

Seating Specification Guide

What's New?

Spec News is available on in2.steelcase.com. Go to *Specification Guides-AdStock*, under *Sales Resources/Sales Marketing Materials*, and download the current release's Spec News.

Availability

Electronic price list updated with release 174.E (U.S.) and 143.E (Canada), dated February 20, 2012.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a **T**. Products that are scheduled to be culled are indicated with an **X**, followed by the last order entry date.

► For a list of all trademarks, refer to the last page of this specification guide.

This specification guide contains multiple Steelcase and Turnstone product lines

which are designed into one specification guide for your convenience. Note that each product may be subject to different pricing terms and conditions.

For Canadian Pricing

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by 1.03.
- Round each to the nearest dollar.
- Add base and options for total list price.

Basics of Ergonomic Seating

Proper ergonomic seating can help workers perform more efficiently and avoid muscle and eye strain.

Neck is straight or slightly forward.

Shoulders are relaxed so arms hang naturally.

Back has full contact with the backrest (sit all the way back in your chair).

Elbows and forearms can rest comfortably on the arms of your chair, or on worksurfaces that are used for writing, paperwork, and other tasks.

Lower back fits into curved lumbar support.

Tension is adjusted so backrest tilts easily, yet provides smooth, even support.

If worksurfaces and keyboard support are not height-adjustable, raise your chair's seat height to achieve the appropriate relationship to your tasks. If this leaves your feet dangling above the floor, use a Details footrest.

Call Details, 1.800.833.0411, or your Steelcase dealer, for additional information or price list.

Top of monitor should be at eye level.

Screen is 20 to 30 inches from the eyes.

Screen is at eye level slightly lower and directly in front of worker so head is not turned.

Wrists should be straight when keying or mousing, not bent up or down.

Keyboard is at elbow height.

ANSI/BIFMA is the American National Standards Institute/Business and Institutional Furniture Manufacturer's Association. All Steelcase furniture meets or exceeds ANSI/BIFMA standards for structural quality. The following work chairs are tested and warranted for users 300 pounds and under: Leap, Siento, Criterion, Think, Amia, Drive, Jersey, and Protégé. Collaborative chairs tested and warranted for users 300 pounds and under are: cobii, i2i, and node. Multi-use chairs tested and warranted for users 300 pounds and under are: Move, Player, and Jersey. All Steelcase Seating products also follow the ergonomic guidelines established in BIFMA G1-2002.

Keep frequently viewed objects, such as a VDT or source document, at or below the horizontal line of sight. Arrange display screen and documents to be equidistant from your eyes.

CAUTION

Do not stand on this product. Use only as intended.

Regularly inspect for damaged or broken parts and loose fasteners (screws, etc.). If any of these conditions exist, remove from service immediately. Repairs are to be made using only factory authorized parts and methods. Hard wheel casters must be used on carpeted surfaces only. Use on hard surfaces, including floor mats, will affect chair stability. For information on furniture which requires service, call Steelcase toll free at 1.888.783.3522.

Failure to follow these instructions could result in property damage or personal injury.

Basics of Adjustability

Steelcase chairs offer varying levels of adjustability to meet the needs of many types of users. Adjustable chairs may offer one or more of these features:

Mechanisms

Natural-glide feature causes the seat to slide forward as the user reclines, keeping the user within his or her vision and reach zone (462, 464).

Advanced swivel-tilt feature incorporates a no front-rise design that allows the seat to remain level even when the user leans back (453, 433).

Synchro-tilt feature means the chair back and seat are synchronized to move in a 2:1 ratio. When the user leans back, the seat rises only half as much, allowing the user's feet to remain flat on the floor (499, 461, 466, 482, Jersey).

Weight-activated feature allows for an amount of recline resistance that is directly proportional to the user's weight. The natural-glide feature keeps the user within vision and reach zone (434, 465).

Balanced Action Rocker (BAR) mechanism allows users to recline as the seat flexes. BAR relies on physics to let any user, regardless of posture, height, or weight, find the most comfortable position (487).

Dual-swivel feature allows the back and seat to swivel independently as well as together (416).

360°-swivel feature allows micromovement to stay engaged at fixed height (480).

Seat Adjustments

Pneumatic height adjustment allows the user to remain seated while adjusting the seat height by way of a control button or lever (all work chairs).

Passive seat edge angle allows front edge of seat to drop down while seat angle remains unchanged (462, 499, 465, 482).

Seat angle adjustment allows the user to change the angle of the seat to a forward position (453, 461, Jersey).

Seat depth adjustment allows the user to slide the seat forward or back (462, 453, 461, 465, 466, 482, Jersey).

Back Adjustments

Lumbar height affords additional lower back support. Grasp lumbar handles and slide up or down to adjust (462, 453, 461, 465, 466, 482).

Lower back firmness changes the amount of firmness user feels in lower back (462, 464).

Upper back tension feature provides an increasing amount of force that increases as the user reclines (462, 464).

Back tension adjustment allows the user to control the amount of resistance felt when leaning back in the chair (all chairs except 462, 499, 465, 466, 487).

Your Preference back control includes four settings—weight-activated, boosted, mid-stop, and upright—that allow for personal preference and work styles (465).

Headrest adjustment allows the user to support head and neck in upright or reclined posture (464, 465).

Variable back stop allows the user to lock the back upright or to preset the range of recline (462, 453, 464).

Upright back lock allows the user to lock the backrest in a full upright position or release it for full recline (499, 461, 433, 466, 482, Jersey).

Multi-position back lock allows users to recline the back to the desired angle and lock it in place (466).

Arm pivot adjustments allows the user to position arm rests as appropriate for the task being performed (462, 453, 461, 465, 466, 482, Jersey).

Other Features

Foot ring height can be adjusted up or down for user comfort. Cannot be done from seated position (434, 462, 453, 465, 482, 487).

Back height adjustment allows the user to raise or lower the chair back (453, 466).

Arm depth adjustment allows users to get closer to their work by chair arms moving out of the way (462, 465, 466, 482).

Arm Adjustments

Arm height adjustment allows the user to move the arms up or down independently (462, 453, 461, 465, 466, 482, Jersey).

Arm width adjustment allows the user to move the arms in or out independently (462, 453, 461, 465, 482, Jersey).

Steelcase seating is supported with an array of informational materials, tools, and software to help you plan efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Steelcase Marketing Communications Web site at in2.steelcase.com.

Printed Materials

Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials and their categories
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Planning Tools

Quick Ship and Delivery Guide

This handbook describes all Steelcase, Turnstone, Details, and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), Express12 (12-day delivery), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Product Info

Electronic versions of this and many other specification guides in Acrobat PDF (Portable Document Format) allow you to scan, search, and print any page on virtually any computer. You can access these files at the Steelcase.com Web site or My Sales Online at in2.Steelcase.com.

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project-Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

More Information

For more information about these and other software tools to help you plan effective work environments, email fsi@steelcase.com.

Seating Product Training

Basic training for Steelcase seating products is available as part of the Building Product Muscle (BPM) curriculum on the Steelcase University Web site at in2.steelcase.com.

The course and accompanying tool, called "isit", provide an overview of the most popular Steelcase Inc. seating products, their positioning, statement of line, features and advantages, key competitors, pricing, application, spec tips, and photos. It also covers the basics of the consultative approach to selling seating and provides printable job aids for ongoing performance support.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance,

please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality or warranty concerns or service parts questions.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

Understanding and Specifying Leap 462 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for people who sit most of the day performing repetitive tasks. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, task-oriented comfort, and can be quickly adjusted to support you in upright, forward, and reclining work postures.

Leap 462 Series

Leap is a high performance chair for customers who place the highest value on ergonomics, health, and productivity.

Outer back and outer seat are plastic.

LiveBack moves with the shape of the user's spine as sitting positions change.

Lumbar height adjusts 5" to provide additional lower back support. It is standard on all chairs, but may be omitted.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range to accommodate users of varying leg lengths. Seat depth is standard on all models.

Five-arm base is available in plastic or polished aluminum.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel casters are available for use on hard floors or chair mats. Stools are standard with 2" hard casters. Soft casters are available as an option.

Arm depth can retract 3" to allow user to get closer to worksurface and into tight corners.

Arm width can adjust 4½" overall to provide forearm support.

Arm caps can pivot 30° in and out to accommodate individual user preferences.

Passive seat edge angle allows the front edge of the seat to flex 1½" to relieve pressure under the user's thighs.

Lower back firmness changes the amount of firmness user feels in lower back. Requires only two complete turns.

Upper back force requires only five complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the user reclines.

Variable back stop with five positions is standard.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 7" range is available as an option. Stools have an 8" range.

Product Details

Parallel slats in back shell provide extensive flexibility to allow back to conform to individual users.

Leap Plus offers the benefits and functionality of the standard Leap chair, including LiveBack Technology, to users weighing up to 500 pounds.

