Washers / Dryers

Electrolux

Electric Front Load Dryer

EIED55H IW

Featuring IQ-Touch™ Electronic Controls

Largest Capacity Dryer¹

Dry the most in one load with 8.0 cu. ft. capacity.

Fast Dry Cycle²

Eighteen minutes to dry.

IQ-Touch™ Controls

The IQ-Touch $^{\scriptscriptstyle{\text{TM}}}$ control panel offers all the cycles/options you need-including a "My Favorite" setting.

"My Favorite" Setting

A setting you can customize to meet your needs, so the option you want is available at the touch of a button.

*Side-by-Side units in under-counter installation require custom-built countertop ar	nd/or cabinetry.

Based on manufacturer specifications.

²Fast time based on smallest load / Fast Wash and Fast Dry cycles selected for various load compositions.

EIED55H IW

Electric Dryer Specifications

- Product Weight 130 Lbs.
- Voltage Rating 240V/60Hz/30 Amps
- Single phase 3- or 4-wire cable, 240 Volt, 60 Hertz AC only electrical supply with ground required on separate circuit fused on both sides of line. (Do not use same circuit as washer.)
- Connected Load (kW Rating) @ 240 Volts = 6.48 kW
- Amps @ 240 Volts = 27 Amps
- Dryer MUST employ a 3-conductor NEMA 10-30 type SRDT or 4-conductor NEMA 14-30 type SRDT or ST (as required), rated at 240 volt AC minimum, 30 amp power supply cord marked for use with clothes dryers (not supplied).
- Grounding through neutral link prohibited in specific applications and certain locales, requiring use of 4-wire system. (For detailed electrical requirements, refer to Product Installation Guide on web.)
- · Always consult local and national electric codes.
- Can be installed alone, with or without optional 15" drawer pedestal, or stacked above matching Electrolux Washer, which requires installation of optional dryer stacking kit. (For installation details, refer to instructions included with optional pedestal or stacking kit or on web.)
- Can be built in with matching Electrolux Washer in under-counter, recessed or closet installation. Installations requiring countertop and/ or cabinetry will require custom building. (Refer to Built-In Installations on this page for cutout dimensions. For additional installation details, refer to Product Installation Guide on web.)

- Closet installation requires vented door with 2 unobstructed louvered openings, minimum 60 sq.in. each, located 3" from top and bottom of door. Full-length 120 sq.in. opening also acceptable. Allow 1" clearance between door and fronts of units.
- Do NOT install in area exposed to dripping water or outdoor weather conditions, or where gasoline or other flammables, including automobiles, are kept or stored.
- Floor MUST be solid with 1" maximum slope. To ensure vibration or movement does not occur, reinforcement of floor may be necessary. Do NOT install on carpeted surface.
- Dryer MUST exhaust to outside of building, NOT into any concealed space.
- Dryer equipped for 4-way venting and approved for up to 125-footequivalent of duct length, determined by length of run and number of elbows needed.
- Exhaust installation requires minimum 4"-diameter rigid or flexible metal duct with approved vent hood having swing-out damper(s). Do NOT use flexible plastic or metal foil duct and use shortest run possible.
- Leveling legs supplied to level dryer properly and reduce excessive noise and vibration.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxappliances.com for detailed instructions.

Optional Accessories

- Drawer Pedestals Island White (PN# EPWD15IW).
- Dryer Stacking Kit (PN# ESTACKIT).
- Mobile Home Installation Kit (PN# 137067200)
