile is PVC with a 3 mm radius. Back edge and edge that joins to adjacent worksurfaces are 1 mm and finished with vinyl (PVC). PVC edge color is an exact match to laminate.

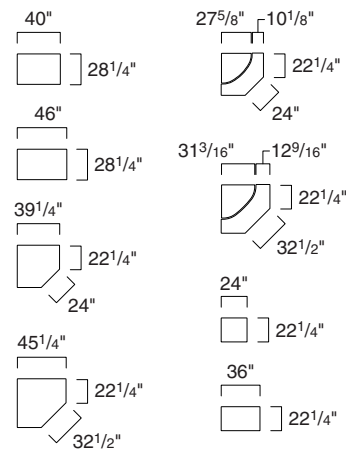

Moving worksurfaces can collide with other components. Don't install overhead storage, desk-height power, communication outlets, or desk accessories in the path of adjustable-height worksurfaces.

Leveling glides adjust to install unit on uneven floors.

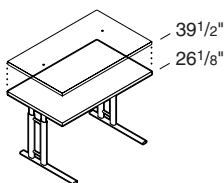

Specifying, pages 93–94

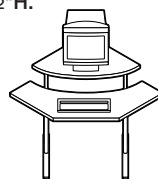

All adjustable-height work-surfaces support a total of 150 pounds. If the unit has two surfaces, the monitor surface will support up to 130 pounds and the keyboard surface will support up to 20 pounds.

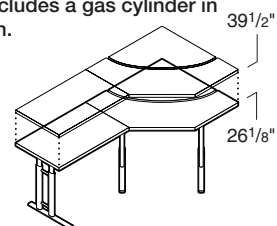

Single worksurfaces are one piece to accommodate single or multiple monitors and a keyboard. You can adjust the height of the worksurface from 26 1/8"H to 39 1/2"H with the crank mechanism. *Tip: Adjustable-height mechanism requires assembly and attachment to worksurface.*

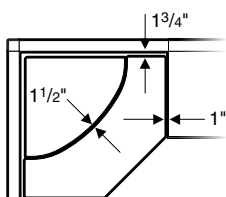

Bi-level worksurfaces are two nearly equal pieces—a monitor worksurface, which can accommodate a 21" monitor, and a large keyboard worksurface. Use the crank mechanism to adjust the height of the monitor worksurface and the height of the keyboard worksurface. These two adjustments are completely independent of each other and range from 26 1/8"H to 39 1/2"H.

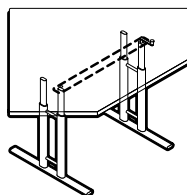

Extension link worksurfaces connect to corner worksurfaces to provide the user with additional space. An extension link worksurface attaches to a single or bi-level corner worksurface and moves up or down in tandem with the corner worksurface. Extension link worksurface includes a gas cylinder in the rear column.

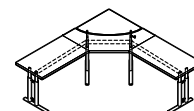

At least a 1 3/4" gap must separate backs of a worksurface and panels to accommodate cables and prevent pinching. A 1" gap separates sides and adjacent furniture. There is also a 1 1/2" space between the keyboard and monitor surfaces on units with two surfaces.

Crank drives worm screw in leg of straight single and corner single worksurfaces to raise or lower worksurface. Chain connects to height-adjustment mechanism in adjacent leg so it moves up or down in sync with crank leg. Crank handle can be used in either leg.

Chain connects height-adjustment mechanisms on extension link worksurfaces and adjacent worksurfaces to allow user to adjust all worksurfaces simultaneously with one turn of the crank.

Chain and chain housing extend downward 2 1/2" from the bottom of the worksurface and will interfere with file/file and box/box/file mobile pedestals when worksurface is in the lowest position.

Bin and Shelf Storage Accessory Facts

Bin and Shelf Storage
Accessory Facts

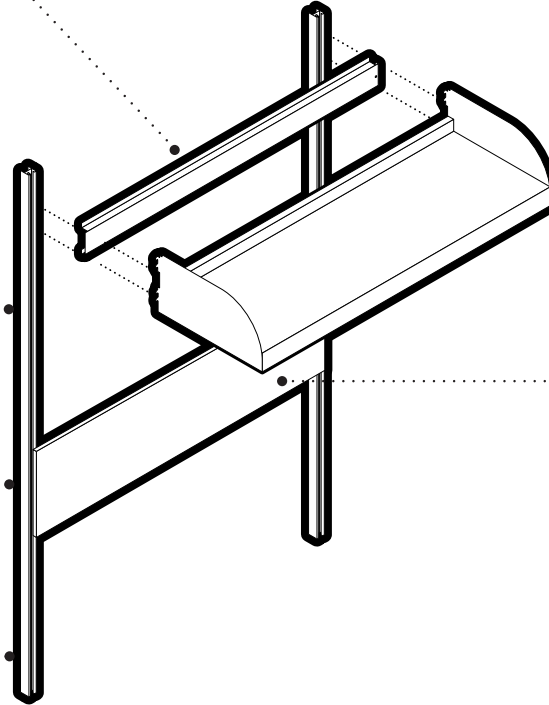

Specifying, page 99

Horizontal brace is available to reinforce vertical wall channels that support storage bins and shelves that are attached to walls. Width of brace must match width of shelf or storage bin. Components that are 48"W or less do not require a horizontal brace.

Wall channels are available to attach shelves, bins, and tackboards to walls.

Components attach at 1" increments, but screws block some slot locations.

Wall channel can be positioned on wall at the height needed.

Fabric-covered tackboards are available for use with wall channels.

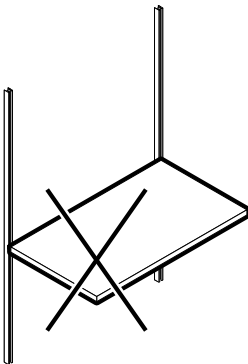

Field install on the following:

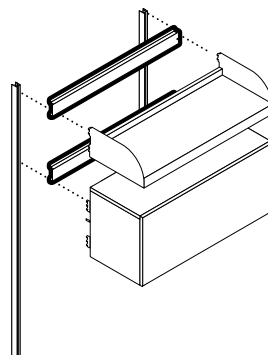

- Concrete walls: Hilti® type anchors.
- Drywall or plywood: 5/8" thick, Toggler® type 3/16" wall anchors.
- Steel and wood studs: #10 sheet metal or wood screws of appropriate length.

Anchors must be used in each screw hole location of the wall channel.

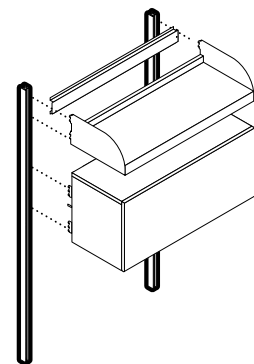

Attaching worksurfaces to wall channels is not possible.

Horizontal brace is required for each storage component that is wider than 48". The brace should be positioned at the top location of each bin or shelf on the vertical wall channel. Horizontal brace is also available in 48"W to be used in applications where the strength of the wall is questionable.

Limit to two bins or shelves for each pair of wall channels.

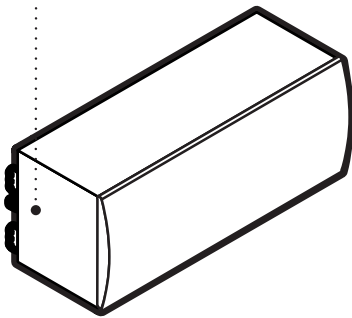

Bin, Shelf, and Upmount Bin Bracket Facts

Upmount bin bracket is available in a variety of widths to upmount overhead storage bins to 42"H, 48"H, and 54"H panel walls. You cannot hang more than two upmount bin brackets side by side. Bin bracket also provides additional privacy.

 Specifying, pages 95–98

Bin and shelves are steel and ship ready to assemble. They do not require screws or fasteners. Once assembled, they can be moved without being taken apart.

Metal overhead storage bin (curved front)

Additional support for stability may be required when shelves and overhead storage bins are attached to panels. Counterbalancing loads on opposite sides of the panels increases stability.

► See *Stability Rules*, page 34

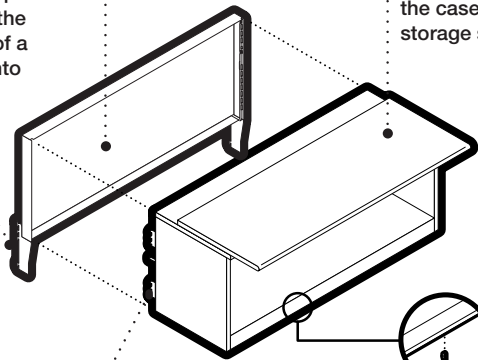

Upmount bin bracket should not be used with 66"H panels.

Steel support hooks on end supports insert into the slotted channel of a panel and lock into place.

Steel support hooks on end supports insert into the slotted channel of a panel, upmount bin bracket, or wall channel and lock into place with a safety catch.

Rear of upmount bin bracket, painted steel, encloses Kick overhead storage bins.

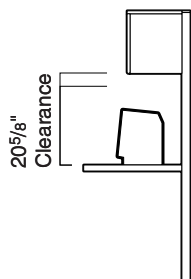

Metal overhead storage bin (flat front)

Lift-up doors open and close quietly with resilient plastic bumpers. When up, the doors rest on top of the case to provide more storage space inside.

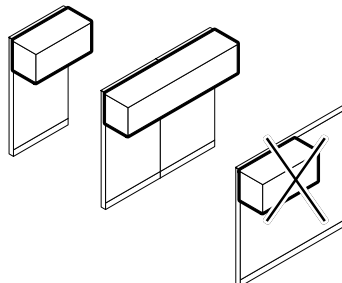

Lock(s) is standard on bins to secure the door(s). Lock is hidden underneath the door. Lock is standard keyed random. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site. Lock cylinders must be specified separately.

► *Lock and Keying Options*, page 548

Clearance between worksurface and bottom of overhead storage bin is 20⁵/₈" when storage unit is installed in the highest position on a 66"H panel.

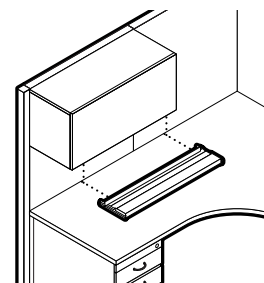

Width of overhead storage unit must match the width of the panel or panels that it is attached to.

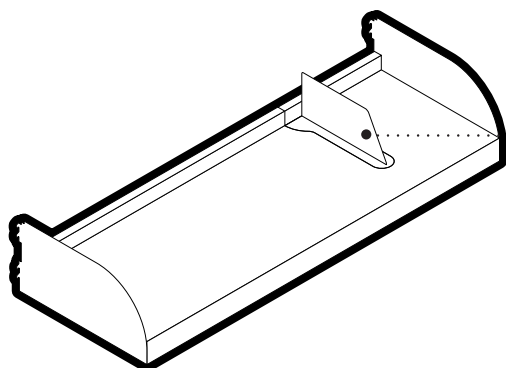

Shelf lights are available from Steelcase to recess into the bottom of Kick shelves and overhead storage bins.

► Pages 102–107

 Specifying, pages 95–98

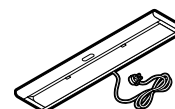

Metal half-height shelf

Adjustable divider is available as an option to subdivide shelf or overhead storage bin.

Laminate common shelf has a wood core and is covered with True Performance Laminate.

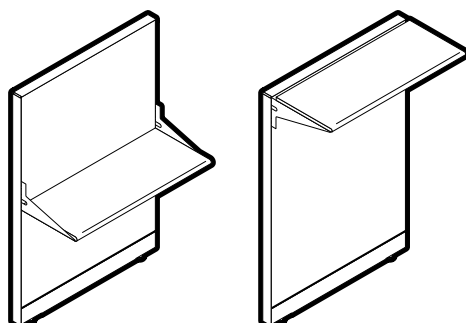

Laminate common shelf

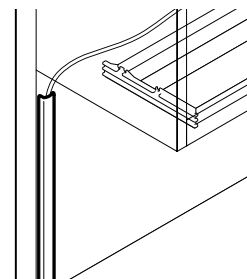

Underline task light's 3/4" profile makes it the ideal task lighting solution for wood laminate shelf. Underline task light includes the lamp, ballast, and 9' cord. Underline mounts flush to the bottom of wood laminate shelf using screws. Task light is field-installed. Spiral 9' cord option is designed to drop straight down from the fixture. This option is an aesthetic alternative to the traditional cord. Housing is 24"W and 3/4"H and is available in dark champagne, pewter, and black. For New York City, tool-free clips are required for the flush-mount applications within New York. Clips allow removal of Underline without use of a tool.

Laminate common shelf ships with steel support brackets. Support brackets hook into the vertical panel slots or wall channel and lock into place with a safety catch. Support brackets can be used in either orientation.

Vertical wire managers are available to conceal cords that are routed from light mounted beneath overhead storage.

► Page 108

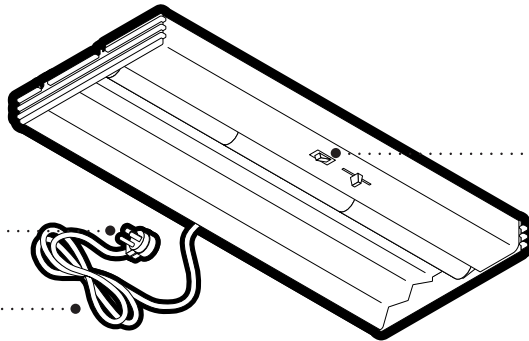

Lighting Facts

Shelf lights are available in three versions with different features, optics, and performance characteristics that match any application. Shelf light includes the lamp, ballast, and either a 9' cord with three-prong plug or daisy chain cords.

 Specifying, pages 102–108

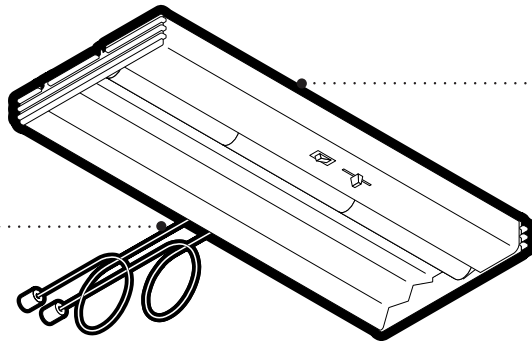

Plug is flat so it remains close to the receptacle.

9' cord with grounded plug is factory installed. Length is maximum allowed by U.S. National Electrical Code. Cord with circuit breaker is available to meet the requirements of the Chicago code.

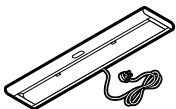

On-off switch is centered on the front edge of the shelf light.

Cord exits from the center of the back of the light.

Housing is painted black.

End cap cord managers, molded into the durable plastic end caps, allow you to route and manage excess cord.

Underline task lights $\frac{3}{4}$ " profile makes it the ideal task lighting solution for wood laminate shelf. Underline task light includes the lamp, ballast, and 9' cord. Underline mounts flush to the bottom of wood laminate shelf using screws. Task light is field-installed and pre-drilled holes are provided. Spiral 9' cord option is designed to drop straight down from the fixture. This option is an aesthetic alternative to the traditional cord. Housing is 24"W and $\frac{3}{4}$ "H and is available in dark champagne, pewter, and black. For New York City, tool-free clips are required for the flush-mount applications within New York. Clips allow removal of Underline without use of a tool.

Overhead cabinets and shelves provide a recessed area for shelf lights. They are not designed to conceal cords when daisy chaining.

Width	Lamp width	Lamp wattage	Replacement lamps
24 $\frac{1}{4}$ "	21 $\frac{3}{8}$ "	14 watts	F14T5\835
36 $\frac{1}{16}$ "	33 $\frac{2}{5}$ "	21 watts	F21T5\835
47 $\frac{7}{8}$ "	45 $\frac{1}{5}$ "	28 watts	F28T5\835

Plug configuration allows two shelf lights to engage adjacent outlets in one receptacle.

Energy-saving T8 lamps have triphosphor coating for balanced color and pleasing light.

Power drawn is approximately ½ amp.

Magnetic ballasts are available on Utility shelf lights. Tip: Magnetic ballasts can cause interference with computer monitors. An electronic ballast is recommended for shelf lights in offices where computers are used.

Electronic ballast that is roughly 30% more efficient than a magnetic ballast is available. Electronic ballasts eliminate fluorescent lamp flicker and computer screen interference.

Economizer electronic ballast cuts power use by 25% and emits 50% of the light output of a regular electronic ballast. It is available on Advanced and Standard shelf lights.

Electronic dimming control features **sliding switch**, which allows continuous-range dimming from 100% to 10% light output on Advanced shelf lights.

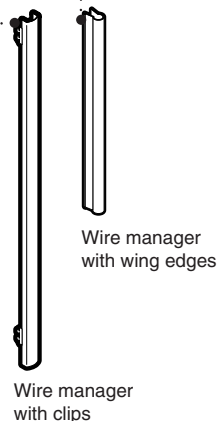

Bat-wing lens is available as an option on Utility shelf lights for applications where moderate improvement to light distribution of regular prismatic lens is required, and low cost is critical.

Wings along length of wire manager are captured by edge of skin or vertical trim to hold wire manager in place.

Wire manager snaps into the slotted channel of the junction.

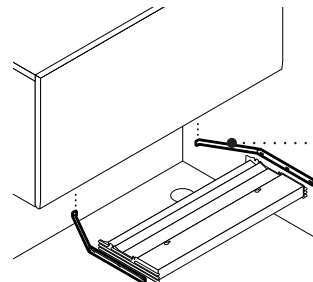

Wire managers conceal cords and cables that are routed vertically outside of the panels between the bottom of a shelf or overhead storage bin and a work-surface. Wire managers can also be used below the worksurface. Wire managers can be cut in the field to suit specific application.

► Page 108

Universal bracket allows shelf light to be installed without tools under most metal overhead storage bins and shelves. The bracket snaps into the end caps and then shelf light snaps into place.

Universal bracket

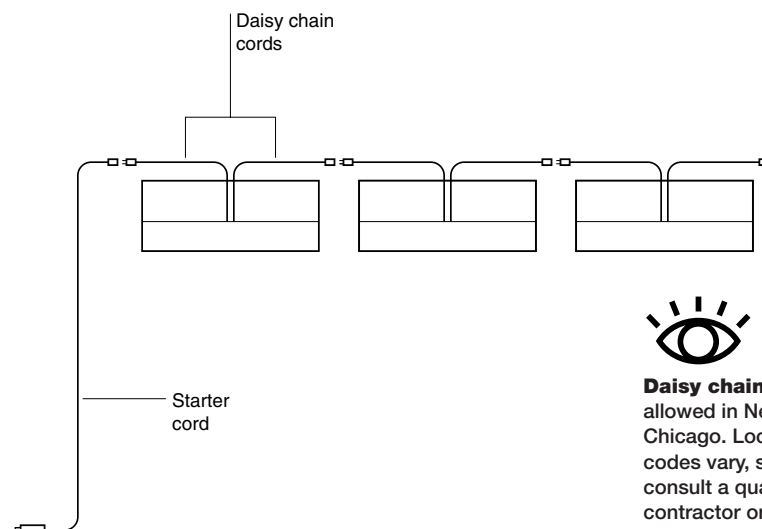

Daisy Chaining

Daisy chaining permits inter-connecting up to six shelf lights from a single power outlet.

Starter cord powers first light in a daisy chain and allows you to convert any daisy chain light for independent operation.

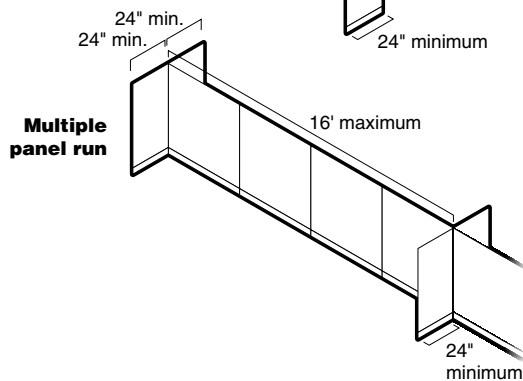

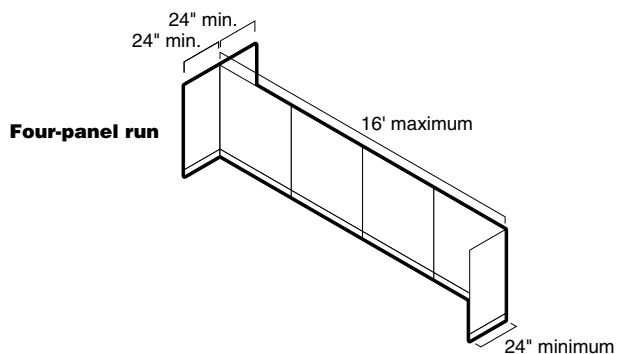

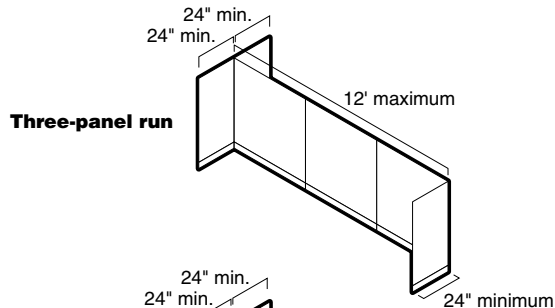

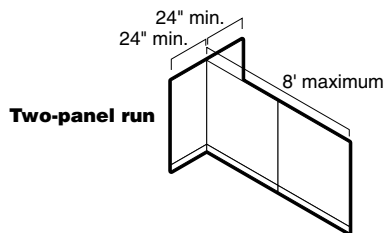

Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.

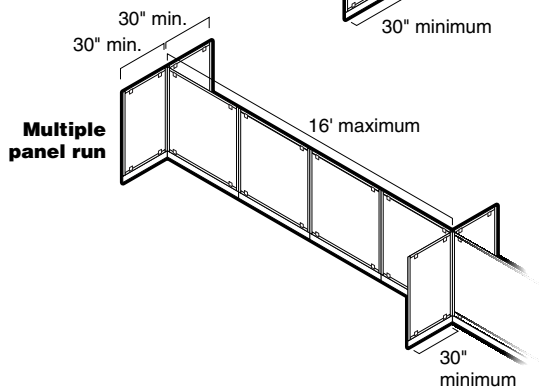

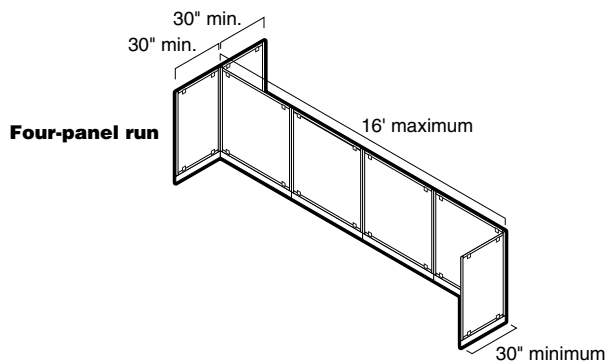

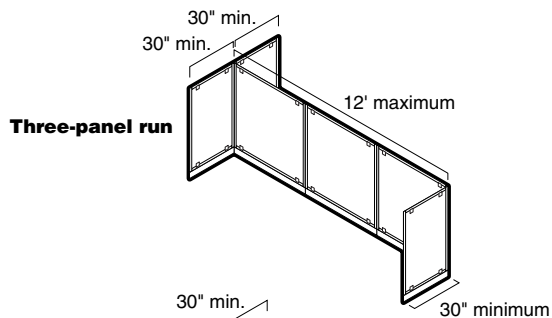

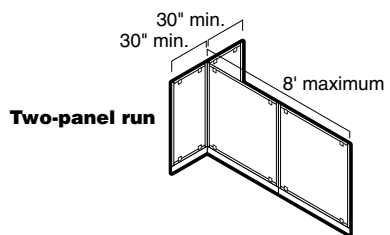

Daisy chaining is not allowed in New York City or Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Stability Rules

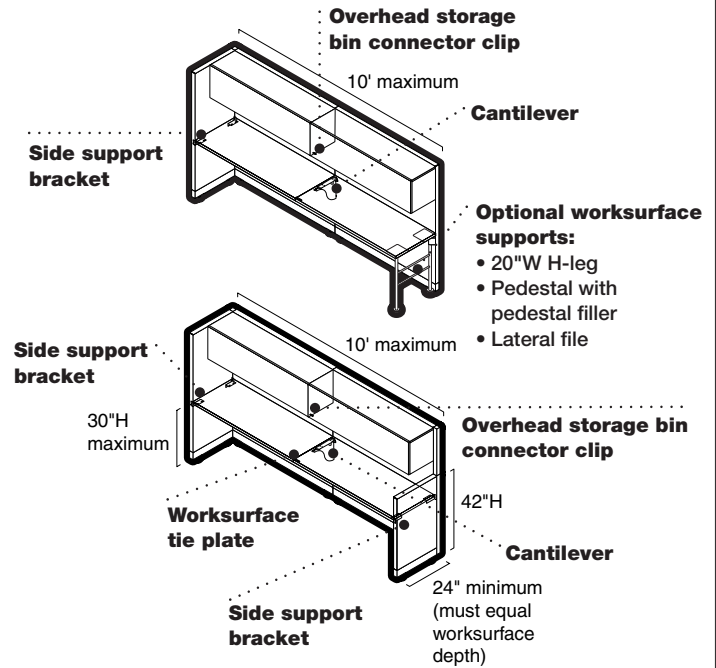

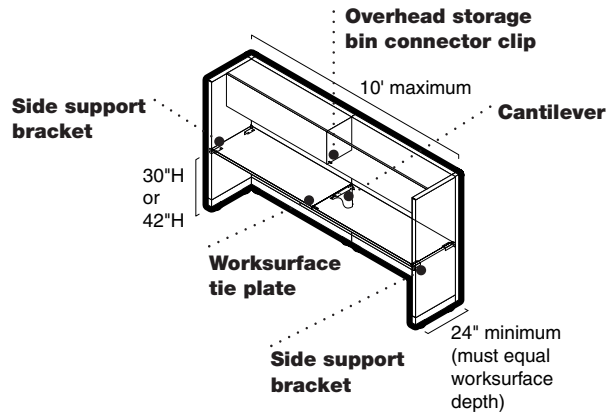

Tackable Acoustical Panels without Components

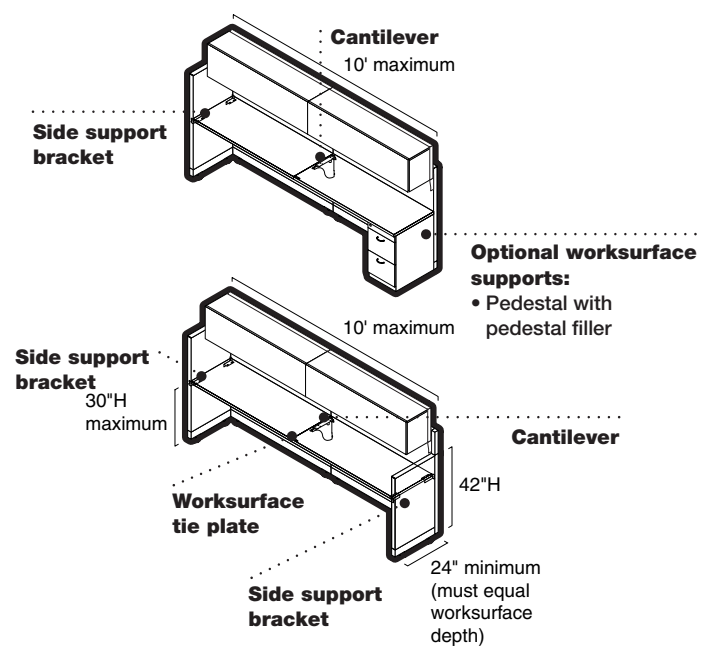

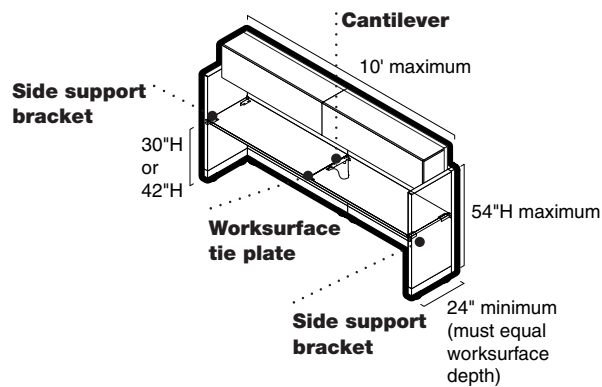

Panel Frames with Inserts without Components

Tackable Acoustical Panels and Panel Frames with Inserts Two-Panel Run with Supported Components

Tackable Acoustical Panels and Panel Frames with Inserts Two-Panel Run with Upmount Bin Bracket

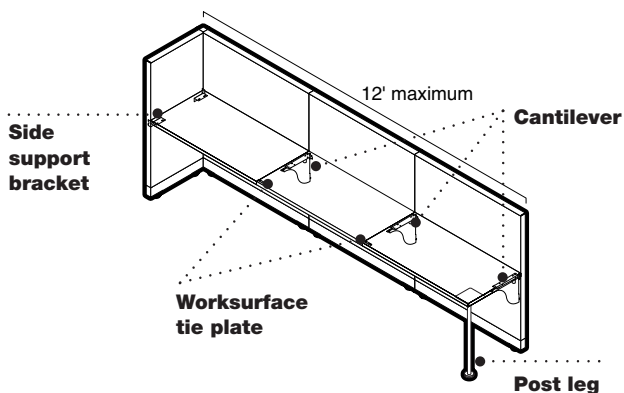

Upmount bin brackets cannot be used in three-panel runs or 120° panel configurations.