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

Adjustability instructions are included with every chair. Fully adjustable arm models include instructions under the arm cap. Instructions can also be found at steelcase.com

Controls under the seat include tactile braille designators.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 15½"H to 20½"H, and is standard on work chairs. A 7" range of adjustability (17"H to 24"H) is available as an option. Stools are standard with an 8" range of adjustability (22"H to 30"H).

Seat edge flexes 1½", relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

Seat depth adjusts 3" (15¾"-18¾") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools. Seat depth adjustment range for Leap Plus is 2" (16¾"-18¾").

Back Adjustments

Lumbar height adjusts 5" (5¼" to 10¼" from seat, 6½" to 11½" on Plus chairs) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools, but may be omitted.

Lower back firmness adjusts by turning knob two complete turns. Forward increases firmness. Backward decreases firmness. This feature is standard on work chairs and stools.

Upper back force adjusts by turning knob five complete turns. Turn knob forward to increase rate of tension; backward to decrease. This feature is standard on work chairs and stools.

Variable back stop. Rotate handle up or down to set recline angle. Lean back to desired back angle. Five stops are available. This feature is standard on work chairs and stools. *Tip: To stop in upright position, remove weight from back and rotate lever up.*

Headrest (option) adjusts 2¼" vertically and adds 6¾" to 9" to the overall height. Plastic shell on the headrest is available in black only. Upholstery is available to match the seat material or black vinyl only. Headrest is not available on stools, Plus models, or when the fire code option (FCS) is selected.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7"-11" from the seat, 7¼"-11¼" on Plus models). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" each independently on chairs with this option. Grasp arm and move in or out.

Arms pivot in and out 30° independently on models with adjustable-width arms. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Other Features

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Glides are available as an option, except on chairs with polished aluminum package. Glides ship with chair or stool for field installation and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock.

Soft-wheel casters for hard floors are available for specific applications.

Surface Materials

Arms

- Black only

Column and foot ring on stools

- 7207 Black only

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Fabric

Leather, Vinyl, and Select Fabrics

3D Knit Back

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Customer's Own Leather (COL)
- Vinyl
- Customer's Own Vinyl (COV)
- Select Customer's Own Material (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified with cogent connect fabric colors to match the 3D Knit color, or in any other material.

Plastic outer back is fully exposed.

Seat and back cushions can be removed and replaced if damaged.

Dimensions

Leap Plus 462 Series Work Chairs

3D Knit on Back with Upholstery on Seat

► Need help?
Product details,
page 18

Standard Includes

- Upper back force
- 4" pneumatic seat-height adjustment
- Variable back stop
- Lower back firmness
- Rectilinear independent height-, width-, pivot-, and depth-adjustable arms and soft arm caps, if selected:
- black plastic
- Frame, seat shell, outer back, and five-arm base: plastic
- 2" seat depth adjustment
- Adjustable lumbar
- 3D Knit on back only
- Standard upholstery design on seat: Fabric price group 1
- 2½"-diameter, hard-composition, dual-wheel casters: black

Required to Specify

- 1 Style number
 - 2 Plastic color for frame, seat shell, outer back, and base
 - 3 3D Knit color for back
 - 4 Fabric color number for upholstery on seat
 - 5 Options, if selected (see below)
- See *Surface Materials*, page 264.

*Tip: Select COMs require sewn application with an additional upcharge. Specify with an **S** suffix.*

Tip: Always add suffixes in alphabetical order when specifying options to Leap seating.

Tip: Fire Code Seating (FCS) option is available with certain upholstery fabric choices only.

Work Chairs

Highly adjustable task seating offers maximum personalization for people who sit most of the day performing repetitive tasks. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, task-oriented comfort, and can be quickly adjusted to support you in upright, forward, and reclining work postures.

Think 465 Series

Think is for performance based customers who are seeking a progressive aesthetic, intuitive ease of use, and the strongest environmental attributes.

Back frame and seat shell are plastic.

Arm caps can pivot independently 30° in and 30° out to accommodate individual user preferences.

Lumbar height adjusts over 4 1/4" to provide additional lower back support and is available as an option.

Your Preference back control provides four settings for the user's personal preference and work style.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 4" range is available as an option. Stools have a 10" range.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2 1/2" for increased mobility. Soft, dual-wheel roll-control casters are available as an option for use on hard floors or chair mats.

Arm width adjusts 4 1/2" overall to support forearms in neutral position.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Passive seat edge angle allows the front edge of the seat to flex 1 1/2" to relieve pressure under the user's thighs.

Seat depth adjusts within a 2" range to accommodate users of varying leg lengths.

Five-arm base is available in plastic or polished aluminum.

Product Details

Your Profile seat and back have flexors that dynamically and independently follow the movements of the user.

Weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Your Preference back control has four settings that allow for the user's personal preference and work style.

Chairs are available without arms, with fixed arms, or with height-, width-, pivot-, and depth-adjustable arms.

Cartoned request on your dealer purchase order force Think chairs to ship knocked down with the chair back separated from the base and mechanism. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Think stools.

Uncartoned request on your dealer purchase order force Think chairs to ship fully assembled.

Resources

Adjustability instructions are included with every chair.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16"H to 21"H. A 4" range of adjustability (15"H to 19"H) is available as an option. A 10" range of adjustability (22³/₄"H to 32³/₄"H) is available on stools.

Passive seat edge angle relieves pressure under the user's thighs. The combination of seat flexors with a passive front seat edge helps properly support the angle of the user's leg and thigh without compromising pelvic support. The front seat edge angle flexes 1¹/₂".

Seat depth adjusts 2" (15"-17") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

Back Adjustments

Lumbar height adjusts 4¹/₄" (6" to 10¹/₄" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Available as an option on work chairs and stools.

Weight-activated setting

Boosted setting

Mid-stop recline setting

Upright setting

Your Preference control has four settings: (1) weight-activated setting; (2) boosted setting that has approximately 20% more resistance than your body is providing; (3) mid-stop recline setting; and (4) an upright setting.

Headrest (option) adjusts 4" vertically and 2¹/₂" horizontally (front to back) to support the head and neck of the user in both upright and recline postures. Whether ordered initially or at a later date, the headrest ships in its own carton and must be field installed.

Arm Adjustments

Height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs. Fixed arms are an option. Also available armless.

Arm height adjusts independently within a range of 4" (7"-11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Arms pivot independently, 30° inward and outward.

Arm width can be adjusted 2¹/₄" each, 4¹/₂" overall. Grasp arm cap and move in or out.

Other Features

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Surface Materials

► See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Knit (back only)
- Elmosoft leather
- Leather
- Vinyl

Enclosed back

- Black
- Platinum

Hard components

Chair (frame, seat shell, base, and arm uprights)

- 6205 Black
- 6249 Platinum

Chair (headrest and arm pads)

- 6205 Black

Stool (frame, seat shell, base, and arm uprights)

- 6205 Black
- 6249 Platinum

Stool (headrest, pneumatic column, and footring)

- 6205 Black

Polished aluminum base is optional on select models.

Standard-upholstery uses foundation fabric (which is a default of the specified plastic color). It is partially visible on the sides of the seat and back cushions.

Sewn-upholstery models feature a stitch detail on the sides of the seat and back cushions, and across the lumbar region of the back cushion.

Standard Back

Enclosed Back

Enclosed back features a flexible nylon textile which conceals the flexors on the back. Enclosed back color defaults to match frame finish.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

► See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM)

Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

► See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Amia 482 Series

Amia is for customers that value Alive seating principles and want a good ergonomic chair at a value price point.

Outer back and outer seat are plastic. Fully upholstered outer back is available.

LiveLumbar system offers a dialed in spring force in the lumbar region that actively supports the lower back.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range. Seat depth is standard on all models.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel casters are available for use on hard floors or chair mats. Stools are standard with 2" hard casters. Soft casters are available as an option.

Arm depth can be adjusted approximately 3", enabling individuals to get closer to their work.

Arm width can adjust 4½" overall to provide forearm support.

Arm caps can pivot 30° in and out to accommodate individual user preferences.

Passive seat edge angle allows the front edge of the seat to flex 1½", relieving pressure behind the thighs.

Back tension accommodates a broader range of users by allowing user to change the rate of increase, or decrease, in force as the user reclines.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Stools have an 8" range.

Upright back lock allows the user to lock the back in a full upright position, or release it for full-tilt motion.

Product Details

LiveLumbar system allows the user to experience continuous back support with dialed in spring force that can be adjusted to match the users anatomy.

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

Adjustability instructions are included with every chair. Instructions can also be found at steelcase.com

Cartoned request on your dealer purchase order force Amia chairs to ship knocked down with the chair back separated from the base and mechanism. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Amia stools.

Uncartoned request on your dealer purchase order force Amia chairs to ship fully assembled.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H, and is standard on work chairs. A lower range of adjustability (15"H to 19"H) is available as an option. A higher range of adjustability (17"H to 24"H) is available as an option. An 8" range of adjustability (23"H to 31"H) is available on stools.

