The e³ environmental ceramicsteel Difference

Steelcase Premium White Boards incorporated the e³ environmental ceramicsteel surface, which is the first and only ecologically intelligent whiteboard surface to receive a MBDC Cradle to Cradle Gold certification. Cradle to Cradle certification evaluates products for environmentally safe and healthy materials; energy and water use during production, the ability to recycle and reuse materials, and social responsibility. PolyVision, a Steelcase company, has created its fourth generation of ceramicsteel writing surfaces, e³, which delivers the properties of its best selling writing surface, P³ ceramicsteel, and complies with the Cradle to Cradle certification criteria. Steelcase will continue to follow standards set forth by MBDC Cradle to Cradle certification to reaffirm our commitment to sustainability. For over five decades, millions of boards have been produced around the world using PolyVision P³ ceramicsteel. PolyVision used this cross section of consumers to gather the information that helped determine what the next generation of writing surfaces should provide. Our internationally renowned R&D team worked with experts in the field of ceramics and technology to create e³ environmental ceramicsteel surface – the new industry standard for superior quality.

The e³ environmental ceramicsteel Advantage

The ceramic finish consists of a specially formulated glass substance applied by machine. The e³ environmental ceramicsteel surface is fused to steel at a temperature of approximately 1500 degrees Fahrenheit for markerboards. It registers at a minimum of five (5) on the revised Mohs hardness scale.

Benefits of e³

- Ultra-smooth writing surface
- Improved erasability
- Greater color contrast
- Significantly less surface/light distortion
- Optimum eye comfort
- Enhanced visibility
- Reduced chalk pressure, greater adherence
- Increased chalk/surface contrast
- Accepts magnets

Environmental Features

- Enamel fused to cold-rolled enamelling-grade steel
- In all coatings, the total amount of heavy metals cadmium, mercury, hexavalent chromium, and lead is less than 0.1%
- All coatings are free of arsenic and antimony
- No Volatile Organic Compounds (VOCs)
- Steel core is made from minimum 30% post-consumer and post-industrial waste
- e³ environmental ceramicsteel surface is 99% recyclable

Chemical Resistant

Scratch Resistant

Bacteria Resistant

Fire Resistant

Graffiti Resistant

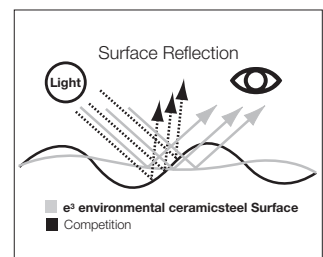

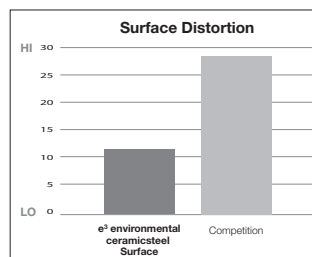

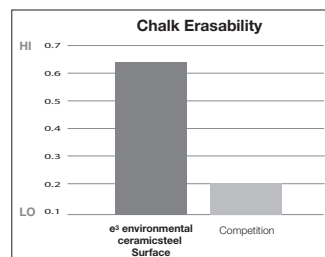

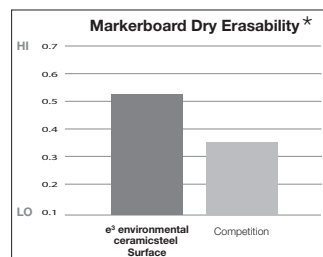

Stain Resistant

Material Description

e³ environmental ceramicsteel is produced by a controlled, continuous coil-coating process. The surface consists of a steel core of .013" and .019" thickness covered on both sides with thin enamel coatings. The ceramic finish is fused to the steel at a temperature of approximately 1500°F for markerboard and 1250°F for chalkboard.

Characteristic	e ³ environmental ceramicsteel Markerboard	e ³ environmental ceramicsteel Chalkboard
Writeability	Can be written on with any dry-erase, semi-permanent, water-soluble, permanent marker, pen, or crayon without damaging the surface.	Superior, low-gloss, matte finish readily accepts chalk providing a sharp, unbroken line with less pressure and maximum surface adherence.
Visibility	Contrast/waviness for markerboards (light and dark effects) shall be no greater than 15 when tested with BYK - Gardner Wave Scan 5+ measurement device showing visual acuity (contrast sensitivity) to the human eye at distances greater than 3 meters (10' - 0"). Resolution (visual acuity) shall be based on 3 lines per degree and be visibly maintained beyond the current standard of 3 meters.	Contrast/waviness for chalkboards (light and dark effects) shall be no less than 20 when tested with the contrast measurement test with 773-gram load on chalk. Resolution (visual acuity) shall be based on 3 lines per degree and be visibly maintained beyond the current standard of 3 meters.
Erasability	Dry-erase marker ink can be wiped off easily with a dry cloth or standard eraser. Crayon, semi-permanent, and permanent marker pen inks can be removed with a solvent based cleaner.	Erases easily with a dry cloth or standard chalk eraser, retains minimal residual chalk dust, and will not leave "ghost writing." Color change (dark/light) after chalk erasing is reduced 60% from traditional surfaces.
Cleanability (Washability)	All residues that remain after normal erasing can be removed by following the care and cleaning instructions on the www.polyvision.com/e3cleaning website.	WET Ghost measurements on chalkboard surfaces before and after wet cleaning shall not exceed a factor of 0.49. For further care and cleaning instructions, refer to the www.polyvision.com/e3cleaning website.
Wearability	Vitrified glass-hard ceramic surface fused to light-gauge enameling grade steel at approximately +1500°F. High resistance to impact damage, abrasion, scratching, and color fading. The e ³ environmental ceramicsteel surface registers a 6.5 on the revised Mohs hardness scale.	Vitrified glass-hard ceramic surface fused to light-gauge enameling grade steel at approximately +1250°F. High resistance to impact damage, abrasion, scratching, and color fading. The e ³ environmental ceramicsteel surface registers at a minimum of 5 on the revised Mohs hardness scale.
Magnet Capability	The e ³ environmental ceramicsteel surfaces are ideal for all magnets and magnetic impregnated materials and will not be scratched or damaged from the contact.	The e ³ environmental ceramicsteel surfaces are ideal for all magnets and magnetic impregnated materials and will not be scratched or damaged from the contact.
Flame Resistance	The e ³ surface is 100% non-combustible.	The e ³ surface is 100% non-combustible.

