

au lait flip-top tables have an exclusive nesting base and folding mechanism that provides flexibility to move and store tables for changing meeting and cafeteria functions. This table series is available in two top constructions with three heights, three table shapes, and fixed versions.

Two Top Constructions

1.25"-thick particle board core top is available in laminate or straight grain wood veneer surface with three edge selections. Tops have a backing sheet for balanced construction.

▶ See pages 142-156 for pricing of tables with this top in laminate or wood veneer surfaces with three edge selections.

0.5"-thick solid phenolic tops are available in three colors: 2131 Mellowtone, 2132 White, 2133 Storm Gray.

Tip: Surface color is on both sides of top.

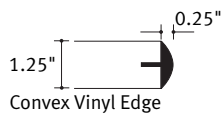

▶ See pages 158-166 for pricing of tables with this top in phenolic.

Solid Core Top Tables

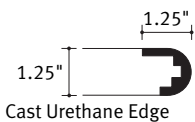

Top is 1.25"-thick particle board core with laminate or straight-grain wood veneer surface.

Laminate tops are available with the following edge profiles: convex vinyl edge, cast urethane edge, or bullnose wood edge.

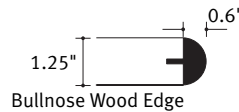

Wood veneer tops are available with the following edge profiles: convex vinyl edge or bullnose wood edge.

Convex vinyl edge is available in four colors: 6000 Black, 6655 Warm White, 6609 Smoke, or 6607 Woodrose.

Cast urethane edge is available in four colors: 6000 Black, 6655 Warm White, 6609 Smoke, or 6607 Woodrose.

Bullnose wood edge on a wood veneer top is stained to match the wood veneer top. The stain color must be selected when selected as the edge on a laminate top.

Tip: Bullnose wood edges are not recommended on tables with wood-grain laminates because matching of wood-grain laminates and natural, solid wood is not guaranteed. For tables with bullnose wood edge profiles, specify either laminates in solid colors or patterns or wood veneer surfaces.

Convex vinyl edge

Cast urethane edge

Bullnose wood edge

Corner radius on square and rectangular tops is determined by the edge profile selection:

- Convex Vinyl Edge: 2" radius corners
- Cast Urethane Edge: 0.75" radius corners
- Bullnose Wood Edge: softened square radius

Tip: On square and rectangular tops, the bullnose wood edge is butt joined.

Tip: On round tops, the bullnose wood edge is segmented.

Table height is available in three heights:

- Standard height, 28.5"
- Wheelchair height, 33"
- Café height, 42"

▶ See individual product specification pages for availability

Solid Phenolic Top Tables

Solid phenolic top has high strength, and yet it is light weight. It is constructed from multiple layers of recycled paper impregnated with hot phenolic resin and thermally fused together with surface color papers on outer sides and dark core within.

Edge is black. The dark core creates the black edge color.

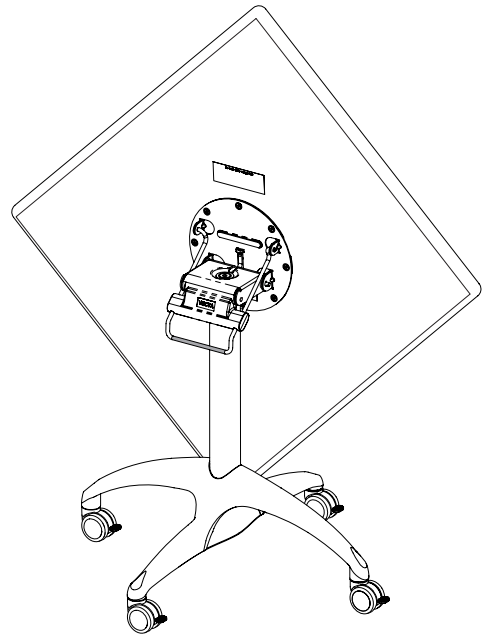

Corner radius on solid phenolic square and rectangle tops is 0.75".

Table height with solid phenolic top is 0.75" lower than au lait tables with a standard particle board core.

