

Choosing the right chair shouldn't be a pain in the neck, seat or back.

## Steelcase seating

patented **innovations** | user-centered **research** and **design** | **quality** exceeding industry standards | **ergonomic** discoveries so advanced they're **licensed** for the airline and auto industries<sup>1</sup> | proven **health** and productivity benefits<sup>2</sup> | **environmental leadership** and responsibility through life cycle assessment<sup>3</sup>

1 Leap technology has been licensed by Johnson Controls Inc. and B/E Aerospace Inc. 2 The Leap Productivity and Health Impact Study, coordinated by Health and Work Outcomes, showed that participants who received the Leap chair and ergonomic training achieved a 17.8% increase in productivity. Individual customer results may vary. 3 Steelcase offers many products that are certified as low-emitting, helping to preserve indoor air quality. Additionally, the Think® chair, Leap® chair, Move™ chair and Poly™ chair have received Cradle to Cradle™ Product Certification from MBDC.