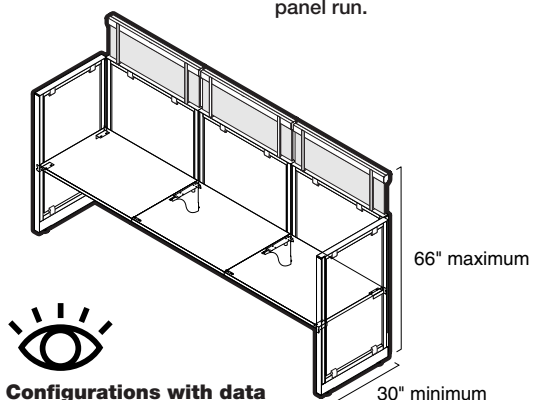

Kick overhead storage bins cannot support any load on top.

Stability Rules, continued

Tackable Acoustical Panels and Panels with Inserts Three-Panel Run with Supported Components

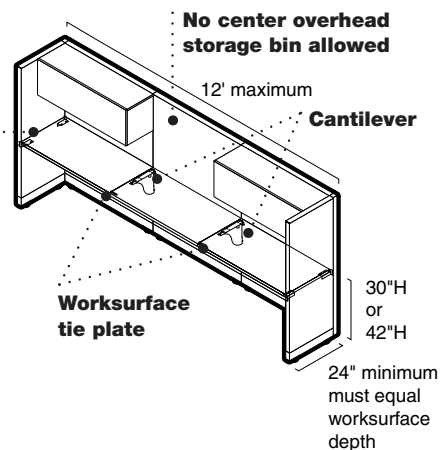

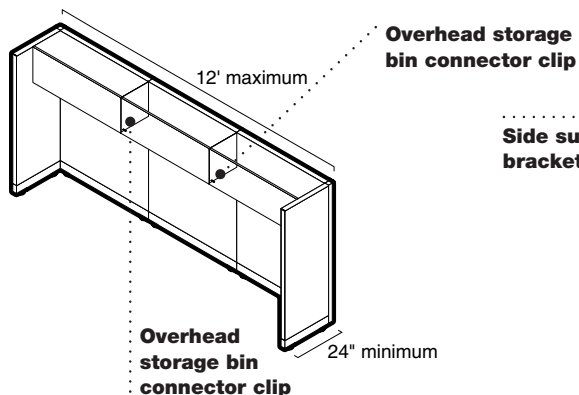

Upmount bin brackets cannot be used with three-panel run.

Configurations with data ducts and trestles must include 30" minimum return panels and a minimum of one hang-on component per panel.

Tackable Acoustical Panels and Panels with Inserts Three-Panel Run with Supported Components

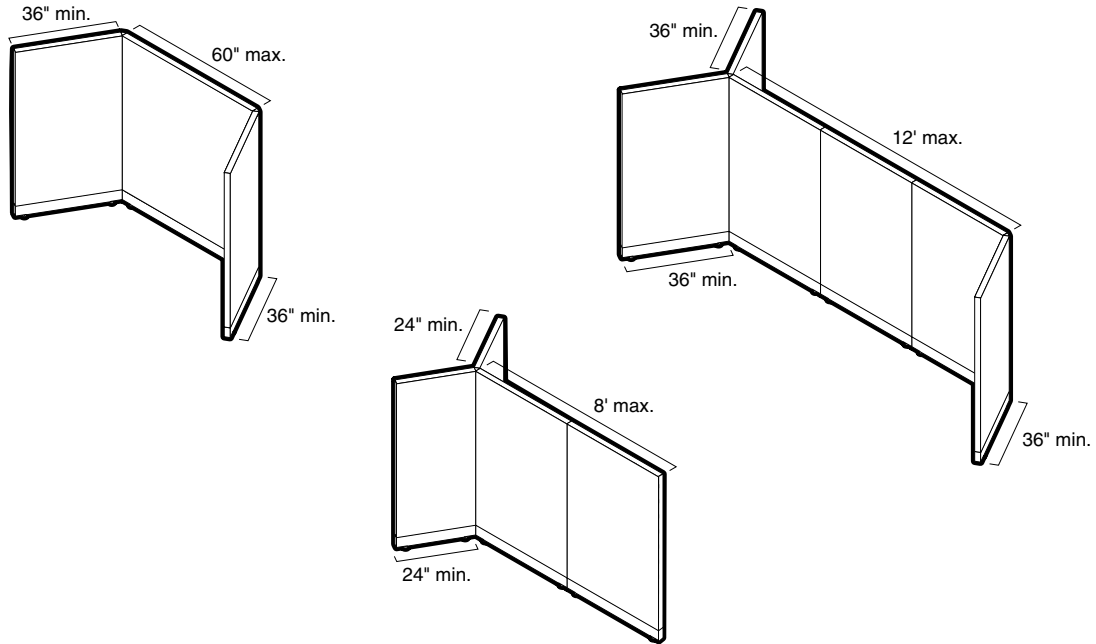

Optional work-surface supports
at 30"H:
• 20"W H-leg
• Pedestal with pedestal filler
• Lateral file

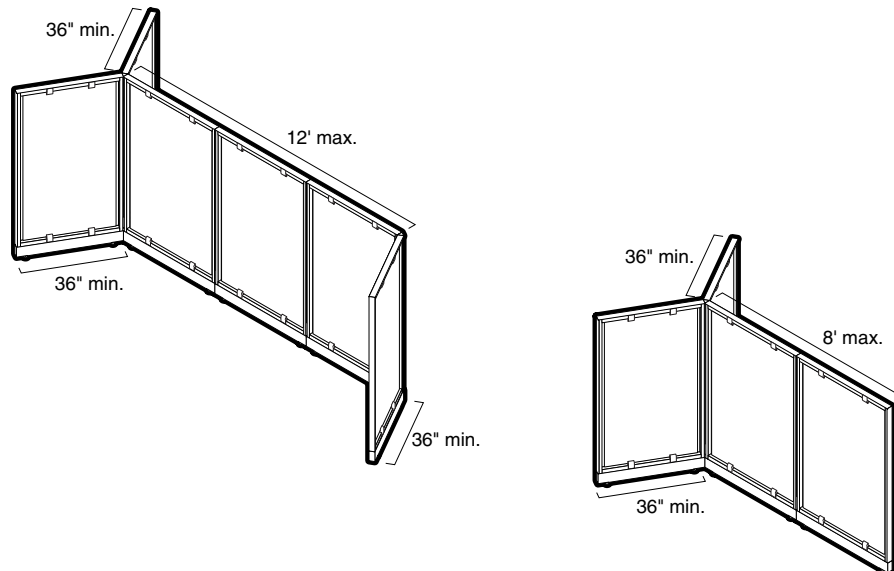

Kick overhead storage bins cannot support any load on top.

panel configurations.

Three Panel 120° Connection with 120° Worksurface and up to One Additional Component

Loads must be counterbalanced
in this application.

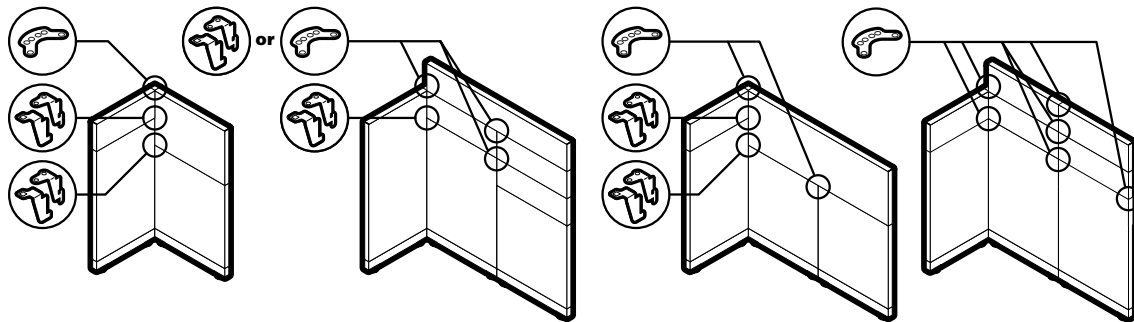

Worksurface needs to be supported
to floor or application needs to be
counterbalanced.

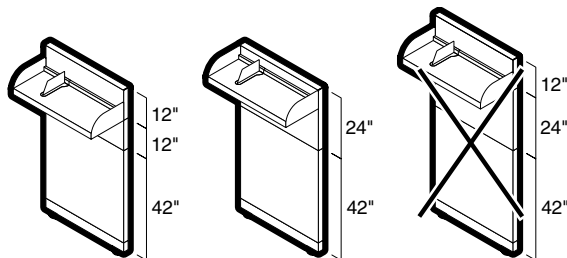

Panels and Panel Stackers

Base panels can accept one, two, or three stackers, up to a total height of 78". See below for additional rules and exceptions.

Universal or change-of-height connectors must be used at top of base panel and each stacker wherever possible to increase stability.

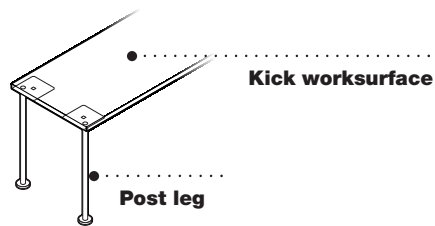

All stackers are load bearing, but load cannot be mounted above 66" height.

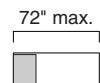

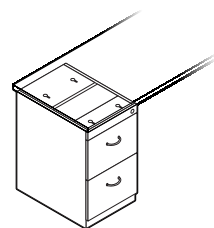

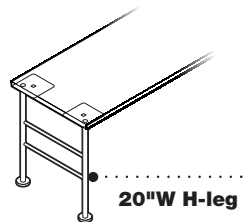

Freestanding Guidelines

The following section on **free-standing worksurfaces** gives some guidelines to be used with common freestanding configurations. Consult your local dealer or Steelcase representative prior to deviating from these guidelines.

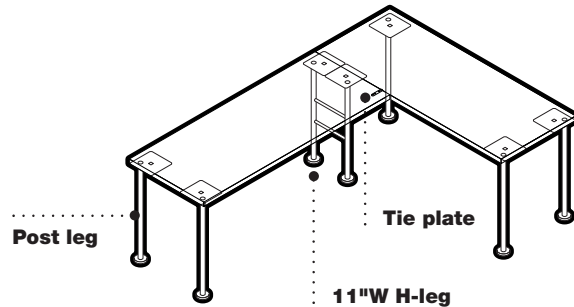

There are several ways to support the ends of a freestanding worksurface:

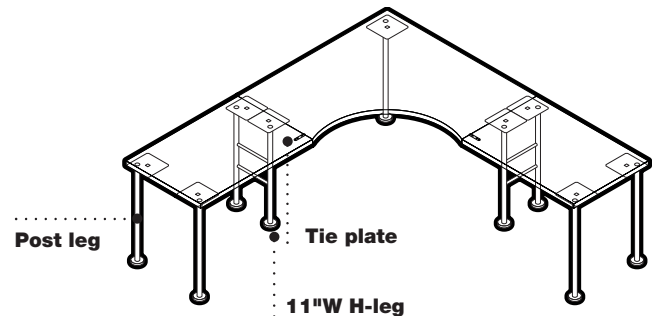

With post legs

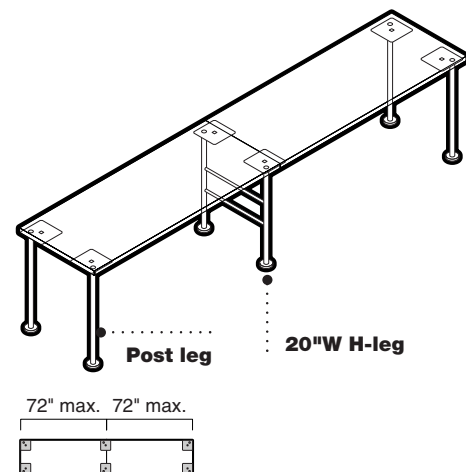

With a 22"D or 28"D pedestal

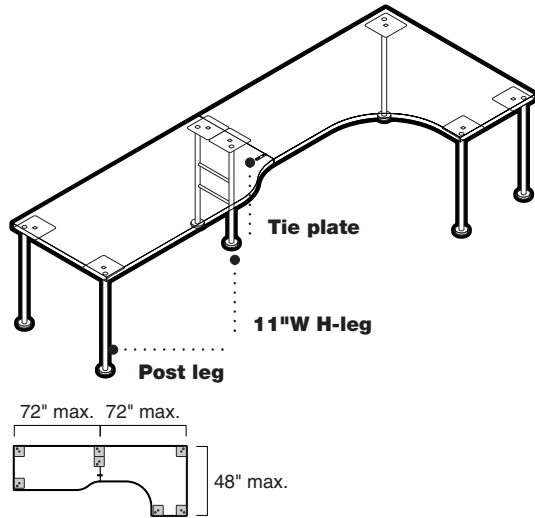

Combined worksurfaces can give each other support when joined with an 11"W H-leg and tie plate.

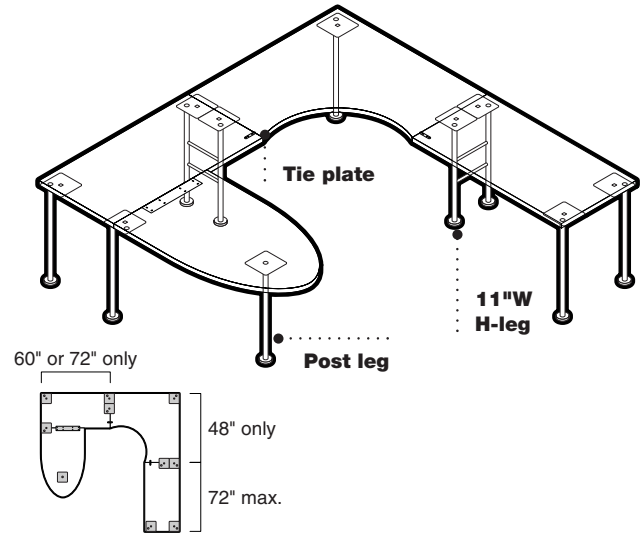

Corner worksurface attached to adjacent worksurfaces requires 11"W H-leg. Tie plate is recommended to align worksurfaces. This application only good for 48"W corner worksurfaces. The 36"W and 42"W corner worksurfaces do not meet ADA requirements.

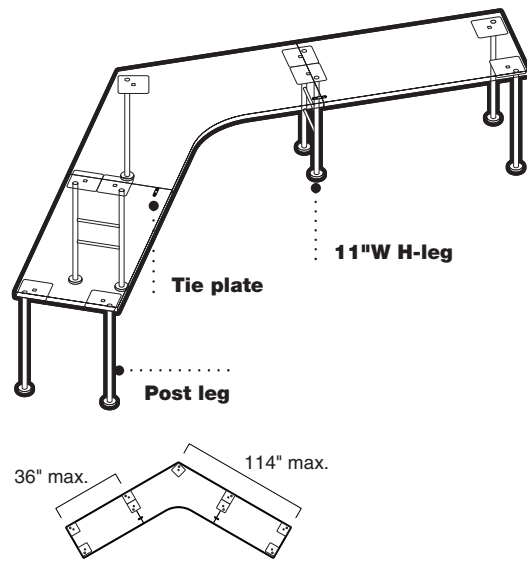

20"W H-leg can support adjacent worksurfaces up to 72"W.

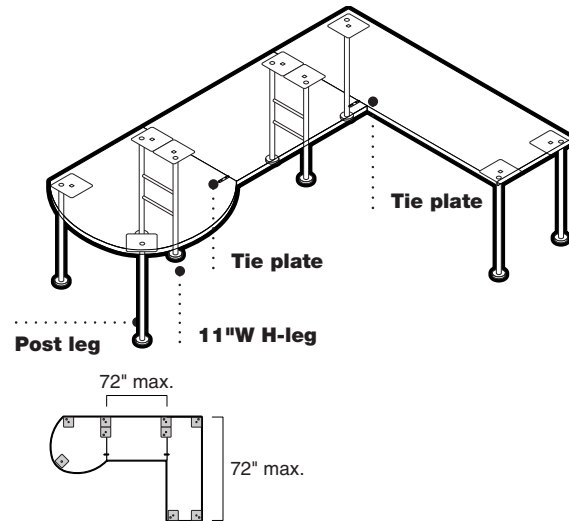

11\"W H-leg can be used to support a corner worksurface and adjacent worksurfaces up to 72\"W.

11\"W H-leg can be used to support a corner worksurface and adjacent worksurfaces up to 72\"W.

120° worksurface

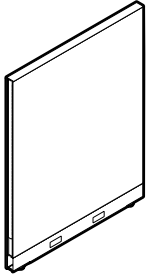

H-leg can be used to support adjacent perpendicular worksurfaces up to 72\"W.

Reinforcing channel (TSATRC57) is available to add support to worksurfaces that have 60\" or more of unsupported kneespace and that are heavily loaded.

Monolithic Panels

Tackable Acoustical, Glass, and Perforated Steel

Tip: To price a panel with two fabric surface materials in different price groups, add the two fabric price group option prices together and divide by 2; then add the result to the panel base price.

Tip: Factory-included powerway for field installation option replaces need to order separate powerways.

Tip: For field-installed powerways, see Avenir Systems Furniture Specification Guide.

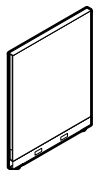

Tip: Remember to order end-of-run trim and vertical corner trim packages.

Tip: Details panel-mounted slatwall will not hang on a 42"H panel with worksurface. There is not enough space above the worksurface and top of panel for the bracket to engage into panel slots.

66"H Segmented Panels

► Need help?
Product details,
page 8

Standard Includes

- Panel with segmented, fabric surfaces:
Kick standard fabric group A
- Base covers with receptacle knockouts: paint price group 1
- Top cap (low height): paint price group 1
- Top cap aligner: black plastic
- Universal connector package
- Frame: 0835 Black only

Required to Specify

- 1 Style number
 - 2 Fabric color number for base skin; surface 1
 - 3 Fabric color number for accent skin; surface 1
 - 4 Fabric color number for base skin; surface 2
 - 5 Fabric color number for accent skin; surface 2
 - 6 Paint color number for top cap and base covers
 - 7 Options, if selected (see below)
- See *Surface Materials*, page 110.

Tip: To price a panel with two base skin surfaces in different fabric price groups, add the two fabric price group option prices together and divide by two; then add the result to the panel base price.

Tip: To price a panel with two accent skin surfaces in different fabric price groups, add the two fabric price group option prices together and divide by two; then add the result to the panel base price.

Tip: Factory-included powerway for field installation option replaces need to order separate powerways.

Tip: For field-installed powerways, see Avenir Systems Furniture Specification Guide.

Tip: Magnetic ballasts can cause interference with computer monitors. An electronic ballast is recommended for shelf lights in offices where computers are used.

Tip: Remember to order a daisy chain starter cord. ► See Related Products below.

* Because lamps and ballasts for 19"W shelf lights are more expensive than those for 24"W shelf lights, use 19"W shelf lights only in applications where larger sizes will not fit.

Products on this page are Steelcase, not Turnstone. They are included here to simplify your planning. Remember that Steelcase has different pricing terms than Kick products.

Designtex Graded-In Program

All Designtex Graded-In fabrics are now supported just like standard fabrics when ordered on Steelcase furniture. The Designtex Graded-In Program also includes the Environmental Impact Collection, which offers sustainable textiles in affordable price groups. For additional information and fabric samples, contact your local Designtex sales representative at 1.800.221.1540.

Designtex fabrics are graded into Steelcase Price Groups 1 through 3.

Tip: All Designtex Graded-In vertical surface fabrics require an additional lead-time of two or more weeks.

Desk and Desk Shell Facts

Desks are available as shells (without storage) and in single- and double-pedestal models. Desks are shipped knocked down (ready to assemble).

 Specifying, pages 120–125

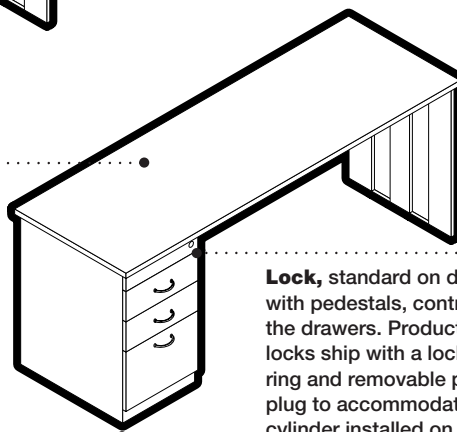

Worksurface has a wood core with True Performance Laminate (TPL). Universal laminate work-surfaces and Universal wood work-surfaces without scallops are available as options.

Exception: 36"D desks and desk shells are not available with Universal laminate work-surfaces or Universal wood work-surfaces.

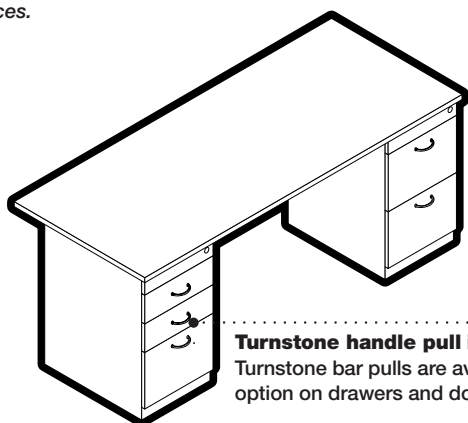

Single-pedestal desks are non-handed.

User's edge profile is PVC with a 3 mm radius. Back and side edge is 1 mm.

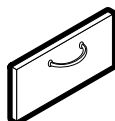

Lock, standard on desks with pedestals, controls all of the drawers. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site. Lock cylinders must be specified separately.

► **Lock and Keying Options**, page 548

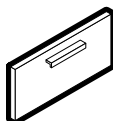

Turnstone handle pull is standard. Turnstone bar pulls are available as an option on drawers and doors.

Pull Choices

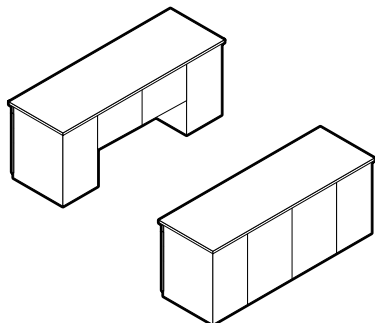

Turnstone handle pull

Turnstone bar pull

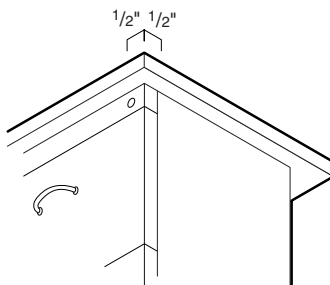

Leveling glides adjust to allow installation on uneven floors.

Modesty panels are available partial- or full-height on desks and desk shells. Partial-height modesty panels are 12"H. Full-height modesty panels extend to the floor. Desks and desks shells can also be specified without a modesty panel.

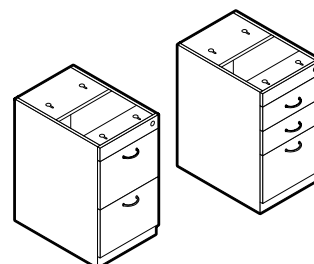

Kick worksurface overhang:
1/2" on front and sides
1 1/2" on back side (24"D and 30"D desks)
7 1/2" on back side (36"D desks)

Universal laminate and wood worksurface overhang:
1/2" on front and sides
1" on back side

Pedestals are standard with two file drawers (Exception: 48"W single-pedestal desks have a box, box, file pedestal only). Box, box, file drawers are available as an option. 22"D Turnstone under-worksurface pedestals are located beneath 24"D work-surfaces. 28"D Turnstone underworksurface pedestals are located beneath 30"D work-surfaces.

Curved Corner Desk Facts

Curved corner desks can stand alone or be attached to desks, returns, or bridges. Desks are shipped knocked down (ready to assemble).

Specifying, page 126

Worksurface has a wood core with True Performance Laminate (TPL). Universal laminate worksurfaces and Universal wood worksurfaces without scallops are available as options.

Exception: 18"D x 36"W corner desks are not available with Universal laminate or Universal wood worksurfaces.

Grommet is standard with Kick laminate worksurfaces. Grommet is not available on Universal laminate or Universal wood worksurfaces.