Product and Characteristic	Writeability	Erasability	Cleanability
e³ environmental ceramicsteel Low-Gloss Markerboard	Provides the same writing characteristics as High-Gloss.	Low-Gloss surfaces will not erase as thoroughly as High-Gloss surfaces. When this occurs, a water-dampened cloth will be required to erase the surface.	After normal erasing of Low-Gloss surfaces, solvents may be used to remove harder-to-erase dry marker inks and residue from other pens. Always clear water rinse after using any cleaning agent on the surface. Refer to www.polyvision.com/e3cleaning for further details.

The ultra-smooth finish enables dry markers and chalk to glide easily across the e³ environmental ceramicsteel surface with minimal friction. The surface smoothness allows more dry-erase ink and chalk to be removed, improving erasability and eliminating "ghost writing."

Surface distortion (Orange Peel) has been reduced significantly in direct comparison with the competition's surface.

The e³ environmental ceramicsteel surface maximizes the performance of reflected light and reduces surface glare, resulting in improved visibility under a wide range of lighting conditions.

*All markerboard erasability tests were conducted using High-Gloss e³ environmental ceramicsteel surfaces.

For more information on e³ environmental ceramicsteel, visit: www.polyvision.com

e³ Cleaning / Daily Care and Maintenance

- Wipe board with a clean cloth moistened by a liquid markerboard cleaner or a solution of 50% water and 50% isopropyl alcohol
- Rinse with clear water
- Wipe dry with a clean cloth

If your board is used daily, the cleaning should be performed at least 2-3 times a week.

More thorough cleaning may be required if writing is left on the board for more than two days.

Markers

Use any high-quality dry erase marker.

CAUTION! Do not use Low Odor markers, or ghosting may occur. If Low Odor markers have been used, the surface can be completely cleaned by following the cleaning instructions above. Remember to discard eraser if used with Low Odor markers.

Removing Permanent Marker

Option 1:

- Write over the top of the permanent marker ink with a dry-erase marker
- Simply erase!

Option 2:

- Moisten a clean, dry cloth with isopropyl alcohol
- Wipe the board in a circular motion to loosen marker residue
- Rinse with clear water
- Dry the board with a clean cloth
- Repeat these steps as necessary

Installer's Instructions for Initial Cleaning at Time of Installation

NOTE: These initial cleaning instructions are shipped with every board.

- After installation of your board, remove the protective polyfilm from your writing surface by lifting from a corner and pulling the film away from the surface.
- For initial cleaning, wipe your board with a clean cloth moistened by a mild, alcohol-based cleaner.
- Rinse with clear water. This step is simple, but very important.
- Wipe dry with a clean cloth.

For online access to these instructions, visit: www.polyvision.com

Express 12 Quick Ship Program

- Applies to **Edge Series Premium Whiteboard** with clear anodized trim in the following sizes:
 - 36" x 24" (w x h)
 - 48" x 36" (w x h)
 - 48", 60", 72", 96" wide by 48" high
- Applies to **110 Contractor Series Whiteboard** in the following sizes:
 - 48", 72", 96", 144", wide by 48" high
- Up to 10 boards per order
- Ships standard with marker tray
- Ships 12 working days after receipt of order
- Look for "★" symbol beside available Edge sizes (page 13) and 110 sizes (page 36).

Legend

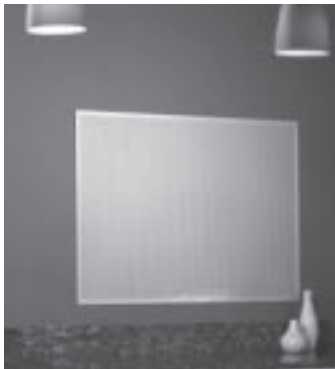

-  e³ environmental ceramicsteel markerboard
-  Tack or Combo Board option
-  Available either as a single markerboard or, if required, in two sections. Specify with spline joint.
-  FreeFlow base markerboard, with integral rail. Works with FreeFlow hang-on components.
- Panel mount option available
-  Magnetic mount option available

e³ environmental ceramicsteel Surface Benefits

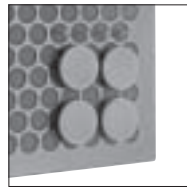

Pin-Mag Premium Tackboard

- Unique perforated metal shell over tackable surface
- Available sizes (w x h):
24" x 18", 36" x 24", 48" x 36"
- Accepts both magnets and tacks

Design by Nygaard and Bodholt

Senti Series

Standard includes:

- e³ environmental ceramicsteel writing surface
- Clear Anodized aluminum frame
- Matching aluminum marker tray
- Four corner mounting system with integral covers
- Pack of four dry-erase markers (black, blue, red, and green) and one eraser

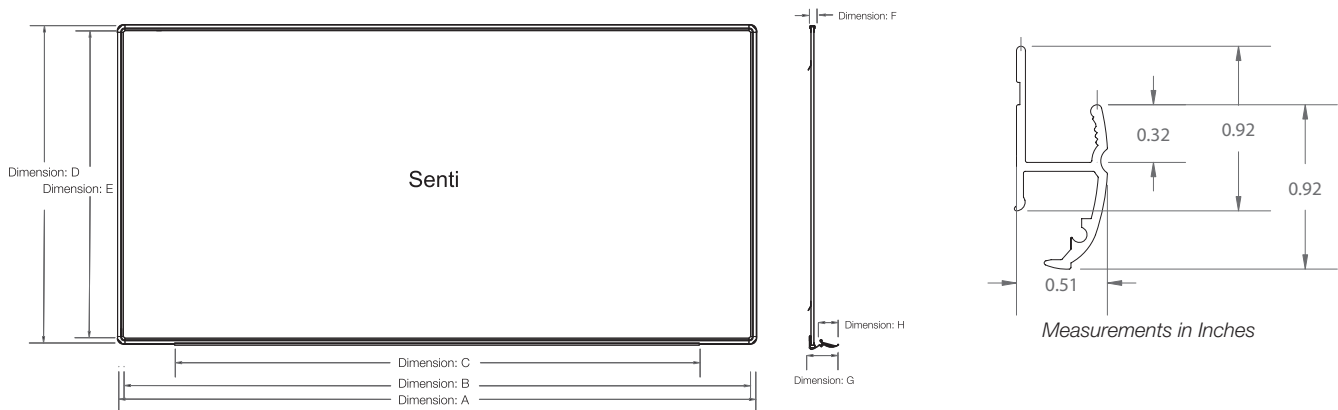

Options:

- Screen printed pattern on e³ environmental ceramicsteel writing surface, not available on all sizes, specify screenprint pattern number. See page 48 for more information.
- Mounting options:
 - PLMT Panel or MGMT Magnetic: See page 41 for options and application information.
- For e³ care and maintenance instructions, see page 4.

