

10911 LINQ seat with back module

seat h 16 1/2" w 22" d 27 1/2" h 29"

10912 LINQ seat without back module

w 22" d 26" h 16 1/2"

10913 LINQ arm

w 4" h 22"

**Frame:**

Frame is constructed of FSC Plywood core with molded foam.

**Module:**

Any number of the three modules can be combined for different effects. The flexible hinge mechanism allows easy reconfiguration into any combination of straight, concave or convex layouts.

# LINQ sofa

Nienkämper's LINQ sofa

takes public seating around the bend

Straight lines are fine, but new creative possibilities open up in soft seating for public areas when curves are added to the mix.

Nienkämper's new LINQ seating system consists of three modules - a seat with a back, a seat without a back and an arm that maybe combined with either type of seat. Any or all of these elements can be strung together to form concave, convex or sinuous alignments. LINQ can even do complete circles (and yes, it also does straight lines.)
