## Upholstery Care

In keeping with the tradition of finely tailored furniture, the Leap WorkLounge Ottoman is upholstered in high quality leathers and fabrics.

To give you the highest degree of comfort and touch, leathers have been treated with only a slight surface protection so they may darken if exposed to oil or grease. If leather becomes damp, allow it to air dry away from any heat source. Direct sunlight may cause fading.

For fabrics, regular use of a vacuum cleaner and periodic professional dry cleaning is recommended. Do not steam clean.

## Polished Aluminum Care

The Leap WorkLounge Ottoman features lightweight die-cast aluminum that is buffed to a lustrous sheen. To keep it clean, simply hand rub with a soft, dry cloth. Over time, the aluminum will develop its own natural patina.

## The Leap® WorkLounge™ Ottoman/Table

The unique Leap WorkLounge Ottoman gives you a place to put your feet up... or even a place to seat your guests. And with a simple pull of a lever, it becomes a work or side table for light duty office work. So you can change from feet-up to writing mode instantly.

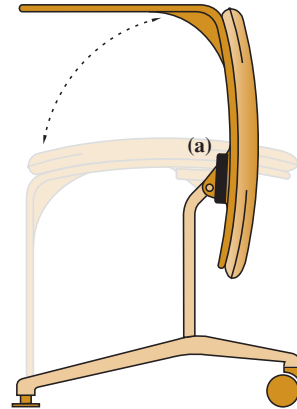

Order it as a companion to Leap WorkLounge or as a complement to any chair.

### Features

- Cushioned footrest surface
- Tilt-up work table 16" w x 14" d x 25" h
- Matching Leap WorkLounge chair may be ordered separately.

## Adjustment

Simply pull the lever (a) toward you to disengage the lock, allowing the surface to be tilted up or down. Release the lever to re-engage the lock.

### CAUTION

Do not sit on worktable in upright position, this may result in personal injury.

## Recline, Unwind, Create

Congratulations on choosing Leap® WorkLounge™, the beautifully crafted, first-ever, working lounge chair. Shift positions. Recline deeply, or sit up straight and work at the Ottoman/Table. The luxurious Leap WorkLounge, with its patented Leap technology, will support your back in a wide range of healthy positions.

## How to adjust the Leap WorkLounge to fit you

**Upper Back Force**  
Turn knob forward (clockwise) to increase resistance.

**Back Stop**  
Set recline angle by rotating paddle to any of the 5 positions.

**Seat Height**  
Lift paddle to raise or lower seat height.

**Lower Back Firmness**  
Turn knob forward (clockwise) to increase firmness.

## Features

- Extra-cushioned seat and deeper recline
- Large headrest with flip-up pillow
- Leap's Live Back™ and Natural Glide System™
- Standard with glides, optional with casters: hard wheels for use on carpet, soft wheels for use on hard floors
- Matching Ottoman can be ordered separately