Edge Series

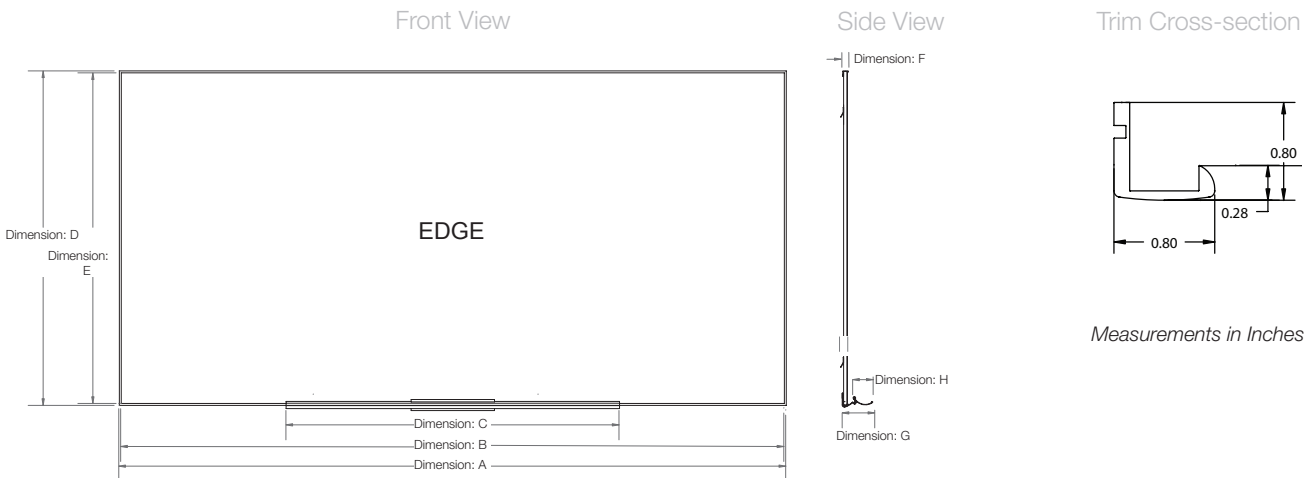

Standard includes:

- e³ environmental ceramicsteel writing surface on markerboards
- Fabric over 3/8" fiberboard on tackboards
- Clear Anodized aluminum frame
- Matching aluminum marker tray, markerboard only
- Metal cleat mounting system
- Pack of four dry-erase markers (black, blue, red, and green) and one eraser (markerboard only)

Options:

- Champagne powder-coat frame (up charge)
- Screen printed pattern on e³ environmental ceramicsteel writing surface, not available on all sizes, specify screenprint pattern number. IMPORTANT: Screenprint option **not** available with spline joint. See page 48 for more information.
- Spline joint, allows markerboard to be shipped in two (2) pieces, requires on site assembly. NOTE: Spline Joints are visible, see page 41 for more information; specify XSPL.
- For more information on COM fabrics, see page 42. COM fabrics must be tested.
- Mounting options:
 - PLMT Panel: See page 41 for options and application information.
 - PPPW On and Off Module Brackets: See page 46 for specific information.
- For e³ care and maintenance instructions, see page 4.

Combo Boards

Combo Boards (half marker, half tack) available. See page 30 for options.

★ Quick Ship

Quick Ship available for the following Edge boards:

- 36" x 24" (w x h) and 48" x 36" (w x h)
- 48", 60", 72", 96" wide by 48" high

See page 5 for details.

For Canadian Pricing
Multiply U.S. price by 1.05.
▶ See page 1 for details.

Access Series

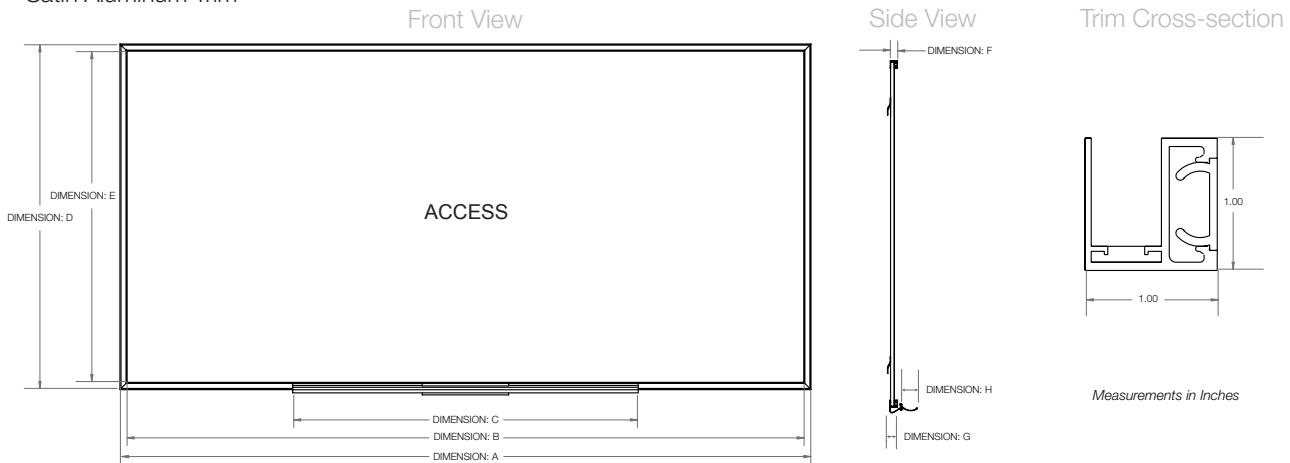

Standard includes:

- e³ environmental ceramicsteel writing surface on markerboards
- Fabric over 3/8" fiberboard on tackboards
- Black powder-coated aluminum frame, with contrasting aluminum insert
- Aluminum marker tray matches insert, markerboard only
- Metal cleat mounting system
- Pack of four dry-erase markers (black, blue, red, and green) and one eraser (markerboard only)
- Satin Aluminum Trim

Options:

- Champagne Powder Coat insert, upcharge applies.
- Screen printed pattern on e³ environmental ceramicsteel writing surface, not available on all sizes, specify screenprint pattern number. IMPORTANT: Screenprint option **not** available with spline joint. See page 48 for more information.
- Spline joint, allows markerboard to be shipped in two (2) pieces, requires on-site assembly. NOTE: Spline joints are visible, see page 41 for more information, specify XSPL.
- For more information on COM fabrics, see page 42. COM fabrics must be tested.
- Mounting options:
 - PPPW On and Off Module Brackets: See page 46 for specific information.
- For e³ care and maintenance instructions, see page 4.

