Our Laptop Desk continues to be an inspired marriage of 18th-century form and 21st-century function. Its solid cherry case is joined at the corners by sharp dovetails. Brass-hinged leather-and-cherry hatch lids enclose your computer and assorted peripherals; the two outer compartments adjust to suit different heights. Once your work is done, shut the doors and all equipment will be neatly stowed away.

The Laptop Desk is available in two versions: one for use with a desk chair and a Standing version for those who prefer to work vertically or sitting on a 25" stool. We built a customized rendition of this piece for Duckhorn Vineyards in California that dually serves as a desk for reception and transactions. As with most of our designs, we are happy to accommodate your unique requirements and singular dreams.