User's edge profile is PVC with a 3 mm radius. Back and side edge is 1 mm.

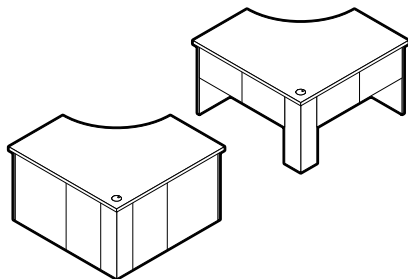

Two full end panels, standard, allow corner desk to be freestanding.

18"D corners must be attached to a desk, return, or bridge. They cannot be free-standing.

Clear-access supports are standard on 18"D corners.

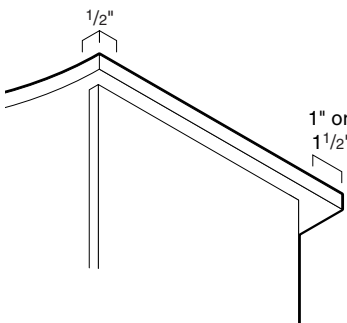

Leveling glides adjust to allow installation on uneven floors.

Modesty panels are available partial- or full-height on corner desks. Partial-height modesty panels are 12"H. Full-height modesty panels extend to the floor. Corner desks can also be specified without a modesty panel.

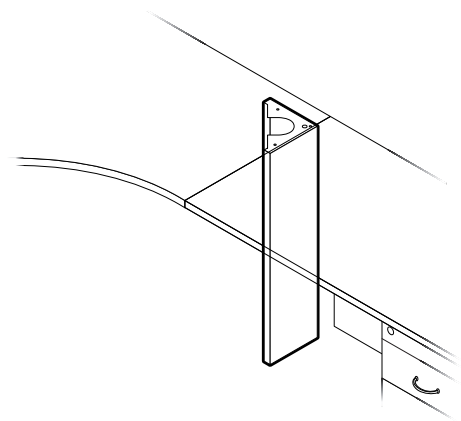

Kick worksurface overhang:
1/2" on front and sides
1 1/2" on back side

Universal laminate and wood worksurface overhang:
1/2" on sides
1" on back side

Clear-access supports, available as an option on 24"D corners, create kneespace when corner desk is attached to a desk, return, or bridge.

Return Facts

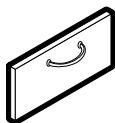

Returns attach to a desk to form an L-shaped configuration or a bridge to form a U-shaped configuration. Returns are available with or without a pedestal. Returns are shipped knocked down (ready to assemble).

Worksurface has a wood core with True Performance Laminate (TPL). Universal laminate worksurface and Universal wood worksurfaces without scallops are available as options.

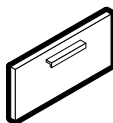

Leveling glides adjust to allow installation on uneven floors.

Turnstone handle pull is standard. Turnstone bar pulls are available as an option on drawers and doors.

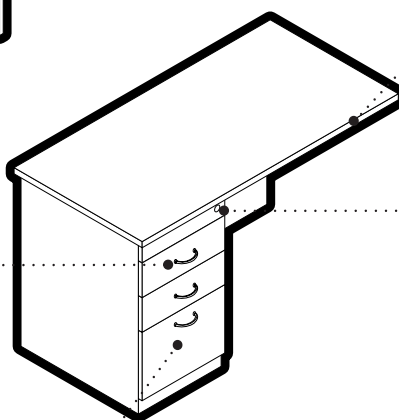

Pull Choices

Turnstone handle pull

Turnstone bar pull

Pedestal is standard with two file drawers. Box, box, file drawers are available as an option. Single-pedestal return is non-handed. Returns ship with 22"D Turnstone under-worksurface pedestals.

Specifying, pages 128–131

Transition returns are 18"D on the connection side and 24"D on the opposite side. Transition returns are designed to be used with 18"D corner units to create space efficient, user-centered workstations.

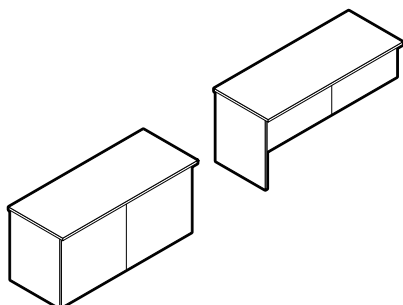

User's edge profile is PVC with a 3 mm radius. Back and side edge is 1 mm.

Worksurface overhang is 1½" on back side and ½" on front and sides of Kick worksurface. Worksurface overhang is 1" on back side and ½" on front and sides of Universal laminate and wood worksurfaces.

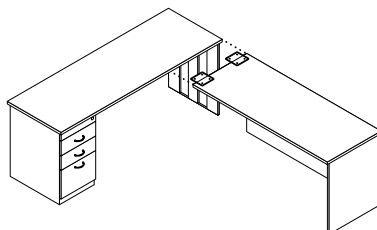

Lock, standard on returns with pedestals, controls all of the drawers. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site. Lock cylinders must be specified separately.

► *Lock and Keying Options*, page 548

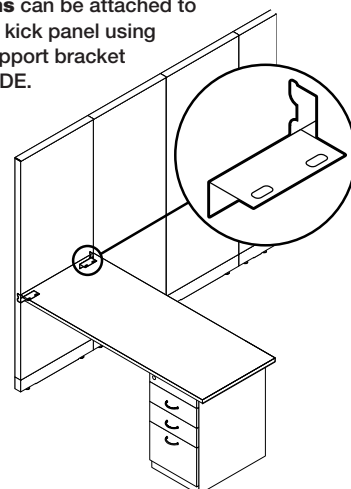

Modesty panels are available partial- or full-height on returns. Partial-height modesty panels are 12"H. Full-height modesty panels extend to the floor. Returns can also be specified without a modesty panel.

Attachment hardware, standard with return, connects return to a desk or corner unit.

Returns can be attached to a 24"W kick panel using side support bracket TSATSIDE.

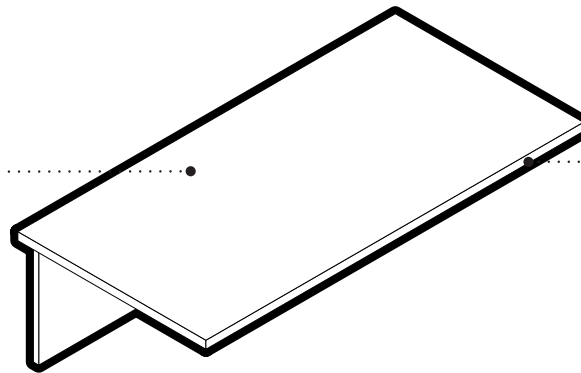

Bridge Facts

Bridges attach to desks to form a U-shaped configuration.

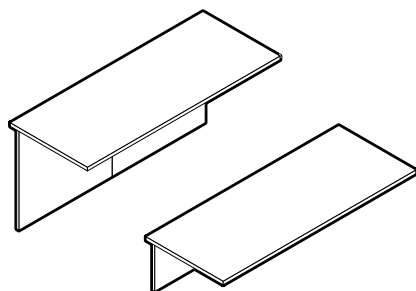

Specifying, page 134

Worksurface has a wood core with True Performance Laminate (TPL). Universal laminate worksurface and Universal wood worksurfaces without scallops are available as options.

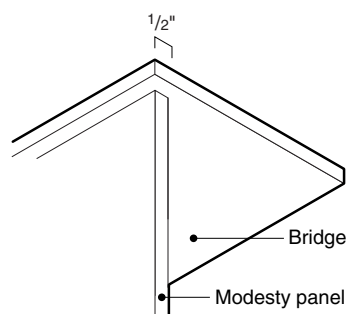

User's edge profile is PVC with a 3 mm radius. Back and side edge is 1 mm.

Modesty panels are available partial- or full-height on bridges. Partial-height modesty panels are 12"H. Full-height modesty panels extend to the floor. Bridges can also be specified without a modesty panel.

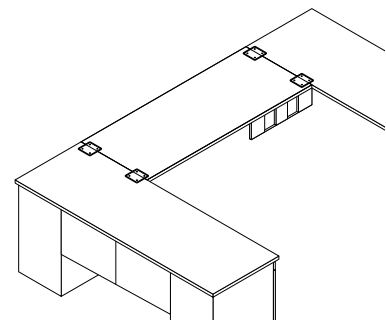

Kick worksurface overhang: 1/2" on back side

Universal laminate and wood worksurface overhang: 1/2" on back side

Attachment hardware, standard with bridge, connects bridge to a desk.

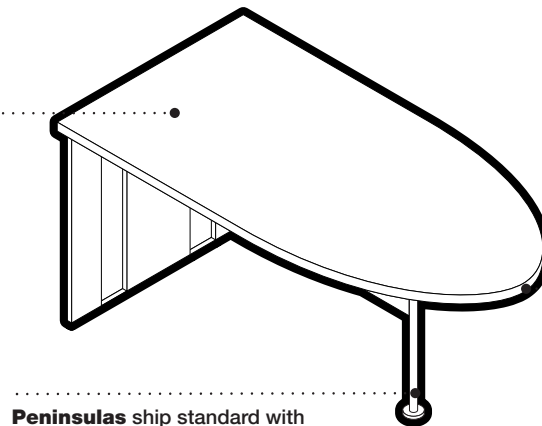

Peninsula Worksurface Facts

Peninsula worksurfaces are ideal for conferencing and can serve as primary worksurface. Peninsulas must be connected to a bridge or return to form an L- or U- shaped configuration and to provide proper stability.

 Specifying, page 136

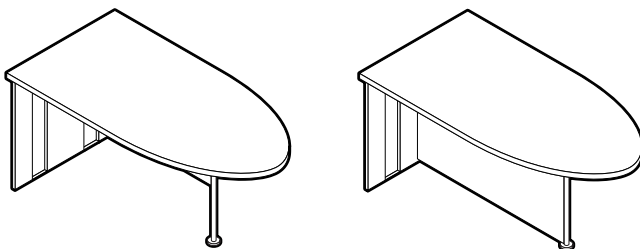

Worksurface has a wood core with True Performance Laminate (TPL). Universal laminate worksurfaces and Universal wood worksurfaces are available as options.

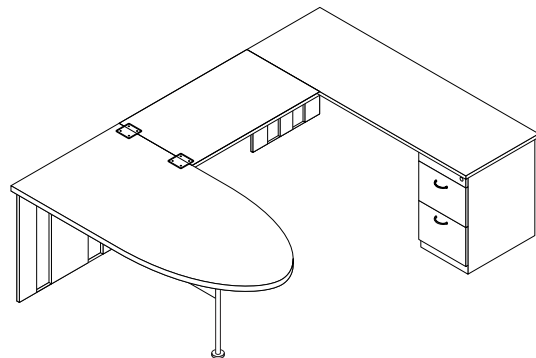

Peninsulas ship standard with a post leg.

User's edge profile is PVC with a 3 mm radius. Back and side edge is 1 mm.

Modesty panels are available partial- or full-height on peninsula worksurfaces. Partial-height modesty panels are 12"H. Full-height modesty panels extend to the floor. Peninsulas can also be specified without a modesty panel.

Attachment hardware, standard with bridge or return, connects peninsula to a desk and bridge or return.

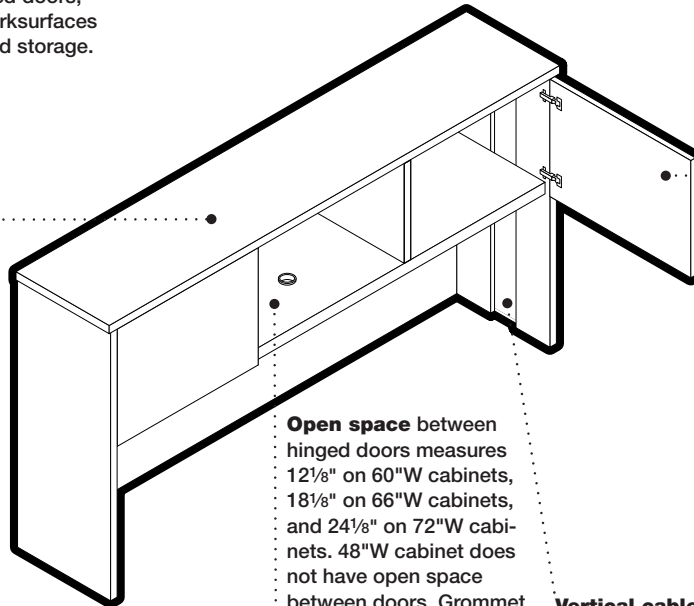

Overhead Storage Cabinet Facts

Overhead Storage Cabinet Facts

Overhead storage cabinets are steel and ship ready to assemble. Available with open shelves or with hinged doors, storage cabinet attaches to worksurfaces to provide privacy and overhead storage.

 Specifying, page 137

Overhead storage cabinets are standard with steel back panel. Lower back panel removed, available as an option, is used for open communication.

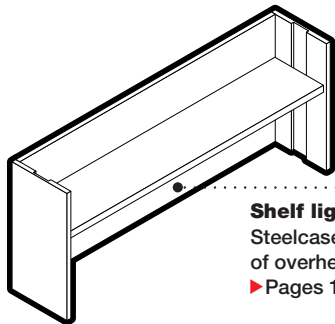

Doors are 22"W.

Lock(s) is standard on cabinets to secure the door(s). Lock is hidden underneath the door. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site. Lock cylinders must be specified separately.
 ▶ *Lock and Keying Options*, page 548

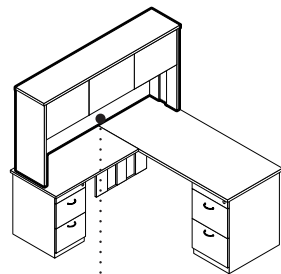

Open space between hinged doors measures 12 $\frac{1}{8}$ " on 60"W cabinets, 18 $\frac{1}{8}$ " on 66"W cabinets, and 24 $\frac{1}{8}$ " on 72"W cabinets. 48"W cabinet does not have open space between doors. Grommet, located in the center of the open space, is used for routing cables.

Vertical cable manager covers, available as an option, conceal cords that are routed from cabinets to worksurface.

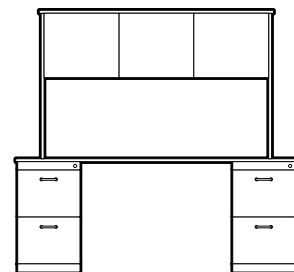

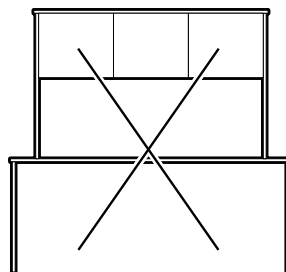

Shelf lights are available from Steelcase to recess into the bottom of overhead storage cabinets.
 ▶ Pages 102–107

Middle door is available as an option on 72"W cabinets. Middle door does not lock.

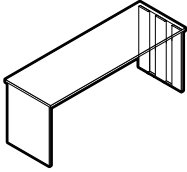

Tackboard is available for field installation. Back panel is required for tackboard.

When using overhead cabinets, the overhead cabinet end panel must be within 2" of a worksurface floor support.

Designtex Graded-In Program

All Designtex Graded-In fabrics are now supported just like standard fabrics when ordered on Steelcase furniture. The Designtex Graded-In Program also includes the Environmental Impact Collection, which offers sustainable textiles in affordable price groups. For additional information and fabric samples, contact your local Designtex sales representative at 1.800.221.1540.

Designtex fabrics are graded into Steelcase Price Groups 1 through 3.

Tip: All Designtex Graded-In vertical surface fabrics require an additional lead-time of two or more weeks.

Under-Worksurface Pedestal Facts

 Specifying, page 150

Top of pedestal is open to attach beneath the worksurface.

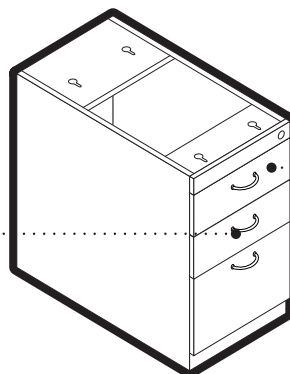

Finished back and sides are standard.

Lock is standard keyed random and controls all of the drawers. Lock cylinders must be specified separately. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.
► *Lock and Keying Options*, page 548

Leveling glides on pedestals adjust to install furniture on uneven floors. Leveling glide range is 1".

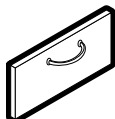

Pedestal file drawers are made of steel with steel ball-bearing suspensions and open their full depth for total access to the contents.

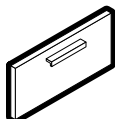

Pedestal box drawers are made of steel and have steel roller slides. They open $\frac{3}{4}$ of their depth.

Turnstone handle pull is standard. Turnstone bar pulls are available as an option on drawers and doors.

Pull Choices

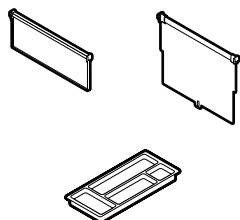

Turnstone handle pull

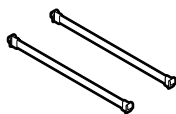

Turnstone bar pull

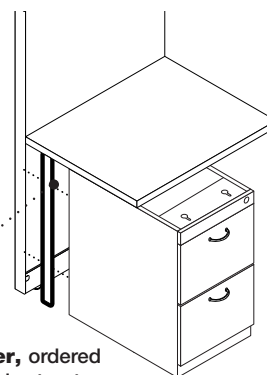

Box drawer and file drawer dividers and pencil tray for use with under-worksurface pedestals are available as optional accessories. Mobile pedestals have different dividers that are not interchangeable.

To file legal-size or side-to-side letter-size filing in pedestal file drawers, specify optional 15"W file rails.

Box, box, file and file, file pedestals attach beneath 24"D and 30"D worksurfaces. Attachment hardware is provided.

Pedestal filler, ordered separately, adds structure and fills the gap between the pedestal and panel.
► Page 150

Mobile Pedestal Facts

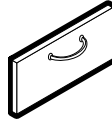

Mobile pedestal fits under 24"D and 30"D worksurfaces or can be moved wherever storage is needed.

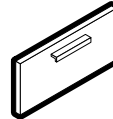

► For interior dimensions, see *Storage Capacities*, page 550.

Turnstone handle pull is standard. Turnstone bar pulls are available as an option on drawers and doors.

Pull Choices

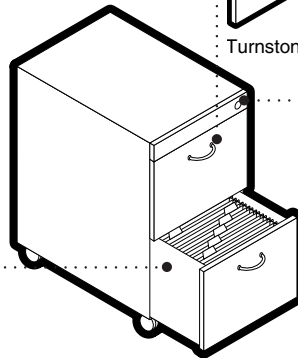

Turnstone handle pull

Turnstone bar pull

Specifying, pages 151–153

Mobile pedestal with steel top

Mobile pedestal file

drawers are made of steel with steel ball-bearing suspensions and open their full depth for total access to the contents. File drawer accommodates letter- and legal-size filing (legal filing requires the use of optional dividers).

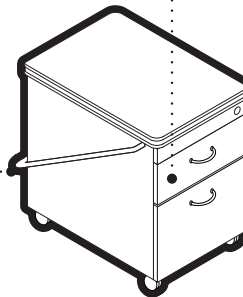

Lock is standard keyed random and controls all of the drawers. Lock cylinders must be specified separately. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

► *Lock and Keying Options*, page 548

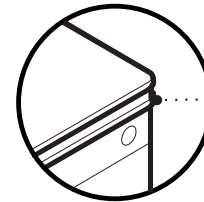

Mobile pedestal box drawers

are made of steel and have steel roller slides. They open $\frac{3}{4}$ of their depth.

Handle on mobile pedestal can be positioned in front or at rear to access contents of drawer. Also available without handle.

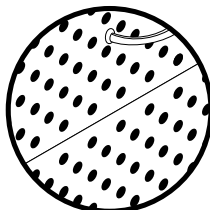

Mobile pedestal with seat cushion and handle

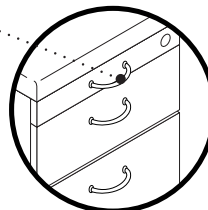

Cushions are upholstered with piping along the top and bottom edges.

Large ($\frac{3}{16}$ " diameter) perforation is available as an option on mobile pedestals.

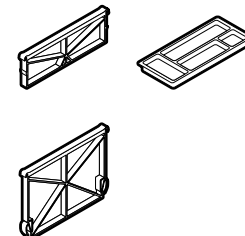

Large perforation

Extra handle pull, available as an option on mobile pedestals, allows pedestals to be moved easily within the workstation.

Dividers and pencil tray for use with mobile pedestals must be ordered separately. Mobile pedestal accessories are not interchangeable with under-work surface pedestal accessories.

► Page 153

Under-Worksurface Lateral File Facts

 Specifying, pages 154–155

Top of lateral file is open to attach beneath the worksurface.

Lock is standard keyed random and controls all of the drawers. Lock cylinders must be specified separately. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

► **Lock and Keying Options**, page 548

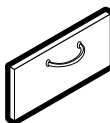

Finished back and sides are standard.

Lateral file drawers are made of steel with steel ball-bearing suspensions and open their full depth for total access to the contents.

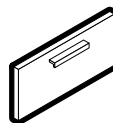

Leveling glides on lateral files adjust to install furniture on uneven floors. Leveling glide range is 1".

Turnstone handle pull is standard. Turnstone bar pulls are available as an option on drawers and doors.

Pull Choices

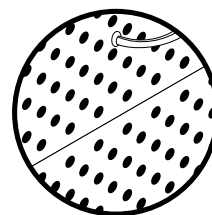

Turnstone handle pull

Turnstone bar pull

Lateral file drawers are standard with two side-to-side hanging file frames to file letter- or legal- size papers.

Large (3/16" diameter) perforation is available as an option on 30 1/2"W under-worksurface lateral files.

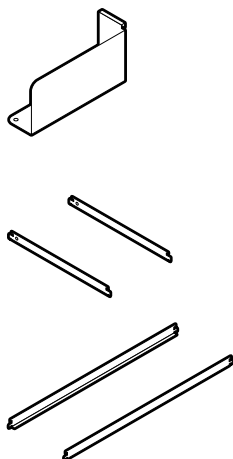

Large perforation

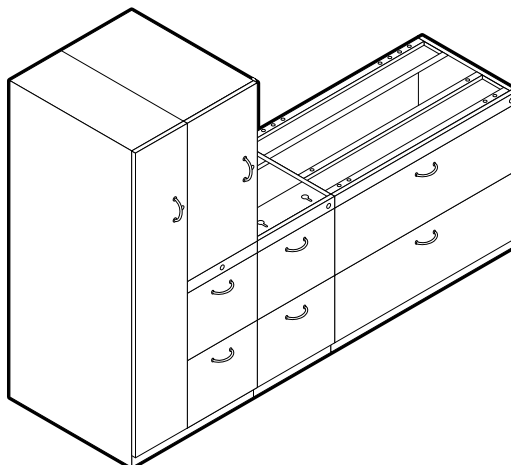

The actual depth of under-worksurface lateral files is 18 1/8"D, which will not accommodate the use of the 18"D Kick straight worksurfaces.

Under-worksurface lateral file drawer dividers, front-to-back file rails, and side-to-side hanging file frames, ordered separately, are available for use with under-worksurface lateral files.

Kick plate (2"H) and lock bar align with under-worksurface pedestal and Tower Too.

Lateral File Facts

Lateral files are ideal for high-density paper storage. They accommodate basic paper filing needs at an economic price.

Finished back is standard.

Lock is standard on lateral files and secures all drawers and lift-up door. On 52"H and 65½"H files, lock is located at top left corner of drawer that is third from the bottom. On 28"H and 40"H files, lock is located at top left corner of top drawer. Lock is standard keyed random and controls all of the drawers. Lock cylinders must be specified separately. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

► *Lock and Keying Options*, page 548

Base is 3"H and is integral to the case.

Leveling glides adjust up to ⅝" to install lateral files on uneven floors.

Top is standard 1"H steel.

Label holders are included with each drawer. Label holder fits inside the pull. Labels 3¾"W x 1¼"H are recommended.

Pulls on drawers and receding doors are inset and full width to provide a neutral look.

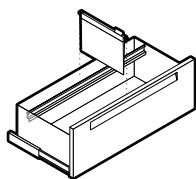

Drawers open their full depth for total access to the contents. Safety interlock system allows only one drawer or roll-out shelf to be opened at a time.

Ganging hardware is included to increase stability and maintain alignment by joining adjacent components side by side, back to back, or both. Lateral files can also be bolted to the floor or to a wall for stability.

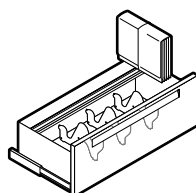

Counterweight packages must be specified as an option for lateral files that are not ganged to another case or bolted to the floor or wall.

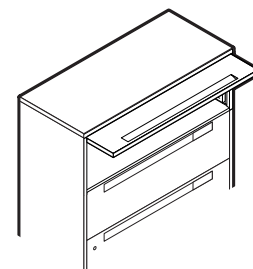

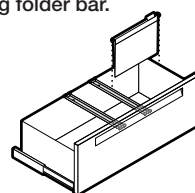

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders.

Dividers, available as an option, accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers. Divider option replaces hanging folder bar.

Rails, available as an option, accommodate front-to-back filing of letter-, A4 international-, and legal-sized hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers and three rows of letter-size files in 42"W drawers. Rail option replaces hanging folder bar.

Lift-up door with fixed shelf is standard in the top position of 65½"H cases. Door is 13½"H to accommodate standard-height binders. Door recesses inside the case.

Tower Too Facts

Turnstone Tower Too accommodates paper filing, miscellaneous storage, and wardrobe storage.

 Specifying, page 158

Shelves are fixed and can accommodate binders or other storage needs.

Safety interlock system allows only one drawer to be opened at a time.

Leveling glides adjust $\frac{3}{4}$ " to allow installation on uneven floors.

Finished top, sides, and back allow storage cabinet to be positioned anywhere.

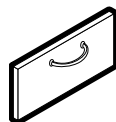

Doors open 98° for access to contents.

Drawers open their full depth for total access to the contents. Drawers have full-height sides; hanging file folder frames are not needed for front-to-back letter-size filing. Legal or side-to-side filing is accommodated using Universal filing rails. Tower Too file drawers and optional box drawers are made of steel with steel ball-bearing suspensions.

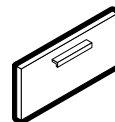

► For interior dimensions, see *Storage Capacities*, page 550.

Turnstone handle pull is standard. Turnstone bar pulls are available as an option on drawers and doors.