Denska Series

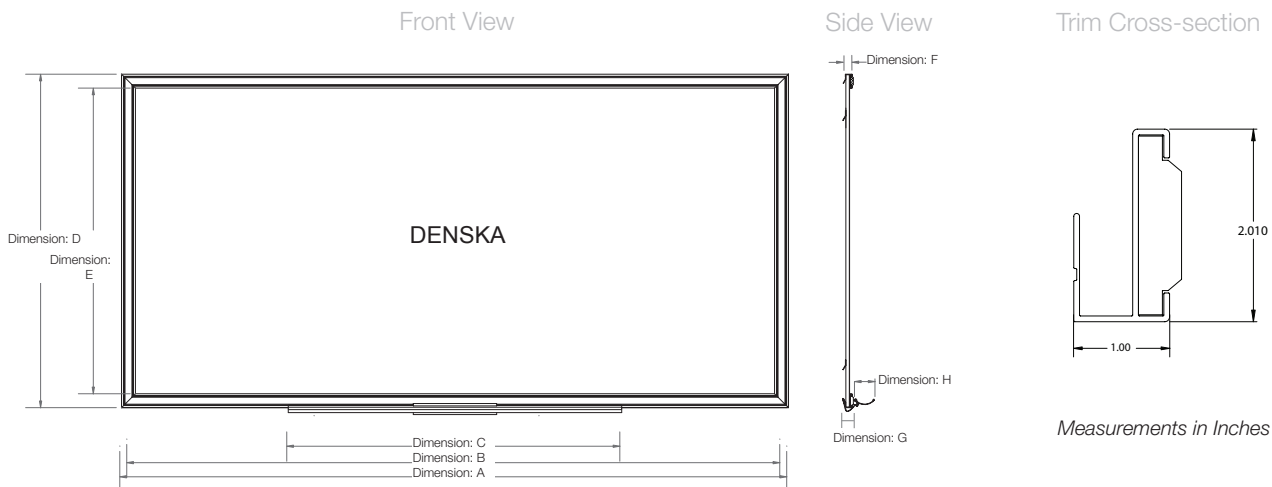

Standard includes:

- e³ environmental ceramicsteel writing surface
- Black powder-coated aluminum frame with wood insert
- Black powder-coated marker tray matches frame
- Metal cleat mounting system
- Pack of four dry-erase markers (black, blue, red, and green) and one eraser

Options:

- Screen printed pattern on e³ environmental ceramicsteel writing surface, not available on all sizes, specify screenprint pattern number. See page 48 for more information. **IMPORTANT:** Screenprint option not available with spline joint.
- Spline joint, allows markerboard to be shipped in two (2) pieces, requires on site assembly **NOTE:** Spline joints are visible, see page 41 for more information, specify XSPL.
- Mounting options:
 - PPPW On and Off Module Brackets: See page 46 for specific information.
- For e³ care and maintenance instructions, see page 4.

FreeFlow Series

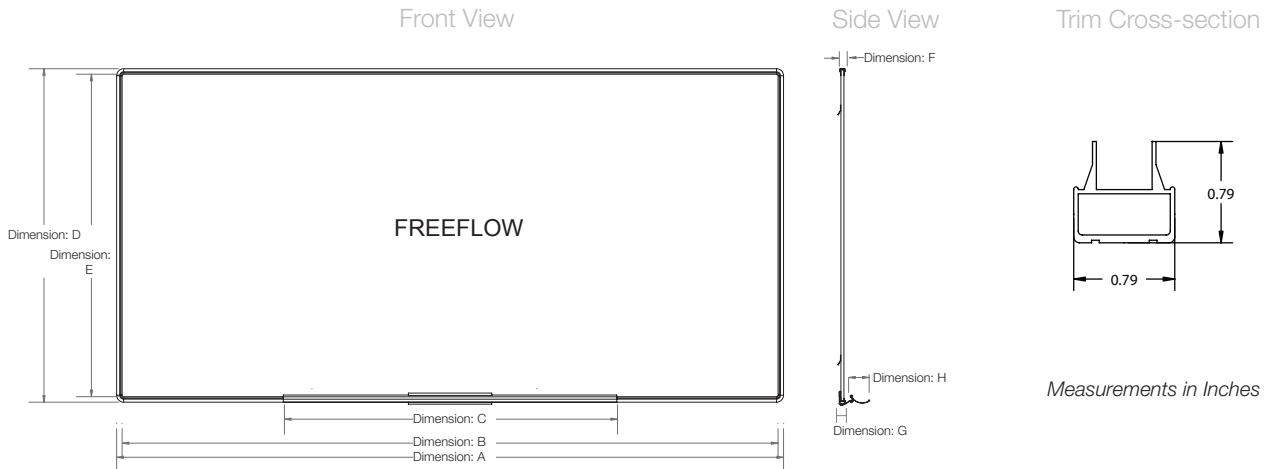

Standard includes:

- e³ environmental ceramicsteel writing surface
- Clear Anodized aluminum frame with Champagne corners
- Clear Anodized aluminum marker tray
- Integral hanging rail to support FreeFlow components
- Metal cleat mounting system
- Pack of four dry-erase markers (black, blue, red, and green) and one eraser

Options:

- FreeFlow components also available. See page 22.
- Screen printed pattern on e³ environmental ceramicsteel writing surface, not available on all sizes, specify screenprint pattern number. See page 48 for more information.
- For e³ care and maintenance instructions, see page 4.

FreeFlow Series Components

IMPORTANT: Components require FreeFlow Base Board or FreeFlow Double Rail Track for mounting.

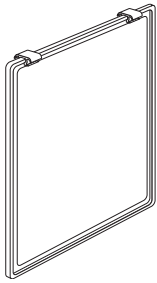

Standard includes:

- e³ environmental ceramicsteel writing surface on markerboards, double-sided
- Fabric over 3/8" fiberboard on tackboards, double-sided
- Clear Anodized aluminum frame with Champagne corners
- Book shelves are Clear Anodized aluminum, 12" deep (300mm)
- Projection surface is fabric membrane
- Flipchart base board is e³ environmental ceramicsteel writing surface. Projects 6" (300mm).
- Magnetic flipchart holder holds standard flipchart, attaches to any e³ environmental ceramicsteel writing surface or metal surface.
- For e³ care and maintenance instructions, see page 4.