Seat edge flexes, relieving pressure under the user's thighs. The front flexes 1 1/2". This feature is standard on all work chairs and stools.

Seat depth adjusts 3" (15 1/2"-18 1/2") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools.

Back Adjustments

Lumbar height adjusts 3 3/4" (6 1/4" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools.

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on work chairs and stools.

Upright back lock. To release, lean forward and pull toward back. To lock, lean forward and push toward front.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7"-11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2 1/4" each independently on chairs with this option. Grasp arm and move in or out.

Arms pivot in and out 30° independently on models with adjustable-width arms. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Other Features

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Glides are available as an option. Glides ship with chair or stool for field installation and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft-wheel casters for hard floors are available for specific applications.

Surface Materials

- 7207 Black only

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back

Fabric

3D Knit Back

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified to match the 3D Knit color or in any other material.

Leather, Vinyl, and Select Fabrics

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Elmosoft leather
- Customer's Own Leather (COL)
- Vinyl
- Customer's Own Vinyl (COV)
- Select Customer's Own Material (COM)
- Select Fabrics

Pattern alignment at the lumbar seam cannot be guaranteed.

Plastic outer back is fully exposed. Fully upholstered outer back is available.

Seat and back cushions can be removed and replaced if damaged.

Dimensions

Reply 466 Series

Reply is a complete family of comfortable, budget-friendly chairs that are as nice to look at as they are to sit in. Reply can take on whatever your workday brings.

Back frame and seat shell are plastic.

Back height adjustment on upholstered chairs allows you to raise or lower chair back from a seated position to support your lower back.

Five-arm base is plastic, a polished aluminum base is available as an option.

Lumbar height adjusts 4" to provide additional lower back support and is available as an option on mesh back chairs only.

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Arm height can adjust independently within a 3³/₄" range to help relieve upper back and shoulder fatigue.

Arm caps can pivot independently 18° in and 4° out to accommodate individual user preferences.

Multi-position back lock allows user to lock the backrest in multiple positions.

Seat depth adjusts within a 1¹/₂" range to accommodate users of varying leg lengths.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2¹/₂" for increased mobility. Soft, dual-wheel casters are available as an option for use on hard floors or chair mats.

Dual-wheel with roll-control casters may be used on soft and hard flooring surfaces.

Back handle on mesh back chairs provides a convenient handhold to easily move the chair.

Arms, when specified, have a textured plastic arm cap.

Plastic glides are standard. Optional soft glides are available.

Product Details

Synchro-tilt mechanism with a natural fluid motion on work chairs keeps users oriented to their work.

Fixed-height multi-use chairs are available with or without arms.

Cartoned shipment of Reply work chairs is standard. Reply work chairs ship knocked down in a single carton consisting of four components: back, seat and mechanism, base, and pneumatic. This allows for shipment in a smaller carton. Leg-base multi-use chairs ship two to a carton, when applicable. Assembly by a qualified dealer installer is required for work chairs. Assembly instructions are included. No additional tools are required for assembly.

Stacking density for leg-base multi-use chairs is six on the floor. Arms and casters do not impact the ability to stack.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H.

Seat depth adjusts 1 1/2" by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. Seat depth is a standard feature on work chairs.

Back Adjustments

Lumbar height adjusts 4" (6" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Available as an option on mesh work chairs only.

Variable back lock (4 positions)

Multiple position back lock allows users to recline the back to the desired angle and lock it in place. To lock, recline to desired angle and push back lock handle down. To release, lean forward, lift the handle and apply pressure to the back to disengage the lock.

Back height adjusts 2 1/2" (23"-25 1/2") by pressing and holding the control button on the right side of the back, and sliding the back support up or down. Release the control button to lock. This feature is standard on work chairs with upholstered (non-mesh) backs only.

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on all work chairs.

Arm Adjustments

Height-, pivot-, and depth-adjustable arms are available as an option on Reply task chairs.

Arm height adjusts independently within a range of 3 3/4" (7 1/2"-11 1/4" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Height-only adjustable arm is also available and adjusts 3 3/4".

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Arms pivot 18° inward and 4° outward on models with adjustable pivot arms. Grasp arm and push front to left or right.

Other Features

Soft-wheel casters for hard floors on work chairs are available for specific applications.

Dual-wheel roll-control casters for use on soft and hard flooring surfaces come standard on leg-base multi-use chairs when specified with casters.

Hard glides come standard on multi-use chairs when specified with glides. Soft glides are available as an option.

Surface Materials

► See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Mesh (back only)
- Leather
- Elmosoft leather
- Vinyl

Hard components

Chair with swivel-base (frame, outer back, arm cap assembly, and mechanism)

- 6205 Black

Chair with swivel-base (arm tube and base)

- 6205 Black
- 6249 Platinum
- Polished aluminum (base only)

Chair with multi-use leg-base (outer back, and arm caps)

- 6205 Black

Chair with leg-base or sled-base (metal frame)

- 4799 Platinum
- 7207 Black

Casters

- 6205 Black

Glides

Chair with multi-use leg-base

- 6205 Black

Sewn-upholstery models feature a stitch detail on the sides of the seat and back cushions. Task chairs have an additional stitch across the lumbar region of the back cushion.

Swivel-Base Models

Mesh back on swivel-base models are available with a height-adjustable lumbar option to enhance back support.

Upholstered back on swivel-base models feature a back-height adjustment that allows you to raise or lower the chair back from a seated position to support your lower back.

Leg-Base and Sled-Base Models

Mesh back frame with handle on leg-base models provides a convenient handhold to easily move the chair.

Upholstered back rest on leg-base models features a plastic outer shell.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

► See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM)

Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Steelcase fire code seating (FCS) is not available on Reply seating.

Local codes may have special requirements for upholstery.

Jersey Series

Jersey features a double mesh back in a unique ergonomic “S” shape to conform to each user for comfort and support.

Product Details

Jersey work chairs are available armless, with fixed arms, with height and maintenance width-adjustable arms, and with height-, width-, and pivot-adjustable arms.

Multi-use chairs are available with or without arms and with or without casters.

Arm cap styles depend on the arm adjustment selected.

Arm cap on height-, width-, and pivot-adjustable arms.

Arm cap on fixed and height and maintenance-width-adjustable arms.

Stackability for the Jersey guest chair is four high on the floor. Models with arms are 24 $\frac{1}{4}$ "W x 28 $\frac{1}{2}$ "D x 42 $\frac{1}{2}$ "H. Models without arms are 20 $\frac{5}{8}$ "W x 28 $\frac{1}{2}$ "D x 42 $\frac{1}{2}$ "H. If stacking dimensions are intended for an enclosure, add 2" to the width and depth, and 1" to the height for clearance.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically.

To raise chair, lift body weight up, and pull lever up. To lower chair, remain seated and pull lever up.

Seat angle adjustment.

Pull lever back and hold, shift seat to desired angle, and release lever to lock.

Seat depth adjustment.

Pull lever forward and hold, shift seat forward or back, and release lever to lock.

Back Adjustments

Back tension adjustment.

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

Upright back lock.

To release, lean forward and pull toward back. To lock, lean forward and push toward front.

Arm Adjustments

Arm height.

Pull trigger up and hold, pull arm up or push down, and release trigger to lock.

Arm width on rounded telescoping height, width, and pivot arm.

Grasp arm caps and move in or out. Arm will stay where positioned.

Arms pivot independently.

Grasp arm and push from front to left or right.

Maintenance arm width adjustment.

Loosen and remove screws, slide arm bracket in. Replace and tighten screws.

Surface Materials

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

Leap 464 Series WorkLounge

WorkLounge—a chair designed especially for people who like to work in a deep, reclined posture.

Headrest and flip-up pillow provide neck and head support.

LiveBack moves with the shape of the user's spine as sitting positions change.

Fixed arms have extra padding to provide forearm support and comfort.

Outer back is fully upholstered.

Ribbon back frame is standard.

Lower back firmness changes the amount of firmness user feels in lower back. Requires only two complete turns.

Lumbar pillow provides extra comfort and support to the lumbar region.

Extra thick seat cushion provides extra comfort.

Upper back force requires only five complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the user reclines.

Five-arm base is standard with glides. 3" hard or soft casters are available as options.

Variable back stop with five positions is standard.

Polished aluminum is standard on ribbon back frame, arm supports, base, and casters.

Seat height adjusts within a 3" range with a pneumatic adjustment mechanism.

Ottoman quickly and easily converts from a footrest to an auxiliary work or laptop table.

Footrest is cushioned and upholstered. Footrest surface is 15"H from the floor.

Polished aluminum is standard on post and four-arm base.

Work table, with top up, is 25"H from the floor.

Four-arm base is standard with two glides and two hard, dual-wheel casters.

Product Details

Adjustability instructions are included with every chair and ottoman.

Controls under the seat include tactile braille designators.