Pull Choices

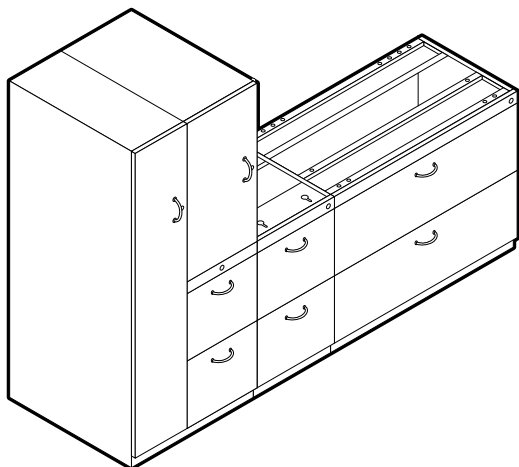

Turnstone handle pull

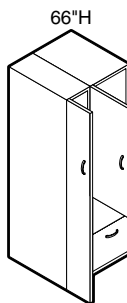

Turnstone bar pull

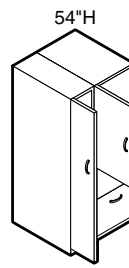

Kick plate (2"H) and lock bar align with under-worksurface pedestals and under-worksurface lateral files.

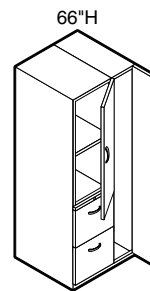

Tower Too is available 54"H or 66"H. Wardrobe storage can be left or right.

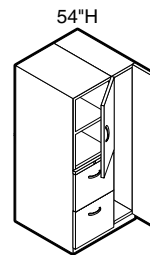

Wardrobe left

Wardrobe left

Wardrobe right

Wardrobe right

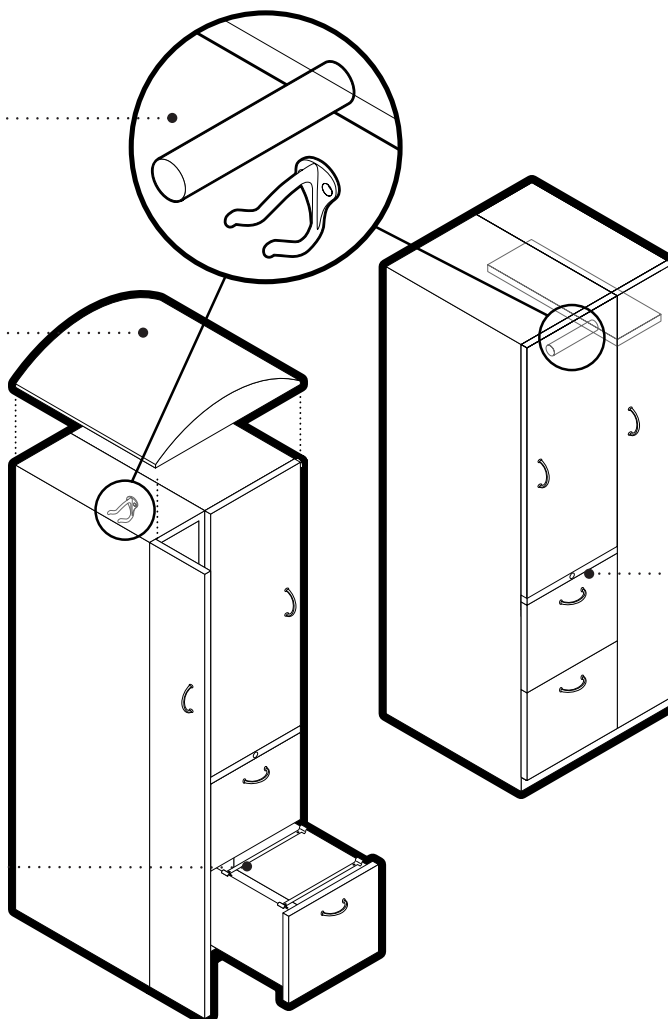

Specifying, page 158

Wardrobe interior can be specified with wardrobe hook or wardrobe rod with shelf.

Dome, field-installed only, can be added to Tower Too for a unique aesthetic.

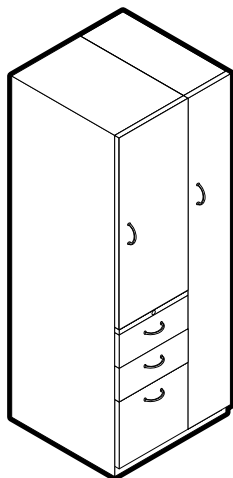

Drawer accessories, filing rails, and drawer dividers are available from the Universal Storage Pedestal Collection.

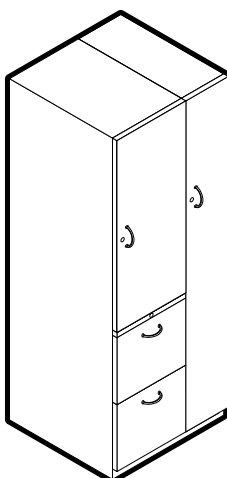

Lock, standard, is located on the lock bar and secures file drawers below. Lock is standard keyed random, and lock cylinders must be specified separately. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

► **Lock and Keying Options**, page 548

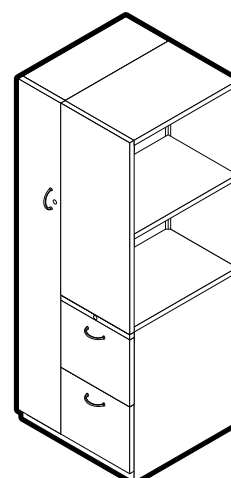

Two box drawers in place of top file drawer is available as an option on 54"H and 66"H towers. Box drawers have $\frac{3}{4}$ " extension.

All locking (one lock for wardrobe, second lock for drawer, third lock for cabinet), is available as an option on 54"H and 66"H towers.

Towers are available with open side shelving in place of the upper cabinet. Fixed shelves provide two openings (with clearance of 12"H on 54"H units and 18"H on 66"H units).

Under-Worksurface Pedestals

Tip: File drawer rails are required to file legal-sized files or side-to-side letter-sized files in pedestal file drawers.

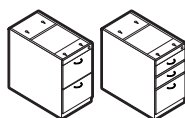

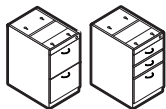

Tip: Under-worksurface pedestals shipped prior to January 2005 require the use of drawer accessories from the mobile pedestal collection.

Seating Mechanisms and Adjustability Features Defined

Seating Mechanisms and
Adjustability Features
Defined

Seating Mechanisms

Swivel Mechanism

Chair swivels 360°. Seat and back stay in a fixed position (no recline).

Swivel-Tilt Mechanism

Chair swivels 360°. Back and seat recline in unison.

Synchro-Tilt Mechanism

Chair swivels 360°. Back and seat move together but at different angles. For every 2 degrees of back recline, the seat angle tilts 1 degree.

Adjustability Features

Adjustable Back Height

Allows the user to position the back up or down.

Adjustable Foot Ring

Allows the user to position the stool foot ring up or down.

Adjustable Seat Depth

Allows the user to change the distance between the front edge of the seat and the chair back.

Adjustable Seat Depth via the Back

Allows the user to change the distance between the front edge of the seat and the chair back via the maintenance back adjustment.

Lumbar Height Adjustment

Allows the user to raise or lower the lumbar support.

Pneumatic Height Adjustment

Allows the user to raise or lower the chair with one lever from a seated position.

Seat Angle Adjustment

Allows the user to position and lock the seat angle in a variety of positions.

Tilt Tension

Allows the user to vary the amount of recline resistance.

Upright Back Lock

Allows the user to lock the back in the upright position.

Variable Back Stop

Allows the user to stop the back recline at various points.

Variable Back Lock

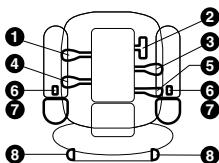

Allows the user to locate and lock the back in a variety of positions.

Adjustability Overview

Tip: Your chair may not include all the adjustments shown.

à la carte	5
à la carte	Options: 6, 7

1 Springboard

1 Seat angle adjustment

Pull lever back and hold, shift seat to desired angle, and release lever to lock.

2 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

3 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

4 Adjustable seat depth

Pull lever forward and hold, shift seat forward or back, and release lever to lock.

5 Upright back lock

To release, lean forward and pull toward back. To lock, lean forward and push toward front.

6 Arm height

Pull trigger up and hold, pull arm up or push down, and release trigger to lock.

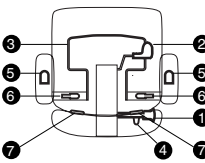

7 Arm width

Grasp arm caps and flip over.

8 Lumbar height adjustment

Lean forward, turn wheels up to lower, and turn wheels down to raise.

2 Crew

1 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever out.

3 Adjustable seat depth

Lift lever up and hold, shift seat forward or back, and release lever to lock. Available on models TS30802, TS30812, and TS30822 only.

4 Upright back lock

To release, lean forward and flip lever up. To lock, lean forward and flip lever down.

5 Arm height

Pull trigger up and hold, pull arm up or push down, and release trigger.

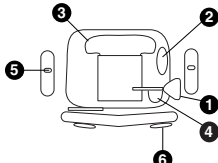

6 Arm width

Push toggle down to release, adjust arms in or out. Push toggle up to lock.

7 Back height

While seated, pull levers inward, raise or lower back into position, and release lever.

3 Let's B

1 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

3 Adjustable seat depth

Lift lever up and hold, shift seat forward or back, and release lever to lock. Available on models TS30602 and TS30604 only.

4 Upright back lock

To release, lean forward and flip lever up. To lock, lean forward and flip lever down.

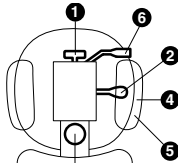

5 Arm height

Pull trigger up and hold, pull arm up or push down, and release trigger to lock.

6 Back height

Depress and hold buttons. Raise or lower back into desired position, release buttons.

4 Jacket

1 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

3 Adjustable seat depth via the back

Loosen bolt, adjust back in or out to desired position, and retighten knob.

4 Height-adjustable arms

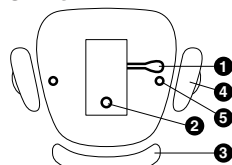

To raise arm, lift arm to desired height. To lower arm, lift arm to its highest position and then lower to bottom.

5 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

6 Upright back lock

To lock back in upright position, lean forward and push lever back. To release back lock, lean forward and push lever forward.

5 à la carte**Swivel****1 Pneumatic height adjustment**

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

2 Seat depth adjustment via the back

Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Adjustable back height

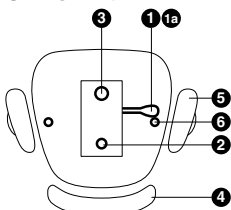

Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

4 Height-adjustable arms

Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

5 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

6 à la carte**Swivel Tilt****1 Pneumatic height adjustment**

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

1 Upright back lock

While in the upright position, push the lever in and the chair will not tilt; pull it out and the chair can tilt.

2 Seat depth adjustment via the back

Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

4 Adjustable back height

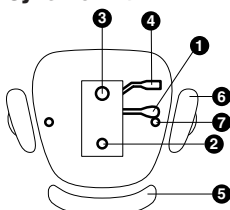

Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

5 Height-adjustable arms

Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

6 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

7 à la carte**Synchro Tilt****1 Pneumatic height adjustment**

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

2 Seat depth adjustment via the back

Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

4 Upright back lock

To lock back in upright position, lean forward and push lever back. To release back lock, lean forward and push lever forward.

5 Adjustable back height

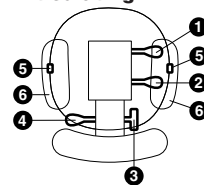

Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

6 Height-adjustable arms

Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

7 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

8 Surprise!**Articulating****1 Pneumatic height adjustment**

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

2 Seat angle adjustment

To adjust seat angle, pull lever up and shift seat to desired angle. Push lever down to lock into position.

3 Adjustable back height

Loosen knob, raise or lower back to desired position, and retighten knob completely.

4 Variable back lock

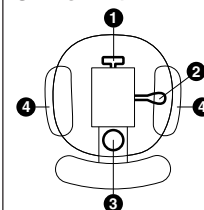

To adjust back angle, pull lever up and lean back to desired angle. Push lever down to lock into position.

5 Height-adjustable arms

To adjust height, turn knob on side of arm to desired height.

6 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out and tighten screws.

9 Surprise!**Swivel Tilt****1 Tilt tension**

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment

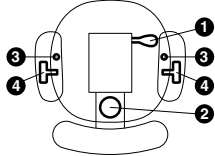

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

3 Adjustable seat depth via the back

Loosen bolt, adjust back in or out to desired position, and retighten bolt completely.

4 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out and tighten screws.

10 Surprise!**Swivel****1 Pneumatic height adjustment**

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

2 Adjustable seat depth via the back

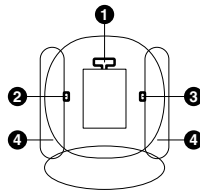

Loosen bolt, adjust back in or out to desired position, and retighten bolt completely.

3 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out and tighten screws.

4 Height-adjustable arms

To adjust height, turn knob on side of arm to desired height.

11 Sonata**1 Tilt tension**

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Variable back stop

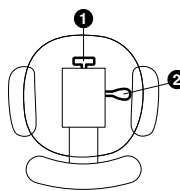

To release stop, push lever forward. To stop recline at various angles, lean back to desired angle and push lever back. To lock in upright position, remove weight from back and push lever back.

3 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever out. To lower chair, remain seated and pull lever out.

4 Height-adjustable arms

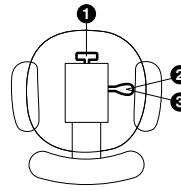

Pull trigger up and hold; pull arm or push down and release trigger to lock.

12 Executive 318**1 Tilt tension**

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

13 Executive 319**1 Tilt tension**

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

3 Upright back lock

To lock back in upright position, lean forward and push lever in. To release for tilt, lean forward and pull lever out.

Tip: Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Uno

Multi-Purpose Chairs

Tip: Frame is available in black only.

Tip: Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Tip: FCS is not available on Uno high-back chairs (TS31102)

Tip: Always add suffixes in alphabetical order when specifying options to Uno seating.

Tip: When specifying multiple COM fabrics, indicate all surfaces where COM applies.

Example: TS31101M with Designtex 1234 on seat and Designtex 5678 on back

Standard Includes

- Hammock-style support
- Swivel mechanism
- Pneumatic height adjustment
- Upholstered seat and back: fabric price group 1
- Outer back: black plastic
- Five-arm base: reinforced black plastic
- Hard dual-wheel casters: black
- Stool ring, if selected: black paint
- Shipped ready to assemble
- Meets Cal. 116 and 117 requirements

Required to Specify

- 1 Style number
 - 2 Fabric color number for upholstery
 - 3 Options, if selected (see below)
- See *Surface Materials*, page 236.

Designtex Graded-In Program

All Designtex Graded-In fabrics are now supported just like standard fabrics when ordered on Steelcase furniture. The Designtex Graded-In Program also includes the Environmental Impact Collection, which offers sustainable textiles in affordable price groups. For additional information and fabric samples, contact your local Designtex sales representative at 1.800.221.1540.

Designtex fabrics are graded into Steelcase Price Groups 2 through 10.

Tip: All Designtex Graded-In upholstery requires an additional leadtime of two or more weeks.

Desk Facts

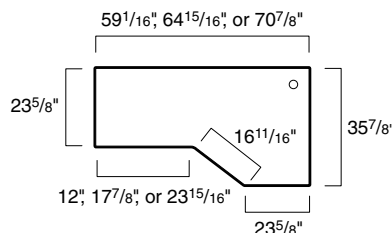

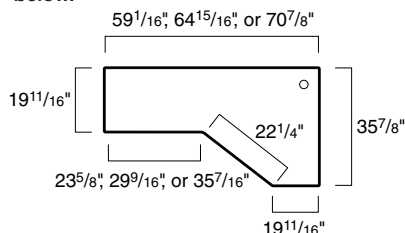

Classic and Executive Payback furniture features a contemporary design. Desk shells and D-, P-, and rectilinear-shape worksurfaces are shipped knocked down for assembly in field using quick-connect assembly hardware. Classic Payback worksurfaces are standard 1" thick with a square edge profile. Executive Payback worksurfaces are standard 1½" thick with a ribbed edge profile.

Tackboard is available for field installation and is not interchangeable with value tackboards.

► Pages 318–319

Desk shells, freestanding, accommodate suspended or mobile pedestals. Shells are standard with full-height back panels. ¾-height (20"H) back panels are optional for access to baseboard outlets. ½-height (14"H) back panels are also optional on rectangular, bow-front extended corner, and notched desk shells only.

Extended corner desk shell accommodates one pedestal under extended portion. Kneespace under extended worksurface is shown below.

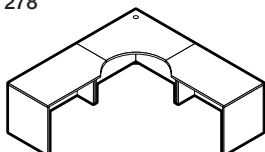

Corner desk shells have a predrilled worksurface that accommodates keyboard shelves. It comes with two clear-access end panels, which are 12 5/8"D, actual dimension.

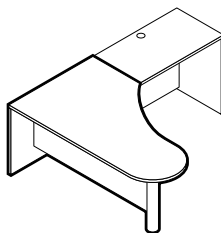

► Page 276

Notched shells are used with corner desk shells with straight front or optional curvilinear front to create a keyboard cutout.

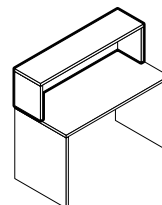

► Page 278

Jetty desk shells can be used as an alternative to P- and D-shape worksurfaces to provide additional worksurface space for conferencing. Curvilinear-front option is also available.

Reception galleries connect to desk shells or assembled desks to create a reception desk alternative. Tackboards are also available.

Specifying, pages 264–299, 318–319, 270

Factory-installed grommet is standard on bridges and returns; rectangular, notched, and corner desk shells; and D-, P-, and rectilinear-shape worksurfaces.

Bridge must attach to a worksurface on each side. Bridge attaches at 29"H using attachment brackets, included with the bridge.

► Page 283

D-, P-, and rectilinear-shape worksurfaces must be attached to a bridge, return, or adjoining worksurface to form a flush-height, L- or U-shaped configuration and to provide stability. Post leg diameter is 6".

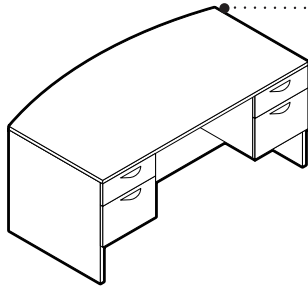

► Pages 284–290

Quick connect assembly hardware is used to assemble furniture in the field. Rotating connector captures metal pins to lock components in place.

For relocation after assembly, first disassemble the product, or move the product using a dolly or other transport.

Classic and Executive Payback furniture features a contemporary design. Desks, returns, credenzas, and storage components are shipped fully assembled. Classic Payback worksurfaces are standard 1" thick with a square edge profile. Executive Payback worksurfaces are standard 1½" thick with a ribbed edge profile.

Bow-front desks come with a 6" bow. Back panel is recessed 8½" for 36"D and 14⅞" for 42"D at the deepest point.

Box drawers open their full depth using a ball-bearing suspension. Box drawer is standard with pencil tray.

► For interior dimensions, see *Storage Capacities*, page 550.

Lock for the box/box/file pedestal option on desks, returns, credenzas, and reception desks and returns does not lock the top box drawer.

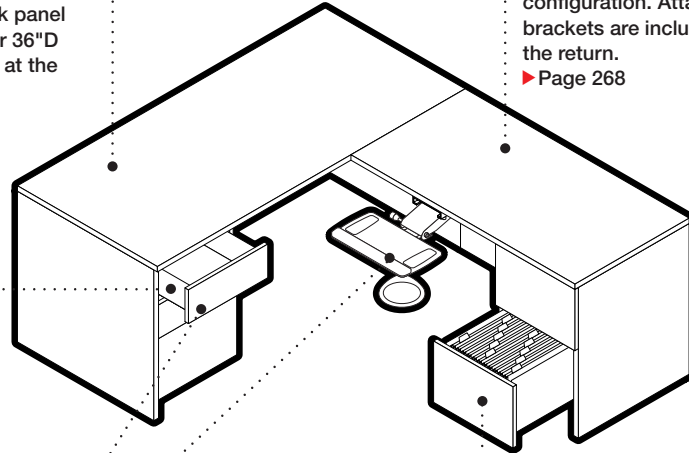

Single-pedestal desks and returns are available with a suspended ¾-height pedestal located left or right as standard. Optional full-height pedestals are available. Double-pedestal desks also are available. Desks and returns include a full-height back panel. 30"D desks have a 2½" overhang. 36"D desks have a 8⅞" overhang.

Specifying, pages 264–299, 318–319, 270

Return attaches to a single-pedestal desk or credenza to form a flush-height, L-shape configuration. Attachment brackets are included with the return.

► Page 268

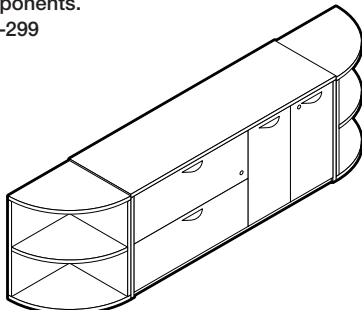

Adjustable-height retractable keyboard shelf can be field installed to support a computer keyboard beneath worksurface level. It attaches under a work-surface with a 17"D x 27½"W clear dimension. Retractable keyboard shelves also are available.

File drawers open their full depth for total access to the contents. They have a hanging file folder frame and are equipped with heavy-duty ball-bearing suspensions. They accommodate letter-size filing front to back or legal-size filing side to side.

► For interior dimensions, see *Storage Capacities*, page 550.

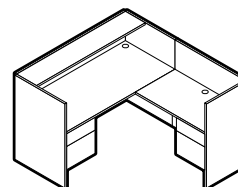

Credenzas come in various configurations—single and double pedestal, double pedestal with storage, single and double lateral file, lateral file and storage, and double storage. Credenzas can be used in conjunction with other storage components.

► Pages 292–299

Reception desk can be freestanding or specified with a return. Optional bow-front transaction top is available.

► Page 270

Storage Facts

Classic and Executive pedestals may be installed beneath the worksurface on site and come in a variety of box drawer and file drawer selections. Mobile pedestals are also available in a variety of drawer configurations.
► Pages 300–303

 Specifying, pages 300–310, 324–328, 330–340

Integral pull is standard on Classic Payback. Waterfall pull is standard on Executive Payback. Payback handle or Turnstone bar pull is available as an option on drawers and doors.

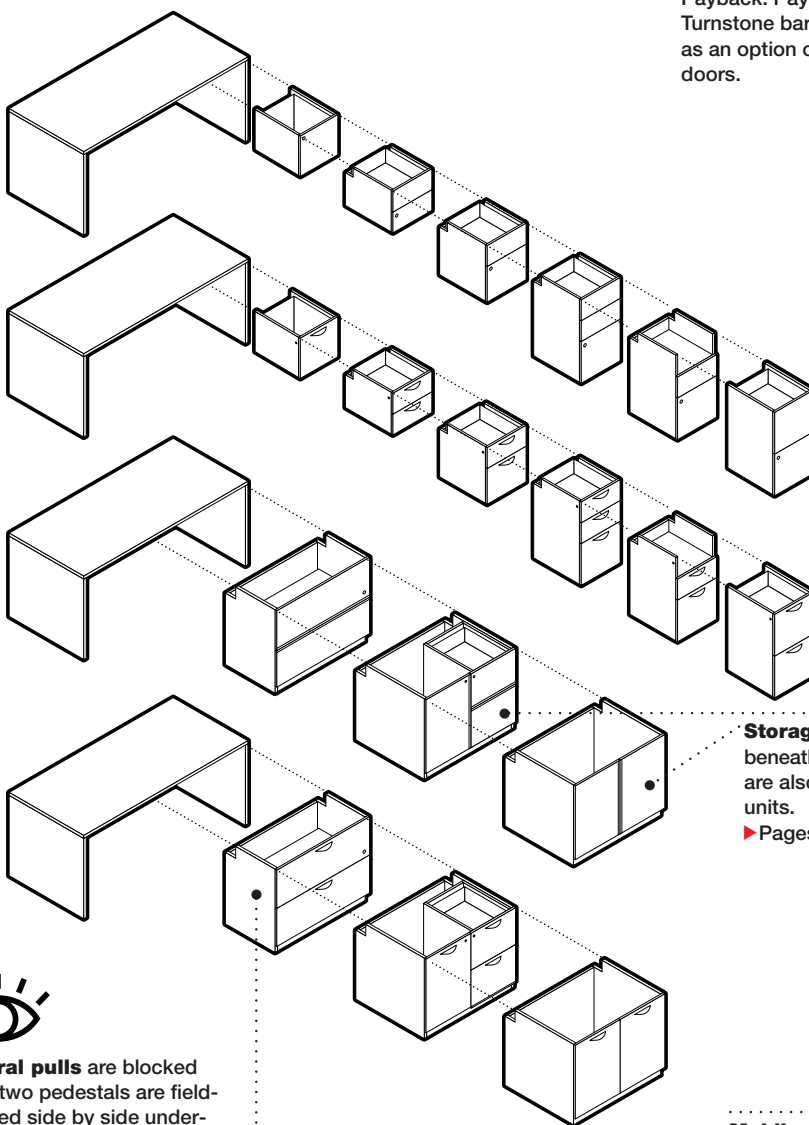

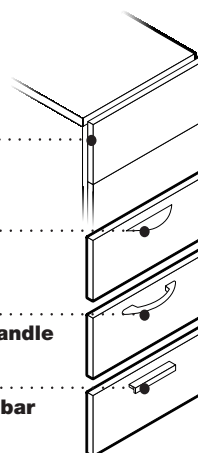

Pull Choices

Integral

Waterfall

Payback handle

Turnstone bar

Storage cabinets can be installed beneath the worksurface on site and are also available as freestanding units.
► Pages 308–310

Integral pulls are blocked when two pedestals are field-installed side by side underneath a worksurface. Payback handle or Turnstone bar pulls must be specified.

Wesco locks are used on all Payback pedestals, files, and cabinets and are keyed randomly. Wesco locks are not compatible with Steelcase FR series locks and keys.

Two-drawer lateral files can be installed beneath the worksurface on site. Frames in the steel drawers accommodate side-to-side filing of letter-size or legal-size hanging file folders. Front-to-back filing rail accessory is also available. Lateral files are available freestanding with two, three, or four drawers.
► Pages 304–306

Mobile pedestal top is recessed behind the drawers.

