

SINE

*A lightly scaled seating solution  
that's durable...and graceful.*

FAMILIES OF SEATING

## DESIGN INSPIRATION

Sine™ seating brings a graceful, lightly scaled aesthetic to demanding healthcare environments. Created by Lisa Smith, this award-winning collection features a distinctive undulating back detail that sidesteps the often-cluttered appearance of tandem seating.

Engineered for optimal comfort and function, Sine is ideal for busy waiting environments. Featuring durable, self-skinned urethane arms and steel frame construction, this deceptively strong family of seating is sure to provide an excellent return on your investment...as well as compliments for years to come.

## FEATURES AND BENEFITS

**COMFORTABLE** Seat features UltraFlex® webbing, a unique suspension system that greatly reduces pressure points and distributes weight evenly, providing superior comfort for the user.

**DURABLE** Frame is constructed from steel tubing and thick bar stock for consistent quality and excellent structural integrity.

**COMPREHENSIVE** Freestanding and ganging metal tables with laminate tops are available as part of line.

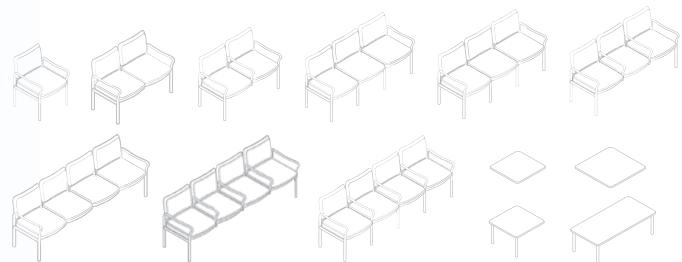

**FLEXIBLE** Back is available with concave or convex detail, creating a wave-like appearance on multi-seat units.

**RENEWABLE** Field-recoverable upholstery and swap-out seat design for easy replacement without tools.

### DIMENSIONS

	overall depth	overall width	overall height	seat width	seat height	arm height
<b>Tandem Seating</b>						
Single-Seat	25½"	24½"	33¾"	20½"	18¼"	25¾"