Ottoman easily converts between two positions. With the top up, it is a work or lap-top table; with the top down it is a footrest. Locking pivot mechanism holds each position in place.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. This feature is standard. Range of adjustability is 3" from 15"H–18"H with standard glides and 17"H–20"H with optional casters.

Back Adjustments

Lower back firmness adjusts by turning knob two complete turns. Forward increases firmness. Backward decreases firmness. This feature is standard.

Upper back force adjusts by turning knob five complete turns. Turn knob forward to increase rate of tension; backward to decrease. This feature is standard.

Variable back stop.

Rotate handle up or down to set recline angle. Lean back to desired back angle. Five stops are available. This feature is standard.

Tip: To stop in upright position, remove weight from back and rotate lever up.

Other Features

Flip-up pillow can be positioned for use on headrest or placed over the backside of headrest when not in use. This feature is standard.

Lumbar pillow is positioned to provide comfort and support to the lumbar region.

Glides are standard.

Casters are optional. 3" polished aluminum hard- or soft-wheel casters are available.

Surface Materials

▶ See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Bo Peep fabric
- Elmorustical Leather
- Elmosoft Leather

Hard components

- (Seat shell and glides)
- 6205 Black

Polished aluminum

is standard on chair and ottoman. Polished aluminum is applied to ribbon back frame, arm supports, base, and casters of chair. Ottoman has polished aluminum on post and base.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL)

Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. Back Adjustments

Back tension ●

Upright back lock ●

Siento

Siento desk chairs, designed in collaboration with Jorge Pensi, merge remarkable ergonomic comfort in a slim and sophisticated executive form.

Outer back is fully upholstered.

Patented LiveBack Technology (found in Steelcase Leap chair) is embedded in the back to change shape and mimic the user's spine.

Arms are available as either T-arms or enclosed.

Five-arm base is available in polished aluminum, platinum, or black.

Headrest option provides additional head and neck support.

Seat height adjusts from 16" to 21" and is standard with pneumatic adjustment mechanism. Fixed-height option is also available.

Front seat edge flexes naturally to relieve pressure under the user's thighs.

3" hard dual-wheel casters are standard for use on carpet. Soft dual-wheel casters are available for use on hard floors or chair mats.

Product Details

High-back and mid-back desk chairs are available.

Arms are available as T-arms or enclosed. Fixed T-arms are available in urethane or fully upholstered. Adjustable T-arms are available in urethane only. Enclosed arms are always fully upholstered.

Adjustment Features

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16"H to 21"H.

Seat edge flexes, relieving pressure under the user's thighs.

Actual Dimensions

	High-Back Desk Chairs with Headrest	High-Back Desk Chairs without Headrest	Mid-Back Desk Chairs
Overall depth	26"	26"	26"
Overall width—outside of T-arms	27½"	27½"	27½"
Overall width—outside of enclosed arms	29½"	29½"	29½"
Overall height	46¾"–51¾"	46"–51"	40"–45"
Seat depth	17½"	17½"	17½"
Seat width	21"	21"	21"
Back height from seat	31½"	30"	24"
Width between arms	20½"	20½"	20½"
Arm height from seat	8"	8"	8"

Adjustability Features

- Pneumatic seat-height
- Upright back lock
- Back tension control
- Synchro-tilt mechanism

Upright back lock. Flick switch forward to lock; flick switch back to tilt.

Back tension control adjusts by turning knob. Turn knob forward to increase rate of tension, backward to decrease.

Synchro-tilt mechanism provides synchronized back movement while feet remain flat on the floor.

Height-, width-, pivot-, and depth-adjustable arms are available on select models of chairs.

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Arms pivot independently, 30° inward and outward.

Arm width can be adjusted 2 1/4" each, 4 1/2" overall. Grasp arm cap and move in or out.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM and COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM and COL fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM and COL fabrics and details regarding yardage requirements for most seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Fire code approval:

Siento executive desk models are available in the following fabrics only:
Bo Peep
Elmosoft Leather
Hampstead
Leather

Local codes may have special requirements for upholstery.

Siento Executive Desk Chairs

Tip: When a black or platinum painted base is specified, the casters will be black. When a polished aluminum base is specified, the casters will have black wheels with polished aluminum body.

Tip: Always add suffixes in alphabetical order when specifying options to Siento seating.

Tip: When the standard polished aluminum base is specified along with adjustable T-arms, you must specify the finish for arm uprights in either 6205 Black or 6249 Platinum.

Tip: When base and adjustable T-arms are specified in 4799 Platinum, the arm upright will be in 4799 Platinum and the lower section of the arm will be in 6205 Black.

Tip: Fully upholstered option is available on fixed T-arm style numbers only.

Work Chairs

Cachet offers basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height and a unique Balanced-Action Rocker (BAR) mechanism that allows users to recline easily without a manual adjustment. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

Cachet 487 Series

Cachet chairs are lightweight, extremely comfortable, multipurpose chairs with a unique Balanced-Action Rocker (BAR) mechanism that allows the chair to recline in response to the user's weight.

Flexible, contoured back and seat have parallel slats that conform to individual users.

Nylon injection-molded tubular frame provides strength with minimal weight.

Flip-up arms easily lift to move out of the way or to allow for stacking.

Balanced-action rocker (BAR) mechanism allows every user to fully recline.

Five-arm base is standard.

Seat height adjusts within a 5" range (15½"H to 20½"H) with a pneumatic-adjustment mechanism.

Hard, dual-wheel casters are standard for use on carpets. Soft, dual-wheel roll-control casters are available for use on hard floors or chair mats.

Product Details

Chair bases are available in three styles—fixed-height four leg, adjustable-height swivel, and adjustable-height stool.

Balanced-action rocker (BAR) mechanism allows the user to recline for optimum comfort.

Upholstered cushions are available for use on chair back and seat. Cushions can be specified for factory installation or ordered separately for field installation. When specified with the chair, cushions are available for seat and back, or seat only. When ordered separately, cushions are available for seat and back, seat only, or back only. The cushions attach to the slats of back and seat.

Tip: You must specify plastic outer back color to match chair.

Soft dual-wheel roll-control casters are available as an option for use on hard floors or chair mats. Roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Hard plastic glides are standard on leg-base chairs.

Soft glides are available as an option for use on non-carpeted surfaces. The soft glide is reversible—soft on one side, hard on the other.

Leg-base chairs stack five high on the floor and 20 high on the dolly. Upholstery does not impact stacking capacity.

Leg-base chairs are available with or without flip-up arms. Chairs with or without arms can be stacked.

Other Features

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 2" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Transport and storage dolly is available to stack, move, and store up to 20 leg-base chairs. Upholstery does not impact stacking capacity. Swivel-base chairs will not stack.

Unloaded transport dolly measures 48"D x 23"W x 38¾"H.

Fully loaded transport dolly measures 51"D x 23"W x 78¾"H.

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 2".

Tip: You must specify plastic color of ganging and alignment device to match chairs.

Cachet is recommended for indoor use only.

Surface Materials

▶ See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Hard components

(frame, flip-up arms, back, seat, and base)

Multi-Use Chairs	146
Sled-Base Multi-Use Chairs	148

Work Chairs

Adjustable work chairs offer basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height, back tension, and upright back lock. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

- Protégé 433 Series
- Cachet 487 Series

Adjustability Features

▶ See page 12 for a comparison to other chairs

--------------	---

Protégé 433 Series

Protégé is an economic, general-use solution with basic ergonomic features. Protégé is stylish, comfortable, and well suited for a wide range of tasks, including moderate computer use.

Outer back is plastic. Fully upholstered outer back is an option.

Five-arm base is standard.

Arms are standard with soft arm caps.

Seat height adjusts with a 5" range from 15"H to 20"H with a pneumatic adjustment mechanism.

Hard, dual-wheel casters are standard for use on carpets. Soft, dual-wheel casters are available for use on hard floors or chair mats.

Product Details

Work and multi-use chairs are available with or without arms.

Multi-use chair bases are available in two styles: advanced swivel-tilt and sled base.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair.

Back Adjustments

Back tension adjusts by turning knob. Turn knob clockwise to increase tension, counterclockwise to decrease.

Upright back lock.
Flick switch forward to lock; flick switch back to tilt.

Surface Materials

▶ See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Vinyl

Base and Arms

- 6205 Black
- 6250 Coffee
- 6249 Platinum

Arm Caps and Outer Back Shell

- 6205 Black
- 6250 Coffee

Casters

- 6205 Black

Tip: Chairs with a platinum finish will feature a platinum base and arms, and a black outer shell, casters, and arm caps (if specified).

Glides

- Plastic on sled base models

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Understanding and Specifying Criterion 453 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for people who sit most of the day performing repetitive tasks. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, task-oriented comfort, and can be quickly adjusted to support you in upright, forward, and reclining work postures.