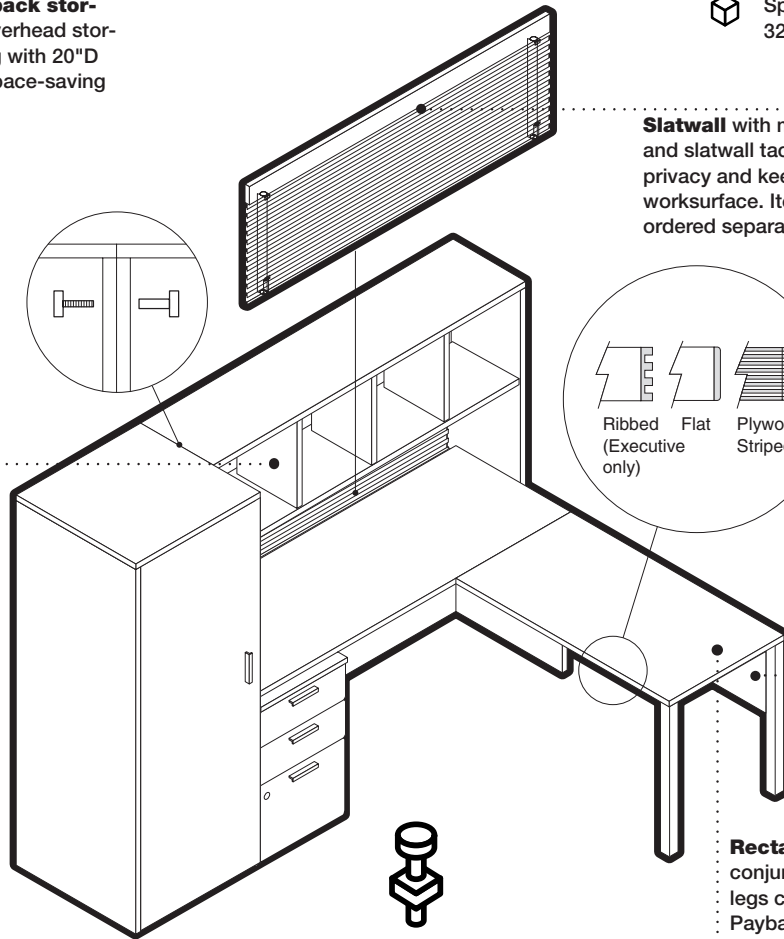

For relocation after assembly, first disassemble the product, or move the product using a dolly or other transport.

Classic and Executive Payback storage components, such as overhead storage cubbies and towers, along with 20"D desking components create space-saving foot prints.

 Specifying, pages 300–310, 324–328, 330–340, 355

Overhead storage cubby can be attached to other storage components and/or to the worksurface. Overhead storage cubbies do not have a back panel. Cubbies can be left open for collaboration or can have slatwall with slatwall tackboards added for privacy and additional storage. They are standard with two full end panels for desk-mounted application. One or two side-attachment end panels can be specified as an option for connections to other storage components such as towers or storage and wardrobe cabinets.

Slatwall with mounting brackets and slatwall tackboards add privacy and keep clutter from the worksurface. Items must be ordered separately.

Edge
Flat square edge profile is standard on Classic Payback and available as an option on Executive Payback. Ribbed edge profile is standard on Executive Payback. Plywood striping detail, square edge profile (light, medium, dark) is optional on both Classic and Executive Payback.

Modesty panels can be used with return table with legs or freestanding tables.

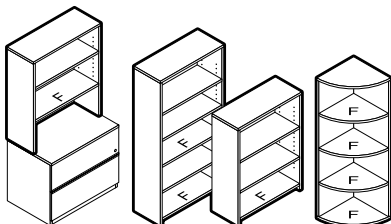

Rectangular tops used in conjunction with square post legs create a return, giving Payback another design element.

For relocation after assembly, first disassemble the product, or move the product using a dolly or other transport.

Bookcases, shipped fully assembled, are available with either two or three adjustable shelves (adjustment every 2 1/2"). The three-adjustable shelf bookcase comes in two heights. Stacking bookcases are also available for attachment to worksurface-height storage or worksurfaces.

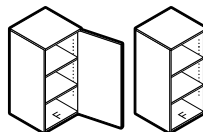

► Page 338

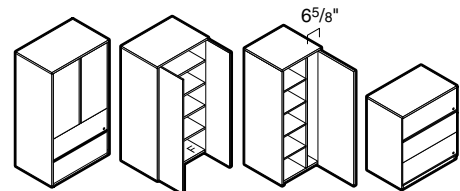

Quarter-round bookcases are available only with fixed shelves.

► Page 340

Small scale towers are used for smaller open plan offices and come with door or open.

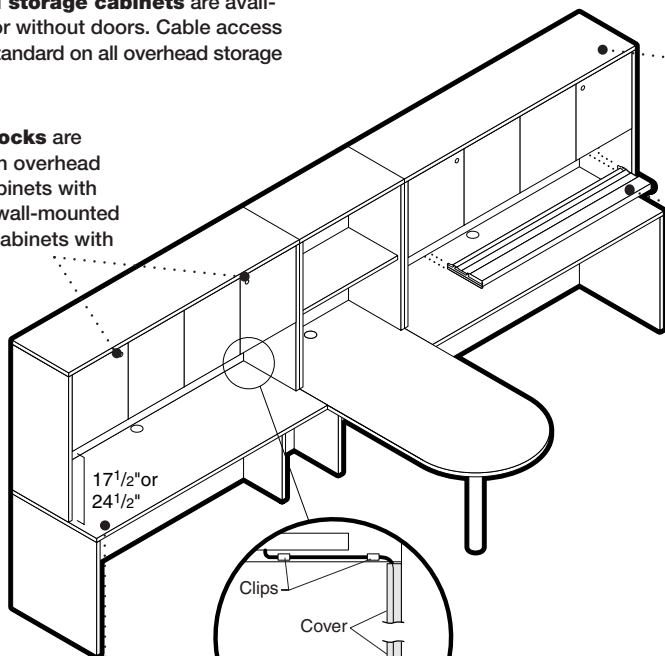

Storage and wardrobe cabinets and lateral files are available in a variety of configurations, including wardrobes with open shelves, file drawers, and a combination of file drawers and shelves. They provide storage, define boundaries, and increase privacy. Lock option is available.

Overhead Storage Facts

Overhead storage cabinets are available with or without doors. Cable access space is standard on all overhead storage cabinets.

Optional locks are available on overhead storage cabinets with doors and wall-mounted overhead cabinets with doors.

Clearance between work-surface and underside of overhead storage is 17½" for 35⅞"H and 24½" for 42⅝"H. 24½" clearance will accommodate some larger monitors.

No pull option is offered on overhead and wall-mounted overhead storage cabinets with doors.

Specifying, pages 312–317, 320–321

Overhead storage, 35⅞" and 42⅝", attaches to the top of a credenza or desk using attachment hardware, included with the overhead storage unit. Doors, when specified, are hinged.

Shelf lights are available to field install in the recessed area beneath overhead storage cabinets. Clearance is 1⅞"H x 12⅝"D and includes a cable access space at the bottom of back panels.

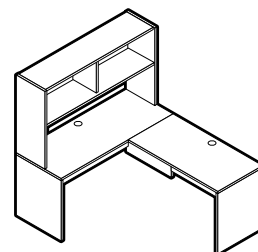

► Page 361

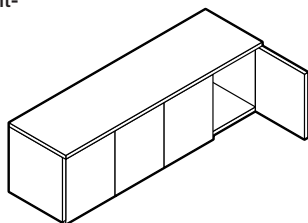

Shelf light cords cannot be placed behind tackboards. Shelf light cords must be routed with a wire manager.

Wire manager clips route shelf light cords horizontally along underside of the overhead storage cabinet. Wire manager cover then routes cords vertically to the cable sweep at the bottom of the overhead cabinet.

When attaching overhead storage to desk shells, attach a pedestal, return, bridge, or another shell for stability.

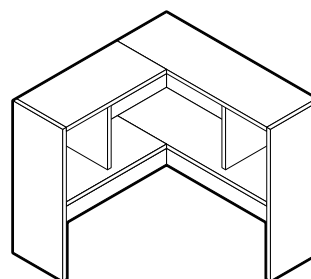

Wall-mounted overhead storage comes with mounting cleats and attachment hardware.

Must anchor wall-mounted overhead storage to as many studs as possible. See below for requirements:
30" to 42"W = 1 stud required
48" to 72"W = 2 studs required
78"W = 3 studs required

Corner overhead storage is available and can be used with corner desk shells, extended corner shells, and L-configurations.

Small Office, Home Office, and Value Workstation Facts

Small Office, Home Office,
and Value Workstation
Facts

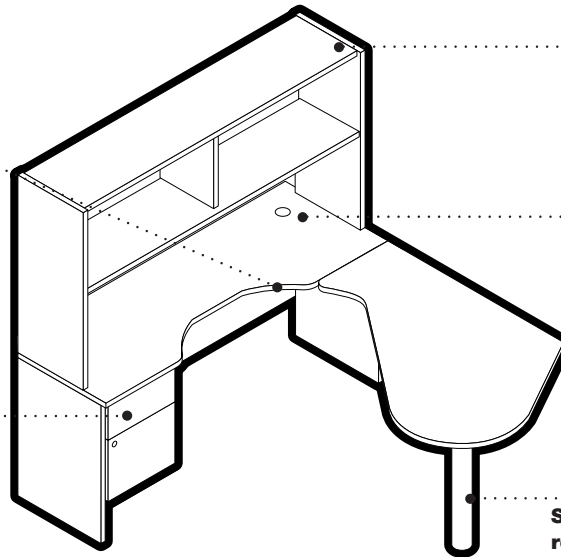

Specifying, pages 341–346

Small Office and Home Office components create space-saving workstations that can be used with Classic Payback pedestals, Value overhead storage cabinets, and Value tackboards.

Front and back edges are rounded on Small Office and Home Office desks and returns.

Classic Payback 19"D pedestals can be attached underneath a Small Office and Home Office desk on either end. Only mobile pedestals can be used with Small Office and Home Office returns.

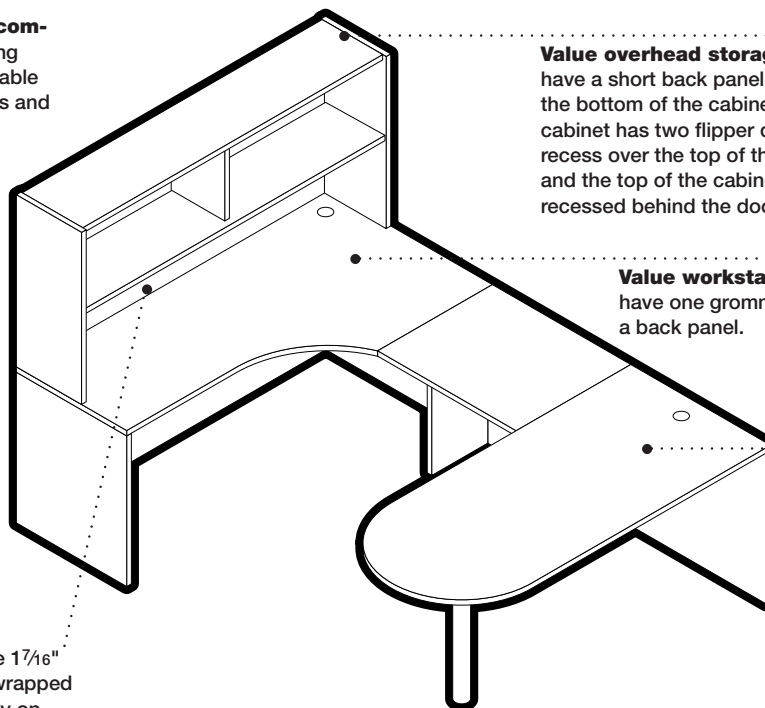

Value Overhead storage cabinets can be attached to Small Office and Home Office desks for additional storage space.

Small Office and Home Office desks have grommets in the back corners of the top.

Small Office and Home Office returns are available with a 3" column leg or supported with laminate panel.

Classic Payback Value components create cost-saving workstations that are available in a limited number of sizes and configurations.

Value overhead storage cabinets have a short back panel that stops at the bottom of the cabinet. The closed cabinet has two flipper doors, which recess over the top of the cabinet, and the top of the cabinet is recessed behind the doors.

Value workstation shells have one grommet and share a back panel.

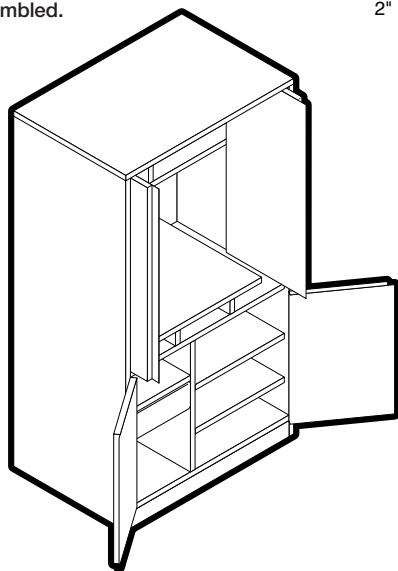

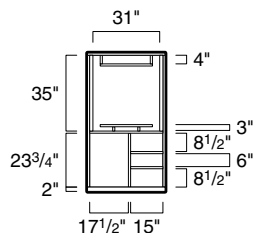

Value D-shaped work-surface has a 3" column and a metal gusset to attach the back panel to the top.

Value tackboards are 17/16" thick and completely wrapped in fabric with tackability on one side. Tackboard is constructed to be a filler panel for the Value overhead cabinet and is not interchangeable with the Classic Payback tackboard.

Conference Room Furniture Facts

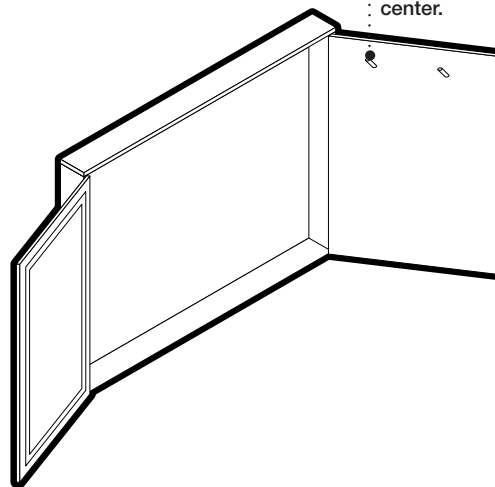

Conference Room
Furniture Facts
 Specifying, page 347

Video cabinet provides ample space for a 29" video monitor and VCR. Top doors recess into cabinet. Cabinet also includes a drawer (12 $\frac{1}{4}$ "W x 16 $\frac{1}{8}$ "D x 2 $\frac{5}{8}$ "H interior dimension) for storing video cassettes and two adjustable-height shelves. The cabinet comes fully assembled.

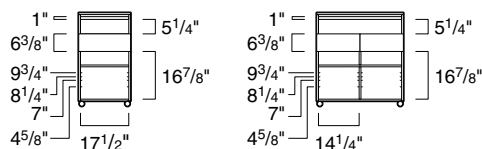

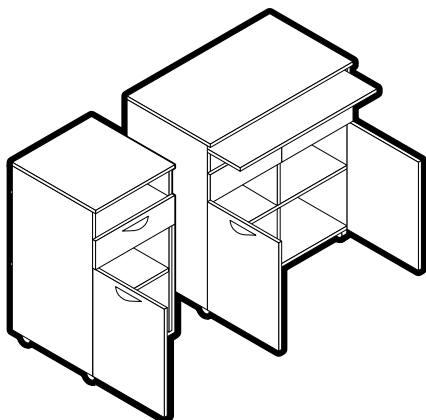

Wall markerboard cabinet contains a large writing surface that can be concealed with two cabinet doors. Right-hand door interior has two flip-chart pegs, and left-hand door interior has tackable cork. The cabinet comes fully assembled.

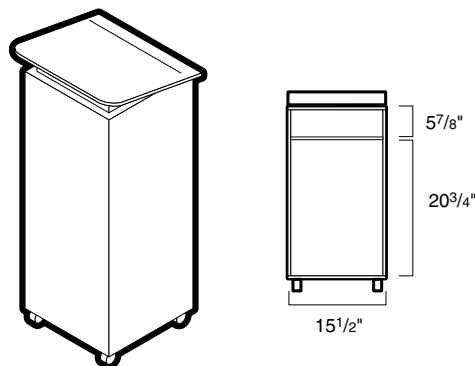

Flip-chart pegs are located on interior of right door. Pegs are 17 $\frac{5}{8}$ " apart, center to center.

Meeting room service carts come in two widths to provide storage for conference supplies. The carts are on casters to provide easy mobility and are shipped fully assembled. Storage drawers are half depth.

Lectern is on casters to provide easy mobility and includes a 6"H fixed note and a fixed bottom shelf.

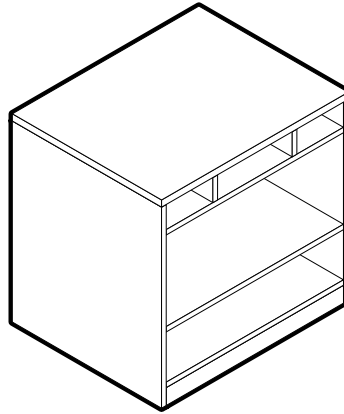

Interior depth is 16 $\frac{7}{8}$ "

Tip: Arrows indicate laminate grain direction.

Directional Laminate and Edge Profile Detail

The appearance of laminate may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on work-surfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

Extended Corner Desk Shells

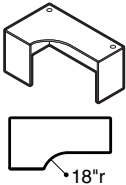

Tip: Grain direction of back panels runs horizontally. Grain direction of end panels runs vertically.

Tip: Corner leg is standard on desk shells without bow front. Leg is not available on shells with bow fronts.

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

Curvilinear-front option

Tip: When two clear-access end panels are used, the shell unit must be attached to adjoining worksurfaces.

Notched Desk Shells

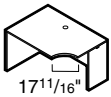

Straight, notch right

Tip: Grain direction of back panel runs horizontally. Grain direction of end panels runs vertically.

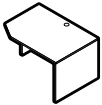

Tip: When a clear-access end panel is used, the shell must be attached to an adjoining worksurface.

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

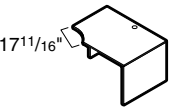

Notch Options

Curvilinear, notch right

Straight, notch left

Curvilinear, notch left

Tip: If the curvilinear, notch right or left option is specified, the notch is 17 11/16 inches.

Tip: The width of a pedestal will not fit fully under a 30" notched desk shell with a curvilinear front.

Standard Includes

Rectilinear-Shape Worksurfaces

Rectilinear-Shape
Worksurfaces

Tip: Rectilinear-shape work surface must be attached to a bridge, return, desk, credenza, or shell to form an L- or U-shaped configuration and to provide proper stability. Additional attachment hardware may need to be ordered.

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

Credenzas with Pedestals

Tip: Pedestal locks on full storage credenzas are located on the side of the pedestal and accessed by opening the center doors.

Tip: Grain direction of back panel runs horizontally. Grain direction of end panels runs vertically.

Tip: Wesco locks are not compatible with Steelcase FR series locks and keys.

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

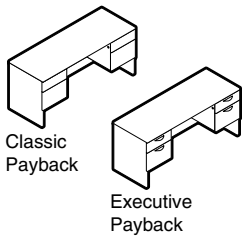

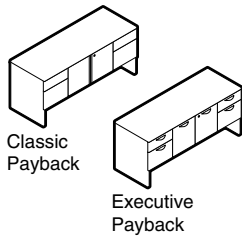

Tip: The top drawer of the box/box/file pedestal does not lock.

► See page 1 for details.

Tip: Daisy chaining is not allowed in New York City or Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Because shelf lights are usually recessed, black is the standard paint color. Paint colors other than black have an upcharge.

Tip: If an optional paint color is selected for the housing, the electrical switches and end caps will remain black plastic.

Tip: When a shelf light is attached to an overhead storage cabinet, specify a wire manager (TS5AWM) to route cords.

Products on this page are Steelcase, not Turnstone. They are included here to simplify your planning. Remember that Steelcase has different pricing terms than Payback products.

Standard Includes	Required to Specify

Desk Facts

Currency is a freestanding laminate desking line designed to complement the Turnstone Kick panel-based system. Desks, returns, credenzas, and storage components are shipped fully assembled. The worksurfaces are available in two thicknesses and are offered in either True Performance Laminate or High-Pressure Laminate with a standard square edge profile. Vertical surfaces are offered in Low-Pressure Laminates.

 Specifying, pages 375–377, 381–384, and 394–400

Worksurfaces are standard 1 1/8"-thick; 1 3/8"-thick worksurfaces are available as an option. They can be specified with either True Performance Laminates or High Pressure Laminates.

Desks and returns have full-height pedestals and are standard with a full-height back panel. 1/4-height back panel is available as an option when easy access is needed to wall outlets 18" from the floor. Use 1/4-height back panels only in an application against a wall as the pedestal back is open.

36"D desks have a 6" overhang on the back side.

Vertical surfaces—pedestals, end panels, and modesty panels—are offered in Low-Pressure Laminates.

Box drawers open their full depth using ball-bearing suspensions.

Drawer fronts on pedestals can be specified with a laminate color different from the pedestal body.

Adjustable-height retractable keyboard shelf can be field-installed to support a computer keyboard beneath the worksurface. It attaches under a worksurface with a 17"D x 27 1/2"W clear dimension. A retractable keyboard shelf is also available.

Returns and return shells attach to desk shells, single-pedestal desks, or credenzas to form a 28 1/2"H or 28 3/4"H flush-height L-shape configuration. Attachment brackets are included with returns.

File drawers open their full depth for total access to the contents. File drawers have heavy-duty ball-bearing suspensions. They accommodate letter-size filing front to back and legal-size filing side to side.

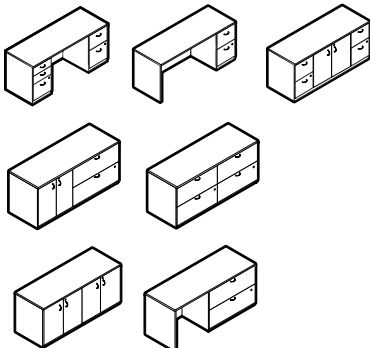

Locks are located in the bottom drawer of the pedestal, top right-hand corner.

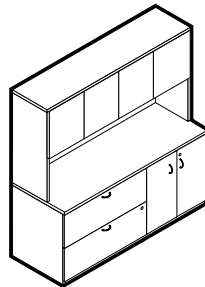

Lock for the box/box/file pedestal option does not lock the top box drawer.

Credenzas come in various configurations—single- and double-pedestal, full storage with pedestals, single and double lateral file, lateral file and storage, and double storage.

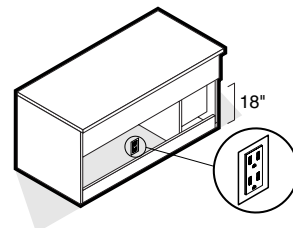

► Pages 394–400

Credenzas can be used in conjunction with other storage or desking components.

1/4-height back panel is available as an option on desk and returns when easy access is needed to wall outlets 18" from the floor. Use 1/4-height back panels only in an application against a wall as the pedestal back is open. Bottom stretcher can be moved or installed anywhere along the back for access to wall and base outlets.

Desk Shell Facts

Currency is a freestanding laminate desking line designed to complement the Turnstone Kick panel-based system. Desk shells, bridges, and D-, P-, and rectilinear-shape worksurfaces are shipped knocked down for assembly in the field using quick-connect hardware. The worksurfaces are available in two thicknesses, and are offered in either True Performance Laminate or High-Pressure Laminate with a standard square edge. Vertical surfaces are offered in Low-Pressure Laminates.

Worksurfaces are standard 1 $\frac{1}{8}$ "-thick; 1 $\frac{3}{8}$ "-thick worksurfaces are available as an option. They can be specified with either True Performance Laminates or High-Pressure Laminates.

Desk shells can be used with freestanding or mobile pedestals. Desk shells are standard with full-height panels. $\frac{1}{4}$ -height back panels (9 $\frac{3}{8}$ "H) can be specified as an option when easy access is needed to wall outlets 18" from the floor.

Extended curved corner desk shell accommodates one pedestal under the extended portion and is standard with one clear-access end panel. Kneespace under the extended curved corner worksurface is shown below.

Specifying, pages 378–380, 383–384, and 387–393

Factory-installed grommet is standard on extended curved corner and curved corner desk shells. Field-installed grommets are available for all other desk worksurfaces.
▶ Page 422

Center drawers are available for field installation under worksurfaces that have at least 19"D x 21 $\frac{1}{4}$ "H clear kneespace. Center drawer does not lock.
▶ Page 423

D-, P-, and rectilinear-shape worksurfaces must be attached to a bridge, return, or adjoining worksurface to form a flush-height, L- or U-shaped configuration and to provide stability. Post leg diameter is 6".

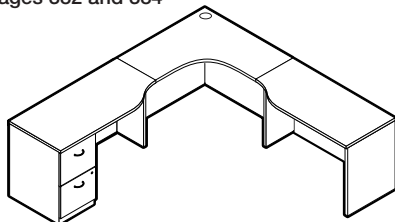

Bridge must attach to a worksurface on each side. Bridge attaches at 28 $\frac{1}{2}$ "H or 28 $\frac{3}{4}$ "H using attachment brackets, included with bridge.

Vertical surfaces—pedestals, end panels, and modesty panels—are offered in Low-Pressure Laminates.

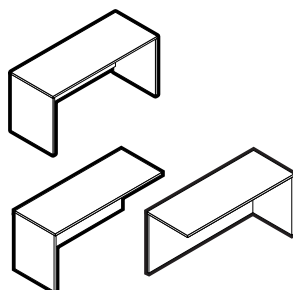

36"D desk shells come with 30"D end panels, creating a 6" overhang on the visitor's side.

Curved corner desk shells have two 12"D clear-access end panels.
▶ Page 380

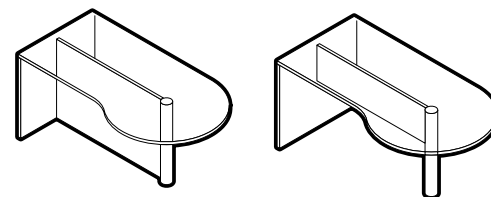

Transition returns and transition return shells are used with corner desk shells to create a wraparound worksurface where everything is in reach.
▶ Pages 382 and 384

Rectangular desk shells have two full-depth end panels. Return shells have one full-depth end panel.
▶ Pages 378, 383

D-, P-, and rectilinear-shape worksurfaces with modesty panel are standard with full-height-to-the-floor modesty panels. Optional $\frac{1}{4}$ -height modesty panels are available.
▶ Pages 388–393

Storage Facts

Under-worksurface pedestals, lateral files, and storage cabinets allow for storage beneath desk shells. Mobile pedestals and freestanding storage components are also available in various configurations and sizes. All storage components ship fully assembled.

► Pages 401–406

Two-drawer lateral files can be installed beneath the desk shell worksurface on site. 28½"H two-drawer laterals are available freestanding with a top to align with 24"D credenzas and desk shells.

► Pages 403–404

Under-worksurface pedestals are available 23"D and 29"D. Mobile pedestals are 22"D.

 Specifying, pages 385–386, 401–407, and 413–416

Pull Choices

Turnstone handle pull is standard. Turnstone bar pulls are available as an option on drawers and doors.

Turnstone handle pull

Turnstone bar pull

Storage cabinets can be installed beneath the desk shell worksurface on site. 28½"H storage cabinets are available freestanding with a top to align with 24"D credenzas and desk shells.

Mobile pedestal top is inset behind the top drawer overhead and be specified with a laminate color different from the pedestal body and drawer fronts.