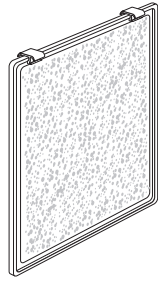

FreeFlow Component Information

- FreeFlow components are rail-mounted and require either a FreeFlow Base Board or FreeFlow Double Rail Track for mounting.
- The combined width of all components must be 6" (150mm) less than the width of the FreeFlow Base Board or FreeFlow Double Rail Track on which they will be placed.
- FreeFlow Double Rail Track includes a top and bottom rail which allows for components to be mounted on either rail.
- FreeFlow Double Rail Track includes stops to prevent boards from accidentally sliding off the track.
- IMPORTANT: FreeFlow components DO NOT slide from the FreeFlow Base Board to/from Double Rail Track. These products are designed to work independently.
- FreeFlow projection screens extend above FreeFlow Base Board or Double Rail Track. Projection Screens may be angled forward to enhance viewing.
- FreeFlow Bottom Rail is an aluminum track designed to be used in conjunction with the Double Rail Track to facilitate sliding of components and eliminate wall damage. It is recommended that a Bottom Rail be specified whenever a Double Rail Track is specified.
- For more information on COM fabrics, see page 42. COM fabrics must be tested.

Pin-Mag Series

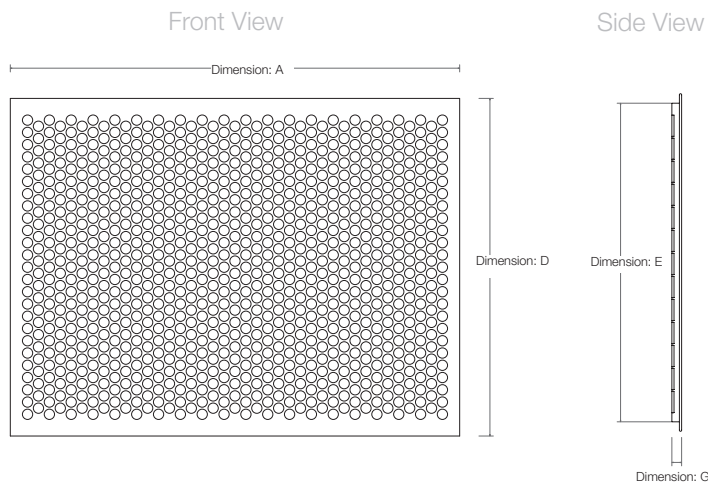

Design by: Nygaard & Bodholt

Standard includes:

- Unique perforated metal shell over tackable surface
- Works with tacks or magnets
- Powder-coated shell
- Fabric-covered tackable surface
- Screw mounting system; Pin-Mag may be hung vertically or horizontally
- Perforation diameter is nominally 1/2"
- Custom sizes not available

Options:

- For more information on COM fabrics, see page 42. COM fabrics must be tested.

Huddleboard Markerboards and Photo Boards

Standard includes:

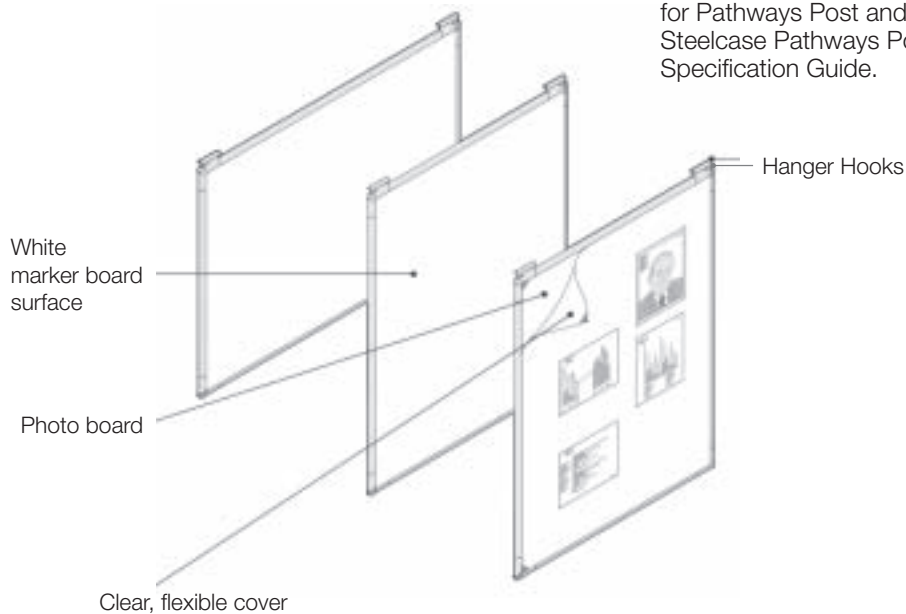

- Markerboard surface, double-sided and available in two sizes
- Photo Board with 3M repositionable adhesive on one side, marker surface on reverse
- Boards come in packages of 5 unless specified
- Translucent plastic hanger hooks

NOTE: Huddleboards and Huddleboard Photo Boards have a one (1) year warranty

Optional Accessories:

- Ledge Grabbers, Flipchart Pegs and Markerboard Grips are sold separately and can be added to any Huddleboard Markerboard.
- Accessories are available in translucent plastic only.
- Accessories are sold in sets of 10 (5 pair), except Markerboard Grips which are sold in sets of 5.

NOTE: BHAB Huddleboard adaptor brackets are required for Pathways Post and Beam, and are available in the Steelcase Pathways Post and Beam Solutions Specification Guide.

Dimensions	
Depth	3/4"
Width	23 1/3" or 32"
Height	32" to 42"
Weight	Less than 5 lbs.

Ledge Grabber

Flipchart Peg

Marker Grip

Mobile Easel with Landscape Orientation

Information:

- Huddleboard white marker surface accommodates dry erase markers. Double sided.
- Huddleboard Photo Album Board features a 3M repositionable adhesive used on Post-It products which provides an area for media to be displayed. Clear flexible cover protects media and provides a non-glare dry-erase writing surface which allows the user to write notes over media displayed without permanently altering them. Cover contains an easy-grip tab and magnetic top and bottom corner to secure the cover. Note: Photo Board is on one side only, reverse is white marker surface.
- Boards are not porcelain steel and do not accept magnets.
- Boards weigh less than 5 pounds each.
- Hanger Hooks are standard with all Huddleboards. Hooks can be removed and repositioned on any side of the board allowing board to be used in portrait or landscape format.
- Huddleboard and Huddleboard Photo Board are designed to be written on with dry erase ink. Boards can be cleaned using normal markerboard cleaner.