Criterion 453 Series

Criterion is a high-performance chair, ideal for users who sit for long periods of time. As one of the world's best-selling chairs with a broad range of adjustments, Criterion meets the long-term comfort needs of today's diverse workforce.

Outer back and outer seat is plastic. Fully upholstered outer back is an option.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range and is available as an option.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Five-arm base is standard.

Arm width adjusts within a 4" range for each arm to provide forearm support in neutral position for 5th to 95th percentile office workers.

Arm caps can pivot independently 14° in and 21° out to accommodate individual user preferences.

Back height adjusts up and down within a 2" range to help ensure healthful back posture.

Variable back stop is standard.

Seat angle adjusts forward, upright, and reclined to suit user. Seat angle is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floors or chair mats.

Product Details

Three basic sizes are available—high-back, mid-back, and Plus. All are offered with and without arms. High-back and mid-back are also available as stools.

Criterion features a seat angle adjustment which allows the seat angle to function in a fixed or articulating mode. Variable back stop will lock the back in an upright position or allow the user to set a specific back stop position which the chair will recline to.

Criterion Plus has an upright back lock and offers a wider seat with more space between the arms to accommodate workers who need a larger chair. The Criterion Plus chair is tested to hold up to 500 lbs. under normal use.

Upholstery Details

Criterion is standard with a molded upholstered seat and back.

Sewn upholstery can be specified to accommodate vinyl and other high performance fabrics. Seat and back cushions feature a stitched detail. Specify using an **S** suffix.

Non-Sewn Seat upholstery can be specified to accommodate vinyl and other high performance fabrics without a seam on the seat. Back cushion will have stitched detail. Specify using an **X** suffix. This option is available on models with adjustable seat depth only.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5" from 16"H to 21"H.

Seat angle adjusts by pulling handle up and shifting your weight to alter seat angle. Release handle to lock. This feature is standard.

Seat depth adjusts by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is optional. For Criterion Plus, seat depth is a maintenance adjustment. The chair has three depth settings: 15", 16⁵/₈", and 18¹/₄". The chair will ship in the 18¹/₄" position.

Back Adjustments

Back tension adjusts by turning knob. Turn knob clockwise to increase tension, counterclockwise to decrease. This feature is standard.

Variable back stop. Hold switch forward to recline. Lean back to desired back angle. Release switch to set tilt range. *Tip: To lock in upright position, remove weight from back and release switch.*

Back height adjusts within a 2" range by pulling handle forward while moving chair back up or down. Release handle to lock chair back in position. This feature is standard.

Arm Adjustments

Arms are available fixed, height-adjustable, height- and width-adjustable, and height-, width-, and pivot-adjustable.

Arm height adjusts independently within a range of 4" on all adjustable arm models. Squeeze triggers in while moving arms up or down. Releasing triggers locks arms in position.

Arm width adjusts independently on chairs with the height- and width-adjustable option. Grasp arm and move in or out. Arm will stay where positioned.

Arms pivot independently on models with height-, width-, and pivot-adjustable arms. Grasp arm and push front to left or right. Pivot adjustment width range is 10³/₄" to 18¹/₄".

Other Features

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock.

Alternative casters and glides are available for specific applications, including soft-wheel casters for hard floors.

Glides are 2"H and interchangeable with casters.

Surface Materials

▶ See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Vinyl

Hard components

(base, arms, plastic arm caps, outer back, outer seat, and foot ring)
 • Monochromatic color from list of seating plastic color numbers will apply to all hard components.

Outer back and outer seat

- Plastic color to match color of other "hard components"
- Fully upholstered outer back with plastic color outer seat

Arms

- Soft vinyl arm caps to match the plastic color of the other "hard components"

Foot ring on stools

- Plastic color to match other "hard components"
- 9201 Polished Chrome

Glides

- Stainless steel only

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM)

Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Work Chairs	174
-------------	-----

Work Chairs

Highly adjustable task seating offers maximum personalization for people who sit most of the day performing repetitive tasks. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, task-oriented comfort, and can be quickly adjusted to support you in upright, forward, and reclining work postures.

Drive 461 Series

Drive is high-performance seating for value-driven customers. Intuitive controls, high-comfort ratings, a versatile statement of line, and a wide range of adjustments make it a great solution for anywhere in the office.

Outer back and outer seat is plastic.

Lumbar adjusts up and down within a 4" range to help ensure healthful back posture.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Face plate is plastic and will match base color.

Upright back lock allows user to lock the back in a full upright position or release it for full-tilt motion.

Arm width adjusts within a 3" range for each arm to provide forearm support in neutral position for 5th to 95th percentile users.

Arm caps can pivot independently to accommodate user preferences.

Seat depth adjusts within a 3" range and is an option on all models. Adjustment paddle is located on left side of chair.

Seat angle adjusts forward, upright, and reclined to suit user.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Five-arm base is steel with plastic cap.

Casters have hard, dual-wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floors or chair mats.

Product Details

Full-back height is available with and without arms.

Drive offers multiple arm options.

Height- and width-adjustable T-arms

- Height- and width-adjustable T-arms are standard on all chairs with arms.

Independent height-, width-, and pivot-adjustable arms

- Telescoping arms with height, width, and pivot adjustability are an option.

Height-adjustable T-arms

- Height-adjustable T-arms are an option.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically.

To raise, lift your weight off the seat and pull lever up. To lower chair, remain seated and pull lever up.

Seat angle adjusts

by pulling paddle and shifting your weight to alter seat angle. Release paddle to lock.

Seat depth adjustment.

Lift paddle under left side of seat. Slide seat forward or backward. Release paddle.

Back Adjustments

Lumbar adjustment.

Lean forward to slide handle up or down with both hands to desired position.

Back tension adjustment.

Turn knob forward to increase tension, backwards to decrease.

Upright back lock.

To release, lean forward and pull toward back. To lock, lean forward and push toward front.

Arm Adjustments

Arm height.

Lift trigger, raise or lower to desired height.

Arm width on standard T-arm.

Grasp arm caps, flip them over.

Arm width on rounded telescoping height, width, and pivot arm.

Grasp arm caps and move in or out. Arm will stay where positioned.

Arms pivot independently.

Grasp arm and push from front to left or right.

Surface Materials

▶ See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Vinyl

Hard components

(base, arms, plastic arm caps, outer back, outer seat, and face plate)

- Monochromatic color from list of seating plastic color numbers will apply to all hard components.

Outer back and outer seat

- Plastic color to match color of other "hard components"

Arms

- Plastic color arm caps to match the plastic color of the other "hard components"

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select “Soil-Retardant Treatment” under “Optional Accessories.” Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

cobi 434 Series

Mechanisms

Weight-activated ●

Seat Adjustments

Pneumatic height ●

Back Adjustments

Self adjusting ●

cobi 434 Series

cobi is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.

Flexing fingers in back offer support while moving and conforming to the user.

Weight-activated mechanism provides support by automatically responding to the users movements.

Five-arm base is standard.

Flexible top edge allows for multiple postures while maintaining support and comfort.

Flexible seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Arms are constructed of a soft durable rubber compound.

Seat height adjusts with a 5" range from 15½"H to 20½"H with a pneumatic adjustment mechanism.

Hard, dual-wheel casters are standard for use on carpets. Soft, roll-control, dual-wheel casters are available for use on hard floors or chair mats.

Product Details

Chairs and stools are available with or without arms.

Weight-activated mechanism provides individual support without a tension control by intuitively sensing and supporting the users center of gravity.

cobi ships standard assembled and uncartoned. A cartoned version is available which ships unassembled with the chair seat, back, and cylinder separated from the base and mechanism. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included.

Adjustment Features

Seat Adjustments

Seat height adjusts

pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Foot ring height on stools

adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Flexing fingers in back

promote movement and provide support for a wide range of postures.

Soft roll-control caster option

features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Flexing seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Surface Materials

▶ See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery

Foot ring on stools

- 6205 Black
- 6249 Platinum

Tip: Foot ring on stool will coordinate to match outer back color.

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

----------------	---

i2i 416 Series

i2i is collaborative seating that helps people move freely, change postures, and stay energized and comfortable.

Upholstery specified is applied to seat and arms.

Flexing fingers form the back and offer support while moving and conforming to your body.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

Four-arm base is standard in polished aluminum.

Glides are standard with the static base.

Product Details

Chairs are available with or without tablet arm.

Flexing fingers in the back promote movement and provide support in a variety of postures.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

Tablet arm attaches on the right side of the chair with a dual pivot function providing a range of motion that allows the tablet area to accommodate both left and right handed users. It provides a worksurface 12 $\frac{1}{4}$ "D x 18"W.

Adjustment Features

Swivel-return cylinder option has a built in memory and will return to the fixed position when the user leaves the chair.

Mobile base includes two rollers on the front arms of the base that allow the chair to be moved easily.