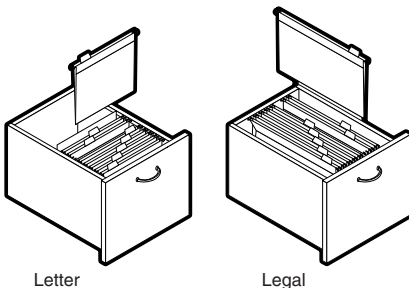

Mobile pedestals come in four configurations: box/file, box/box/file, open/box/file, and file/file.

Box drawers and file drawers have a black laminate body while the drawer fronts are available in a variety of laminate colors.

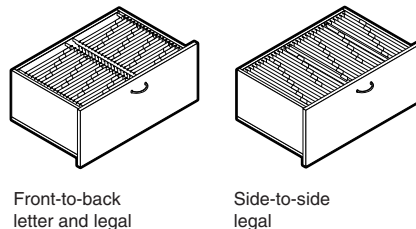

Lock for the box/box/file pedestal option does not lock the top box drawer.

File drawers open their full depth for total access to the contents. File drawers have heavy-duty ball-bearing suspensions. They accommodate letter-size filing front to back and legal-size filing side to side.

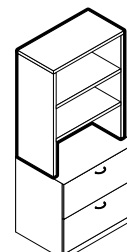

Lateral file drawers accommodate front-to-back filing of letter-size and legal-size hanging file folder frames and side-to-side filing of legal-size hanging file folder frames.

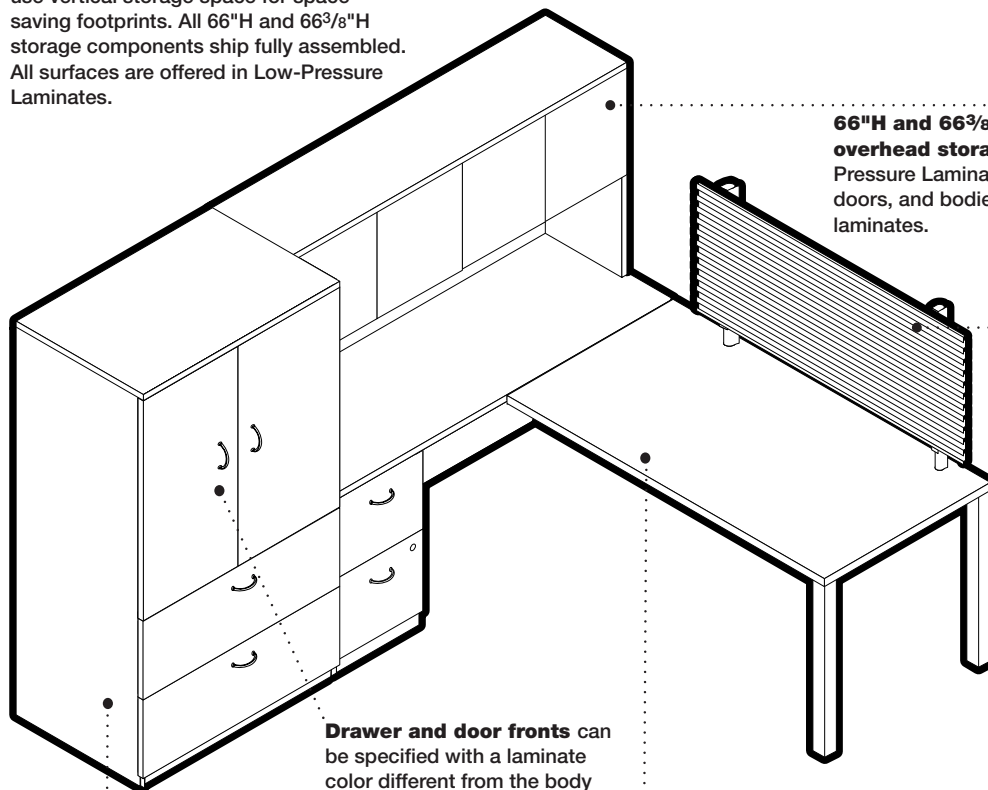

Stacking bookcases must be used with a freestanding two-drawer lateral file or a 28½"H or 28¾"H storage cabinet. Stacking bookcase cannot be freestanding.

► Page 407

66"H storage components, such as towers, storage cabinets, and bookcases, use vertical storage space for space-saving footprints. All 66"H and 66³/₈"H storage components ship fully assembled. All surfaces are offered in Low-Pressure Laminates.

 Specifying, pages 385–386, 401–407, and 413–416

66"H and 66³/₈"H storage components and overhead storage cabinets are offered in Low-Pressure Laminates only. The top, drawers and doors, and bodies can all be specified with different laminates.

Slatwall with mounting brackets and slatwall tack-boards add privacy and keep clutter from the worksurface.

Top thickness
1¹/₈" or 1³/₈"

Drawer and door fronts can be specified with a laminate color different from the body or top.

66"H and 66³/₈"H storage cabinets align with overhead storage that is used with desks, desk shells, or credenzas.

Rectangular tops used in conjunction with square post legs, column leg, or Kick post legs create a return. Tops are offered in True Performance Laminates or High-Pressure Laminates.

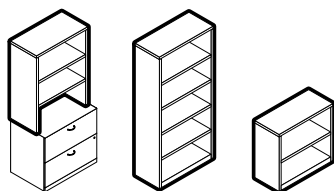

Locks are standard on all pedestals, under-worksurface and freestanding two-drawer lateral files, and under-worksurface and 28¹/₂"H storage cabinets. Lock is standard keyed random and controls all of the drawers. Consecutive and specific keying options are available. Lock cylinders must be specified separately. Product ships with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

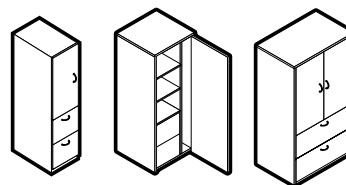

► Page 548

Bookcases, shipped fully assembled, are available in several different configurations. Shelves on bookcases adjust in 1¹/₄" increments.

► Page 416

Storage cabinets and towers are available in a variety of configurations to provide vertical storage that aids in defining boundaries and increasing privacy. Locks are available as an option.

Overhead Storage Facts

Overhead storage cabinets are available with or without doors. Cable passthrough space is standard on all overhead storage cabinets.

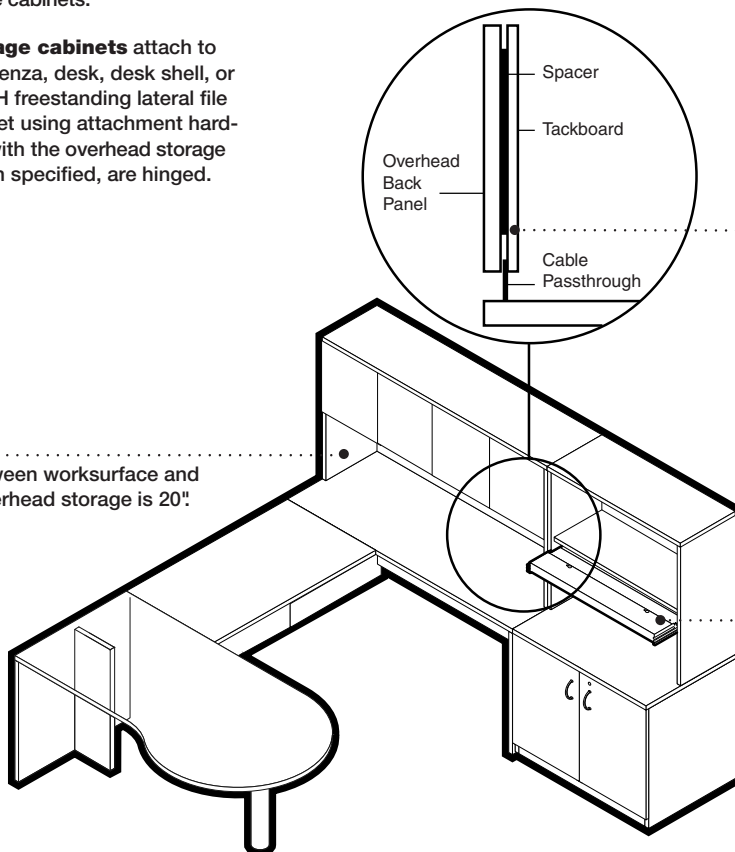

Overhead storage cabinets attach to the top of a credenza, desk, desk shell, or 28½"H or 28¾"H freestanding lateral file or storage cabinet using attachment hardware, included with the overhead storage unit. Doors, when specified, are hinged.

 Specifying, pages 408–412

Optional locks are available on overhead and wall-mounted storage cabinets with doors. Lock(s) are standard keyed random and control the doors. Consecutive and specific keying options are available. Lock cylinders must be specified separately. Product ships with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

Tackboard is available for field installation and comes with a spacer for the shelf light cord to be routed to the cable passthrough.

Clearance between worksurface and underside of overhead storage is 20".

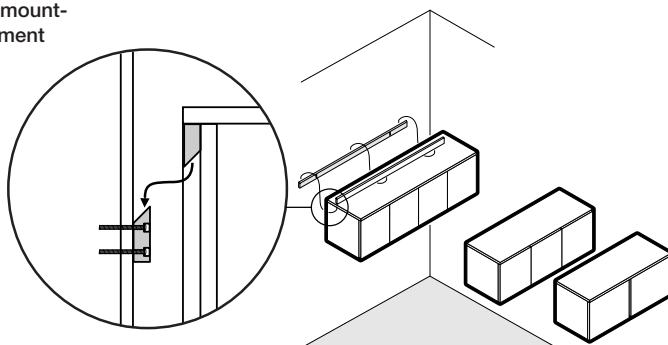

Shelf lights are available to field install in the recessed area beneath overhead storage cabinets. Clearance is 2"H x 11¼"D and includes a 1½"H cable passthrough along the bottom of the overhead storage back panels.

► Page 425

No pull option is offered on overhead and wall-mounted overhead storage cabinets with doors.

Wall-mounted overhead storage comes with mounting cleats and attachment hardware.

Must anchor wall-mounted overhead storage to as many studs as possible. See below for requirements:

30" to 42"W = 1 stud required

48" to 72"W = 2 studs required

When attaching overhead storage cabinets to desk shells, attach an underworksurface pedestal, return, return shell, bridge, or D-, P-, or rectilinear-shape worksurface for stability.

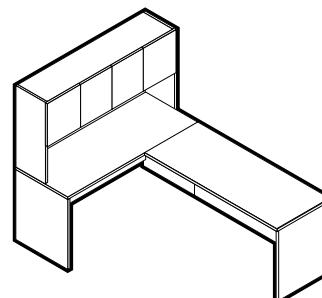

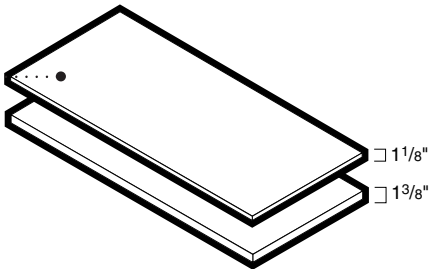

Table Top and Leg Facts

Table Top and Leg Facts

Table tops are available in rectangular, round, square, and conference tops. The rectangular tops are offered in True Performance Laminate and High-Pressure Laminates; all other tops are available in True Performance Laminates only. Rectangular tops are standard 1 1/8" thick or optional 1 3/8" thick. All other tops are 1 1/8" thick only. Legs support worksurfaces at 28 1/2"H or 28 3/4"H overall, which includes the worksurface thickness.

 Specifying, pages 418–419

Rectangular
Available in True Performance Laminate and High-Pressure Laminate.

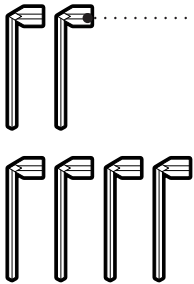

Kick Post Leg
Post leg is available individually. Leg is 27 3/8"H with glides.

Conference
Available in True Performance Laminate only.

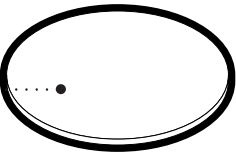

▶ See Groupwork chapter for more information.

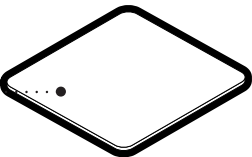

Square Leg
2" square leg is available in packages of two and four. Legs are 27 3/8"H with glides.

Round
Available in True Performance Laminate only.

▶ See Groupwork chapter for more information

Square
Available in True Performance Laminate only.

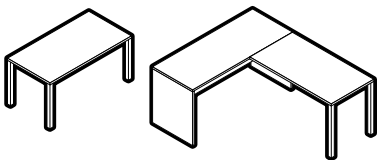

▶ See Groupwork chapter for more information.

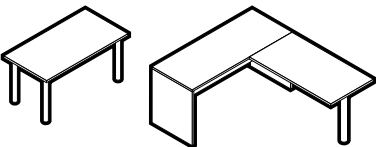

Column Leg
6" column leg is available individually. Leg is 27 3/8"H with glides.

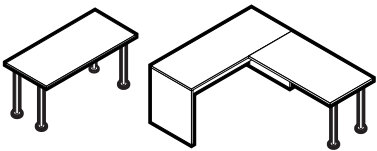

Square legs can be used to create a stand-alone table desk or a return. Specify the package of two legs to create a return and specify the package of four legs to create a table desk.

Column leg can be used with conference tops to create a table or with rectangular tops to create a return. Order two column legs to create a return and order four column legs to create a conference table.

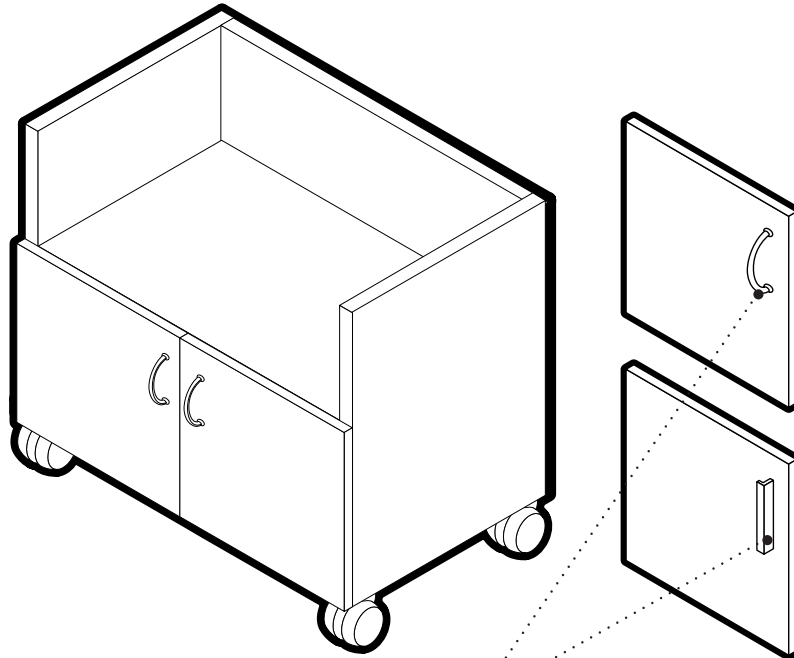

Kick post legs can be used to create a stand-alone table desk or return. Specify two legs to create a return and specify four legs to create a table desk.

Mobile Cart Facts

Mobile carts provide storage and access to equipment in a component that is easy to move from place to place.

 Specifying, page 417

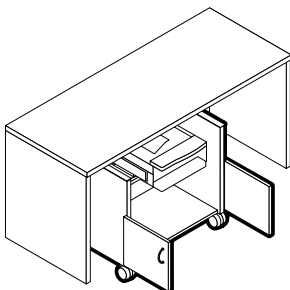

Pull Choices

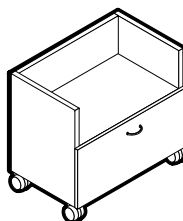

Turnstone handle pull is standard. Turnstone bar pulls are available as an option on drawers and doors.

Locks are optional on mobile carts with drawer or doors. Lock(s) are standard, keyed random and controls the drawers and or doors. Consecutive and specific keying options are available. Lock cylinders must be specified separately. Product ships with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.
► Page 548

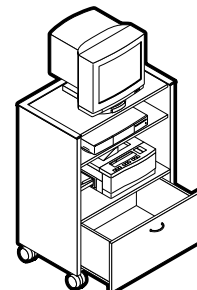

Mobile cart with doors has a fixed shelf and storage for paper and supplies below. Cart can be stored beneath a worksurface.

25"H mobile cart with lateral file drawer has a fixed shelf and a drawer for filing and storage.

41"H mobile cart with lateral file drawer has one adjustable shelf. Top is 40"H to offer a standing-height.

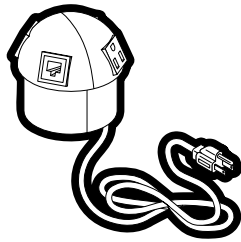

Worksurface-Height Power and Communication Facts

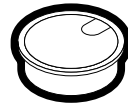

Worksurface-Height
Power and
Communication Facts

Power and communication can be accessed at worksurface height by using worksurface-mounted receptacles, communication modules, and power and communication spheres.

 Specifying, page 421

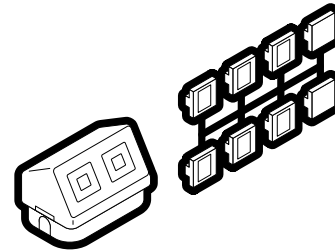

Worksurface-mounted power and communication sphere

Grommet

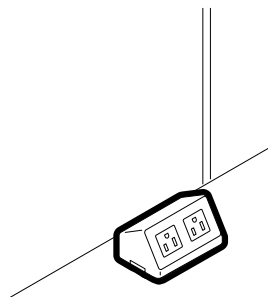

Worksurface-mounted receptacle

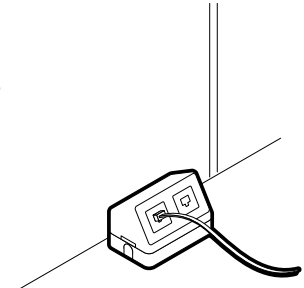

Worksurface-mounted communication module

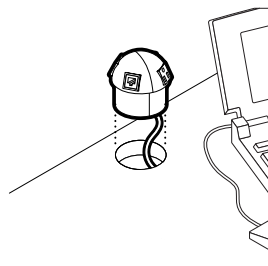

Worksurface-mounted receptacles come in packages of three. Each has a duplex receptacle, a nine-foot cord, and a three-prong plug.

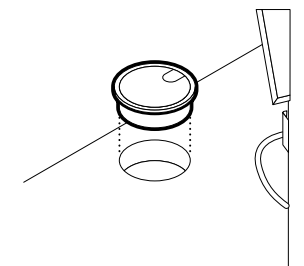

Worksurface-mounted communication modules come in packages of three. Each contains face plates to accommodate customer-supplied voice/data jacks.

Worksurface-mounted power and communication sphere contains two simplex electrical outlets, face plates to accommodate customer-supplied data jacks, a six-foot cord, and a three-prong plug.

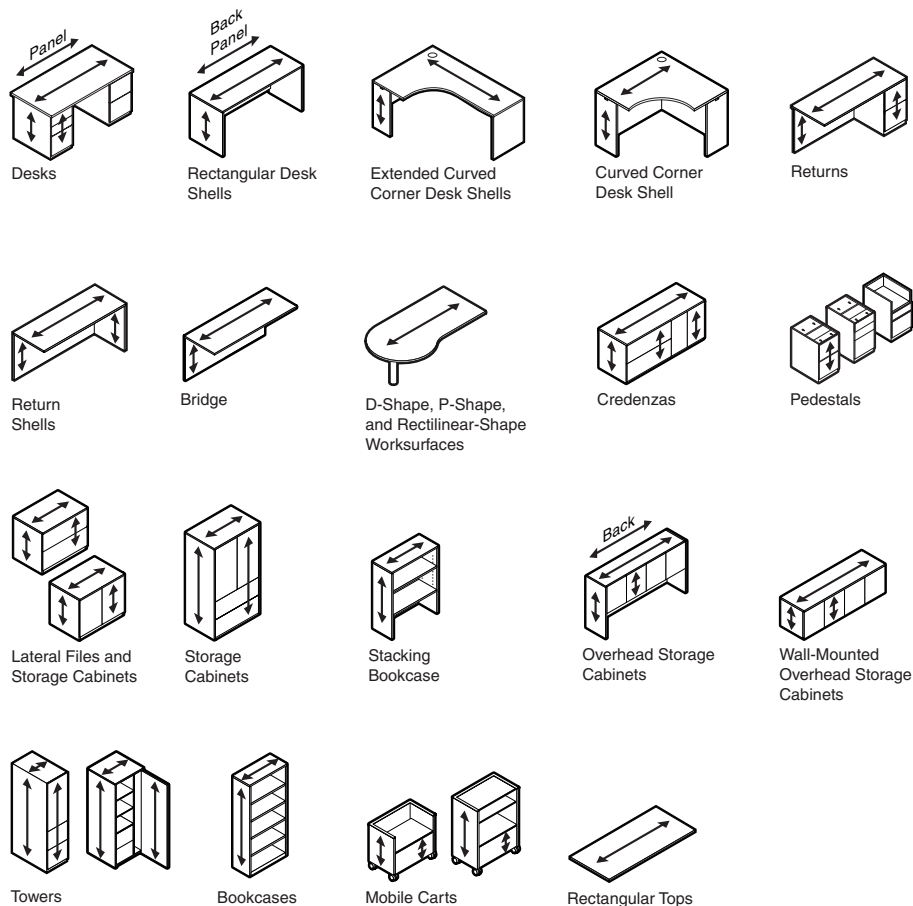

Grommets are available in packages of 10 to finish exposed edges of field-installed openings in the worksurface for vertical cable routing. Grommets are black plastic.

Directional Laminate and Edge Profile Detail

The appearance of **laminate** may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on work-surfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

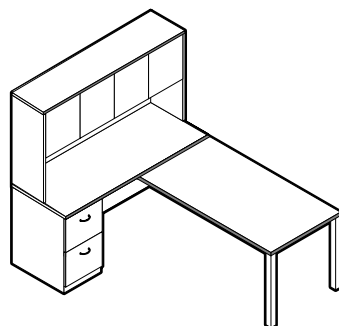

3 mm radius front edge profile (1 1/8" thick)

1 mm side and back
edgebanding

3 mm Edge Profile Locations

Double-Pedestal Desks

Tip: Grain direction of modesty panel runs horizontally. Grain direction of pedestals runs vertically.

Tip: Lock for the box/box/file pedestal does not lock the top box drawer.

Tip: The optional 13/8"-thick worksurface will add 1/4" to the overall height of the desk, making it 283/4"H.

Tip: The optional 1/4-height modesty panel should be used only in an application against a wall, as the pedestal back is open. Specify a desk shell with 1/4-height modesty panel and pedestals separately if back will be seen.

Tip: 36"D desks have a 6" overhang on the visitor side.

Standard Includes

► Need help? Product details, page 366

- 1 1/8"-thick worksurface: True Performance Laminate or High-Pressure Laminate
- Desk with full-height modesty panel: Low-Pressure Laminate
- Drawer front: Low-Pressure Laminate
- 3 mm radius profile edge on user's side: vinyl default to match worksurface
- 1 mm side and back edges: vinyl default to match worksurface
- Handle pulls: 0835 Black or 9211 Nickel
- One full-height box/box/file pedestal at left and one full-height file/file pedestal at right
- Full-extension, heavy-duty ball-bearing drawer suspensions
- Drawer interior: black laminate only
- One pencil tray in pedestals with a box drawer: black plastic only
- File drawers to accommodate front-to-back or side-to-side filing of letter-size hanging file folder frames or side-to-side filing of legal-size hanging file folder frames
- Lock face ring with plastic plug to accommodate lock cylinder for each pedestal: 9250 Ember Chrome
- Adjustable leveling glides
- Shipped fully assembled

Required to Specify

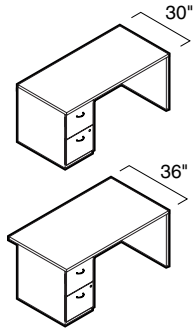

- 1 Style number
- 2 True Performance Laminate or High-Pressure Laminate color number for worksurface
- 3 Low-Pressure Laminate color number for desk
- 4 Low-Pressure Laminate color number for drawer front
- 5 Paint color number for handle pulls: 0835 Black, 9211 Nickel
- 6 Options, if selected (see below)
 - See *Surface Materials*, page 426.
 - Tip: Remember to specify lock cylinder and key.
 - *Lock Cylinders*, page 549

	Options	U.S. Price	Required to Specify
Surface Materials	• Locks: 9201 Polished Chrome	No cost	Specify with 9201 Polished Chrome lock.

Desk-Height Returns

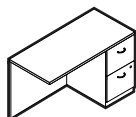

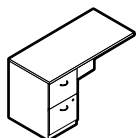

Tip: Grain direction of modesty panel runs horizontally. Grain direction of pedestal runs vertically.

Tip: The optional 13/8"-thick worksurface will add 1/4" to the overall height of the return, making it 28 3/4"H.

Tip: Lock for the box/box/file pedestal option does not lock the top box drawer.

Tip: The optional 1/4-height modesty panel should be used only in an application against a wall, as the pedestal back is open. Specify a return shell with 1/4-height modesty panel and pedestal separately if back will be seen.

Standard Includes

- ▶ Need help? Product details, page 366
- 1 1/8"-thick worksurface: True Performance Laminate or High-Pressure Laminate
- Return with full-height modesty panel: Low-Pressure Laminate
- Drawer front: Low-Pressure Laminate
- 3 mm radius profile edge on user's side: vinyl default to match worksurface
- 1 mm side and back edges: vinyl default to match worksurface
- Handle pulls: 0835 Black or 9211 Nickel
- One full-height file/file pedestal
- Full-extension, heavy-duty ball-bearing drawer suspensions
- Drawer interior: black laminate only
- File drawers to accommodate front-to-back or side-to-side filing of letter-size hanging file folder frames or side-to-side filing of legal-size hanging file folder frames
- Lock face ring with plastic plug to accommodate lock cylinder: 9250 Ember Chrome
- Adjustable leveling glides
- Two attachment brackets
- Shipped fully assembled

Required to Specify

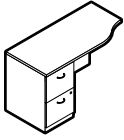

- 1 Style number
- 2 True Performance laminate or High-Pressure Laminate color number for worksurface
- 3 Low-Pressure Laminate color number for return
- 4 Low-Pressure Laminate color number for drawer front
- 5 Paint color number for handle pulls: 0835 Black, 9211 Nickel
- 6 Options, if selected (see below)
 - ▶ See *Surface Materials*, page 426. Tip: Remember to specify lock cylinder and key.

Desk-Height Transition Returns

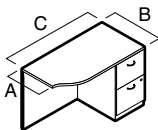

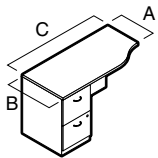

Tip: Grain direction of modesty panel and pedestal runs vertically.

