Flat Screen Monitor Arm

Sonata

Module Combinations

Sonata provides a free-standing, modular solution to meet the personal and clinical needs of infusion environments. Any module combination can be selected to accommodate a specific center's personal needs. The modules are placed on a common base which is then sealed to the floor.

Modules can be used as an individual unit or in combination with other modules.

Product Details

Nurse server, island, media unit, bench, and wardrobe modules are available double-sided or single sided. Single-sided modules have a finished back to support end-of-run applications.

Base provides a common support for modules. It seals to the floor and acts like a utility chase. All modules and the common base have a shared 18" depth. Base width specified should match the sum of the module widths creating the run.

Floor anchors are provided with base to attach the base to the floor.

Sonata does not accommodate an application placed directly against a wall due to the gap created between the wall and the product. Contact Specials Engineering when this application is necessary.

Actual Dimensions

Base

Depth	18"
Width	12", 24", 36", 42", 48", 60", 66", 72", or 84"
Height	4"

Sonata

Nurse Servers

Nurse server provides standing height worksurfaces, pull-out material prep worksurface, and medical supply storage or wastebin storage. Nurse server acts as a decentralized workstation.

Top is 39"H, to provide an ideal height for standing work and an ideal location for a monitor. Rigid thermoform top is standard with a spill edge. Laminate and solid surface tops are flat without a spill edge.

Pull-out surface is rigid thermoform and pulls out to provide additional preparation area.

Nurse server case is laminate with a 3 mm plastic edge band.

Face lock is optional to secure all drawers on nurse servers with drawer.

Drawers are laminate with a 3 mm plastic edge band and provide medical storage at patient's side.

Toe pull is standard to help with hands-free access to waste removal.

Pull is flush with the front nurse server unit.

Face lock is optional to secure top drawers, on nurse servers with waste bins.

Front access wastebin storage features self-closing slides.

Actual Dimensions

Depth	18"
Width	24"
Height	39"

Product Details

Top drawer of the double-sided nurse server has a 15" depth. Bottom two drawers have an 7" depth. Single-sided nurse server has three drawers with 15" depth.

Top drawer of the nurse server with wastebin storage is 15" deep.

Single-sided nurse servers are right- or left-handed. The nurse server is right-handed if while seated in the patient's position, the module is on the right-hand side.

Pull is flush with the drawer front for ease of motion around the nurse server.

Nurse server with wastebin storage is available with or without the pullout surfaces.

Front access wastebin storage can accommodate a 14 gallon waste container when the cabinet has the pullout surfaces and a 17 gallon container when the cabinet has no pullout surfaces.

Junction box cutout option is available on rigid thermoform top and solid surface top nurse servers with wastebin storage. This option provides a bracket to accommodate two junction boxes below the top surface. A cover for the cutout is provided in the same material as the top, it allows wires to pass through while also covering the recessed power in case of spills.

Lock is optional, factory-installed and keyed random, to secure the drawers of the unit. The lock is located by the handle for the pull-out worksurface. It locks all three drawers. If specific key number is required choose the lock plug option and order the plugs from Service Parts (943101074SR) with key number specific (TA100–TA139). Master keyed lock is also available.

Nurse server top is ideal location for a monitor, commercially available freestanding monitors recommended.

Surface Materials

Nurse server

- Laminate

Top

- Laminate
- Rigid thermoform
- Solid surface

Tip: Graded-In solid surfaces are available, see Surface Materials section for complete listing.

Edge band

- 3 mm plastic

Drawer pull

Pull-out worksurface

- Rigid thermoform: sand only

Face lock

- Polished chrome only

Toe pull

- Champagne only

Application Topics

For more information on Sonata's shared attributes and product applications, ▶ Sonata Module Combinations, page 118.

Sonata

Islands

Island provides hands-free disposal of medical waste, open storage, personal storage, and access to power.

Actual Dimensions

Depth	18"
Width	36" or 48"
Height	36"

Product Details

Island divider separates upper shelf for double-sided modules. It is standard in laminate and available in fusion as an option.

Single-sided islands are right- or left-handed. The island is right-handed if while seated in the patient's position, the module is on the right-hand side.

