Versatile, mobile storage system.

- Mobility provides flexibility
- Broad offering of solutions
- Contemporary design

■ The office storage system that gets around.

All Terrain Storage products combine the versatility of modular design with the convenience of mobility to create a flexible storage system that adapts to the changing needs of any office environment.

With a broad offering of drawer pedestals, file cabinets, media centers and storage towers, All Terrain Storage products can be mixed and matched to create solutions to meet any storage need. Storage units keep workspaces organized by accommodating hanging files, supplies, personal belongings and even electronic equipment.

The real convenience of All Terrain Storage products lies in their mobility. Units can be moved and reconfigured to create temporary workspaces, facilitate impromptu team meetings, or simplify office relocations.

The result is an office environment that is highly functional and organized, yet fluid and adaptable.

Complete lineup.
From workspaces and storage areas to conference rooms and training rooms, there is an All Terrain product for every office application. Hundreds of organizational and storage solutions are possible with a complete offering of file pedestals, modular shelves, storage lockers and multi-media cabinets.

Modular storage with adjustable shelves stores items within reach, while saving precious work surface space.

Storage slots allow hard bins to be hung on the side of All Terrain storage towers, providing easy access to frequently used items.

Standard laminate front options create a two-tone look.

A variety of ergonomic drawer pulls and hardware provide the finishing touch to any office design.