- 27.75" (Standard height, 28.5")
- 32.25" (Wheelchair height, 33")
- 41.25" (Café height, 42")

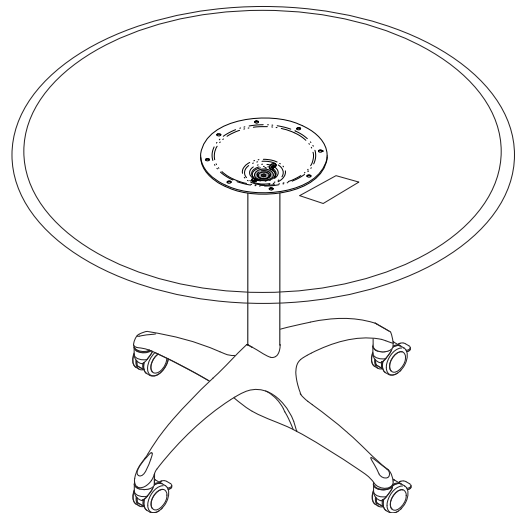

▶ See individual product specification pages for availability.

All au lait Tables

Flip-top mechanism is steel and glass-reinforced nylon with a black finish. The release handle is a chrome-plated formed rod with a clear vinyl bumper. The bumper prevents tables from damaging each other when nested. The flipping mechanism is available on selected tops.

▶ See individual product specification pages for availability.

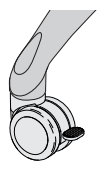

Fixed top spider is formed steel with a black finish. The spider is available on all sizes, shapes, and heights.

Solid Core and Phenolic Tops

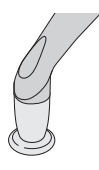

DESIGNED BY RADAR AND VECTA DESIGN TEAM
AULAIT

Column is a 2.5"-diameter steel tube with a 0.083" thick wall. The column is always painted the same color as the base.

Base is glass-filled nylon feet available in four textured powder coat colors: Concrete Texture, Highway Texture, Storm Texture, and Tux Texture.

Casters are 2.36" diameter, locking dual wheels that allow the tables to move easily on carpeted or hard floors.

Glides are available as an alternative to casters if high mobility is not required. Glides are black injection molded plastic. Adjustability range is 0.5"H.

Casters and Glides are the same height, are interchangeable and can be used together on the same table. Replacing casters with glides does not alter the table height.

Tip: Casters cannot be adjusted to compensate for uneven floors. Glides should be specified if leveling one top with another is required, but frequent adjustment to glides may be required if tables are moved.

Tip: Au Lait tables placed side by side may not align perfectly. Adjusting the glides can improve alignment, but frequent adjustment may be required. Casters cannot be adjusted to level tables.

Nesting

Au Lait flip-top tables can nest for movement and storage. Bases slide under one another. A vinyl bumper on the flip-top mechanism handle prevents the flipped table top from damaging when nested. Tables can be nested indefinitely. It is recommended that no more than 3 nested tables on casters be moved at one time.

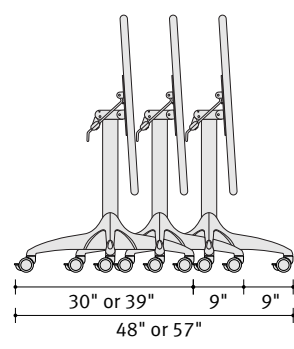

Table with top flipped is 30"W with a 27"W base and 39"W with a 36"W base. Each additional table adds approximately 9". Three nested 27"W base tables occupy about 48" of space. Three 36"W base tables occupy about 57" of space.

Tip: The base dimensions shown include casters oriented as shown, are accurate for storage purposes, but do not match the single base dimensions. See the chart below.

Nesting Dimensions

	Number of nested tables:					
	1	2	3	4	5	6
27" base	30"	39"	48"	57"	66"	75"
36" base	39"	48"	57"	66"	75"	84"

30"- and 36"-Diameter with 27"W Base

- ▶ Master Class, pages 42, 139
- ▶ Product weights, page 482

Standard Includes

- Height: 28.5"H
- Top: 1.25" particle board core with laminate or straight-grain wood veneer surface
- Edge: convex vinyl, bullnose solid wood edge or self-skinning cast urethane.
- Nesting base: 2.5"-diameter steel column and nesting, glass-filled nylon feet with single textured powder coat color
- Fixed top with black steel spider or flip top to allow tables to nest for compact storage
- Patented black flip top mechanism with easy, self-locking chrome release handle
- 2.36"-diameter, locking, dual-wheel casters: black plastic
- Shipped K.D.