Island module provides power to adjacent modules. The power chase is accessible through a handle free door. The door is designed for a stiff open to accommodate occasional access. If access to these outlets are needed on a regular basis, contact special engineering for a modified application.

Waste bin slide-out accommodates hands-free disposal of medical waste with the foot rail. Waste bin storage can accommodate up to a 12 gallon chemical waste bucket that is within the dimensions 15"W, 11"D, and 20½"H.

Grommet comes standard with a sleeve and cap. The cap comes closed and can be punched out for access.

Surface Materials

Island module

Sonata

Benches, Media Units, and Wardrobes

Bench provides additional seating and storage at patient side.

Bench is laminate with a 3 mm plastic edge band.

Wardrobe provides personal storage at patient side.

Coat hook allows for hanging storage within wardrobe.

Wardrobe cabinet is laminate with a 3 mm plastic edge band.

Rail is powder coated steel and helps contain personal belongings.

Top is available as a cushion or solid surface.

Hinged cushion top allows access to storage in bench.

Rail is powder coated steel and helps contain personal belongings.

Media unit provides technology access and additional storage at patient side.

Top is 36"H for standing work and personal storage. Rigid thermoform top is standard with a spill edge. Laminate and solid surface tops are flat without a spill edge.

Media unit is laminate with a 3 mm plastic edge band.

Top shelf has power access for personal media device.

Middle shelf accommodates a DVD player and other similar media.

Bottom shelf provides open personal storage.

Rail is powder coated steel and helps contain personal belongings.

Actual Dimensions

	Depth	Width	Height
Bench	18"	36"	19"
Wardrobe	18"	12"	60"
Media Unit	18"	24"	36"

Product Details

Hinged top bench is non-sided. The hinged top can be opened from either side by an easy lift point for the hinged top.

Power is accessed through a cut-out in media unit inner wall. Wiring is passed down through the inner wall to the base.

Coat hook is installed on right side of wardrobe. Additional coat hooks can be ordered separately.

Flat screen monitor arm supports flat panel displays up to 39 lbs within the dimensions 21"W and 15"H to fit in the media unit upper shelf. The monitor arm includes cable management and hardware and is able to be assembled into three different configurations to suit a wide range of applications. The types of configurations are articulated arm, swing arm, and a wall mount.

2614 Chocolate Walnut
2615 Marbled Cherry

Open Line Laminate (OLL)

Open Line laminates are available at an additional \$64 (U.S.) per surface, plus the cost of the laminate.

Example:

4' x 8' sheet = 32 square feet
32 square feet x \$1.10 = \$35.20 (U.S.) per sheet
Laminate costs vary by supplier. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

Applies to:

- Exchange tables
- Folio Laminate worksurfaces
- Opus
- Sonata
- Jenny
- Sync

This service allows you to order non-standard laminate at an additional fee per unit. See the specification pages for upcharge information.

When processing orders for Open Line Laminate on Opus or Sonata, specify 2902 in the laminate finish field and enter the OLL manufacturer information.

Edge bands must also be specified and will incur an \$83 upcharge.

6131 White
6132 Grey
6133 Folkstone
6134 Northsea
6135 Shadow
6136 Nubian Brown
6137 Black

When processing orders for Open Line Laminate on Jenny, Exchange tables, Folio Laminate Worksurfaces, and Sync, specify 2900 in the laminate finish field and enter the OLL manufacturer information.

Edge bands must also be specified using the plastic edge band offering.

California 133 Option

Nurture offers Fire Code Seating Modifications (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as hospitals, theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishings Technical Bulletin 133 (CAL TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin CAL TB 133 test standard in 1992.

CAL 133 is specified using an "F" suffix. When an "F" suffix is available, it means that these models have been tested and certified using approved fabrics. A complete list of approved fabrics are listed on the COM website at www.Steelcase.com

If a specific chair/fabric combination has not been tested, an actual burn test can be performed on the product in the specified fabric. The cost of the test is \$700 (net). Please allow a minimum of six weeks for the production of the chair and the completion of the test.