Surface Materials

- ▶ See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery

- 3D Knit (back only)

Seat and Arm Upholstery

- Cogent: Connect (seat and arm only)

- node 480 Series

Adjustability Features

▶ See page 12 for a comparison to other chairs

node 480 Series

Mechanisms

360°-swivel

node 480 Series

node is collaborative seating for classrooms and other learning environments that supports multiple learning modes, freedom to change postures, and storage and use of student belongings.

One piece polypropylene contoured shell is designed for easy maintenance.

Flexible and contoured seat shell supports comfort by allowing many postures.

Casters have hard, dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.

Personal worksurface moves independently of seat shell and base.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.

Five-arm base is standard.

Arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

360°-swivel mechanism is standard.

Backpack storage area is standard.

Seat height adjusts with a 6" range from 15⁷/₈"H to 21⁷/₈"H with a pneumatic adjustment mechanism.

Hard, dual wheel casters are standard for use on carpets. Soft, roll-control dual-wheel casters are available for use on hard floors or chair mats.

Product Details

Chairs and stools are available. Chairs are available with a tripod base, tripod base with personal worksurface, or five-arm base with pneumatic adjustment. Stools are available with five-arm base only.

Flexing seat shell and arms promotes movement and supports multiple postures. Integrated arms support user's arms, side posture, and act as a backpack hook.

Tripod base reclaims the space under the seat. The space is 1.7 cu/ft. and allows for backpacks or personal belongings to be stored, and serves as a footrest.

Personal workspace is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22¹/₄"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge.

node ships standard unassembled and cartoned with the seat shell separated from the base. This allows for shipment in a smaller carton. Five-arm base chairs and stools ship two to a carton. Assembly by a qualified Steelcase dealer installer is required. Assembly instructions are available at www.steelcase.com. No tools required for assembly.

Adjustment Features

360° fixed height swivel mechanism on tripod base models

allows students to remain oriented to instructor, presentation materials, and other students.

360° adjustable height swivel mechanism is standard on five-arm base models.

Personal workspace depth adjustment range is 7¹/₄" to 15". Measurement is from lumbar to workspace.

Personal workspace pivot range is 60°.

Personal workspace center pivot is 110°. The center pivot range is measured from the closest position to the furthest position from the user.

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair. Range of adjustability is 5¹/₂" from 15¹/₂"H to 21"H. An 8" range of adjustability is available on stools.

Glides are available as an option. Glides ship assembled on the chair or stool and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft, dual-wheel roll-control casters for hard floors are available on five-arm base chairs and stools only.

Cup holder is available as an option on node chairs with personal workspaces. It is retractable under the workspace when not in use.

Fire Code Seating (FCS) option is available. ▶ See *Surface Materials*, page 264.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Dimensions

▶ Page 198

The backpack storage area and overall chair width require 23³/₄" of continuous floor space when used with tables. The minimum distance between table bases is 49" to allow two chairs to be pushed under the workspace. This does not apply to five-arm base models.

Sled-Base Multi-Use Chairs	208
----------------------------	-----

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Ally 463 Series
- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Ally 463 Series Sled-Base Multi-Use Chair

Ally is a multi-use chair with a flexing frame and pivoting back. The chair stacks and offers exceptional comfort for use in side/guest and team applications.

Arms slope downward and will easily clear the front edge of a worksurface or table. The arms are urethane covered.

Steel frame flexes to give added comfort and is available in monochromatic colors.

Plastic glides with a stainless steel insert are standard.

Back pivots for added comfort. Outer back is available in plastic or fully upholstered.

Product Details

Chairs with arms stack three high. Chairs without arms stack four high.

Plastic glides with stainless steel inserts are recommended for carpeted surfaces only.

Soft glides are available for non-carpeted surfaces.

Surface Materials

► See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Vinyl

Frame

- 6205 Black
 - 6296 Sterling
- Outer back, arms, and glides will be Black if you select a Black or Sterling frame.

Glides

- Stainless steel

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Ally 463 Series
- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Player 475 Series

Player chairs are guest chairs that also stack. Strength features in the back, arms, and back legs make Player a logical choice for high-traffic areas, and its simple, classic design complements a broad range of work settings.

Back and seat, including outer back, are fully upholstered. High-back and thick-seat options are available.

Arms slope downward and will easily clear the front edge of a worksurface or table. Arms are available in smooth or textured finish.

Steel frame is monochromatic.

Plastic glides with a stainless steel insert are standard.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters available in black only.

Product Details

Chair models are available with a leg-base or a sled-base. Stools are available with a leg-base. The leg base arms are available with casters. Chairs and stools are available with several features such as arms, tablet arms, high back, and thick seat.

Stackability for leg-base models is six high on the floor and eight high on the transport and storage dolly. Leg-base models with casters are not recommended to stack as damage to arms may occur. Sled-base models, stools, and chairs with tablet arms will not stack.

High-back option, available on all Player chairs and stools, adds 2½" to back height. Top edge is slightly rounded. Stackability is not affected.

Thick-seat option, available on all Player chairs and stools, increases the thickness of the seat cushion by approximately 1/2". Stackability is not affected.

Tablet arm is available right hand and left hand and is shipped knocked down (K.D.). Tablet arm tilts for easy entrance and exit from chair. Tablet arm measures 25 1/2" x 13 1/2". Tablet arm is not available to order separately for installation on existing chairs.

Plastic glides, with stainless steel inserts on leg-base Player chairs, are recommended for carpeted surfaces only.

Soft glides are available on Player chairs for non-carpeted surfaces.

Alignment device is available to temporarily link chairs together for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 5/8".

Ganging device is available to link chairs on a more permanent basis. It attaches to the chair's side frame. Spacing between chairs linked with the ganging device is approximately 9".

Transport and storage dolly is available to stack, move, and store up to eight chairs with or without arms. Without the dolly, chairs will stack up to six high. Sled-base models, stools, and chairs with tablet arms will not stack.

Fully loaded transport dolly measures 32 3/4"D x 25 1/2"W x 55 3/4"H.

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Ally 463 Series
- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Move 490 Series

Move chairs are guest chairs that also stack. Live dynamic seat, open cantilever arm design, light weight, and strength make Move a logical choice for multipurpose areas. Move's simple design complements a broad range of work settings.

Arms are cantilevered and will easily clear the front edge of a worksurface or table. The open cantilever design of the arms allows alternative postures and sitting positions.

Steel frame is monochromatic.

Upholstered back is available on selected styles.

Seat and back are available in plastic or with an upholstered cushion.

Plastic glides have a stainless steel insert.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters are available in black only.

Product Details

Chairs and stools have a leg-base and are available with glides or casters, and with or without arms.

Stackability for leg base chair models is five high on the floor. Stools do not stack.

Plastic glides with stainless steel inserts are recommended for carpeted surfaces.

Soft glides for use on non-carpeted surfaces are available as an option.

Transport and storage dolly is available to stack, move, and store up to 10 chairs.

Unloaded transport dolly measures 58½"D x 25½"W x 37½"H.

Fully loaded transport dolly measures 58½"D x 25½"W x 58½"H.

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 4" for chairs with no arms and 7" for chairs with arms.

Wall saver bumper is available to protect the back of the chair from bumping into and marring a wall.

Surface Materials

▶ See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM)

Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Understanding and Specifying Snodgrass 474 Series Multi-Use Chairs

Understanding Snodgrass 474 Series

Snodgrass 474 Series	238
Dimensions	240

Specifying Snodgrass 474 Series

Multi-Use Chairs	242
------------------	-----

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Ally 463 Series
- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Snodgrass 474 Series

Snodgrass, designed by Warren Snodgrass, offers guest and occasional seating of classic simplicity. With a choice of metal or wood frames, Snodgrass has enduring design that is always in style.

Frame is available in monochromatic colors or wood veneer.

Glides are clear plastic.

Product Details

One back shape is available, open back.

Open arms are available on monochromatic and wood models. Armless chairs are available monochromatic only.

Surface Materials

▶ See surface materials on page 264 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil retardant treatment (option)
- Leather
- Elmosoft leather
- Vinyl

Frame

- Monochromatic color from list of seating plastic color numbers can be applied to the frame.
- Wood
Tip: Frames are constructed of solid maple. Finishes applied to maple will match the color of stains applied to oak, walnut, or cherry, but will not show the same natural grain.

Glides

- Clear plastic

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See pages 270–271 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishing Technical Bulletin 133 (Cal TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Understanding and Specifying Max-Stacker 472 Series Stackable Chairs

Product Details

Max-Stacker 472 Series	244
Dimensions	246

Specifying

Stackable Chairs	248
Accessories	250

Stackable Chairs

Stackable chairs offer flexibility and ease of use in classrooms, auditoriums, or wherever extra seating is required.

- Max-Stacker 472 Series
- Max-Stacker II 473 Series
- Player 475 Series Leg-Base Chairs
- Ally 463 Series

Max-Stacker 472 Series

Max-Stacker provides stackable seating for high-traffic applications. Its clean lines and durable steel rod frame have made the Max-Stacker a universally popular stacker selection.

