Korogard® H110 & H180 Handrail

KOROGARD H110 and H180 Handrails are 5-1/2" (139.7mm) rails with full-length vinyl bumpers and continuous aluminum retainers. A 2" (50.8mm) accent strip is added to the profile extrusion to add contrast and design options. The accent strip in the H110 Handrail is a solid color, while the H180 Handrail has a strip of **KOROSEAL**® or **VICRTEX**® Flexible Wallcovering. The H110 Handrail is ideal for medium- to high-impact areas, and the H180 Handrail is best suited for low-impact areas. End and corner caps are available either as patented foam cushion or as rigid plastic. Optional reveals, available for both foam cushion and rigid plastic end and corner caps, provide additional design options.

KOROGARD H100 and H180 Handrails are backed by a limited five-year warranty. All Handrails are Class I/A fire rated and meet national building code standards. All **KOROGARD** linear profiles color-coordinate with a multitude of **KOROSEAL** and **VICRTEX** Wallcoverings for a systems approach to wall protection.
