

Saddle Stool Standard Features

The **Lifeform® Saddle Stool** comes standard with the following features:

- **Contour Seat** is shaped to the body's natural curves to provide support where you need it.
- **Adjustable Seat Height** adjusts quickly to suit any size user or desk height.
- **Centre Tilt Control with Spring Tension:** for ease in movement and years of reliable comfort.
- **Tilt Tension Control** allows user to adjust the tension to suit their weight and size.
- **Variable Tilt and Tilt Lock Functions** allow the user to freely rock forward and backward, or lock the chair into position.
- **Five star base with fiberglass reinforcement** for strength and stability.
- **55mm Dual Wheel Hooded Soft Wheel or Hard Wheel Casters** for smooth operation in any application.
- **Pneumatic Gas Lift** with 8" of travel for broad range in seat height.
- **Limited Rear Tilt** so that user does not rock too far backwards