Tablet arms and bookracks are available factory or field installed.

Plastic glides are standard. Soft glides, optional, are recommended for use on non-carpeted floors.

Back and seat are available in flexible, contoured plastic.

Two-piece wire-rod frame is 7/16" diameter carbon steel for strength and durability.

Product Details

Four models are available—chairs without arms, chairs with bookracks, chairs with tablet arms, and chairs with a combination of bookrack and tablet arm.

Tablet arms provide a writing surface that is 12½"D x 11⅜"W. They are available in left- or right-hand models.

Clearance between tablet arm and seat is 7¼"H. Tablet arm tilts for easy entrance and exit from chair.

Bookrack is available factory or field installed for convenient storage of notebooks and purses.

Transport and storage dolly is available to stack, move, and store up to 45 chairs. Chairs with bookracks and tablet arms cannot be stacked.

Unloaded transport dolly measures 55"D x 22"W x 37½"H.

Fully loaded transport dolly measures 57"D x 22"W x 68½"H.

Without transport dolly stack can be up to 12 chairs high.

Alignment device is available to temporarily link chairs without tablet arms together in the field for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 2¼".

Understanding and Specifying Max-Stacker II 473 Series Stackable Chairs

Product Details

Max-Stacker II 473 Series	254
Dimensions	256

Specifying

Stackable Chairs	258
Accessories	260

Stackable Chairs

Stackable chairs offer flexibility and ease of use in classrooms, auditoriums, or wherever extra seating is required.

- Max-Stacker 472 Series
- Max-Stacker II 473 Series
- Player 475 Series Leg-Base Chairs
- Ally 463 Series

Max-Stacker II 473 Series

Max-Stacker II offers different visuals with rounded back and curved lines in another great stacking chair.

Tablet arms and bookracks are available factory or field installed.

Plastic glides are standard. Soft glides, optional, are recommended for use on non-carpeted floors.

Flexible, contoured back and seat are available in plastic or with upholstered cushions.

Two-piece wire-rod frame is 7/16"-diameter carbon steel for strength and durability.

Product Details

Four models are available—chairs without arms, chairs with bookracks, chairs with tablet arms, and chairs with a combination of bookrack and tablet arm.

Tablet arms provide a writing surface that is 12½"D x 11⅜"W. They are available in left- or right-hand models.

Clearance between tablet arm and seat is 7¼"H. Tablet arm tilts for easy entrance and exit from chair.

Bookrack is available factory or field installed for convenient storage of notebooks and purses.

Stacking bumpers are provided on upholstered models to protect the fabric when chairs are stacked.

Transport and storage dolly is available to stack, move, and store up to 35 non-upholstered or 25 upholstered chairs. Chairs with bookracks and tablet arms cannot be stacked.

Unloaded transport dolly measures 55"D x 22"W x 37½"H.

Fully loaded transport dolly measures 57"D x 22"W x 68½"H.

Without transport dolly stack can be up to 12 chairs high.

Alignment device is available to temporarily link chairs together in the field for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 2¼".

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Steelcase Fire Code Seating (FCS) is not available on Max-Stacker II seating.

Seating Mechanisms and Adjustability Features Defined

Seating Mechanisms

Swivel Mechanism
Chair swivels 360°. Seat and back stay in a fixed position (no recline).

Swivel-Tilt Mechanism
Chair swivels 360°. Back and seat recline in unison.

Synchro-Tilt Mechanism
Chair swivels 360°. Back and seat move together but at different angles. For every 2 degrees of back recline, the seat angle tilts 1 degree.

Adjustability Features

Adjustable Back Height
Allows the user to position the back up or down.

Adjustable Foot Ring
Allows the user to position the stool foot ring up or down.

Adjustable Seat Depth
Allows the user to change the distance between the front edge of the seat and the chair back.

Adjustable Seat Depth via the Back
Allows the user to change the distance between the front edge of the seat and the chair back via the maintenance back adjustment.

Lumbar Height Adjustment
Allows the user to raise or lower the lumbar support.

Pneumatic Height Adjustment
Allows the user to raise or lower the chair with one lever from a seated position.

Seat Angle Adjustment
Allows the user to position and lock the seat angle in a variety of positions.

Tilt Tension
Allows the user to vary the amount of recline resistance.

Upright Back Lock
Allows the user to lock the back in the upright position.

Variable Back Stop
Allows the user to stop the back recline at various points.

Variable Back Lock
Allows the user to locate and lock the back in a variety of positions.

Tip: Your chair may not include all the adjustments shown.

1 Crew

- 1 Tilt tension**
To decrease tension, turn counterclockwise. To increase tension, turn clockwise.
- 2 Pneumatic height adjustment**
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever out.
- 3 Adjustable seat depth**
Lift lever up and hold, shift seat forward or back, and release lever to lock. Available on models TS30802, TS30812, and TS30822 only.
- 4 Upright back lock**
To release, lean forward and flip lever up. To lock, lean forward and flip lever down.
- 5 Arm height**
Pull trigger up and hold, pull arm up or push down, and release trigger.
- 6 Arm width**
Push toggle down to release and adjust arms in or out. Push toggle up to lock.
- 7 Back height**
While seated, pull levers inward, raise or lower back into position, and release lever.
- 8 Height-, width-, and pivot-adjustable arm**
Press button under arm caps to adjust height. Grasp arm caps to slide width in and out, and to pivot.

2 Jacket

- 1 Tilt tension**
To decrease tension, turn counterclockwise. To increase tension, turn clockwise.
- 2 Pneumatic height adjustment**
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.
- 3 Adjustable seat depth via the back**
Loosen bolt, adjust back in or out to desired position, and retighten knob.
- 4 Height-adjustable arms**
To raise arm, lift arm to desired height. To lower arm, lift arm to its highest position and then lower to bottom.
- 5 Maintenance width-adjustable arms**
Loosen screws under arm bracket, adjust arm in or out, tighten screws.
- 6 Upright back lock**
To lock back in upright position, lean forward and push lever back. To release back lock, lean forward and push lever forward.

3 Jack

- Swivel**
Synchro Tilt
- 1 Variable back lock**
To adjust back angle, pull lever forward and lean back to desired angle. Push lever back to lock into position. To release for tilt, push lever forward and lean back.
 - 2 Arm height**
Push trigger up and hold, pull arm up or push down and release trigger to lock.
 - 3 Maintenance arm width**
Loosen screws under arm bracket, adjust arm in or out, tighten screws.
 - 4 Adjustable seat depth**
Lift lever up and hold, shift seat forward or back, and release lever to lock.
 - 5 Back height**
Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.
 - 6 Pneumatic seat height**
To raise chair, lift body weight up and pull lever. To lower chair, remain seated and pull lever up.
 - 7 Tilt tension**
To decrease, turn counterclockwise. To increase, turn clockwise.

4 à la carte

- Swivel**
- 1 Pneumatic height adjustment**
To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.
 - 2 Seat depth adjustment via the back**
Loosen bolt and adjust back in or out to desired position. Retighten bolt.
 - 3 Adjustable back height**
Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.
 - 4 Height-adjustable arms**
Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.
 - 5 Maintenance width-adjustable arms**
Loosen screws under arm bracket, adjust arm in or out, tighten screws.

Adjustability Overview, continued

5 à la carte**Swivel Tilt****1 Pneumatic height adjustment**

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

1 Upright back lock

While in the upright position, push the lever in and the chair will not tilt; pull it out and the chair can tilt.

2 Seat depth adjustment via the back

Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

4 Adjustable back height

Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

5 Height-adjustable arms

Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

6 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

6 à la carte**Synchro Tilt****1 Pneumatic height adjustment**

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

2 Seat depth adjustment via the back

Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

4 Upright back lock

To lock back in upright position, lean forward and push lever back. To release back lock, lean forward and push lever forward.

5 Adjustable back height

Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

6 Height-adjustable arms

Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

7 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

7 Executive 319**1 Tilt tension**

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

3 Upright back lock

To lock back in upright position, lean forward and push lever in. To release for tilt, lean forward and pull lever out.

Crew

Task Chairs and Stools with Foot Rings

Tip: Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Tip: Leather (L suffix) uses a sewn upholstery process on the seat which produces a stitched detail.

Tip: Vinyl specified with a V suffix uses a sewn upholstery process on the seat which produces a stitched detail. Vinyl specified without a suffix is a non-sewn, seamless upholstery process and is available at no additional cost.

Tip: Fire code seating is not available with upholstered outer back option. FCS is only available with standard plastic outer back.

Tip: Arms, if specified, will match base.

Standard Includes	Required to Specify

Turnstone Collection by Designtex

Designtex and Turnstone partnered to create an exclusive collection of affordable seating textiles that offer fresh and exciting designs.

This collection of textiles is stocked and available in standard lead-time. Fabrics are supported just like standard fabrics, which makes ordering easy. This program is supported by a swatch card that presents the entire offering. The swatch card is available to order through ad-stock # 08-0000726.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Maharam, and Pollack, please refer to the *Surface Materials Reference Manual* or visit Steelcase.com/selectsurfaces.