NOTE: Regular ink is not removable from Huddleboard surfaces.

- Ledge Grabbers have a non-slip rubber surface that anchors Huddleboards to panels, storage cabinets and other horizontal surfaces. Minimum surface depth of 1" (25.4mm) is required. Attaches to any size Huddleboard in landscape or portrait format.
- Flipchart Pegs attach to the frame of the Huddleboard and accept standard flipcharts.
- Marker Grip can be attached to the side of any Huddleboard to hold dry erase markers.

Mobile Easel

Standard Includes:

- Mobile Easel frame with storage capacity for 10 large boards, 4798 Sterling paint only.
- Storage tray for Mobile Easel 6696 Sterling plastic only.

Information:

- Mobile Easel has an adjustable board which can be set at 3 different heights to display boards, one for sitting and two for standing.

	Landscape to top of board	Portrait to top of board
Sitting Height	52" / 1321mm	63" / 1600mm
Standing Height 1	59" / 1500mm	71" / 1803mm
Standing Height 2	66" / 1676mm	78" / 1981mm

- Grips on the display board hold Huddleboards in place.
- Boards can be displayed portrait or landscape.
- Utility tray can support boards, dry erase markers and erasers.
- Side-access storage compartment provides an area to store and transport up to 10 large boards.
- Casters allow the board to easily be moved where needed.

Huddleboard Marker Boards and Photo Boards

Mounting Rails and Trays

Wall-Mounted Worktool Rail

Panel-Mounted Tray

Standard Includes:

- Worktool Rail is structural wall-mounted for hanging Huddleboards. Standard with choice of 8043 Clear Anodized aluminum or 8044 Black Anodized aluminum with 6653 Solar Black plastic end caps.
- Panel/Structural-mounted trays for leaning Huddleboards, standard 4798 Sterling Paint with 6696 Sterling plastic endcaps; includes structural wall (dry wall) mounting hardware.

Options:

- Panel-Mounted tray is available with optional panel-mounting hardware at no additional charge.
- Must be specified:
 - Answer/Kick/Privacy Wall specify with Answer hardware
 - Avenir, specify with Avenir hardware
 - Series 9000, specify with Series 9000 hardware

Information:

- Wall-Mounted Worktool Rail allows Huddleboards to be wall mounted and slid into position as required. Worktool Rail is 48" or 96" long.
- Panel/Structural-Mounted Tray can be mounted on panels or drywall. Panel/Structural-Mounted Tray accommodates all sizes of Huddleboards in portrait or landscape. There are 3 channels in the tray which accommodate Huddleboards or provide excellent storage for dry erase markers and erasers. Trays are available in 3 widths: 36", 48", or 72". Hardware is included to mount to drywall. Optional panel-mount hardware is available for Avenir, Answer (Kick and Privacy Wall), and Series 9000.

Combo Boards

Includes Marker Tray

Standard includes:

- Half marker, half fabric tackable surface divided by a $\frac{3}{4}$ " vertical aluminum extrusion
- e³ environmental ceramicsteel writing surface on markerboards
- Fabric over $\frac{3}{8}$ " fiberboard on tackboards
- Matching aluminum marker tray is centered on the board
- Vertical Aluminum Extrusion color will match marker tray finish.
- Available with Edge, Access or Session trims. For more information on trim profiles and marker tray, refer to main Edge, Access and Session pages.
- Metal cleat mounting system
- Pack of four dry-erase markers (black, blue, red, and green) and one eraser

Options:

- For more information on COM fabrics, see page 42. COM fabrics must be tested.
- Mounting options:
 - PPPW On and Off Module Brackets: See page 46 for specific information.
- Other configurations available.
- For e³ care and maintenance instructions, see page 4.

Patient Room Boards

Graphic Option A (CEDH01827):

Optional Custom Logo (\$) Print Area Up to 3.75"

Graphic Option B (CEDH21827):

Nurture logo is standard.

Must specify "No Logo".

Standard includes:

- Standard screenprint graphic available in 2 standard ink colors permanently fused to e³ environmental ceramicsteel writing surface
- Half marker, half fabric tackable surface divided by a 3/4" vertical aluminum extrusion.
- Icons make information easy to understand without multi-lingual text
- Available as Markerboard or Combo Board
- Fabric over 3/8" fiberboard on tackboards
- Edge trim is standard. For more information on trim profile, see page 12.
- Matching aluminum marker tray
- Metal cleat mounting system with anti-dislodgement system
- Pack of four dry-erase markers (black, blue, red, and green) and one eraser
- Markerboard weighs approximately 25 lbs.
- Combo Board weighs approximately 40 lbs.

Options:

- For more information on COM fabrics, see page 42. COM fabrics must be tested.
- Custom sizes, configurations, graphics, and logos in single or multi-color available. See page 48 for additional information about custom screenprint.
- For e³ care and maintenance instructions, see page 4.

110 Contractor Series

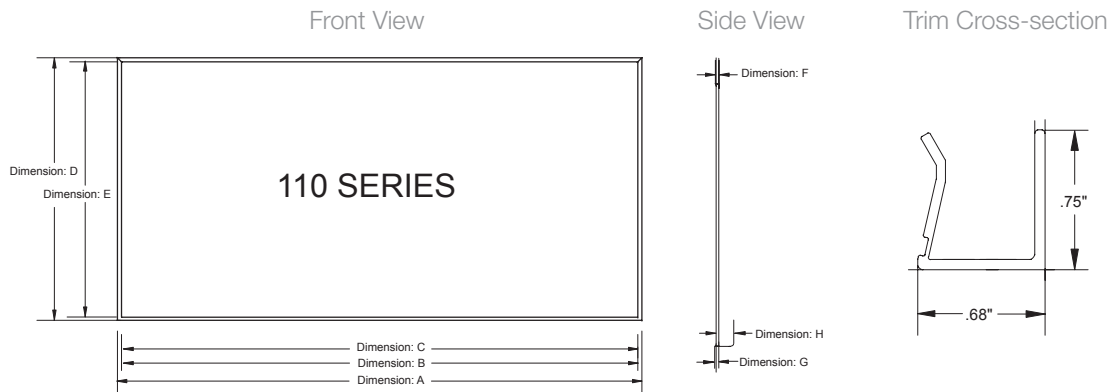

Standard includes:

