FAMILY OF SEATING

## leela

### COMFORTS OF HOME

The thoroughly modern Leela™ combines clean lines, comfort and just the right scale to fit into any waiting environment. Lounge seating, bariatric versions, and coordinating tables can be used alone or in combination with other seating lines. Leela provides a comfortable solution to make any waiting room feel more like a family room.

### SOPHISTICATED

Crisp lines, a sleek metal base, and linear arm detailing bring a modern edge to the Leela family of seating. A high level of fit and finish on all sides encourages the seating units to be placed in clusters to support conversations.

### DURABLE

Seating as tough as it is beautiful, Leela's metal legs are highly durable while the webbed seat suspension and structural steel frame add stability and strength.

### COMPREHENSIVE

Leela provides a range of scale for any user with a simple statement of line – single seats in 21" and 24" widths as well as double, triple and bariatric lounges. Coordinating side and coffee tables complete the collection with solid surface and painted steel tops.

### VERSATILE

Used alone or in combination with other seating lines, Leela's features and style make it the perfect choice. With a range of scale and arm cap options – upholstered, wood and plastisol – Leela transitions easily from space to space.

### SMART

Built for today's healthcare environments, Leela's thoughtful design includes a crumb sweep, bases that are easy to clean under, and a variety of durable arm cap options.

### DESIGN THAT PAYS ATTENTION

Leela family of seating is a comfortable yet hardworking addition to any space. A clean aesthetic blends with a robust construction to create a statement of line perfect for healthcare environments. Lounges are available as a single seat 21" or 24" width, loveseat, sofa, and 30" and 40" wide bariatric versions. Side and coffee tables compliment any arrangement.
