

PROGENY

*Strong and durable
for high-traffic healthcare environments.*

FAMILIES OF SEATING

DESIGN INSPIRATION

The Progeny™ seating line was specifically designed with structural integrity and durability in mind to meet the needs of demanding high-traffic areas, such as reception areas, waiting rooms and lounges. With flexible group seating arrangements, the Progeny seating family encompasses single, guest, tandem and bariatric styles. A matching companion table can be added.

FEATURES AND BENEFITS

COMFORTABLE Seat features UltraFlex® webbing, a unique suspension system that greatly reduces pressure points and distributes weight evenly – providing superior comfort for the user.

DURABLE Legs and frame are constructed from either heavy-duty steel tubing or hardwood maple. Arm caps are available in urethane-covered steel or wood.

COMPREHENSIVE Freestanding and ganging tables are available in several shapes, with metal or wood legs to coordinate with the seating.

OPTIONS Available as a single unit or two-, three- and four-seat units. Each model is offered in a narrow or wide seat width. Bariatric models also available.

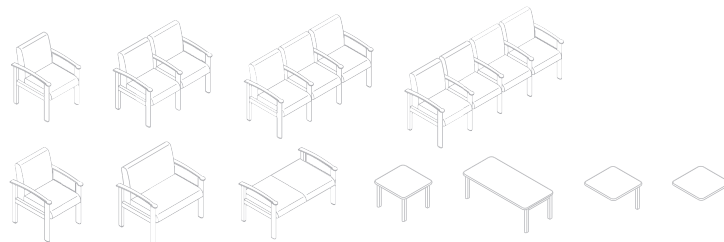

RENEWABLE Field-recoverable upholstery and swap-out seat design for easy replacement without tools.

DIMENSIONS

	overall depth	overall width	overall height	seat width	seat height	arm height
Tandem Seating						
Single-Seat	25 1/4"	24"/26"*	34 1/4"	19 1/4"/21 1/4"*	17 1/2"	24"
Two-Seat	25 1/4"	44 3/4"/48 3/4"*	34 1/4"	19 1/4"/21 1/4"*	17 1/2"	24"
Three-Seat	25 1/4"	65 1/2"/71 1/2"*	34 1/4"	19 1/4"/21 1/4"*	17 1/2"	24"