- 3/4" Clear Anodized aluminum frame with rounded edges on marker tray
- Aluminum full-width blade marker tray (markerboards only)
- e³ environmental ceramicsteel writing surface on markerboards
- Pack of four dry-erase markers (black, blue, red, and green) and one eraser
- Fabric over 3/8" fiberboard on tackboards

Options:

- Music Staff Lines screenprint option available on e³ environmental ceramicsteel writing surface on boards up to 8'.
- Spline joint allows markerboard to be shipped in two (2) pieces; requires on-site assembly.
- For more information on COM fabrics, see page 42. COM fabrics must be tested.
- 1" full-width Cork Maprail is available at an additional charge. Specify MAPR, Maprail.
- Clear Anodized Aluminum maprail-mounted accessories are available including: Map Hook and Flag Holder.
- For e³ care and maintenance instructions, see page 4.

Important Application Information (Including Spline Joints)

<p>Sizes</p>	<p>Sizes of tackboards and markerboards are nominal, refer to dimensioned drawings for exact specifications.</p>																				
<p>Tackboards</p>	<ul style="list-style-type: none"> • Standard tackboard construction is $\frac{3}{8}$" fiberboard over $\frac{1}{8}$" hardboard. • COM fabrics may be specified. COMs must be approved. 																				
<p>Spline Joints</p> 	<ul style="list-style-type: none"> • Spline joints allow larger format boards to be delivered in 2 pieces. Assembly required. • Whiteboards weigh approximately 5lbs/ft² • Assembly required on-site. • Spline joints are an option, with upcharge on: Edge, Access, Denska, 110, and 555 markerboards over 10' in length. • Spline board joints are visible, every effort is made to ensure a tight seam. • Please be sure your client is aware that the spline joint will show. 																				
<p>Using CopyCam with Premium Whiteboards</p>	<ul style="list-style-type: none"> • CopyCam works with all Premium Whiteboards. IMPORTANT: Cables cannot be routed behind Senti, 110, or 555 Series boards. • CopyCam works with boards 8' (2.4m) or less in width. • CopyCam is only available in Champagne finish. 																				
<p>Magnetic Mount Option (MGMT)</p>	<ul style="list-style-type: none"> • Enables Senti boards, up to 48" x 48", to be mounted on flat, painted steel surfaces only. <p>NOTE: This mount is not intended for fabric or other coverings over steel.</p>																				
<p>Panel Mount Bracket Option (PLMT)</p> 	<ul style="list-style-type: none"> • Panel Mount Brackets enable Edge and Senti markerboards, up to 60" wide, to be mounted on any Steelcase system, except Montage, plus a selection of other systems. • Boards intended for panel-mount must be the same width as the panel on which they are to be mounted. <table border="1" data-bbox="618 1236 1443 1610"> <thead> <tr> <th>Option</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>PLMT00</td> <td>1" over panel bracket/hook</td> </tr> <tr> <td>PLMT01</td> <td>2" over panel bracket/hook</td> </tr> <tr> <td>PLMT02</td> <td>Avenir Panel bracket, must be modular with panel</td> </tr> <tr> <td>PLMT03</td> <td>3" over panel bracket/hook</td> </tr> <tr> <td>PLMT35</td> <td>3.5" over panel bracket/hook</td> </tr> <tr> <td>PLMT04</td> <td>Answer/Kick/Privacy Wall bracket, must be modular with panel</td> </tr> <tr> <td>PLMT05</td> <td>Series 9000 Panel bracket, must be modular with panel</td> </tr> <tr> <td>PLMT06</td> <td>Knoll Morrison Panel bracket, must be modular with panel</td> </tr> <tr> <td>PLMT07</td> <td>Hauserman Panel bracket, must be modular with panel</td> </tr> </tbody> </table>	Option	Description	PLMT00	1" over panel bracket/hook	PLMT01	2" over panel bracket/hook	PLMT02	Avenir Panel bracket, must be modular with panel	PLMT03	3" over panel bracket/hook	PLMT35	3.5" over panel bracket/hook	PLMT04	Answer/Kick/Privacy Wall bracket, must be modular with panel	PLMT05	Series 9000 Panel bracket, must be modular with panel	PLMT06	Knoll Morrison Panel bracket, must be modular with panel	PLMT07	Hauserman Panel bracket, must be modular with panel

PLMT07	Hauserman Panel bracket, must be modular with panel																				

TRIM:

Wood Trim Finishes

The wood finish is an open pore, high gloss finish on maple, cherry or walnut. Colors match current Steelcase wood finishes in color only and do not match the Steelcase finish in sheen.

SURFACES:

Markerboards

Markerboards are standard in white high-gloss 7655 e³ environmental ceramicsteel. Optional screenprint patterns are available to provide a guide for writing or drawing. See page 48 for patterns.

Fabric Tackboard Surfaces

Tackboard surfaces are available in select Steelcase and DesignTex fabrics; pricing for DesignTex and Steelcase fabrics is determined by a grading program. All fabrics are applied railroaded, i.e. salvages parallel to floor.

Customers Own Material (COM)

Fabric Approval and Yardage

To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:

- Visit www.steelcase.com

For additional information regarding Customer's Own Material, call 1.888. STEELCASE.

Surface Materials

This list includes all surface material and/or finish choices applicable to Premium Whiteboards and Tackboards and Contractor Series. Not all surface material and/or finish choices are available on all products. Please refer to the Finish Matrices see pages 44 and 45 for specific product availability.

Key Information

- Standard finish selection.
- \$ This finish option has an upcharge.
- ◇ Customer's own material, see page 42.

For Grade-in fabric selection, see page 43.

PPPW Bracket Application Guide

- On and Off Module Bracket for installation of markerboards and tackboards on Privacy Wall, Answer and Kick.
- Allows Premium Whiteboards to be mounted on Privacy Wall, Answer, or Kick using a standard metal cleat mounting system.
- Ideal application on a Privacy Wall or when spanning multiple Answer/Kick panels with a single markerboard.
- Compatible with boards 48" high only.
- Not for use with Senti, FreeFlow, or Contractor Series.
- Cannot install two boards at right angles.
- Ships with six non-handed brackets for maximum application flexibility; field-modify for application by removing tabs per instructions.
- The required minimum number of PPPW Brackets must be installed to ensure secure application of board.
- Brackets must be installed in the correct orientation. i.e. left or right hand, as indicated in the key below, photo right, and diagrams below and on page 47.

