

Grand Chair Series

Standard Features

The *Grand Series* chairs come standard with the following options:

- ***Life-Foam™ temperature and pressure sensitive memory foam seat*** to reduce pressure and improve circulation.
- ***Schukra® Lumbar Support System*** adjusts to any size, posture, or position by increasing or decreasing the amount of curvature in the lumbar area of the back.
- ***Height Adjustable Back*** adjusts to any height user.
- ***Adjustable Back Angle*** function allows the user to change the back angle while seated in the chair.
- ***Height and Width Adjustable Arms*** to relieve shoulder stress and provide support for any size user.
- ***LIFE-Foam™ Memory Foam Arm Pads with Swivel Function*** relieves pressure while adjusting to suit every activity.
- ***Contour Seat*** is shaped to the body's natural curves to provide support where you need it.
- ***Adjustable Seat Height*** adjusts quickly to suit any size user or desk height.
- ***Depth Adjustable Seat*** adjusts to any size user.
- ***Heavy Duty Multi Function Control Mechanism*** for complete ergonomic function, easy movement and years of reliable comfort.
- ***Centre Tilt Control with Spring Tension*** for ease in tilting and reclining.
- ***Tilt Tension Control*** allows user to adjust the tension to suit their weight and size.
- ***Variable Tilt, Tilt Tension, and Infinite Tilt Lock Functions*** allow the user to freely rock forward and backward, or lock the chair into any position.
- ***Front Tilt Lock Feature*** prevents your chair from tipping forward when the free float function is in use.
- ***Five star base with fiberglass reinforcement*** for strength and stability.
- ***55mm Dual Wheel Hooded Soft Wheel or Hard Wheel Casters*** for smooth operation in any application.
- ***Standard Mid Back*** for smaller users and freedom of movement or ***High Back*** for those who prefer head support