Tip: Transition return should be used in conjunction with a curved corner desk shell.

Tip: The optional 1 $\frac{3}{8}$ "-thick worksurface will add $\frac{1}{4}$ " to the overall height of the return, making it 28 $\frac{3}{4}$ "H.

Tip: Lock for the box/box/file pedestal option does not lock the top box drawer.

Tip: The optional $\frac{1}{4}$ -height modesty panel should be used only in an application against a wall, as the pedestal back is open. Specify a transition return shell with $\frac{1}{4}$ -height modesty panel and pedestal separately if back will be seen.

Standard Includes

- ▶ Need help? Product details, page 367
- 1 $\frac{1}{8}$ "-thick worksurface: True Performance Laminate or High-Pressure Laminate
- Return with full-height modesty panel: Low-Pressure Laminate
- Drawer front: Low-Pressure Laminate
- 3 mm radius profile edge on user's side: vinyl default to match worksurface
- 1 mm side and back edges: vinyl default to match worksurface
- Handle pulls: 0835 Black or 9211 Nickel

Single Lateral File Credenzas

Tip: Grain direction of modesty panel runs horizontally. Grain direction of lateral file and end panel runs vertically.

Tip: The optional 1 3/8"-thick worksurface will add 1/4" to the overall height of the credenza, making it 28 3/4"H.

Tip: The optional 1/4-height modesty panel should be used only in an application against a wall as the pedestal back is open. Specify a desk shell with 1/4-height modesty panel and under-worksurface lateral file separately if back will be seen.

Standard Includes

► Need help? Product details, page 366

- 1 1/8"-thick worksurface: True Performance Laminate or High-Pressure Laminate
- Credenza with full-height modesty panel: Low-Pressure Laminate
- Drawer front: Low-Pressure Laminate
- 3 mm radius profile edge on user's side: vinyl default to match worksurface
- 1 mm side and back edges: vinyl default to match worksurface
- Handle pulls: 0835 Black or 9211 Nickel
- Two lateral file drawers
- Full-extension, heavy-duty ball-bearing drawer suspensions
- Drawer interior: black laminate only
- Lateral file drawers to accommodate front-to-back or side-to-side filing of letter-size hanging file folder frames and side-to-side filing of legal-size hanging file folder frames
- Lock face ring with plastic plug to accommodate lock cylinder: 9250 Ember Chrome
- Adjustable leveling glides
- Shipped fully assembled

Standard Shelf Lights

Tip: Daisy chaining is not allowed in New York City or Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Because shelf lights are usually recessed, black is the standard paint color. Paint colors other than black have an upcharge.

Tip: If an optional paint color is selected for the housing, the electrical switches and end caps will remain black plastic.

Products on this page are Steelcase, not Turnstone. They are included here to simplify your planning. Remember that Steelcase has different pricing terms than Currency products.

Laminate

True Performance Laminate

Applies to:

- Worksurfaces
- Tops
- 247T Black
- 25T1 Winter on Maple
- 26T1 Natural Cherry Version 2
- 273T Sand
- 286T Fog
- 275T Warm White
- 2T50 Vanadium Fiber
- 2T52 Tungsten Fiber

Tip: Edgebanding default for True Performance Laminates matches the laminate color specified for the worksurface or top.

Low-Pressure Laminate

Applies to:

- Worksurfaces
- Tops
- 262T Marbled Maple
- 264T Chocolate Walnut
- 267L Marbled Cherry Version 2

High-Pressure Laminate

Applies to:

- Worksurfaces
- Tops
- 2412 Natural Cherry Version 2
- 2511 Winter on Maple
- 2612 Marbled Maple
- 2614 Chocolate Walnut
- 2615 Marbled Cherry
- 2746 Black
- 2759 Warm White
- 2825 Vanadium Speckle
- 2850 Vanadium Fiber
- 2852 Tungsten Fiber

Low-Pressure Laminate

Applies to:

- Desks
- Desk shells
- Returns
- Return shells
- Bridges
- D-, P-, rectilinear worksurfaces
- Credenzas
- Pedestals
- Lateral files
- Storage cabinets
- Stacking bookcases

Designtex Graded-In Program

All Designtex Graded-In fabrics are now supported just like standard fabrics when ordered on Steelcase furniture. The Designtex Graded-In Program also includes the Environmental Impact Collection, which offers sustainable textiles in affordable price groups. For additional information and fabric samples, contact your local Designtex sales representative at 1.800.221.1540.

Designtex fabrics are graded into Steelcase Price Groups 1 through 3.

Tip: All Designtex Graded-In vertical surface fabrics require an additional lead-time of two or more weeks.

Storage Facts

Pedestals and file units are standard with a vinyl top or additional vinyl floating top. Space under floating top can be used for storage.

 Specifying, pages 431–434

Vinyl top

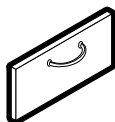

Vinyl floating top

Screens can be attached to pedestals and file units.
► See page 466.

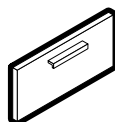

Lock is standard on pedestals and file units. It controls all drawers.

Turnstone handle pull is standard. Turnstone bar pulls are available as an option on drawers and doors.

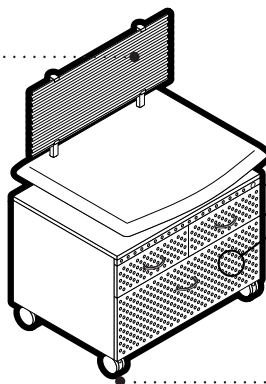

Pull Choices

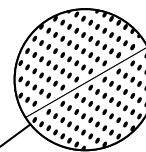

Turnstone handle pull

Turnstone bar pull

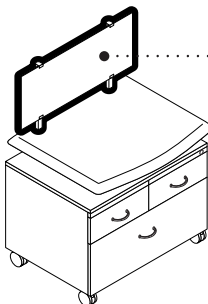

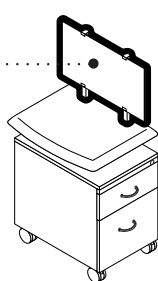

Front-locking casters on mobile pedestals and mobile file units allow units to be moved easily, including underneath tables.

Perforation is $\frac{3}{16}$ " in diameter on pedestals and file units with perforation.

Screen attaches to the right side of pedestals with floating top. 18"W screens are available for use on pedestals with floating top.

Screen attaches to the rear of mobile file units with floating top. 27"W screens are available only for use on mobile file units with floating top.

Smoke furniture complements Kick.
► See page 5.

Mobile pedestals and file units are available without perforation or with perforated fronts.

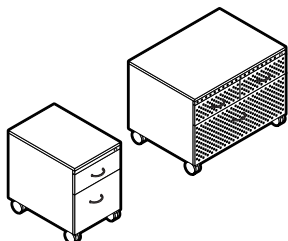

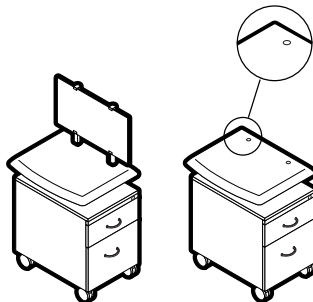

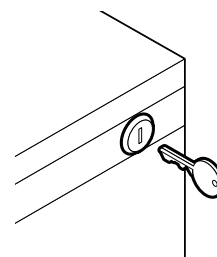

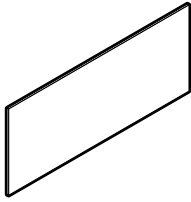

Table and storage tops are shipped without screen holes. To attach screens, holes must be drilled on site using the supplied template. Plugs are available through Customer Service Parts (TS5YGMTSR) when screens are not in use and have been removed from the top.

Lock is standard keyed random. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed onsite. Lock cylinders must be specified separately.
► *Lock and Keying Options*, page 548

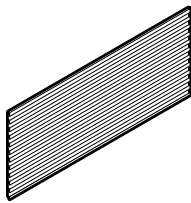

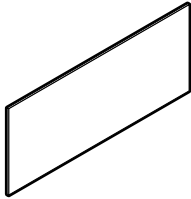

Storage-Mounted Screens

Tip: Mounting brackets must be ordered with screens.

Tip: 27"W screen is for use on mobile file unit with floater top only.

Hanging Display Component and Easel Facts

 Specifying, page 441

Hanging markerboard has a non-glare writing surface on both sides. It accepts all standard dry-erase markers. Markerboard can hang from the mobile easel or wall track. Tools are not required. Markerboard can be stored inside the mobile easel.

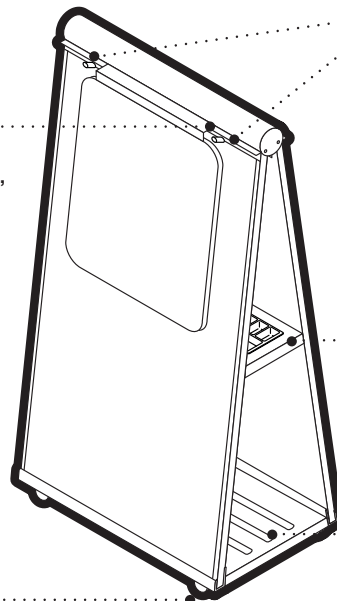

Wall track has a double hanging rail. It accommodates three hanging markerboards or tackboards, two rows deep. Wall track attaches to wall studs. It ships in eight-foot sections.

Hanging tackboard has tackable fabric surface on both sides. It can hang from the mobile easel or wall track. Tools are not required. Tackboard can be stored inside the mobile easel.

Press rollers hold single sheets of paper in place.

Mobile easels are available with a markerboard on one side and tackboard on the other side, tackboard on both sides, or markerboard on both sides.

Top rail acts as an easel to display posters, markerboards, and tackboards.

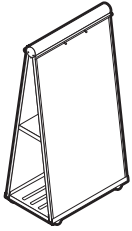

Pegs are standard on both sides of easel on the bottom of the rail for hanging flip charts. Pegs are 17⁵/₈" apart center to center.

Pencil tray holds pens, erasers, and push pins.

Storage compartment provides an area for extra tackboards, easel pads, and audio-visual equipment.

Casters allow the easel to be moved easily.

Mobile Easel

Tip: Mobile easel accommodates hanging markerboards and tackboards.

Currency Table Top and Leg Facts

Table tops are available rectangular and are 1¹/₈" or 1³/₈" thick. Legs support worksurfaces at 28¹/₂"H and 28³/₄"H overall, which includes the worksurface thickness.

 Specifying, pages 486–488

Rectangular

Available in True Performance Laminate (Kick) and High-Pressure Laminate (Currency).

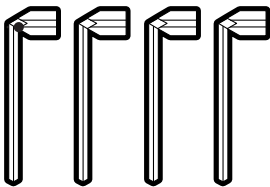

Kick Post Leg

Post leg is available individually. Leg is 27³/₈"H with glides.

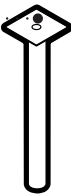

Square Leg

2" square leg is available in packages of four. Legs are 27³/₈"H with glides.

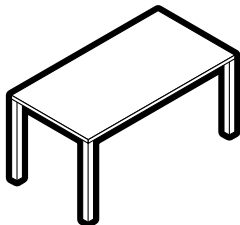

Column Leg

6" column leg is available individually. Leg is 27³/₈"H with glides.

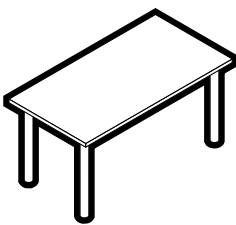

► See Groupwork chapter for information about round, square, or conference table tops.

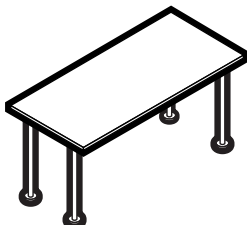

Square legs can be used to create a stand-alone table desk. Specify the package of four legs.

Column legs can be used with rectangular tops. Order four column legs.

Kick post legs can be used to create a stand-alone table desk. Specify four legs.

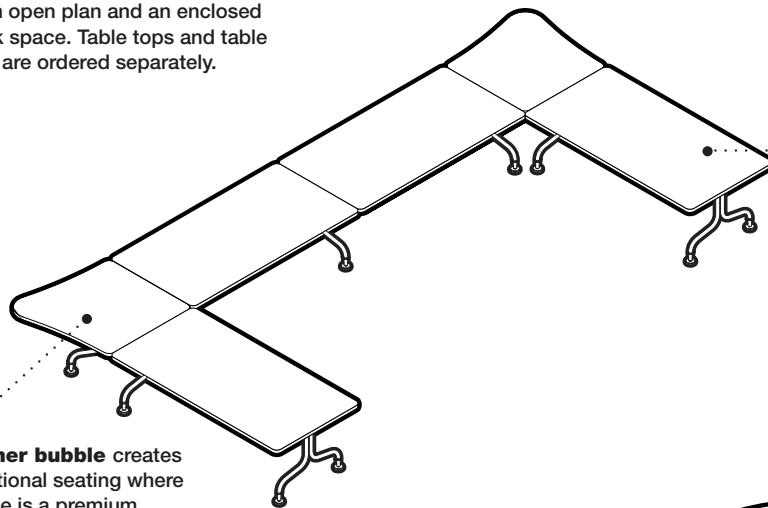

Currency Table Top and
Leg Facts

Groupwork Table Facts

Groupwork furniture supports team activities. It is appropriate in an open plan and an enclosed work space. Table tops and table legs are ordered separately.

 Specifying, pages 490–498

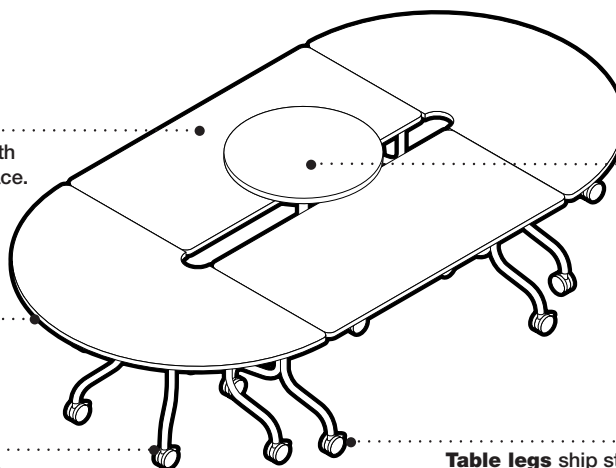

Corner bubble creates additional seating where space is a premium.

Tables are 28½"H.

Worksurfaces are woodcore with True Performance Laminate surface.

Worksurfaces have 2" radius corners with 3 mm edge band on all sides. Edge band is color matched to laminate.

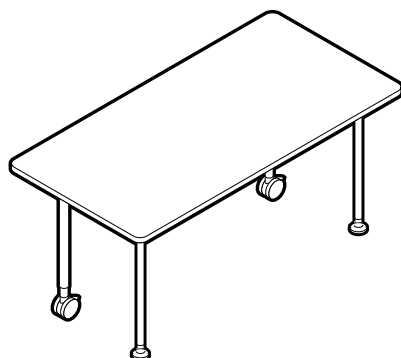

Groupwork tables are available with T-legs and post legs.

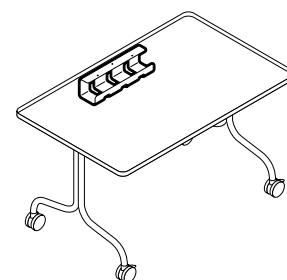

Media table has a 24" diameter surface to support technology needs and adjusts from 22"–32"H. Table top turns for convenience.

Table legs ship standard with levelers. Casters are optional.

Table legs can be ordered individually to create a combination of two legs with levelers and two legs with casters.

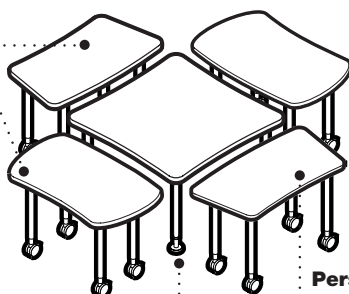

Wire management trough attaches to underside of worksurface to provide cable management and has capacity to support a powerstrip.

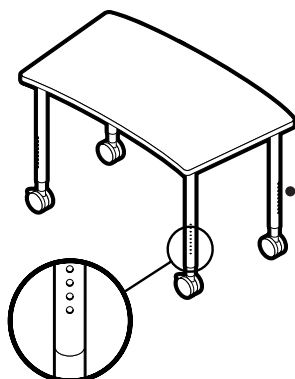

Specifying, pages 490–498

Personal and personal kidney-shaped tables can be used with square concave tops to create a mobile meeting space for team collaboration. Triangle convex tables also can be used with the square concave table tops.

Personal tables create additional workspace.

Levelers adjust $2\frac{1}{2}$ " from $26\frac{1}{2}$ "– 29 "H for installation on uneven floors.

Pin height-adjustable legs are available as an option on post legs and T-legs. Legs adjust at $\frac{3}{4}$ " increments from $26\frac{3}{16}$ "– $32\frac{3}{16}$ "H. Pin height-adjustable legs can be used to support nesting applications.

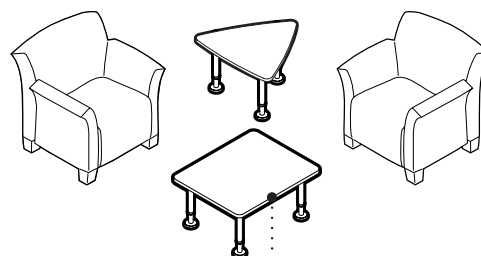

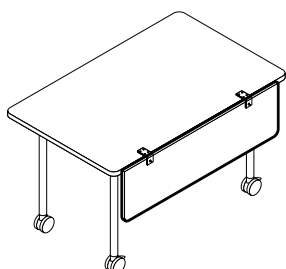

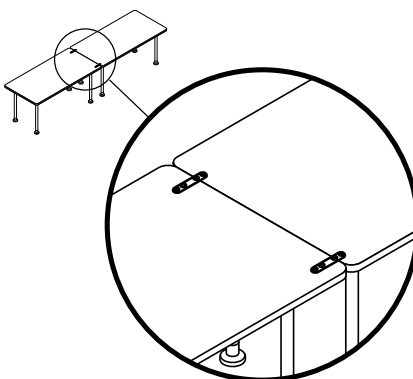

Table tops used with coffee table legs create reception areas or informal team spaces.

Groupwork tables with post legs also blend with Kick Systems furniture. Legs with levelers can adjust up to 29 "H only (includes table top).

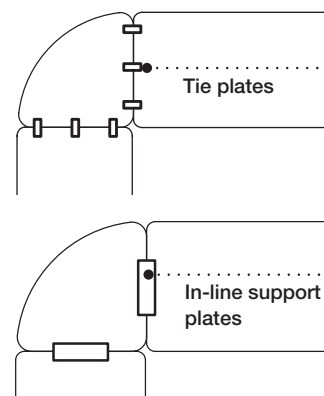

Modesty panel attaches below rectangular table tops to provide privacy. Modesty panels are 12 "H and are $\frac{1}{2}$ " thick. Modesty panels are finished with True Performance Laminate on both sides and color matched edges. Modesty panels cannot be used when Flip-top legs are specified.

Groupwork tables can be attached together using Kick tie plates (TSATTIE).

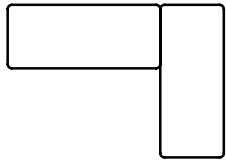

45° and 90° corner bridges use Kick tie plates and in-line support plates for connectivity. Six tie plates are used with 18 "D bridges. 14 "D in-line support plates are used with 24 "D bridges, and 20 "D in-line support plates are used with 30 "D bridges.

Groupwork Table Leg Facts

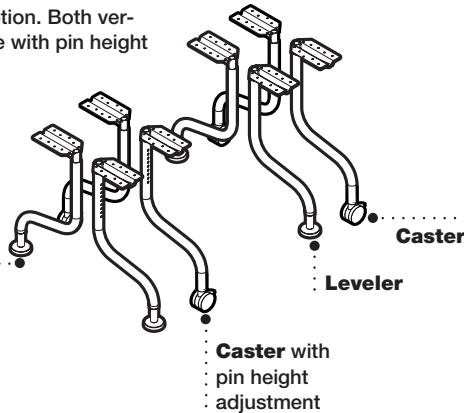

Legs attach to a top to make it freestanding. Legs support worksurfaces at 28¹/₂"H overall, including worksurface thickness.

Flip-top legs are available with casters only. Legs come as a pair with all applicable hardware. Legs are used with 24"D and 30"D tops.

Modesty panels cannot be used when flip-top legs are specified.

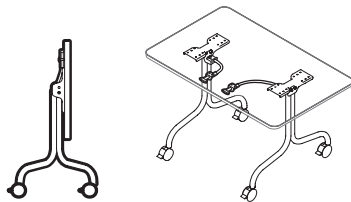

T-legs are available as a package of two or as a package of four legs. Levelers are standard. Casters are available as an option. Both versions are available with pin height adjustment.

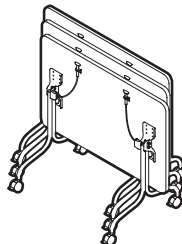

Attachment hardware, standard with Groupwork legs, should be used with Groupwork table tops only.

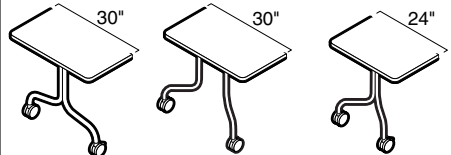

Release latch on flip-top legs allows for one-person operation. Top locks in place in the vertical and horizontal positions.

Flip-top tables can be nested for space-saving storage

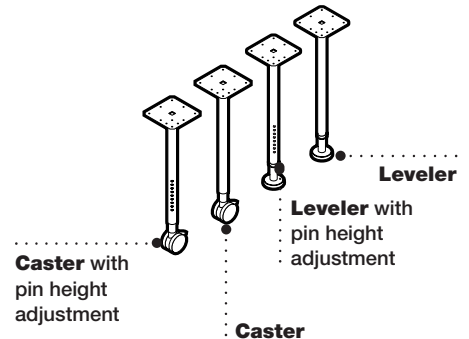

T-legs can be mounted in two positions for 30"D rectangular tops and one position for 24"D rectangular tops.

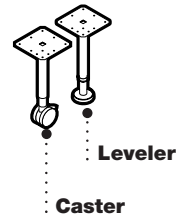

Specifying, page 494

Post leg is available individually or as a package of four legs. Levelers are standard. Casters are available as an option. Both versions are available with pin height adjustment.

Coffee table leg is available individually or as a package of four legs. Levelers are standard. Casters are available as an option.

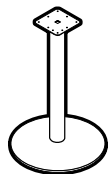

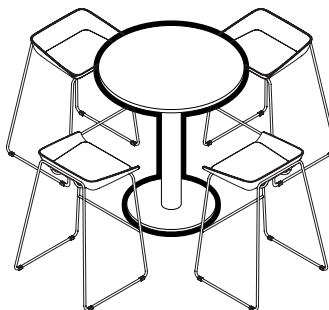

Coffee table legs with levelers, which can adjust 2¹/₂", are used to create coffee-table heights or end-table heights. Coffee table legs with casters can also be used to create end-table heights.

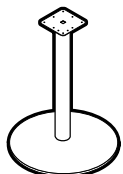

Groupwork Table Base Facts

Bases attach to square, round, or conference table tops. Bases support square and round tops at 28¹/₂"H or 42"H overall, including top thickness. 28"H bases support conference table tops at 28¹/₂"H overall, including top thickness.

 Specifying, page 496

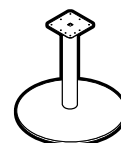

22" diameter by 41"H base can be used to create cafe-height tables with smaller-size round and square tops (24"–30") in cafeterias or general meeting spaces. Glides are standard.

28" diameter by 41"H base can be used to create cafe-height tables with larger-size round and square tops (36") in cafeterias or general meeting spaces. Glides are standard.

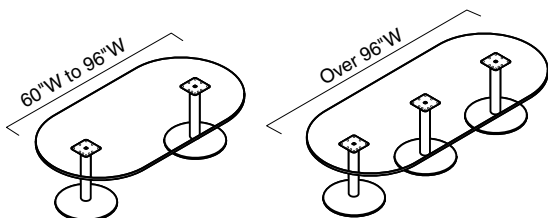

22" diameter by 27³/₈"H base can be used to create standard-height tables with smaller-size round and square tops (24"–30") in cafeterias or teaming areas. Glides are standard.

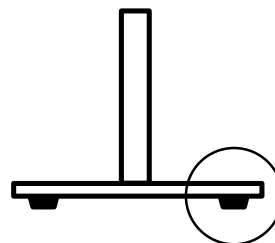

28" diameter by 27³/₈"H base can be used to create standard-height tables with larger-size tops (36" round and square, 42" round, and conference table tops in all sizes) in cafeterias, conference rooms, or teaming areas. Glides are standard.

Conference table tops can be used with the 28" diameter by 27³/₈"H table base only. Two bases must be used with tops 60"W to 96"W, and three bases must be used with all tops over 96"W.

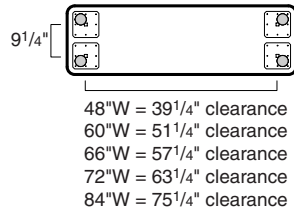

Glides on Groupwork round table bases are not adjustable.

Smoke Table Facts

Flexibility doesn't always mean complexity. Smoke is designed to mobilize your workforce while actually simplifying your workspace. It gives you the adaptability and speed of freestanding furniture—and a sleek design that's anything but fleeting.

Rectangular table can dock to left- and right-hand mobile table desk to provide additional workspace.

Smoke worksurfaces are crafted from translucent vinyl wrapped over an exposed mdf (medium density fiberboard) core, giving worksurfaces a unique and natural appearance. Inner core varies in color and pattern, including a light streaking on large worksurfaces. Like other natural materials, color may change over time. These tops are similar in hardness and durability to veneer.

Specifying, pages 502–505

Smoke table tops and legs are ordered separately.

Mobile table desks and stationary table desks are available in left-, right-, and non-handed versions.

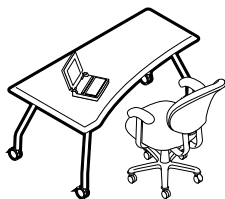

Nesting oval table provides a moveable conferencing area or additional workspace. Table stores underneath worksurface when not in use. Nesting table is 26"H.

Angled legs are standard with a fixed height. Optional adjustable-height legs are available.

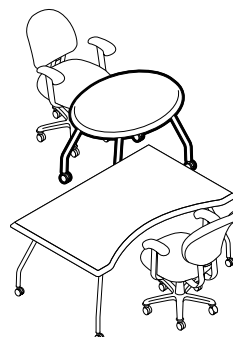

Front-locking casters are standard on mobile table desks. Levelers are standard on stationary table desks and adjust to install furniture on uneven floors.

Handed table desks transition from 36"D to 24"D to accommodate a computer and provide chair swing space.