NOTE: Space between panel face and rear of board is $\pm 0.25"$.

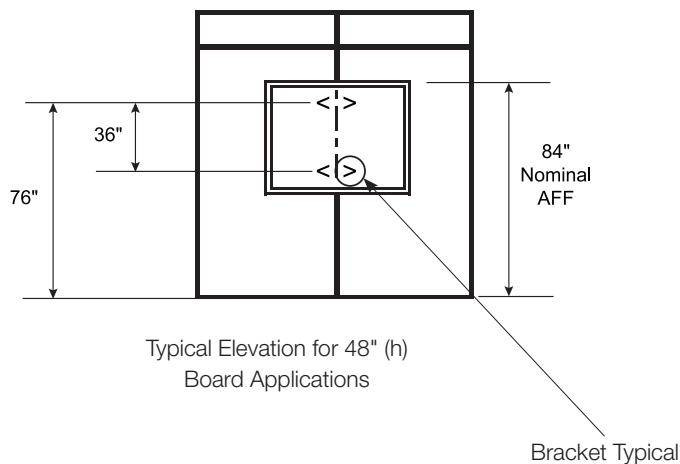

Tab Removal – Right Hand Application

KEY:

- > Right Hand Application of PPPW Bracket
- < Left Hand Application of PPPW Bracket

Standard Mounting Height and Centerline Application

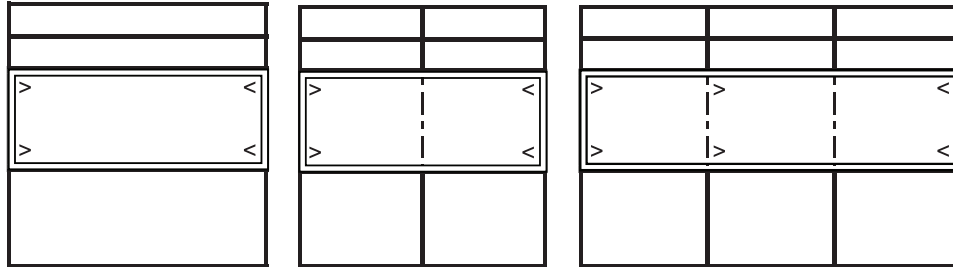

- For boards up to 16' wide
- 48" in height only

KEY:

- > Right Hand Application of PPPW Bracket
- < Left Hand Application of PPPW Bracket

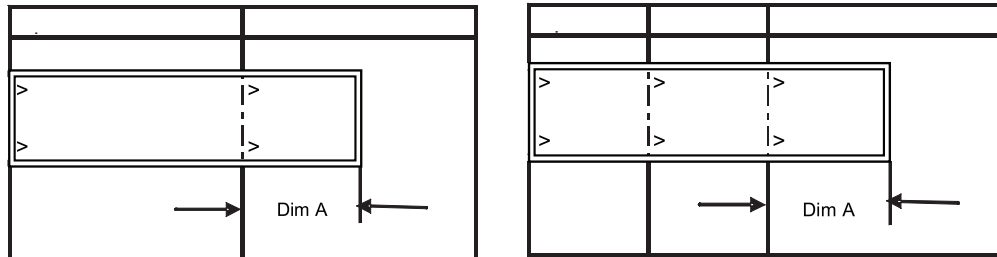

On Module – Minimum Bracket Application

Board Width (inches)	48	60	72	84	96	120	144	168	192
Minimum Number of Brackets	4	4	4	4	4	4	6	6	6

Asymmetrical Off Module Overhang Allowances and Minimum Bracket Application

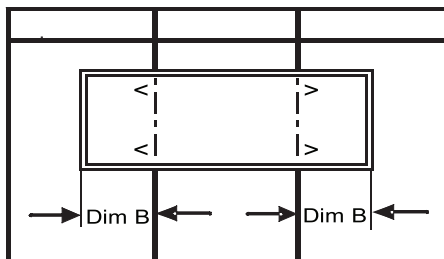

Board Width (inches)	60	72	84	96	120	144	168	192
Minimum Number of Brackets	4	4	4	4	4	6	6	6
Dimension A – Maximum Overhang (inches)	18	22	25	29	36	38	38	38

NOTE: Bracket direction must be the same as the overhang direction. This example shows right hand bracket installation with right hand overhang.

Symmetrical Off Module Overhang Allowances and Minimum Bracket Application

Board Width (inches)	60	72	84	96	120	144	168	192
Minimum Number of Brackets	4	4	4	4	4	6	6	6
Dimension B – Maximum Overhang (inches)	18	22	25	29	36	38	38	38

NOTE: Dimension B must be equal on both the left and the right. For example, a 60" board may have a maximum 18" overhang both left and right side.

Screenprint Options

A selection of standard screenprint options are offered. Custom screenprint is also available. Screenprint graphics are permanently fused to the e³ environmental ceramicsteel surface. Screenprint is not available on boards with spline joints.

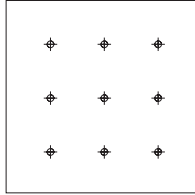

Standard Screenprint Options

Premium Whiteboards

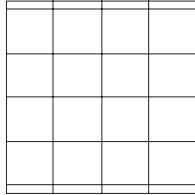

Up to 10' Wide:

7655
e³ White

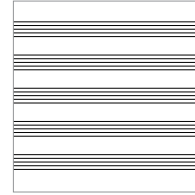

7656
Circular Dots
at 2" Intervals

7657
2" x 2"
Grid Pattern

Contractor Series Whiteboards

Up to 8' Wide:

7658
Music Staff Lines
5 Lines per Staff

Standard Screenprint Options for Markerboards

Markerboards are available in white high gloss 7655 e³ environmental ceramicsteel. Optional screenprint patterns are available to provide a guide for writing or drawing. Screenprint is not visible at a distance of three 3' (0.9 meters), with the exception of Music Staff Lines which are printed in black.

Custom Screenprint Options for Markerboards

Custom screen printing is available in single or multiple colors on e³ environmental ceramicsteel. This service is available for both customer-provided artwork and Steelcase Visual Worktools standard artwork. Extended lead times apply. Artwork options include, but are not limited to:

- Planning boards
- Hospital boards
- Educational boards
- Corporate graphics and logos

Please refer to screenprint guidelines.