Custom Surfaces

Customers' Own Material (COM) Program

The Customers' Own Material (COM) program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website on www.steelcase.com. COMs are not covered under the Steelcase warranty.

Soil Retardants

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles and Turnstone Collection by Designtex fabrics are available pre-treated with soil retardant:

- Boyne
- Glen Arbor
- Jacks
- Link
- Saugatuck
- Spyder

For information on soil retardant fabrics on select surfaces, please refer to the *Surface Materials Reference Manual*.

Fire Code Seating Upholstery Matrix

Cal. 133 is the highest flame retardance rating available on Turnstone brand seating products. It means that an article is manufactured for use in public occupancies and meets the flammability requirements of California Bureau of Home Furnishings Technical Bulletin, etc.

All Turnstone upholstery fabrics pass Cal. 116 and 117 requirements.

Understanding Customer's Own Material (COM)

The Customer's Own Material (COM) program allows customers to select textiles that are not offered through the standard Surface Materials program for use on Turnstone products.

The COM process consists of seven steps: COM Web Site, Testing/Approval, Steelcase to Purchase Service, Pricing, Cutting Direction, Yardage Requirements, and the Purchase Orders.

COM Web Site

- COM Web site features application test results for all COM, Designtex Graded-In, Options Collection and Classics Collection fabrics. The Web site allows you to calculate yardage requirements for most Turnstone seating and systems products.
- Access the COM Web site at: www.steelcase.com.
- Or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Application Testing/Approval

- Confirm that the selected COM has been tested and approved for application on a specific product by checking the COM Web site at: www.steelcase.com.

COM Application Testing or "approved for application" means the COM fabric has been reviewed for manufacturability using the standard manufacturing techniques to achieve acceptable appearance per Steelcase quality standards.

COM fabric performance, including durability, pilling, color fastness, stretch, splitting, fraying, etc. is not tested by Steelcase. Therefore, COMs are not covered by the Steelcase Warranty. Each COM vendor is responsible for all warranty claims related to fabric performance.

Steelcase reserves the right to reject or reverse any COM approval that does not meet the manufacturing requirements in actual production. COM approval may be rejected or reversed because not all application testing is based on actual production conditions and because some materials vary in fabrication.

- If the COM is approved, you may continue the order process.
- If the COM has failed, you must reselect a fabric.
- If the COM is not listed, that means Steelcase has not tested that fabric on our products.

Helpful hint: Seating vinyl and leather do not require testing. Customer's own vinyl is available on all seating products that accept Steelcase standard vinyl.

- If your material has not been tested, then send yardage (4.5 yards for seating, 2 yards for vertical surfaces) and submit a completed COM Application Testing Request form to:
Steelcase Inc.
Attn: COM Testing
Door 305
4060 Eastern Avenue
Grand Rapids, MI 49508
- To ensure rapid processing, please use the electronic COM Application Testing Request form found on the COM Web site under the "How To Test" tab **or** fax a copy of the COM Testing Request form from the *Surface Materials Reference Manual* to 616.698.4700. **All information on the form is required in order to complete testing. COM tests cannot be performed if information is incomplete. Contact your requested fabric vendor for any missing information.**
- Test results will be returned (by fax or e-mail) in four working days from receipt of fabric and completed form.

COM materials that are approved for application to panel systems might require UL approval after application test approval. UL approval does involve fees and extended lead times.

All vertical surface COMs tested and approved with a content of 100% polyester meet a minimum of class C/UL1286. If class A or B fire rating is indicated, a burn test must be performed. All vertical surface COMs with a blended fabric construction require a UL burn test. For further UL information, contact a COM Consultant at 616.475.2426.

Steelcase to Purchase Service

The COM program also includes a service to purchase approved COM for our customers for use on Turnstone products. Steelcase will facilitate the ordering, scheduling and shipment of COM directly from the suppliers. There are no additional charges for this service.

Steelcase is the only party that may purchase COM for all Turnstone products.

In some instances, not all colors in a fabric family are approved. You will be informed of these instances before Steelcase purchases the fabric.

If for some reason the fabric must be ordered directly from the supplier, contact your Steelcase Solutions Fulfillment Team Representative for approval and instructions prior to purchase. The only time the customer can purchase fabric is for testing.

COM Pricing

- Confirm COM is tested and approved.
- Use the COM or COL (Customer's Own Leather) price group found under Surface Materials Options within each product spec guide.
- Calculate yardage required by using the COM Calculator found on the COM Web site at www.steelcase.com.
- Or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.
Helpful tip: Fabric width, repeat and product quantity and style number are required in order to calculate yardage accurately.
- Add the cost of the fabric to the COM or COL price group.
- The cost of the COM will be shown as a separate line on the acknowledgement.

COM vendors require fabric purchases in half or full yard increments. Therefore, Steelcase will round all final yardage calculations to the half yard.

COL (Customer's Own Leather) is calculated by the square foot, but purchased in hide. The customer is responsible for purchasing the minimum hide requirement.

Base price of chair includes standard fabrics. Steelcase will not allow credit or deduct the cost of the standard fabric when a COM fabric is selected in its place.

Steelcase cannot be held responsible for costs incurred when a COM supplier ships a COM fabric that does not meet Steelcase application standards or for costs incurred for late deliveries when a COM supplier commits to shipping a COM fabric for manufacturing by a specific date and misses that date.

COM Warranty

Steelcase standard warranty does not apply to Designtex or any other COM vendor's fabric.

- Designtex and other COM suppliers are responsible for color consistency within commercial tolerances, abrasion resistance, UV stability, and resistance to soiling and perspiration. These fabrics or vinyls are subject to policies regarding appearance, behavior, and durability that have been established by the fabric supplier. The customer's remedy for a fabric defect is limited to the replacement of the fabric by the supplier. Durability, performance, and fabric defects of COM fabrics are not guaranteed by Steelcase.

Cutting Direction

SEATING:

Warp horizontal

Warp vertical

- Dealers must specify fabric application direction on all COM orders.**
- COMs for seating are most often applied in the warp vertical (downroll, woven way) direction. Some exceptions include patterns with stripes, fabrics that are sampled in the warp horizontal (railroad, across roll) direction, and solid vinyls.
- ▶ See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

VERTICAL SURFACES:

Warp vertical

Warp horizontal

- Dealers must specify fabric application direction on all COM orders.**

- The cutting direction of COMs on vertical surfaces varies by product and sometimes by style number. Please check the COM Web site for the approved cutting direction for your particular COM.

▶ See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

Steelcase cannot guarantee pattern repeat match from product to product. Steelcase also cannot guarantee pattern repeat match within each product listed. (i.e., seat and back, arms to back, etc.)

COM Yardage Requirements

- For the most accurate yardage requirements, visit the Calculator found on the COM Web site or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.
- The Calculator on the COM Web site provides the same yardage requirements used by Steelcase purchasing.

Yardage requirements will change depending on:

- width of fabric
- fabric repeat
- cutting direction
- product style number
- quantity of products being manufactured

- COM vinyl requires upholstery in the railroad cutting direction. Please visit our Web site or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com for yardage requirements.
- Certain fabric treatments and backings require additional yardage or yardage minimums. Please contact the supplier for specific information.
- COM fabric vendors require fabric purchases in half- or full-yard increments, and the Steelcase COM calculator will automatically round all final yardage calculations to the half yard.
- Steelcase is the only party who may purchase COMs.

Maintenance and Cleaning

Inspecting and cleaning. Have your chair's upholstery, finishes, controls, base, and other moving parts inspected and cleaned at least once a year.

Cleaning painted and plastic surfaces. Finishes should be cleaned with water and/or a non-abrasive cleaner (such as Formula 409® and Fantastik®).

Maintaining upholstery. Use a vacuum cleaner for regular cleaning. Periodic professional dry cleaning is recommended. Do not steam clean.

Removing excess stains or heavy soil. Soak up excess stain with a cloth. Do not dry the stain completely or it may set. For most water-soluble stains (coffee, fruit juice, washable ink), use an upholstery cleaning solution (such as Bissell® upholstery shampoo or Guardsman Fabri-Kleen® products) and follow directions on package. For oil-borne stains, use a dry cleaning solution at room temperature (never hot) and let solution work into the stain. Use quick, light strokes to brush the stain with a soft bristle brush. Work from outside toward the center to prevent rings. Soak up remaining dry cleaning solution, then sponge the fabric with cool water. Let fabric dry completely; then vacuum thoroughly. If stain is still visible, repeat procedure. Several light applications of cleaning solution are more effective and less damaging than one heavy application.

Formula 409 is a registered trademark of Clorox company. Fantastik is a registered trademark of Dow Consumer Products, Inc. Fabri-Kleen is a registered trademark of Guardsman Chemical. All other marks are marks of their respective owners.
