

Deauville Table

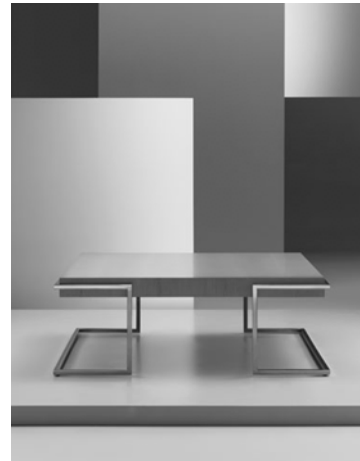

Much like the Miami resort with which they share a name, Deauville tables are equally at ease in interiors that appeal to a Rat Pack sensibility or those that embrace the ultra modern. Bracket-shaped legs are an immediate focal point. Their primacy allows the top—executed in fine wood or with stone insert—to appear as though it floats. Clean lines, bold shapes, and pure materials combine for a timeless look that spans transitional to modern tastes.

Notes on the optional use of Option A Woods and Finishes

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

Refer to Finish Selector for available finish selections and limitations