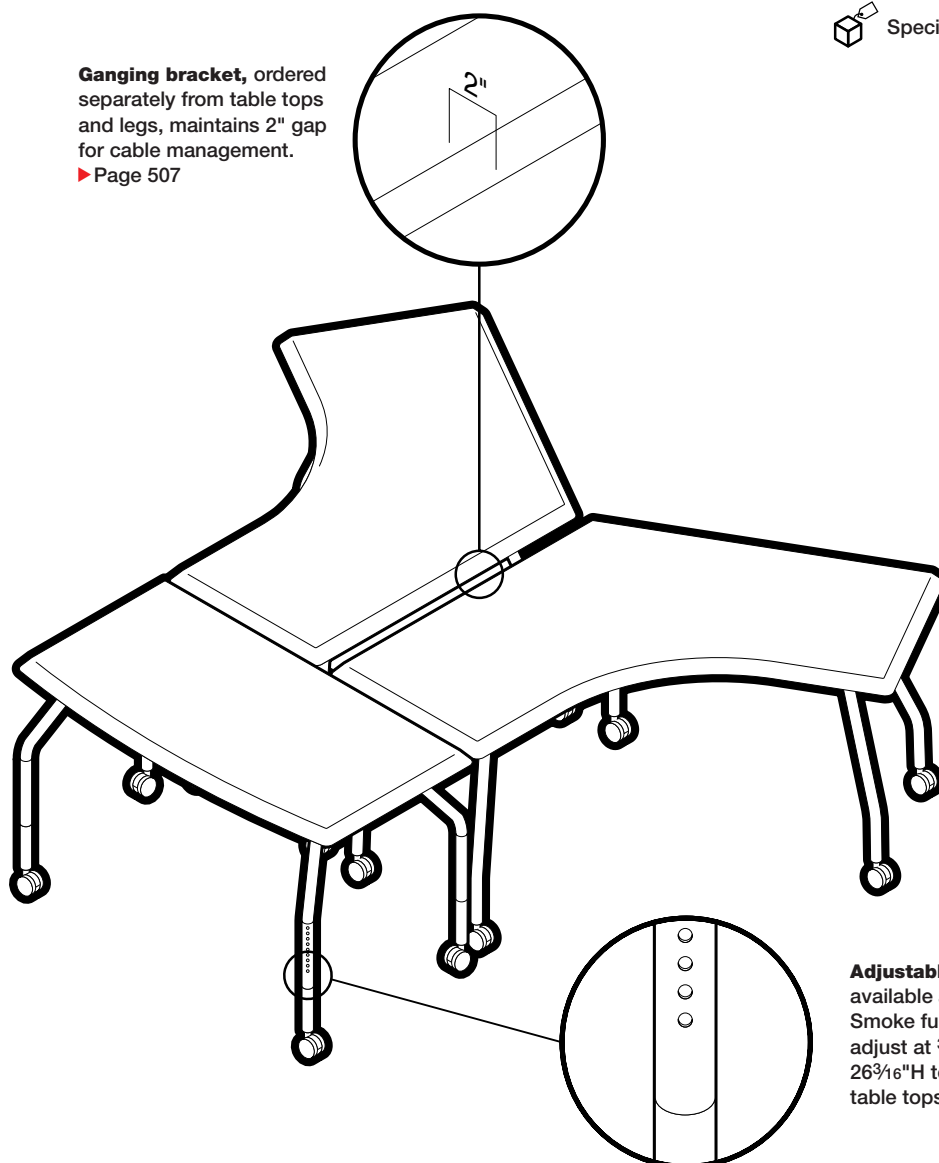

Oval table that is 42"W can be used for additional workspace or for a face-to-face meeting.

 Specifying, pages 502–505

Ganging bracket, ordered separately from table tops and legs, maintains 2" gap for cable management.
▶ Page 507

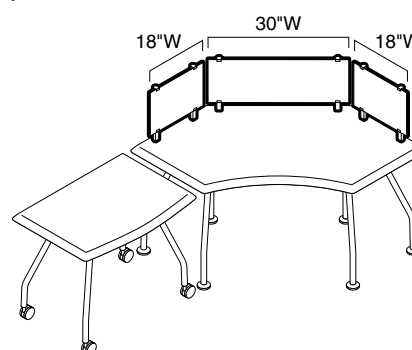

Adjustable-height legs are available as an option on all Smoke full-height legs. Legs adjust at $\frac{3}{4}$ " increments from $26\frac{3}{16}$ "H to $32\frac{3}{16}$ "H (includes table tops).

120° corner table encourages a unique, open environment. Three 120° corner tables with screens can be juxtaposed to form separate work areas.

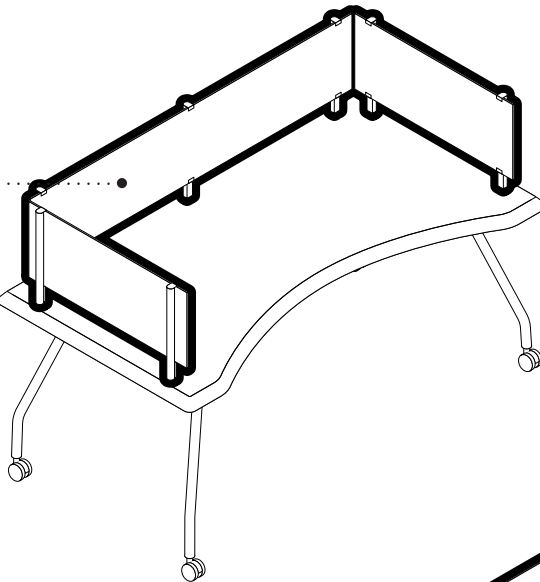

Corner table can dock to the rectangular table for additional workspace. Corner table accepts three screens.

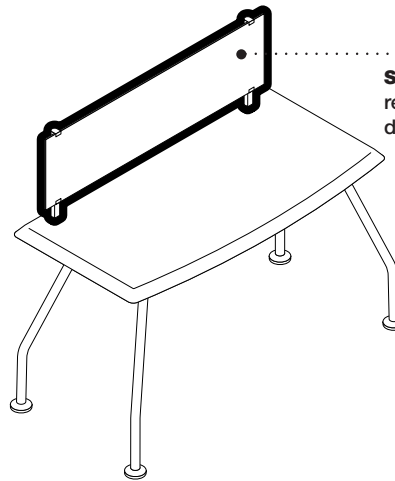

Smoke Table Desk-Mounted Screen Facts

 Specifying, page 506

Screens can be attached above the worksurface to the left, right, and rear sides of table desks.

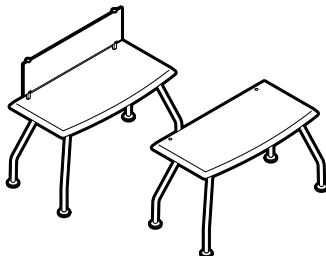

Screen attaches to the rear of rectangular table desk top.

Screens, 6" smaller than table desks, do not extend full width or full depth of worksurface.

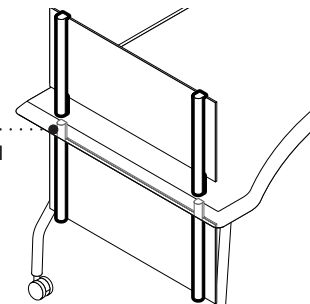

Table desk tops are shipped without screen holes. To attach screens, holes must be drilled on site using the supplied template. Plugs are available through Customer Service Parts (TS5YGMTSR) when screens are not in use and have been removed from the top.

Screen attaches above the worksurface for use as a privacy panel or below the worksurface for use as a modesty panel.

Mounting brackets, ordered separately, must be used when attaching screens above and below a worksurface.

► Page 507

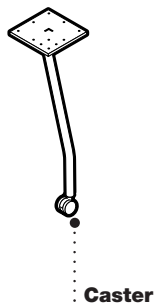

Smoke Table Leg Facts

Smoke Table Leg Facts

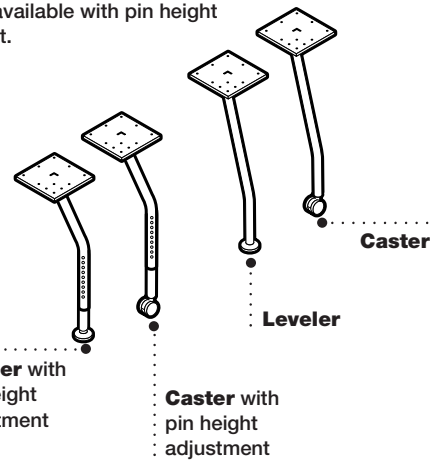

Legs attach to a top to make it freestanding. Full-height legs support worksurfaces at 28¹/₂"H overall, including worksurface thickness.

 Specifying, page 504

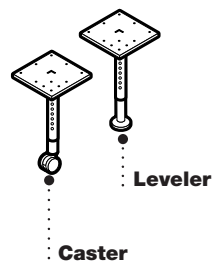

Nesting leg is available individually or as a package of four legs. Nesting legs, available with casters only, are fixed height.

Full-height leg is available individually or as a package of four legs. Levelers are standard. Casters are available as an option. Both versions are available with pin height adjustment.

Adjustable-height coffee table leg is available individually or as a package of four legs. Levelers are standard. Casters are available as an option. Legs are height-adjustable only.

Packages of four legs are available.

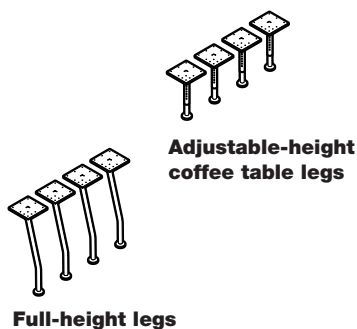

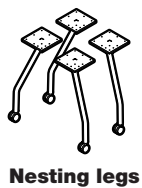

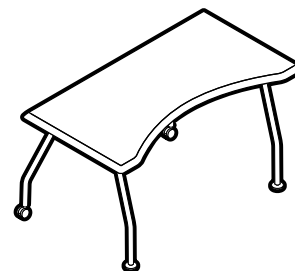

Table legs can be ordered individually to create a combination of two legs with levelers and two legs with casters.

Laminate

Applies to:

- Classic Payback 1"-thick table tops

246T Mahogany
247T Black
25T1 Winter on Maple
262T Marbled Maple
264T Chocolate Walnut
265T Marbled Cherry
26T1 Natural Cherry Version 2
275T Warm White
282T Charcoal
284T Natural Oak
288T Folkstone

Applies to:

- Classic and Executive Payback 1½"-thick table tops

246T Mahogany
25T1 Winter on Maple
262T Marbled Maple
264T Chocolate Walnut
265T Marbled Cherry
26T1 Natural Cherry Version 2
275T Warm White
284T Natural Oak
288T Folkstone

Applies to:

- Classic and Executive Payback vertical surfaces

246T Mahogany
247T Black
25T1 Winter on Maple
262T Marbled Maple
264T Chocolate Walnut
265T Marbled Cherry
26T1 Natural Cherry Version 2
275T Warm White
282T Charcoal
284T Natural Oak
288T Folkstone

Recommended laminates to complement plywood striping, square edge profile

Tip: Plywood striping does not match laminate finishes. Plywood striping is offered in three finishes that complement some of the laminates.

Applies to:

- Payback light plywood striping, square edge profile
- 25T1 Winter on Maple
262T Marbled Maple
275T Warm White

Applies to:

- Payback medium plywood striping, square edge profile
- 262T Marbled Maple
265T Marbled Cherry
26T1 Natural Cherry Version 2
284T Natural Oak

Applies to:

- Payback dark plywood striping, square edge profile
- 247T Black
262T Marbled Maple
264T Chocolate Walnut
26T1 Natural Cherry Version 2
284T Natural Oak

High-Pressure Laminate

Applies to:

- Currency table tops
- 2412 Natural Cherry Version 2
2511 Winter on Maple
2612 Marbled Maple
2614 Chocolate Walnut
2615 Marbled Cherry
2746 Black
2759 Warm White
2825 Vanadium Speckle
2850 Vanadium Fiber
2852 Tungsten Fiber

Low-Pressure Laminate

Applies to:

- Currency table tops
- 262T Marbled Maple
264T Chocolate Walnut
267L Marbled Cherry Version 2

True Performance Laminate

Applies to:

- Groupwork table tops
 - Groupwork modesty panels
 - Jenny end table
 - Jenny coffee
- 247T Black
25T1 Winter on Maple
26T1 Natural Cherry Version 2
273T Sand
275T Warm White
286T Fog
2T50 Vanadium Fiber
2T52 Tungsten Fiber

Applies to:

- Currency rectangular tops
- 247T Black
25T1 Winter on Maple
262T Marbled Maple
264T Chocolate Walnut
267L Marbled Cherry Version 2
26T1 Natural Cherry Version 2
273T Sand
275T Warm White
286T Fog
2L03 Brushed Silver
2T50 Vanadium Fiber
2T52 Tungsten Fiber

Wood

Applies to:

- Jenny wood legs
- 3412 Natural Cherry
3522 Clear Maple
3762 Dark Walnut

Tip: Due to natural variations in wood, finished products may vary in color, texture, and grain.

Vinyl

Applies to:

- Smoke table tops
- 2310 Orange
2312 Red
2314 Dark Silver
2315 Smoke Maple
2316 Smoke Cherry
2317 Smoke Fiber

Paint

Applies to:

- Payback slatwall screens
- Payback screen mounting brackets
- Groupwork legs
- Groupwork table bases
- Groupwork modesty panel brackets
- Smoke table legs
- Smoke screen mounting brackets
- Smoke slatwall screens

Specifying Turnstone Furniture Transitional Products

What is the Transitional Products chapter?

This *Transitional Products* chapter contains products that are being **maintained for existing customers only** and are likely to be phased out over time. It is expected that each of these Transitional items will enter the existing deletion process when and if a decision is made to discontinue production. These products are indicated with a **T**. Products that have a specific culling date are indicated with an **X**, followed by the last order entry date. A list of products and surface materials identified for deletion is included on Product Info. See the "Culling List With Alternatives." Product Info is an electronic collection of specification guides in Acrobat PDF (Portable Document Format). With Product Info, you can scan, search, and print any page on virtually any computer. You can access these files at the Steelcase.com Web site or My Sales Online at in2.Steelcase.com. **New customers or existing customers with new projects should be selecting other products.**

The idea is to give you—our customers, designers, specifiers, and dealers—additional time to prepare for change. With this kind of advance notice, we'll be able to help you:

- make smooth transitions to alternative selections
- avoid selections that may be phased out over time
- be more informed and confident about the long-term plans for our products and surface materials

Understanding Customer's Own Material (COM)

The Customer's Own Material (COM) program allows customers to select textiles that are not offered through the standard Surface Materials program for use on Turnstone products.

The COM process consists of seven steps: COM Web Site, Testing/Approval, Steelcase to Purchase Service, Pricing, Cutting Direction, Yardage Requirements, and the Purchase Orders.

COM Web Site

- COM Web site features application test results for all COM, Designtex Graded-In, Options Collection and Classics Collection fabrics. The Web site allows you to calculate yardage requirements for most Turnstone seating and systems products.
- Access the COM Web site at: www.steelcase.com:
 - Click on "Knowledge & Design"
 - Click on "Customer's Own Material" or call 1.888.783.3522 (1.888.STEELCASE)

Application Testing/Approval

- Confirm that the selected COM has been tested and approved for application on a specific product by checking the COM Web site at: www.steelcase.com.

COM Application Testing or "approved for application" means the COM fabric has been reviewed for manufacturability using the standard manufacturing techniques to achieve acceptable appearance per Steelcase quality standards.

COM fabric performance, including durability, pilling, color fastness, stretch, splitting, fraying, etc. is not tested by Steelcase. Therefore, COM's are not covered by the Steelcase Warranty. Each COM vendor is responsible for all warranty claims related to fabric performance.

Steelcase reserves the right to reject or reverse any COM approval that does not meet the manufacturing requirements in actual production. COM approval may be rejected or reversed because not all application testing is based on actual production conditions and because some materials vary in fabrication.

- If the COM is approved, you may continue the order process.
- If the COM has failed, you must reselect a fabric.
- If the COM is not listed, that means Steelcase has not tested that fabric on our products.
Helpful hint: Seating vinyl and leather do not require testing. Customer's own leather is available on Let's B and Jenny Lounge seating. Customer's own vinyl is available on all seating products that accept Steelcase standard vinyl.

- If your material has not been tested, then send yardage (4.5 yards for seating, 2 yards for vertical surfaces) and submit a completed COM Application Testing Request form to:
Steelcase Inc.
Attn: COM Testing
Door 305
4060 Eastern Avenue
Grand Rapids, MI 49508
- To ensure rapid processing, please use the electronic COM Application Testing Request form found on the COM Web site under the "How To Test" tab **or** fax a copy of the COM Testing Request form from the *Surface Materials Reference Manual* to 616.698.4700. **All information on the form is required in order to complete testing. COM tests cannot be performed if information is incomplete. Contact your requested fabric vendor for any missing information.**
- Test results will be returned (by fax or e-mail) in four working days from receipt of fabric and completed form.

COM materials that are approved for application to panel systems might require UL approval after application test approval. UL approval does involve fees and extended lead times.

All vertical surface COMs tested and approved with a content of 100% polyester meet a minimum of class C/UL1286. If class A or B fire rating is indicated, a burn test must be performed. All vertical surface COMs with a blended fabric construction require a UL burn test. For further UL information, contact a COM Consultant at 616.475.2426.

Tip: Jenny Lounge products have a relaxed appearance. With some COMs they may show soft comfort wrinkles upon use.

Steelcase to Purchase Service

The COM program also includes a service to purchase approved COM for our customers for use on Turnstone products. Steelcase will facilitate the ordering, scheduling and shipment of COM directly from the suppliers. There are no additional charges for this service.

Steelcase is the only party that may purchase COM for all Turnstone products.

In some instances, not all colors in a fabric family are approved. You will be informed of these instances before Steelcase purchases the fabric.

If for some reason the fabric must be ordered directly from the supplier, contact your Steelcase Solutions Fulfillment Team Representative for approval and instructions prior to purchase. The only time the customer can purchase fabric is for testing.

COM Pricing

- Confirm COM is tested and approved.
- Use the COM or COL (Customer's Own Leather) price group found under Surface Materials Options within each product spec guide.
- Calculate yardage required by using the COM Calculator found on the COM Web site at www.steelcase.com
 - Click on "Knowledge & Design"
 - Click on "Customer's Own Material" or call 1.888.783.3522 (1.888.STEELCASE)*Helpful tip: Fabric width, repeat and product quantity and style number are required in order to calculate yardage accurately.*
- Add the cost of the fabric to the COM or COL price group.
- The cost of the COM will be shown as a separate line on the acknowledgement.

COM vendors require fabric purchases in half or full yard increments. Therefore, Steelcase will round all final yardage calculations to the half yard.

COL (Customer's Own Leather) is calculated by the square foot, but purchased in hide. The customer is responsible for purchasing the minimum hide requirement.

Base price of chair includes standard fabrics. Steelcase will not allow credit or deduct the cost of the standard fabric when a COM fabric is selected in its place.

Steelcase cannot be held responsible for costs incurred when a COM supplier ships a COM fabric that does not meet Steelcase application standards or for costs incurred for late deliveries when a COM supplier commits to shipping a COM fabric for manufacturing by a specific date and misses that date.

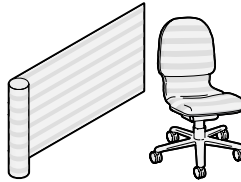

COM Warranty

Steelcase standard warranty does not apply to Designtex or any other COM vendor's fabric.

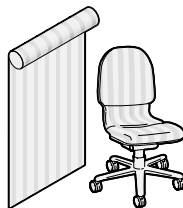

- Designtex and other COM suppliers are responsible for color consistency within commercial tolerances, abrasion resistance, UV stability, and resistance to soiling and perspiration. These fabrics or vinyls are subject to policies regarding appearance, behavior, and durability that have been established by the fabric supplier. The customer's remedy for a fabric defect is limited to the replacement of the fabric by the supplier. Durability, performance, and fabric defects of COM fabrics are not guaranteed by Steelcase.

Cutting Direction

SEATING:

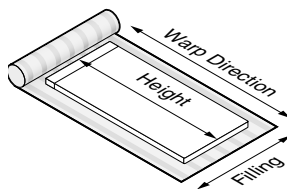

Warp horizontal

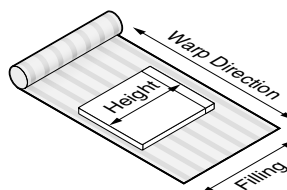

Warp vertical

- **Dealers must specify fabric application direction on all COM orders.**
- COMs for seating are most often applied in the warp vertical (downroll, woven way) direction. Some exceptions include patterns with stripes, fabrics that are sampled in the warp horizontal (railroad, across roll) direction, and solid vinyls.
- ▶ See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

VERTICAL SURFACES:

Warp vertical

Warp horizontal

- **Dealers must specify fabric application direction on all COM orders.**

- The cutting direction of COMs on vertical surfaces varies by product and sometimes by style number. Please check the COM Web site for the approved cutting direction for your particular COM.

▶ See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

Steelcase cannot guarantee pattern repeat match from product to product. Steelcase also cannot guarantee pattern repeat match within each product listed. (i.e., seat and back, arms to back, etc.)

COM Yardage Requirements

- For the most accurate yardage requirements, visit the Calculator found on the COM Web site or call 1.888.783.3522 (1.888.STEELCASE)
- The Calculator on the COM Web site provides the same yardage requirements used by Steelcase purchasing.

Yardage requirements will change depending on:

- width of fabric
- fabric repeat
- cutting direction
- product style number
- quantity of products being manufactured
- COM vinyl requires upholstering in the railroad cutting direction. Please visit our Web site or call 1.888.STEELCASE for yardage requirements.
- Certain fabric treatments and backings require additional yardage or yardage minimums. Please contact the supplier for specific information.
- COM fabric vendors require fabric purchases in half- or full-yard increments, and the Steelcase COM calculator will automatically round all final yardage calculations to the half yard.
- Steelcase is the only party who may purchase COMs.

Maintenance and Cleaning

Inspecting and

cleaning. Have your chair's upholstery, finishes, controls, base, and other moving parts inspected and cleaned at least once a year.

Cleaning painted and plastic surfaces.

Finishes should be cleaned with water and/or a non-abrasive cleaner (such as Formula 409® and Fantastik®).

Maintaining uphol-

stery. Use a vacuum cleaner for regular cleaning. Periodic professional dry cleaning is recommended. Do not steam clean.

Removing excess stains or heavy soil.

Soak up excess stain with a cloth. Do not dry the stain completely or it may set. For most water-soluble stains (coffee, fruit juice, washable ink), use an upholstery cleaning solution (such as Bissell® upholstery shampoo or Guardsman Fabri-Kleen® products) and follow directions on package. For oil-borne stains, use a dry cleaning solution at room temperature (never hot) and let solution work into the stain. Use quick, light strokes to brush the stain with a soft bristle brush. Work from outside toward the center to prevent rings. Soak up remaining dry cleaning solution, then sponge the fabric with cool water. Let fabric dry completely; then vacuum thoroughly. If stain is still visible, repeat procedure. Several light applications of cleaning solution are more effective and less damaging than one heavy application.

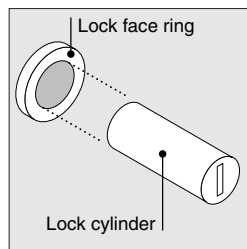

Formula 409 is a registered trademark of Clorox company. Fantastik is a registered trademark of Dow Consumer Products, Inc. Fabri-Kleen is a registered trademark of Guardsman Chemical. All other marks are marks of their respective owners.

Lock and Keying Options

Kick, Storage, Currency, and Smoke

Front-removable lock cylinders can be installed or removed in the field with a special tool. This feature allows you to field install lock cylinders after the furniture is installed.

All locks are designated with key numbers. You can specify a key number; however, if you don't specify a key number, the locks in your order will be keyed random.

Two types of locks are available—the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Standard Keying

All products are standard keyed random.

Step 1

Furniture will be shipped with a plastic shipping plug. Specify lock cylinder and keying options separately. Only products with factory-installed lock mechanisms can accept lock cylinders in the field.

Tip: Be sure to specify a lock color number (9201 Polished Chrome or 9250 Ember Chrome) for the lock face ring.

Step 2

Order enough lock cylinders to fill each lock location. You must also order a lock tool.

Tip: Lock tools are reusable. You don't need to order additional lock tools with every furniture order.

Lock cylinders and the installation tool will be shipped separately so that you can install the locks when you are ready.

To specify lock cylinders, list the total number of lock cylinders that you want with the appropriate style number. If you are specifying key numbers, list the breakdown of the quantity of each key number.

An example of how your order should look is shown below:

Example:
10 LOCK9201FR FR320
5 LOCK9201FR FR350
15 LOCK9201XF XF1100

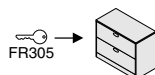

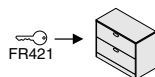

30 Total

1 877102003SR standard lock tool
1 877102002SR master lock tool

Keying Options

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454.

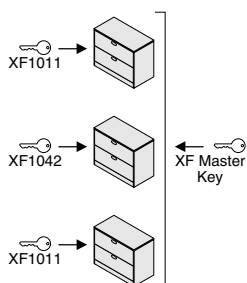

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Master key random

means that the locks will be assigned arbitrarily at the factory with key numbers ranging from XF1001 to XF1150. All XF locks can be opened with a master key.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Key specific means that you can specify any key number from FR305 to FR454. This option can be used to key all the furniture units in a workstation or department the same.

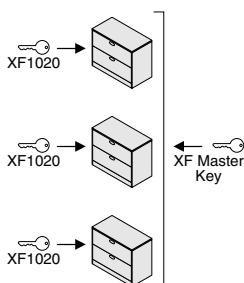

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

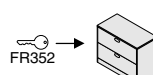

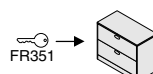

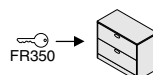

Master key specific

means that you can specify any key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

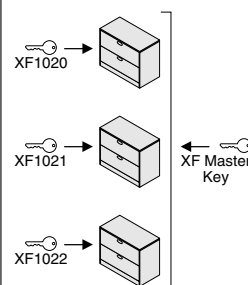

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

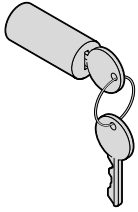

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454.

Master key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Lock Cylinders

Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

Standard Includes

- Lock cylinder, keyed random: 9201 Polished Chrome or 9250 Ember Chrome
- Two keys

Required to Specify

- 1 Style number
- 2 Options, if selected (see below)

Options	U.S. Price	Required to Specify
Key specific	No cost	Select key number from FR305–FR454.
Key consecutive	No cost	Specify <i>key consecutive</i> and must select beginning key number from FR305–FR454.
Master key random	+\$20 each	Specify <i>master key random</i> .
Master key specific	+\$20 each	Specify key number from XF1001–XF1150.
Master key consecutive	+\$20 each	Specify <i>master key consecutive</i> and must select beginning key number from XF1001–XF1150.