Paint

0835 Black
4799 Platinum Metallic
7207 Black

Wood

▶ See *Color Availability Matrix for Wood Seating in Surface Materials Reference Manual* for color availability by product line.

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain.

3062 Graphite Walnut
3402 Clear Cherry (Aged)
3412 Natural Cherry **E**
3422 Medium Cherry
3522 Clear Maple*
3572 Amber on Maple
3592 Blonde on Maple
3602 Desert Oak
3612 Warm Oak
3692 Espresso Oak
3702 Clear Walnut
3712 Natural Walnut
3722 Dark Mahogany on Walnut
3752 Medium Walnut
3762 Dark Walnut
3772 Medium Mahogany on Walnut

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370.*

Customiz stain is a service that allows you to create your own stain color. Minimum order quantities, per unit up-charges, and a one-time customer processing fee apply.

▶ See the *Surface Materials Reference Manual* for more information.

Upholstery

▶ See page 696 for a complete listing of upholstery colors and numbers.

▶ Check the COM database for specific product and fabric approvals.

Fabric Approval and Yardage

To confirm whether a particular COM material has already been tested for use on a specific Steelcase or Nurture product or to determine actual yardage requirements:
• Visit www.steelcase.com

For additional information regarding Customer's Own Material, call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

For Nurture products, call 1.800.342.8562.

Nurture Graded-In Programs

Nurture Graded-In Program: Acrylic Panel

A collection of acrylic panels are available as part of a Graded-In Program. The collection is from the Designtex Fusion offering.

These acrylic panels are Graded-In for the Sonata product only. The collection on these pages is not Graded-In for other Steel-case brands or product lines.

To order these acrylic panels, enter the finish code which corresponds with the acrylic panel price group.

Price Group	Finish Code

Fabric Application Direction Guidelines

What is the issue?

Some textiles are simple and look the same regardless of how you apply them to a product. Other fabrics are patterned, textured, or have luster that will have a distinctly different appearance applied in a different direction on a chair. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Nurture products, it is important to understand fabric application direction when ordering a product to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long yarns that run down the length of the roll are called the “warp” yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a chair. Fabric directionality is determined by how the fabric comes off the roll.

It is NOT determined by the way the pattern looks on the product. For example, the image below shows the fabric applied warped horizontal although the stripes appear vertical.

Terminology

Steelcase uses the terms warped horizontal and warped vertical. There are other terms within the industry that are used that have the same meaning:

- Warped horizontal is also referred to as:
 - railroaded or across roll
- Warped vertical is also referred to as:
 - woven way, down roll, or top out

Why is it important?

Dealers must specify fabric application direction when ordering COMs and Nurture Graded-In fabrics. We require the dealer to specify the direction because we do not know which way customers want to see a pattern on the furniture. Therefore, it is critical to know how the pattern is run on the roll to ensure that Nurture builds and ships each order to the customer's expectation each and every time.

How do I know which way the fabric comes off the roll?

Most textile companies will swatch their fabrics in a warp vertical (woven way, down roll) direction. Some exceptions might be made to address patterns especially with stripes. Typically, when a fabric is swatched in a warp horizontal (railroad or across roll) direction, the direction is noted on the swatch card or fabric sample. If in doubt of a fabric direction, we encourage you to contact the textile vendor for clarification.

Vinyl

Vinyl generally only passes on Nurture product in a horizontal or across roll direction. This is due to physical properties of the material. If a vinyl is applied in the opposite direction, too much stretch in the material can compromise the overall aesthetics of the final upholstery. If a patterned vinyl is being specified and the vinyl must be run in a vertical direction, pre-approval must be arranged through Nurture. Nurture will consider the request and a decision will be made based on the specific vinyl and product combination. Contact Nurture's Customer Care line.

Required Action Steps before Specifying

1. Verify by using Steelcase's COM website that the fabric is approved on the product.
2. Verify the direction that the fabric can be applied. Occasionally a fabric is only approved in one direction.
3. Confirm with the customer how they want the fabric to look on the furniture.
4. Confirm using the swatch card or vendor's website the direction the sample is shown.
5. Now you're ready to place the order.