Required to Specify

- Product number
- Powder coat color selection for base:
 - 7261 Concrete Texture
 - 7260 Highway Texture
 - 7269 Storm Texture
 - 7268 Tux Texture
- Laminate or wood color number and name for top
- Edge selection:
 - Convex vinyl edge: colors at right
 - Cast urethane edge: colors at right
 - Bullnose solid wood edge

- Vinyl color number and name for convex vinyl edge, if selected: 6000 Black, 6655 Warm White, 6609 Smoke, or 6607 Woodrose
- Vinyl color number and name for cast urethane edge, if selected: 6000 Black, 6655 Warm White, 6609 Smoke, or 6607 Woodrose
- Wood color number and name for wood edge, if selected
Exception: Wood edge will match the surface of a wood veneer top, so no color specification is needed.
Tip: If you specify a wood edge on a top with wood grain laminate, the edge and top may not match.
- Options: if selected (see list)
 ▶ *Surface Materials*, page 52

Options

- **Stain-to-match** ▶ page 47
- **Glides**
 Glides with 0.5" adjustability range factory-installed in place of casters: black. Glides are the same height as casters.
 No cost
 Specify by deleting suffix **C** from the product number.

DESIGNED BY RADAR AND VECTA DESIGN TEAM

AULIAIT

30"- and 36"-Diameter with 27"W Base

- ▶ Master Class, pages 42, 139
- ▶ Product weights, page 482

Standard Includes

- Height: 33"H
- Top: 1.25" particle board core with laminate or straight-grain wood veneer surface
- Edge: convex vinyl, bullnose solid wood edge or self-skinning cast urethane.
- Nesting base: 2.5"-diameter steel column and nesting, glass-filled nylon feet with single textured powder coat color
- Fixed top with black steel spider or flip top to allow tables to nest for compact storage
- Patented black flip top mechanism with easy, self-locking chrome release handle
- 2.36"-diameter, locking, dual-wheel casters: black plastic
- Shipped K.D.

Required to Specify

- Product number
- Powder coat color selection for base:
 - 7261 Concrete Texture
 - 7260 Highway Texture
 - 7269 Storm Texture
 - 7268 Tux Texture
- Laminate or wood color number and name for top
- Edge selection:
 - Convex vinyl edge: colors at right
 - Cast urethane edge: colors at right
 - Bullnose solid wood edge

- Vinyl color number and name for convex vinyl edge, if selected: 6000 Black, 6655 Warm White, 6609 Smoke, or 6607 Woodrose
- Vinyl color number and name for cast urethane edge, if selected: 6000 Black, 6655 Warm White, 6609 Smoke, or 6607 Woodrose
- Wood color number and name for wood edge, if selected
Exception: Wood edge will match the surface of a wood veneer top, so no color specification is needed.
Tip: If you specify a wood edge on a top with wood grain laminate, the edge and top may not match.
- Options: if selected (see list)
▶ *Surface Materials*, page 52

Options

- **Stain-to-match** ▶ page 47
- **Glides**
Glides with 0.5" adjustability range factory-installed in place of casters: black. Glides are the same height as casters.
No cost
Specify by deleting suffix **C** from the product number.

30"- and 36"-Diameter with 27"W Base

- ▶ Master Class, pages 42, 139
- ▶ Product weights, page 482

Standard Includes

- Height: 42"H
- Top: 1.25" particle board core with laminate or straight-grain wood veneer surface
- Edge: convex vinyl, bullnose solid wood edge or self-skinning cast urethane.
- Nesting base: 2.5"-diameter steel column and nesting, glass-filled nylon feet with single textured powder coat color
- Fixed top with black steel spider or flip top to allow tables to nest for compact storage
- Patented black flip top mechanism with easy, self-locking chrome release handle
- 2.36"-diameter, locking, dual-wheel casters: black plastic
- Shipped K.D.

Required to Specify

- Product number
- Powder coat color selection for base:
 - 7261 Concrete Texture
 - 7260 Highway Texture
 - 7269 Storm Texture
 - 7268 Tux Texture
- Laminate or wood color number and name for top
- Edge selection:
 - Convex vinyl edge: colors at right
 - Cast urethane edge: colors at right
 - Bullnose solid wood edge

- Vinyl color number and name for convex vinyl edge, if selected: 6000 Black, 6655 Warm White, 6609 Smoke, or 6607 Woodrose
- Vinyl color number and name for cast urethane edge, if selected: 6000 Black, 6655 Warm White, 6609 Smoke, or 6607 Woodrose
- Wood color number and name for wood edge, if selected
Exception: Wood edge will match the surface of a wood veneer top, so no color specification is needed.
Tip: If you specify a wood edge on a top with wood grain laminate, the edge and top may not match.
- Options: if selected (see list)
▶ **Surface Materials**, page 52

Options

- **Stain-to-match** ▶ page 47
- **Glides**
Glides with 0.5" adjustability range factory-installed in place of casters: black. Glides are the same height as casters.
No cost
Specify by deleting suffix **C** from the product number.
